This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. THE METROPOLITAN

Telephone and Telegraph Co.,

NEW-YORK,

Has located Public Pay Stations throughout the city—generally indicated by signs showing a **BLUE BELL**—from which connection may be secured with Telephone subscribers in New-York, Brooklyn and other local and long distance points.

Satisfactory conversation can now be held with Chicago, Boston, Washington, and nearly all cities and towns.

THE LINOTYPE.

THE LINOTYPE is a machine intended to do away entirely with the use of ordinary printing type, and with composition and distribution. Being operated by finger keys, like a typewriter, it casts type-bars or linotypes, each bearing, properly justified, the characters to print an entire line. These linotypes are assembled by the machine on a galley ready for immediate use on the press or stereotyping table. The speed of the machine is from 3,600 to 6,000 ems per hour, depending wholly upon the skill of the operator in fingering the keys. It is now in use in many newspaper offices in America and Europe.

It reduces the cost of composition 60 per cent and upward, while permitting the operators to work reasonable hours and receive good wages. The following are some of the offices in which the machines are used:

New-York Tribune,
Toledo Commercial,
Cincinnati Commercial Gazette,
Memphis Appeal-Avalanche,

THE NEW STANDARD OF TIME.

The times given in this almanac are all in mean or local clock time, except the noon's phases. When standard time clocks are faster than local time, the difference added to any of the times for rising and setting of the sun and moon, or planets, converts such times into the standard time shown by such clocks, and if slower, must be subtracted.

The Eastern standard meridian for the eastern part of the U. S. passes very nearly through Ogdensburg, N. Y.; the Central standard meridian through New-Orleans, and a little west of Chicago; the Mountain meridian through the Rocky Mountains, very near Pike's Peak, Col.; the Pacific standard meridian is near the Pacific Coast, San Francisco being about nine and a half minutes of time west of it.

For the several standard meridians themselves the dates of the almanac will be correct.

For any place east of any of these standard meridians, and within 7½° of it, the times of the rising or setting of any heavenly body, expressed in standard time, may be derived from those given in the almanac by subtracting from the almanac dates one minute of time for every quarter of a degree of longitude that the place is distant from that standard meridian, or four minutes of time for each degree.

For a place west of any standard meridian, and within 7½° of it, add to the almanac dates one minute of time for each quarter of a degree, or four minutes of time for each degree of distance from that standard.

PERPETUAL CALENDAR.

SHOWING THE DAY OF THE WEEK OF ANY DATE, OLD STYLE OR NEW, BEFORE OR AFTER CHRIST.

EXPLANATION.—Under or over each month will be found the names or abbreviations for the days of the week, arranged in seven different orders or sequences, reading from left to right.

These are marked as sequence A, sequence B, and so on. At the right or left of each sequence is given the centurial year of the century for which that sequence may be used—old style dates, or reckonings under the Julian Calendar, marked at the left; new style dates, according to the Gregorian Calendar, at the right; thus 16 at left of se-

quence D shows that this sequence is to be used for all old style dates from 1600 to 1699, as the date of landing of Pilgrims, Dec. 11, O. S., 1620. At the right of sequence F, 16 shows that this is the sequence for all new style dates in the same period, as the landing of Pilgrims, Dec. 21, 1620. The 18 at right of sequence D indicates this as the one to use for the present century, 1800 to 1899.

Above or beneath those sequences are given, for each month, the odd years of the century, from 00 to 99, reading from left to right and so arranged that all the years of a century in which the first of the month falls on a certain day of the week are in the same column. Thus, take the table for January and the sequence for the present century, D, all the years in the first column, 4, 9, 15, 26, etc., are over Sunday in the sequence named; so the 1st of January in all these years is Sunday. In the second column are all the years in which the 1st falls on Monday, and so on. If we bear in mind that the 8th, 15th, 22d and 29th of any month will come on the same day of the week as the 1st, this arrangement gives at once the day of the week of five dates in any month, and from these the day of any other date in that month can easily be found.

Now with a given date, to find the day of the week, as Aug. 23, 1841. In the table for August find the given year 41; take the sequence in line with the centurial year 18, D, and in this sequence above 41 we find Sunday. The August 1 in that year was Sunday, and the 8th, 15th and 22d must have fallen on Sunday also; and if the 22d was Sunday the 23d was Monday. What day of the week was Dec. 11, O. S., 1620? Use sequence D for 1600s O. S. and in this above 20 in December find Friday. Then the 1st and the 8th came on Friday, and the 11th must have been Monday.

Take the same date as given, new style, Dec. 21, 1620. Use sequence F for the 1600s N. S. and above 20 find Tuesday, which was the 1st and the 22d, and the 21st was Monday. Then the Pilgrims landed on Monday.

If the last Thursday in November, 1885, be Thanksgiving Day, what will be the date? We find that in 1885 the 1st and therefore the 29th of November comes on Sunday; then the preceding Thursday, or Nov. 26th, is the last Thursday, or Thanksgiving Day.

This arrangement involves no comparison or distinction further than this: For the months of January and February of centesimal leap years only, as 1600, 2000, etc., by the Gregorian Calendar, the heavy-faced 00s in the first column are to be used, but for centesimal years not leap years the 00s in the second column are required. By the Julian Calendar every centesimal year was leap year; by the Gregorian Calendar only every fourth centesimal year is a leap year. 1700 O. S. then should be regarded as a leap year, while 1700 N. S. is not.

As to the intervals between the times when a given day of the month falls on a certain week-day, as Jan. 1st on Saturday, this occurred in 1803-14-20-25-31, and so on at intervals of 11, 6, 5 and 6 years, which intervals are repeated and would continue without interruption but for the omission of leap year in 1900, which will cause an irregularity of 12 years, either in one period, or in two intervals of 6 years each, or in one of 7 and another of 5 years, after which the regular intervals will be successively repeated again. But notice the difference in the grouping of the years under January and February, and that of the other ten months. Take the years in the column in which we find 8 under any other month, and the calendar for those months repeats as follows: 8, 8, 14, 25, 31, showing that the order for an entire year recurs less frequently, as in 3, 14, 25, 31. The order for any leap year is repeated at intervals of 28 years; thus the calendar for 1856 corresponds with that for 1884, and this order would obtain again in 1912 but for the omission of leap year in 1900, by which the interval is extended 12 years and the 29th of February will not fall on Friday again until 1924. The order for any year next succeeding a leap year will be repeated in 6 years, while the orders for the second and third years following a leap year will be repeated in 11 years. Then the calendar for '81 will be repeated in '87; the order that obtained in '82 will occur again in '98, and that for '88 corresponds with '94.

What has been shown as to leap year dates, as Feb. 29th, recurring on the same day of the week, is of course true of Inauguration Day, March 4th, of every fourth year. This came on Sunday in 1821, 1849 and 1877, and if 1900 were a leap year it would occur again in 1905, but owing to that omission it will not recur until 1917. The irregular interval caused by the omission of leap year is sometimes 40 and sometimes 12 days. Under the Julian Calendar established 46 B. C. by Julius Cæsar, the calendar for an entire century was repeated every 700 years, and therefore the sequence of days given here for 1700 O. S., G., answers also for the time 700 years earlier, i. e., the century 1000 to 1099; also for the years 300 to 399. In this way the sequences given may cover the time back to the beginning of the Christian Era. Under the Gregorian Calendar the orders are repeated every 400 years and only four of the sequences are required, viz., C, D, E and F; F serving alike for 1600 and 2000, E for 1700 and 2100, etc.

Pope Gregory XIII in 1582 undertook to reform the Julian Calendar. To correct the errors that had accumulated and to guard against future inaccuracies, he suppressed ten days and provided for the omission of leap year every centesimal year, excepting every fourth centesimal year. Under the Gregorian Calendar 1700, 1800 and 1900 are not counted as leap years, but 1600 and 2000 are. This calendar was adopted by Germany in 1700 and by England not until 1752, by which time, as 1700 had passed as leap year, the difference amounted to 11 days, and Parliament rectified the error by suppressing 11 days in September of that year. The Julian Calendar still prevails in Russia, and as 1800 has passed with them as leap year, the difference between their reckoning and ours is 12 days, so that August 7 in Russia is the same as August 19 with us.

ANALYSIS OF THE MORE IMPORTANT ACTS, WITH THE VOTES ON THEIR PASSAGE, WHERE CONTESTED.

FIRST SESSION, LIID CONGRESS.

ARMY, NAVY AND MARINE CORPS.

CERTIFICATES OF MERIT TO ENLISTED MEN.

The act of March 29, 1892, amends section 1,216, Revised Statutes, so as to read, That when any enlisted man of the Army shall have distinguished himself in the service, the President may, at the recommendation of the commanding officer of his regiment or the chief of his corps, grant him a certificate of merit.

MEDICAL OFFICERS.

The act of July 27, 1892, provides that the grade of certain medical officers of the Army below that of Surgeon-General shall be as follows: Those holding the rank of colonel, assistant surgeon-generals; those holding the rank of lieutenant-colonel, deputy surgeon-generals. Before receiving the rank of captain of cavalry, assistant surgeons shall be examined, under the act approved October 1, 1890, entitled "An Act to provide for the examination of certain officers of the Army and to regulate promotions therein."

VETERAN RELIEF ACT.

The act of July 27, 1892, provides that section 9 of the act for the relief of certain volunteer and regular soldiers of the late war and the war with Mexico, passed March 2, 1889, be so amended as to extend the time for the limitation of the operation of said section for the period of two years from July 1, 1892.

PROMOTION OF ENLISTED MEN.

The act of July 30, 1892, authorizes the President to prescribe a system of examination of enlisted men of the Army by boards established by him, to determine their fitness for promotion to the grade of second lieutenant. All unmarried soldiers under thirty, who are citizens of the U. S., are physically sound, have served honorably not less than two years in the Army, and have borne a good moral character before and after enlistment, may compete for promotion. The boards may examine witnesses, and take depositions, for which purposes they have such powers of a court of inquiry as may be necessary. The vacancies in the grade of second

lieutenant heretofore filled by the promotion of meritorious non-commissioned officers under the act approved June 18, 1878, are to be filled by the appointment of competitors favorably recommended under this act, in the order of merit established by the final examination. Each man who passes the final examination shall receive a certificate of eligibility, setting forth the subjects in which he is proficient and the especial grounds upon which the recommendation is based, though not more than two examinations shall be accorded to the same competitor. All rights and privileges arising from a certificate of eligibility may be vacated by sentence of a court-martial, but no soldier, while holding the privileges of a certificate, shall be brought before a garrison or regimental court-martial or summary court. Sections 3 and 4 of the act approved June 18, 1878, providing for the promotion of meritorious non-commissioned officers, are repealed.

MARINE CORPS.

The act of July 28, 1892, enacts that hereafter promotions to every grade of commissioned officers in the Marine Corps below the grade of commandant shall be made in the same manner and under the same conditions as are or may be prescribed for commissioned officers of the Army. Examining boards which may be organized under this act to determine the fitness of officers of the Marine Corps for promotion shall in all cases consist of not less than five officers, three of whom shall, if practicable, be officers of the Marine Corps, senior to the officer to be examined, and two medical officers of the Navy. When it is not practicable to detail officers of the Marine Corps as members of such examining boards, officers of the line in the Navy shall be detailed.

NAVY, INCREASE OF.

The act of July 19, 1892, authorizes the President to have constructed, by contract, one armored cruiser of about 8,000 tons displacement of the general type of armored cruiser, numbered 21 (New-York), to cost, exclusive of armament, not more than $2,500,000, excluding any premium that may be paid for increased speed and the cost of armament. The contract for construction shall contain provisions to the effect that the contractor guarantees that when completed and tested on speed, under conditions to be prescribed by the Navy Department, the ship shall exhibit a speed of at least 20 knots an hour; and for every quarter knot of speed so exhibited above said guaranteed speed the contractor shall receive a premium above the contract price of $50,000; and for every quarter knot the vessel fails of reaching said guaranteed speed there shall be deducted from the contract price $50,000; in the construction all the provisions of the act of August 3, 1886, entitled "An act to increase the Naval Establishment," as to material for said vessel, its engines, boilers and machinery, the contract under which it is built, the notice of and proposals for the same, the plans, drawings, specifications and the method of executing said contract, shall be observed and followed, and said vessel shall be built in compliance with the terms of the act, save that in all its parts the vessel shall be of domestic manufacture. If the Secretary of the Navy shall be unable to contract at reasonable prices for the building, then he may build the vessel in such navy yard as he may designate.

Also one seagoing coast-line battle ship, designed to carry the heaviest armor and most powerful ordnance, with a displacement of about 9,000 tons, to have the highest practicable speed for vessels of its class, and to cost, exclusive of armament and of any premium that may be paid for increased speed, not exceeding $4,000,000. In the construction of said battle ship the provisions of the act of August 3, entitled "An act to increase the Naval Establishment," shall be observed and followed in the same manner that the provisions of said act are applied to the construction of the armored cruiser herein authorized; and in the contracts for the construction of said battle ship, such provisions for minimum speed and for premiums for increased speed and penalties for deficient speed may be made, subject to the terms of this act, as in the discretion of the Secretary of the Navy may be deemed advisable.

Toward the armament and armor of domestic manufacture for the vessels authorized by the act of August 3, 1886; of the vessels authorized by Section 3 of the act approved March 3, 1887; of the vessels authorized by the act approved September 7, 1888; of the vessels authorized by the act of March 2, 1889; of those authorized by the acts of June 30, 1890, March 2, 1891, and this act, including the purchase and installation of new machinery for the breech mechanism shop at the navy yard Washington, D. C., and torpedo outfits for the Atlanta, Boston and Chicago, $2,000,000 are appropriated.

(The provision above for one armored cruiser and one coast-line battle ship was finally agreed to July 14, 1892. Yeas 148, nays 88. The affirmative vote was: Rep., 56; Dem., 90. The negative vote was: Dem., 76; Ind., 7. The House bill as passed provided for the first-named vessel. The second was inserted by the Senate with several others, but the House finally agreed to it, and the Senate receded from the others.)

ARMY AND NAVY RECORDS.

The act of July 27, 1892, directs that the military records of the American Revolution and of the War of 1812, now preserved in the Treasury and Interior Departments, be transferred to the War Department, to be preserved in the Record and Pension Division of that Department, and that they shall be properly indexed and arranged for use.

BANKS.

The act of July 28, 1892, provides that the provisions of the Revised Statutes of the U. S. for the redemption of National bank notes shall apply to all National bank

notes that have been or may be issued to, or received by, any National bank, notwithstanding such notes may have been lost or stolen from the bank and put in circulation without the signature or upon the forged signature of the president or vice-president and cashier.

By act of August 3, 1892, section 3 of an act entitled "An act authorizing the appointment of receivers of National banks, and for other purposes, approved June 30, 1876," is amended so as to read, that whenever any association shall have been placed in the hands of a receiver, as provided in section 5,234, and other sections of the Revised Statutes of the U. S., and when, as provided in section 5,236, the Controller of the Currency shall have paid to every creditor, not including shareholders, whose claim shall have been proved or allowed as prescribed, the full amount of such claims, and when all expenses of the receivership and the redemption of the circulating notes shall have been provided for depositing lawful money of the U. S. with the Treasurer of the U. S., the Controller of the Currency shall call a meeting of the shareholders by giving notice for thirty days in a newspaper published in the town, city, or county where the business was carried on, or if no newspaper is there published in the newspaper published nearest thereto. At such meeting the shareholders shall determine whether the receiver shall be continued, or an agent elected, and in so determining they shall vote by ballot in person or by proxy, each share of stock entitling the holder to one vote; and the majority of the stock in value and number of shares shall decide. The receiver, if continued, shall proceed with the execution of his trust and shall possess all the powers and be subject to all the duties originally imposed upon him. In case the meeting shall determine that an agent shall be elected, the meeting shall proceed to elect an agent, and the person who shall receive votes representing at least a majority of stock in value and number shall be declared the agent. Whenever any of the shareholders shall, after the election of such agent, have executed and filed a bond to the satisfaction of the Controller of the Currency, for the discharge in full of every claim thereafter allowed by a competent court, and for the faithful performance of all duties of such trust, the Controller and the receiver shall transfer and deliver to such agent the undivided or uncollected or other assets then remaining in the hands or subject to the control of the Controller and receiver, or either of them; and for this purpose the Controller and receiver are empowered to execute any instrument in writing that may be necessary, and upon its execution and delivery to the agent the Controller and the receiver shall be discharged from all liabilities. Upon receiving such instrument, the agent shall hold, control, and dispose of the assets and property which he may receive, for the benefit of the shareholders, and he may sue and be sued, and do all other lawful things necessary finally to settle and distribute the property in his hands, and may sell, compromise, or compound the debts due, with the approval of the circuit or district court of the U. S. for the district, and shall at the conclusion of his trust render to such court a full account of all his proceedings, which court shall settle and adjust such accounts and discharge the agent and the sureties. At the meeting, administrators or executors of deceased shareholders may act and sign as the decedent might have done if living, and guardians of minors and trustees of other persons may so act and sign for their wards or cestui que trust. The proceeds of the assets or property undistributed at the time of such meeting or subsequently received shall be distributed as follows:

1. To pay the expenses of the execution of the trust to the date of such payment. 2. To repay any amount or amounts which have been paid in by any shareholder or shareholders upon any assessments on the stock by the order of the Controller of the Currency in accordance with the provisions of the statutes of the U. S.; and 3. The balance ratably among such stockholders in proportion to the number of shares held and owned by each. Such distribution shall be made, from time to time, as the proceeds shall be received and as shall be deemed advisable by the Controller or agent.

CANADA, TO ENFORCE RECIPROCAL RELATIONS WITH.

The act of July 26, 1892, enacts that, with a view of securing reciprocal advantages for the citizens, ports, and vessels of the U. S. on and after August 1, 1892, whenever the President shall be satisfied that the passage through any canal or lock connected with the navigation of the St. Lawrence River, the Great Lakes, or the waterways connecting the same, of any U. S. vessels, or of cargoes or passengers in transit to any U. S. port, is prohibited, or made difficult by the imposition of tolls or otherwise, which, in view of the free passage through the Saint Mary's Falls Canal, now permitted to vessels of all nations, he shall deem to be reciprocally unjust and unreasonable, he shall suspend, by proclamation for such time and to such extent (including absolute prohibition) as he shall deem just, the right of free passage through the Saint Mary's Falls Canal to vessels owned by the subjects of the Government so discriminating, or to any cargoes, portions of cargoes, or passengers in transit to the ports of the Government making such discrimination, whether carried in vessels of the U. S. or of other nations.

During such suspension tolls shall be levied as follows: Upon freight of whatever description, not to exceed $2 a ton; on passengers, not to exceed $5 each, as shall be determined by the President; provided, that no tolls shall be charged on freight or passengers carried to and landed at Ogdensburg, or any port west of Ogdensburg, and south of a line drawn from the northern boundary of the State of New-York through the Saint Lawrence River, the Great Lakes, and their connecting channels to the northern boundary of Minnesota. All tolls are to be collected under regulations prescribed by the Secretary of the Treasury, who may require the master of each vessel to furnish a sworn statement of the amount and kind of cargo, and the number of passengers carried, and the destination of the

same, and such proof of the actual delivery of such cargo or passengers within the limits above named, as he shall deem satisfactory; and until such proof is furnished such freight and passengers may be considered to have been landed outside of those limits, and the amount of tolls which would have accrued if they had been so delivered, shall constitute a lien, which may be enforced against the vessel in default wherever and whenever found in the waters of the U. S.

CENSUS LEGISLATION.

The act of July 6, 1892, requires the Superintendent of the Census to obtain from every incorporated and unincorporated company, or person engaged in any productive industry, the information specified in the schedules approved by the Secretary of the Interior. Every person from whom answers to inquiries are required, who shall neglect or refuse to give true and complete answers, or shall wilfully give false information, shall be deemed guilty of a misdemeanor, and on conviction be fined not exceeding $10,000, to which may be added imprisonment for not exceeding one year.

CHINESE EXCLUSION ACT.

The act of May 5, 1892, contains all laws now in force prohibiting and regulating the coming into this country of Chinese persons and persons of Chinese descent for ten years from its passage. Any Chinese adjudged to be not lawfully entitled to remain in the U. S., shall be removed to China, unless he shall make it appear that he is a subject or citizen of some other country, in which case he shall be removed to such other country. In any case where such other country shall demand any tax as a condition of his removal to that country, he or she shall be removed to China. Any Chinese arrested under the provisions of this act shall be adjudged to be unlawfully within the U. S., unless he shall establish, by affirmative proof, his lawful right to remain in the U. S., and if so adjudged, shall be imprisoned at hard labor for not exceeding one year and then removed from the U. S. After the passage of this act on an application to any judge or court of the U. S. in the first instance for a writ of habeas corpus by a Chinese seeking to land in the U. S., to whom that privilege has been denied, no bail shall be allowed, and such application shall be heard and determined promptly without unnecessary delay. It shall be the duty of all Chinese laborers within the U. S. at the time of the passage of this act, and who are entitled to remain here, to apply to the collector of internal revenue of their respective districts, within one year, for a certificate of residence; and any Chinese laborer who shall neglect, fail, or refuse to comply with the provisions of this act, or who, after one year, shall be found within the jurisdiction of the U. S. without such certificate of residence, shall be adjudged to be here unlawfully and may be arrested by any U. S. customs official, collector of internal revenue or his deputies, U. S. marshal or his deputies, and taken before a U. S. judge, whose duty it shall be to order that he be deported from the U. S., unless he shall establish clearly that by accident, sickness or other unavoidable cause, he has been unable to procure his certificate, and by at least one credible white witness, that he was a resident of the U. S. at the time of the passage of this act; and if upon the hearing it shall appear that he is so entitled to a certificate, it shall be granted upon his paying the cost. Should it appear that said Chinaman had procured a certificate which has been lost or destroyed, he shall be detained and judgment suspended a reasonable time to enable him to procure a duplicate. Any Chinaman other than a laborer, having a right to remain in the U. S., desiring such certificate as evidence of such right may apply for and receive the same without charge. Immediately after the passage of this act the Secretary of the Treasury shall make rules and regulations for its efficient execution, and shall prescribe forms and furnish blanks to enable collectors of internal revenue to issue the certificates required, and make provisions that certificates may be procured in localities convenient to the applicants; such certificates shall be issued without charge, and shall contain the name, age, local residence and occupation of the applicant, and such other description as shall be prescribed by the Secretary, and a duplicate shall be filed in the office of the collector of internal revenue for the district. Any person who shall knowingly and falsely alter or substitute any name for the name written in such certificate or forge such certificate, or knowingly utter any forged or fraudulent certificate, or falsely personate any person named in such certificate, shall be guilty of a misdemeanor, and upon conviction shall be fined not exceeding $1,000, or imprisoned in the penitentiary for not more than five years. The Secretary of the Treasury may authorize the payment of such compensation in the nature of fees to the collectors of internal revenue, for services performed under the provisions of this act in addition to salaries now allowed by law, as he shall deem necessary, not exceeding the sum of $1 for each certificate issued.

The original bill passed by the House, yeas 179, nays 43, was more severe; and the Senate passed a milder one, yeas 43, nays, 14. A Committee of Conference reported the act as above, which report was concurred in by each House. The vote in the Senate was: Yeas 30 (Reps. 19, Dems. 10, Ind. 1), nays 15 (Reps. 7, Dems. 7, Ind. 1). The vote in the House was, yeas 186 (Reps. 27, Dems. 151, Inds. 8); nays 27 (Reps. 8, Dems. 19).

INDIANS.

The act of July 23, 1892, amends Sec. 2,139, Revised Statutes, so as to prohibit the introduction into the Indian Country, except under written authority from the War Department or an authorized officer, of ardent spirits, ale, beer, wine or intoxicating liquor or liquors of whatever kind, under any pretence. Violations are punishable by imprisonment for not more than two years, and by fine of not more than $300 for each offence. All complaints for arrest shall be made in the county where the offence is

committed, or if committed upon any reservation not included in any county, then in any county adjoining, and if in the Indian Territory, before the U. S. Court Commissioner, or Commissioner of the Circuit Court of the U. S. residing nearest the place where the offence was committed who is not for any reason disqualified; but in all cases such arrests shall be made before any U. S. Court Commissioner residing in such adjoining county, or before any magistrate or judicial officer authorized by section 1,014, Revised Statutes. Persons arrested, unless discharged upon examination, are held for trial before the court of the U. S. having jurisdiction of the offence.

JUDICIAL LEGISLATION.

The act of March 9, 1892, provides that in addition to the mode of taking the depositions of witnesses in causes pending at law or equity in the U. S. district and circuit courts, it shall be lawful to take the depositions or testimony of witnesses in the mode prescribed by the laws of the State in which the courts are held.

By act of July 20, 1892, any citizen of the U. S. may begin and prosecute to conclusion any suit or action in any U. S. court without being required to prepay fees or costs, or give security therefor, upon filing a statement under oath, in writing, that, because of his poverty, he is unable to pay the costs of the suit or to give security, and that he believes he is entitled to the redress he seeks, and setting forth briefly the nature of his alleged cause of action. After any such suit shall have been brought, or is now pending, the plaintiff may answer and avoid a demand for fees or security for costs by filing a like affidavit, and wilful false swearing in any affidavit provided for in this or the previous section shall be punishable as perjury. The officers of court shall issue, serve all processes, and perform all duties in such cases, and witnesses shall attend as in other cases, and the plaintiff shall have the same remedies as are provided by law in other cases. The court may request any attorney of the court to represent such poor person, if it deems the cause worthy of a trial, and may dismiss any such cause if it be made to appear that the allegation of poverty is untrue, or that the alleged cause of action is frivolous or malicious. Judgment may be rendered for costs at the conclusion of the suit as in other cases, provided that the U. S. shall not be liable for any of the costs thus incurred.

LABOR LEGISLATION.

The act of August 1, 1892, restricts to eight hours the working-day of all laborers and mechanics employed by the Government of the U. S., by the District of Columbia, or by any contractor or subcontractor upon any of the public works of the U. S., or of the District, and makes it unlawful for any officer of the U. S. Government or District, or any contractor or subcontractor, to require or permit any laborer or mechanic to work more than eight hours in any calendar day, except in case of extraordinary emergency. Every officer, agent, contractor or subcontractor who shall intentionally violate this act, shall be deemed guilty of a misdemeanor and be fined not to exceed $1,000, or imprisoned for not more than six months, or both. The provisions of this act do not affect contracts entered into prior to its passage.

This bill passed the House, yeas, 166 (Reps. 42, Dems. 117, Inds. 7); nays, 31 (all Dems.). The Senate passed it without division.

The Sundry Civil Appropriation Act of August 5, 1892, provides "that no employe of the Pinkerton Detective Agency, or similar agency, shall be employed in any Government service, or by any officer of the District of Columbia." This clause is a modification of a clause inserted in the House to the effect that "it shall not be lawful for any officer of the Government authorized to make contracts, nor any officer in the District of Columbia, to contract with any person, firm, or corporation, who employ Pinkerton detectives or any other association of men as armed guards, and no employe of said Pinkerton agency, or similar agency, shall be employed in any Government service, or by any officer of the District of Columbia." The vote on inserting this was, yeas, 159 (Reps. 19, Dems. 133, Inds. 7); nays, 34 (Reps. 8, Dems. 26). In a Conference Committee the clause was amended to read as above. In that form it was adopted in the Senate without division, and in the House by a rising vote, yeas, 169; nays, 14.

LIFE-SAVING LEGISLATION.

The act of April 11, 1892, repeals the provisions of an act entitled "An act to amend sections 4,488 and 4,489 of the Revised Statutes, requiring life-saving appliances on steamers," approved March 2, 1889, so far as they relate to the carrying of line-carrying projectiles and the means of propelling them on steamers plying exclusively upon any of the lakes, bays, or sounds of the U. S. The act does not affect ocean-going steamers.

The act of July 22, 1892, fixes the compensation of the keepers of life-saving stations at the rate of $900 a year each, except that of keepers of stations known as houses of refuge, which shall be at the rate of $600 each, and the compensation of the members of the crews of the stations, during the time the stations are manned, shall be at the rate of $65 a month each.

MONETARY CONFERENCE, INTERNATIONAL.

The sundry civil appropriation act of August 5, 1892, authorizes the President of the U. S. to appoint five commissioners to an international conference, to be held at a place to be hereafter designated, with a view to secure, internationally, a fixity of relative value between gold and silver as money, by means of a common ratio between those metals, with free mintage at such ratio.

PENSION LEGISLATION.

The Pension Appropriation act, referring to the fees and expenses of examining surgeons, provides that each member of each examining board shall receive $2 for the examination of each applicant whenever five or a less number shall be examined on any one day, and $1 for the examination of each additional applicant. If twenty or more applicants appear on one day, no fewer than twenty shall, if practicable, be examined, and if fewer examinations shall be made, twenty or more having appeared, then there shall be paid for the first examinations made on the next examination day the fee of $1 only until twenty examinations shall have been made. No fee shall be paid to any member of an examining board unless personally present and assisting in the examination of applicant.

The act of July 14, 1892, establishes an intermediate rate of pensions, between $30 and $72 a month, providing that soldiers and sailors totally incapacitated for manual labor by injuries received or disease contracted in the service of the U. S. and in line of duty, and who are thereby disabled to such a degree as to require frequent and periodical, though not regular and constant, personal aid and attendance of another person, shall be entitled to a pension of $50 a month from the date of the certificate of the examining surgeon showing such degree of disability, and made subsequent to the passage of this act.

The act of July 26, 1892, provides that declarations of pension claimants shall be made before a court of record, or before some officer thereof having custody of its seal, or before some officer who, under the laws of his State, city or county, has authority to administer oaths. Where such declaration is executed before an officer authorized as above, but not required by the laws of his State to use a seal, he shall file in the Pension Bureau a certificate of his official character, certified by a clerk of a court of record or other proper officer of the State, after which his own certificate will be recognized during his term of office. The Commissioner of Pensions may accept declarations of claimants residing in foreign countries made before a U. S. minister or consular officer, or before some officer of the country authorized to administer oaths, and whose official character and signature shall be authenticated by the certificate of a U. S. minister or consular officer; and declarations in claims of Indians may be made before a U. S. Indian agent. All declarations or affidavits now on file in the Pension Bureau which are considered informal by reason of not having been executed in conformity to the laws heretofore in force, and which it is shown were executed by an officer duly authorized to administer oaths at said date of execution, shall be accepted as formal as from date of filing.

The act of July 27, 1892, pensions at the rate of $8 a month survivors of the Indian wars of 1832 to 1842 inclusive, known as the Black Hawk War, Creek War, Cherokee disturbances and the Seminole War, and surviving widows who have not remarried. The loss of the certificate of discharge shall not deprive any person of the benefits of this act, but other evidence of service performed and of an honorable discharge may be deemed sufficient. The act does not apply to any person who is receiving a pension at the rate of $8 a month or more, nor to any person receiving a pension of less than $8 a month, except for the difference between the pension now received, if less than $8, and that sum. Sec. 4,716, withholding payments to those who abetted the Rebellion, is repealed as to this class.

The act of August 1, 1892, amends the act of March 3, 1887, by making the clause read as follows:

"That the law prohibiting the payment of any money on account of pensions to any person, or to the widow, children, or heirs of any deceased person who, in any manner engaged in or aided or abetted the late rebellion against the authority of the U. S. shall not be construed to apply to such persons as afterward voluntarily enlisted in either the Navy or Army of the U. S., and who, while in such service, incurred disability from a wound or injury received or disease contracted in the line of duty."

The act of August 5, 1892, grants a pension of $12 a month to all women employed by the Surgeon-General of the Army as nurses, under contract or otherwise, during the late war of the rebellion, or who were employed as nurses during such period by authority which is recognized by the War Department, and who rendered actual service as nurses in attendance upon the sick or wounded in any regimental, post, camp, or general hospital of the armies of the U. S. for six months or more, and who were honorably relieved from such service, and who are now or may hereafter be unable to earn a support.

POSTOFFICE LEGISLATION.

The appropriation act of July 13, 1892, contains this provision respecting the establishment of "free-delivery" offices: "For free-delivery service, including existing experimental free-delivery offices, $10,754,948, to be disbursed in such manner that no additional free-delivery offices shall be established in any Congressional district created by virtue of the Congressional Reapportionment act in which there may be established one or more free-delivery offices, until every Congressional district in which there may be a place possessing the necessary qualifications shall have been supplied with at least one free-delivery office." It also provides that it shall not be lawful after September 30, 1894, for the Postmaster-General to have requests for the return of letters printed upon any envelope sold by any postmaster or by the Postoffice Department; though the Department may continue after that date to furnish in any quantity stamped envelopes containing the following words: "If not delivered in ten days, return to"; and this provision shall not be construed to interfere in any wise with existing contracts for furnishing stamped envelopes or newspaper wrappers.

The Postmaster-General is authorized to provide for the transportation of official matter of any Department of the Government, over any railroad or express company, whenever he can do so at a saving to the Government and without detriment to the public service; nothing in this section applying to official matter franked by members of Congress.

The Postmaster-General is directed to examine into the subject of a more rapid dispatch of mail matter between large cities, and postoffice stations and transportation terminals located in large cities, by means of pneumatic tubes or other systems. Ten thousand dollars is appropriated.

The act of July 26, 1892, provides that after providing by general advertisement for the transportation of the mails in any State or Territory as authorized by law, the Postmaster-General may secure any mail service that may become necessary before the next general advertisement for said State or Territory by posting notices, for not less than ten days, in the postoffices at the termini of any route to be let, and upon a bulletin board in the Postoffice Department, inviting proposals for its performance. The contract shall be made to run to the end of the contract term under the general advertisement, and shall be made with the lowest eligible bidder whose proposal is in due form. Temporary service rendered necessary by the failure of any bidder or contractor to perform the service awarded him under this act may be employed by the Postmaster-General without advertisement, at the expense of any such failing bidder or contractor.

PUBLIC LANDS.

By act of June 25, 1892, section 3 of an act entitled "An act to forfeit certain lands heretofore granted for the purpose of aiding in the construction of railroads, and for other purposes," is amended so as to extend the time within which persons actually residing upon lands forfeited by said act shall be permitted to purchase the same to the quantities and upon the terms provided in said section at any time within three years from the passage of said act.

By act of July 26, 1892, section 2 of an act approved May 14, 1880, entitled "An act for the relief of settlers on public lands," is amended so as to read that in all cases where any person has contested, paid the land office fees, and procured the cancellation of any pre-emption, homestead, or timber-culture entry, he shall be notified by the Register of the Land Office of the district of such cancellation, and shall be allowed thirty days from date of such notice to enter said lands. The Register shall be entitled to a fee of $1 for the giving of such notice, to be paid by the contestant and not to be reported. Should any such person who has initiated a contest die before the final termination, the said contest shall not abate by reason thereof, but his heirs who are citizens of the U. S. may continue the prosecution under such rules and regulations as the Secretary of the Interior may prescribe, and shall be entitled to the same rights under this act that contestant would have been if his death had not occurred.

By act of August 4, 1892, any person authorized to enter lands under the mining laws of the U. S. may enter lands that are chiefly valuable for building stone under the provisions of the law in relation to placer mineral claims. Lands reserved for the benefit of the public schools or donated to any State are not subject to entry under this act. Nothing in this act shall be construed to repeal section 24 of the act entitled "An act to repeal timber-culture laws, and for other purposes," approved March 3, 1891.

SHIPBUILDING.

The act of May 10, 1892, authorizes and directs the Secretary of the Treasury to grant registers, as vessels of the U. S., to such foreign-built steamships now engaged in freight and passenger business, and sailing in an established line from a U. S. port, as are of not less than 8,000 tons, and capable of a speed of not less than 20 knots an hour, according to the existing method of Government test for speed, of which not less than 90 per centum of the shares of the capital of the foreign corporation or association owning the same was owned Jan. 1, 1890, and has continued to be owned, until the passage of this act, by citizens of the U. S., including such citizens corporations created under the laws of any of the States thereof, upon the American owners of such majority interest obtaining a full and complete transfer and title to such steamships from the foreign corporations owing the same; provided, that such American owners shall, subsequent to the date of this law, have built, or have contracted to build, in American shipyards, steamships of an aggregate tonnage of not less in amount than that of the steamships so admitted to registry. Each steamship so built or contracted for to be of not less than 7,000 tons.

Any steamships so registered under the provision of this act may be taken and used by the U. S. as cruisers or transports upon payment to the owners of the fair actual value of the same at the time of the taking, and if there shall be a disagreement as to the fair actual value at the time of taking, then the same shall be determined by two impartial appraisers, one to be appointed by each of said parties, who, in case of disagreement, shall select a third, the award of any two of the three so chosen to be final and conclusive.

The House passed the bill under a suspension of the rules, without recorded opposition. The Senate passed it, yeas 41 (Rep. 25, Dem. 15, Ind. 1), nays 10 (Rep. 4, Dem. 6.)

WORLD'S FAIR LEGISLATION.

The act of April 6, 1892, provides that no citizen of any other country shall be held liable for the infringement of any patent granted by the U. S., or of any trade-mark or label registered in the U. S., where the act complained of is or shall be

performed in connection with the exhibition of any article or thing at the World's Columbian Exposition at Chicago.

The act of May 12, 1892, provides that any National bank located in Chicago may be designated by the World's Columbian Exposition to conduct a banking office upon the Exposition grounds, and, upon approval by the Controller of the Currency, may open and conduct such office as a branch of the bank, subject to the same restrictions and having the same rights; provided, that the branch shall not be operated for more than two years, between July 1, 1892, and July 1, 1894.

The act of August 4, 1892, changes the date of the dedication of the buildings of the World's Columbian Exposition from October 12 to October 21, 1892.

The act of August 5, 1892, provides that for the purpose of aiding in defraying the cost of completing in a suitable manner the work of preparation for inaugurating the World's Columbian Exposition, there shall be coined at the mints of the U. S. silver half-dollars of the legal weight and fineness, not to exceed five million pieces, to be known as the Columbian half-dollar, struck in commemoration of the World's Columbian Exposition, the devices and designs upon which shall be prescribed by the Director of the Mint, with the approval of the Secretary of the Treasury; and said silver coins shall be manufactured from uncurrent subsidiary silver coins now in the Treasury. All provisions of law relative to the coinage, legal-tender quality, and redemption of the present subsidiary silver coins are applicable to the coins issued under this act, and when so recoined there is appropriated from the Treasury the said five millions of souvenir half-dollars, and the Secretary of the Treasury is authorized to pay the same to the World's Columbian Exposition, upon estimates and vouchers certified for labor done, materials furnished and services performed in prosecuting the work of preparing the Exposition for opening as provided by the act of April 25, 1890; provided, however, that before the Secretary of the Treasury shall pay to the Exposition any part of the five million silver coins satisfactory evidence shall be furnished him showing that the sum of at least $10,000,000 has been collected and disbursed as required by said act; and provided, that the Exposition shall furnish a satisfactory guarantee to the Secretary of the Treasury that any further sum actually necessary to complete the work of the Exposition to the opening has been or will be provided by the World's Columbian Exposition.

The appropriation thus provided shall be upon condition that the Exposition maintain and pay all expenses, costs, and charges of the great departments organized for conducting the work of the Exposition out of the Exposition funds. Fifty thousand bronze medals and the necessary dies therefor with appropriate devices, emblems and inscriptions, celebrating the 400th anniversary of the discovery of America, shall be prepared under the supervision of the Secretary of the Treasury at a cost not to exceed $60,000, and the Bureau of Engraving and Printing shall prepare plates and make therefrom 50,000 vellum impressions for diplomas at a cost not to exceed $43,000. The medals and diplomas shall be delivered to the World's Columbian Commission, to be awarded to exhibiters in accordance with the provisions of the act of Congress approved April 25, 1890, and there is appropriated, from any moneys in the Treasury not otherwise appropriated, $108,000, or so much thereof as may be necessary, to pay the expenditures authorized by this section; and authority may be granted by the Secretary of the Treasury to the holder of a medal, properly awarded to him, to have duplicates made at any of the mints of the United States from gold, or silver, or bronze, at the expense of the person desiring the same.

All appropriations herein made for or pertaining to the Exposition are upon the condition that the Exposition shall not be opened to the public on Sunday; and if the appropriations be accepted by the World's Columbian Exposition, upon that condition, it is made the duty of the World's Columbian Commission to make the necessary modification of the rules of the Exposition corporation.

This bill, in its final shape, passed the Senate without discussion. In the House the vote was: Yeas, 131 (Reps. 82, Dems. 49); nays, 83 (Dems. 75, Inds. 8).

NATIONAL CONVENTIONS AND PLATFORMS OF 1892.

THE REPUBLICAN NATIONAL CONVENTION.

The tenth Republican National Convention met at Minneapolis on June 7, 1892. J. Sloat Fassett, of New-York, was elected temporary chairman, and Wm. McKinley, jr., of Ohio, permanent chairman. The following platform was unanimously reported on June 10 from the Committee on Resolutions, Joseph B. Foraker, of Ohio, chairman, and was unanimously adopted by the convention at the evening session:

REPUBLICAN PLATFORM ADOPTED AT MINNEAPOLIS, JUNE 10, 1892.

"The representatives of the Republicans of the United States, assembled in general convention on the shores of the Mississippi River, the everlasting bond of an indestructible Republic, whose most glorious chapter of history is the record of the Republican party, congratulate their countrymen on the majestic march of the Nation under the banners inscribed with the principles of our platform of 1888, vindicated

by victory at the polls and prosperity in our fields, workshops and mines, and make the following declaration of principles:

PROTECTION.—"We reaffirm the American doctrine of protection. We call attention to its growth abroad. We maintain that the prosperous condition of our country is largely due to the wise revenue legislation of the Republican Congress. We believe that all articles which cannot be produced in the United States, except luxuries, should be admitted free of duty, and that on all imports coming into competition with the products of American labor there should be levied duties equal to the difference between wages abroad and at home. We assert that the prices of manufactured articles of general consumption have been reduced under the operations of the tariff act of 1890. We denounce the efforts of the Democratic majority of the House of Representatives to destroy our tariff laws piecemeal, as is manifested by their attacks upon wool, lead and lead ores, the chief products of a number of States, and we ask the people for their judgment thereon.

RECIPROCITY.—"We point to the success of the Republican policy of reciprocity, under which our export trade has vastly increased, and new and enlarged markets have been opened for the products of our farms and workshops. We remind the people of the bitter opposition of the Democratic party to this practical business measure, and claim that, executed by a Republican Administration, our present laws will eventually give us control of the trade of the world.

SILVER.—"The American people, from tradition and interest, favor bimetallism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions, to be determined by legislation, as will secure the maintenance of the parity of values of the two metals, so that the purchasing and debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workingmen, demand that every dollar, paper or coin, issued by the Government shall be as good as any other. We commend the wise and patriotic steps already taken by our Government to secure an international conference to adopt such measures as will insure a parity of value between gold and silver for use as money throughout the world.

FREE BALLOT AND FAIR COUNT.—"We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot in all public elections, and that such ballot shall be counted and returned as cast; that such laws shall be enacted and enforced as will secure to every citizen, be he rich or poor, native or foreign born, white or black, this sovereign right guaranteed by the Constitution. The free and honest popular ballot, the just and equal representation of all the people, as well as their just and equal protection under the laws, are the foundation of our Republican institutions, and the party will never relax its efforts until the integrity of the ballot and the purity of elections shall be fully guaranteed and protected in every State.

SOUTHERN OUTRAGES.—"We denounce the continued inhuman outrages perpetrated upon American citizens for political reasons in certain Southern States of the Union.

FOREIGN RELATIONS.—"We favor the extension of our foreign commerce, the restoration of our mercantile marine by home-built ships and the creation of a Navy for the protection of our National interests and the honor of our flag; the maintenance of the most friendly relations with all foreign Powers, entangling alliances with none and the protection of the rights of our fishermen. We reaffirm our approval of the Monroe Doctrine, and believe in the achievement of the manifest destiny of the Republic in its broadest sense. We favor the enactment of more stringent laws and regulations for the restriction of criminal, pauper and contract immigration.

MISCELLANEOUS.—"We favor efficient legislation by Congress to protect the life and limbs of employes of transportation companies engaged in carrying on interstate commerce, and recommend legislation by the respective States that will protect employes engaged in State commerce, and in mining and manufacturing.

"The Republican party has always been the champion of the oppressed, and recognizes the dignity of manhood, irrespective of faith, color or nationality; it sympathizes with the cause of Home Rule in Ireland, and protests against the persecution of the Jews in Russia.

"The ultimate reliance of free popular government is the intelligence of the people and the maintenance of freedom among men. We therefore declare anew our devotion to liberty of thought and conscience, of speech and press, and approve all agencies and instrumentalities which contribute to the education of the children of the land; but, while insisting upon the fullest measure of religious liberty, we are opposed to any union of Church and State.

TRUSTS.—"We reaffirm our opposition, declared in the Republican platform of 1888, to all combinations of capital organized in trust or otherwise, to control arbitrarily the condition of trade among our citizens. We heartily indorse the action already taken upon this subject, and ask for such further legislation as may be required to remedy any defects in existing laws and to render their enforcement more complete and effective.

POSTOFFICE REFORMS.—"We approve the policy of extending to towns, villages and rural communities the advantages of the free delivery service now enjoyed by the larger cities of the country, and reaffirm the declaration contained in the Republican platform of 1888, pledging the reduction of letter postage to one cent at the earliest possible moment consistent with the maintenance of the Postoffice Department and the highest class of postal service.

CIVIL SERVICE.—"We commend the spirit and evidence of reform in the Civil Service, and the wise and consistent enforcement by the Republican party of the laws regulating the same.

NICARAGUA CANAL.—"The construction of the Nicaragua Canal is of the highest importance to the American people, both as a measure of National defence and to build up and maintain American commerce, and it should be controlled by the United States Government.

TERRITORIES.—"We favor the admission of the remaining Territories at the earliest practicable date, having due regard to the interests of the people of the Territories and of the United States. All the Federal officers appointed for the Territories should be selected from bona fide residents thereof, and the right of self-government should be accorded as far as practicable.

ARID LANDS.—"We favor cession, subject to the Homestead laws, of the arid public lands to the States and Territories in which they lie, under such Congressional restrictions as to disposition, reclamation and occupancy by settlers as will secure the maximum benefits to the people.

COLUMBIAN EXPOSITION.—"The World's Columbian Exposition is a great National undertaking, and Congress should promptly enact such reasonable legislation in aid thereof as will insure a discharge of the expenses and obligations incident thereto, and the attainment of results commensurate with the dignity and progress of the Nation.

INTEMPERANCE.—"We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

PENSIONS.—"Ever mindful of the services and sacrifices of the men who saved the life of the Nation, we pledge anew to the veteran soldiers of the Republic a watchful care and recognition of their just claims upon a grateful people.

HARRISON'S ADMINISTRATION.—"We commend the able, patriotic and thoroughly American Administration of President Harrison. Under it the country has enjoyed remarkable prosperity, and the dignity and honor of the Nation at home and abroad have been faithfully maintained, and we offer the record of pledges kept as a guarantee of faithful performance in the future."

THE REPUBLICAN NOMINATIONS.

On June 11 Senator E. O. Wolcott, of Colorado, nominated for President James G. Blaine. R. W. Thompson, of Indiana, ex-Secretary of the Navy, nominated Benjamin Harrison. On the first ballot President Harrison was chosen for re-election. The vote by States was as follows:

THE DEMOCRATIC NATIONAL CONVENTION.

This body met in Chicago on June 21, 1892. William C. Owens, of Kentucky, was made temporary chairman, and William L. Wilson, of West Virginia, permanent chairman.

DEMOCRATIC PLATFORM, ADOPTED AT CHICAGO, JUNE 23, 1892.

"The representatives of the Democratic party of the United States, in National convention assembled, do reaffirm their allegiance to the principles of the party as formulated by Jefferson and exemplified by the long and illustrious line of his successors in Democratic leadership from Madison to Cleveland; we believe the public welfare demands that these principles be applied to the conduct of the Federal Government through the accession to power of the party that advocates them, and we solemnly declare that the need of a return to these fundamental principles of a free popular government based on home rule and individual liberty was never more urgent than now, when the tendency to centralize all power at the Federal Capital has become a menace to the reserved rights of the States that strikes at the very roots of our Government under the Constitution as framed by the fathers of the Republic.

ELECTIONS BILL.—"We warn the people of our common country, jealous for the preservation of their free institutions, that the policy of Federal control of elections, to which the Republican party has committed itself, is fraught with the gravest dangers, scarcely less momentous than would result from a revolution practically establishing monarchy on the ruins of the Republic. It strikes at the North as well as the South, and injures the colored citizens even more than the white; it means a horde of deputy marshals at every polling place armed with Federal power, returning boards appointed and controlled by Federal authority, the outrage of the electoral rights of the people in the several States, subjugation of the colored people to the control of the party in power and the reviving of race antagonisms now happily abated, of the utmost peril to the safety and happiness of all, a measure deliberately and justly described by a leading Republican Senator as 'the most infamous bill that ever crossed the threshold of the Senate.' Such a policy, if sanctioned by law, would mean the dominance of a self-perpetuating oligarchy of office-holders, and the party first intrusted with its machinery could be dislodged from power only by an appeal to the reserved rights of the people to resist oppression which is inherent in all self-governing communities. Two years ago this revolutionary policy was emphatically condemned by the people at the polls, but in contempt of that verdict the Republican party has defiantly declared in its latest authoritative utterance that its success in the coming elections will mean the enactment of the Force bill, and the usurpation of despotic control over elections in all the States. Believing that the preservation of republican government in the United States is dependent upon the defeat of this policy of legalized force and fraud, we invite the support of all citizens who desire to see the Constitution maintained in its integrity with the laws pursuant thereto which have given our country a hundred years of unexampled prosperity; and we pledge the Democratic party, if it be intrusted with power, not only to the defeat of the Force bill, but also to relentless opposition to the Republican policy of profligate expenditure which, in the short space of two years, has squandered an enormous surplus, emptied an overflowing Treasury, after piling new burdens of taxation upon the already overtaxed labor of the country.

TARIFF.—"We denounce Republican protection as a fraud, a robbery of the great majority of the American people for the benefit of the few. We declare it to be a fundamental principle of the Democratic party that the Federal Government has no constitutional power to impose and collect tariff duties, except for the purpose of revenue only, and we demand that the collection of such taxes shall be limited to the necessities of the Government when honestly and economically administered. We denounce the McKinley Tariff law enacted by the 51st Congress as the culminating atrocity of class legislation; we indorse the efforts made by the Democrats of the present Congress to modify its most oppressive feature in the direction of free raw materials and cheaper manufactured goods that enter into general consumption, and we promise its repeal as one of the beneficent results that will follow the action of the people in intrusting power to the Democratic party. Since the McKinley tariff went into operation there have been ten reductions of the wages of the laboring man to one increase. We deny that there has been any increase of prosperity to the country since that tariff went into operation, and we point to the dulness and distress, the wage reductions and strikes in the iron trade as the best possible evidence that no such prosperity has resulted from the McKinley act. We call the attention of thoughtful Americans to the fact that after thirty years of restrictive taxes against the importation of foreign wealth, in exchange for our agricultural surplus, the homes and farms of the country have become burdened with a real estate mortgage debt of over $2,500,000,000, exclusive of all other forms of indebtedness; that in one of the chief agricultural States of the West there appears a real estate mortgage debt averaging $165 per capita of the total population, and that similar conditions and tendencies are shown to exist in other agricultural exporting States. We denounce a policy which fosters no industry so much as it does that of the sheriff.

RECIPROCITY.—"Trade interchange on the basis of reciprocal advantages to the countries participating is a time-honored doctrine of the Democratic faith, but we denounce the sham reciprocity which juggles with the people's desire for enlarged foreign markets and freer exchanges by pretending to establish closer trade relations for a country whose articles of export are almost exclusively agricultural products with other countries that are also agricultural, while erecting a custom-house barrier of prohibitive tariff taxes against the rich and the countries of the world that stand ready to take our entire surplus of products and to exchange therefor commodities which are necessaries and comforts of life among our people.

TRUSTS.—"We recognize in the trusts and combinations which are designed to enable capital to secure more than its just share of the joint product of capital and labor, a

natural consequence of the prohibitive taxes which prevent the free competition which is the life of honest trade, but we believe their worst evils can be abated by law, and we demand the rigid enforcement of the laws made to prevent and control them, together with such further legislation in restraint of their abuses as experience may show to be necessary.

PUBLIC LANDS.—"The Republican party, while professing a policy of reserving the public land for small holdings by actual settlers, has given away the people's heritage, till now a few railroads and non-resident aliens, individual and corporate, possess a larger area than that of all our farms between the two seas. The last Democratic administration reversed the improvident and unwise policy of the Republican party touching the public domain, and reclaimed from corporations and syndicates, alien and domestic, and restored to the people nearly one hundred million acres of valuable land to be sacredly held as homesteads for our citizens, and we pledge ourselves to continue this policy until every acre of land so unlawfully held shall be reclaimed and restored to the people.

SILVER.—"We denounce the Republican legislation known as the Sherman act of 1890 as a cowardly makeshift, fraught with possibilities of danger in the future, which should make all of its supporters, as well as its author, anxious for its speedy repeal. We hold to the use of both gold and silver as the standard money of the country, and to the coinage of both gold and silver, without discriminating against either metal or charge for mintage, but the dollar unit of coinage of both metals must be of equal intrinsic and exchangeable value or be adjusted through international agreement, or by such safeguards of legislation as shall insure the maintenance of the parity of the two metals and the equal power of every dollar at all times in the markets and in payments of debts; and we demand that all paper currency shall be kept at par with and redeemable in such coin. We insist upon this policy as especially necessary for the protection of the farmers and laboring classes, the first and most defenseless victims of unstable money and a fluctuating currency.

BANKING.—"We recommend that the prohibitory 10 per cent tax on State bank issues be repealed.

CIVIL SERVICE.—"Public office is a public trust. We reaffirm the declaration of the Democratic National Convention of 1876 for the reform of the civil service, and we call for the honest enforcement of all laws regulating the same. The nomination of a President, as in the recent Republican Convention, by delegations composed largely of his appointees, holding office at his pleasure, is a scandalous satire upon free popular institutions and a startling illustration of the methods by which a President may gratify his ambition. We denounce a policy under which Federal office-holders usurp control of party conventions in the States, and we pledge the Democratic party to the reform of these and all other abuses which threaten individual liberty and local self government.

FOREIGN POLICY.—"The Democratic party is the only party that has ever given the country a foreign policy consistent and vigorous, compelling respect abroad, and inspiring confidence at home. While avoiding entangling alliances, it has aimed to cultivate friendly relations with other nations, and especially with our neighbors on the American continent, whose destiny is closely linked with our own, and we view with alarm the tendency to a policy of irritation and bluster which is liable at any time to confront us with the alternative of humiliation or war. We favor the maintenance of a navy strong enough for all purposes of national defence, and to properly maintain the honor and dignity of the country abroad.

FOREIGN OPPRESSION.—"This country has always been the refuge of oppressed from every land—exiles for conscience sake—and in the spirit of the founders of our Government we condemn the oppression practised by the Russian Government upon its Lutheran and Jewish subjects, and we call upon our National Government, in the interests of justice and humanity, by all just and proper means to use its prompt and best effort to bring about a cessation of these cruel persecutions in the dominions of the Czar, and to secure to the oppressed equal rights. We tender our profound and earnest sympathy to those lovers of freedom who are struggling for home rule and the great cause of local self-government in Ireland.

IMMIGRATION.—"We heartily approve all legitimate efforts to prevent the United States from being used as a dumping ground for the known criminals and professional paupers of Europe, and we demand the rigid enforcement of the laws against Chinese immigration or the importation of foreign workmen under contract to degrade American labor and lessen its wages, but we condemn and denounce any and all attempts to restrict the immigration of the industrious and worthy of foreign lands.

PENSIONS.—"This convention hereby renews the expression of appreciation of the patriotism of the soldiers and sailors of the Union in the war for its preservation, and we favor just and liberal pensions for all disabled Union soldiers, their widows and dependents, but we demand that the work of the Pension Office shall be done industriously, impartially, and honestly. We denounce the present administration of that office as incompetent, corrupt, disgraceful, and dishonest.

WATERWAYS.—"The Federal Government should care for and improve the Mississippi River and other great waterways of the Republic so as to secure for the interior States easy and cheap transportation to the tidewater. When any waterway of the public is of sufficient importance to demand the aid of the Government—that such aid should be extended, a definite plan of continuous work, until permanent improvement is secured.

NICARAGUA CANAL.—"For purposes of National defence, the promotion of commerce between the States, we recognize the early construction of the Nicaragua Canal and its protection against foreign control as of great importance to the United States.

WORLD'S FAIR.—"Recognizing the World's Columbian Exposition as a National undertaking of vast importance in which the General Government has invited the co-operation of all the powers of the world, and appreciating the acceptance by many of such powers of the invitation so extended, and the broadest liberal efforts being made by them to contribute to the grandeur of the undertaking, we are of the opinion that Congress should make such necessary financial provisions as shall be requisite to the maintenance of the National honor and public faith.

PUBLIC SCHOOLS.—"Popular education being the only safe basis of popular suffrage, we recommend to the several States most liberal appropriations for the public schools. Free common schools are the nursery of good Government, and they have always received the fostering care of the Democratic party, which favors every means of increasing intelligence. Freedom of education being an essential of civil and religious liberty as well as a necessity for the development of intelligence, must not be interfered with under any pretext whatever. We are opposed to State interference with parental rights and rights of conscience in the education of children as an infringement of a fundamental Democratic doctrine that the largest individual liberty consistent with the rights of others insures the highest type of American citizenship and the best Government.

TERRITORIES.—"We approve the action of the present House of Representatives in passing bills for the admission into the Union as States of the Territories of New-Mexico and Arizona, and we favor the early admission of all the Territories having necessary population and resources to admit them to Statehood, and while they remain Territories we hold that the officials appointed to administer the Government of any Territory, together with the District of Columbia and Alaska, should be bona fide residents of the Territory or district in which their duties are to be performed. The Democratic party believe in home rule and the control of their own affairs by the people of the vicinage.

LABOR.—"We favor legislation by Congress and State Legislatures to protect the lives and limbs of railway employes and those of other hazardous transportation companies, and denounce the inactivity of the Republican party, particularly the Republican Senate, for causing the defeat of measures beneficial and protective to this class of wage workers. We are in favor of the enactment by the States of laws for abolishing the notorious sweating system, for abolishing contract convict labor and for prohibiting the employment in factories of children under fifteen years of age.

MISCELLANEOUS.—"We are opposed to all sumptuary law as an interference with the individual rights of the citizen. Upon this statement of principles and policies the Democratic party asks the intelligent judgment of the American people. It asks a change of administration and a change of party, in order that there might be a change of system and a change of methods, thus assuring the maintenance unimpaired of institutions under which the Republic has grown great and powerful."

The Platform, as reported from the Committee on Resolutions, contained this declaration, as the first paragraph of Sec. 3, with the heading "Revenue Tariff":

"We reiterate the oft-repeated doctrines of the Democratic party that the necessity of the Government is the only justification for taxation, and whenever a tax is unnecessary it is unjustifiable; that when custom-house taxation is levied upon articles of any kind produced in this country, the difference between the cost of labor here and labor abroad, when such a difference exists, fully measures any possible benefits to labor, and the enormous additional impositions of the existing tariff fall with crushing force upon our farmers and workingmen, and for the mere advantage of the few whom it enriches, exact from labor a grossly unjust share of the expenses of the Government, and we demand such a revision of the tariff laws as will remove their iniquitous inequalities, lighten their oppressions and put them on a constitutional and equitable basis. But in making reduction in taxes it is not proposed to injure any domestic industries, but rather to promote their healthy growth. From the foundation of this Government taxes collected at the custom house have been the chief source of Federal revenue. Such they must continue to be. Moreover, many industries have come to rely upon legislation for successful continuance, so that any change of law must be at every step regardful of the labor and capital thus involved. The process of reform must be subject in the execution of this plain dictate of justice."

On motion of Lawrence T. Neal, of Ohio, the above paragraph was struck from the Platform and the following substituted:

"We denounce Republican Protection as a fraud, a robbery of the great majority of the American people for the benefit of the few. We declare it to be a fundamental principle of the Democratic party that the Federal Government has no constitutional power to impose and to collect tariff duties, except for the purpose of revenue only, and we demand that the collection of such taxes shall be limited to the necessities of the Government when honestly and economically administered."

The vote on striking out was—Yeas 564, nays 342, as follows:

THE PEOPLE'S PARTY CONVENTION.

This body met at Omaha, July 2, 1892. C. H. Eddington, of Georgia, was chosen temporary chairman, and H. L. Loucks, of South Dakota, permanent president.

THE PLATFORM.

"Assembled upon the one hundred and sixteenth anniversary of the Declaration of Independence, the People's Party of America, in their first National Convention, invoking upon their action the blessing of Almighty God, puts forth, in the name and on behalf of the people of this country, the following preamble and declaration of principles:

"The conditions which surround us best justify our co-operation. We meet in the midst of a nation brought to the verge of moral, political and material ruin. Corruption dominates the ballot box, the legislatures, the Congress, and touches even the ermine of the Bench. The people are demoralized; most of the States have been compelled to isolate the voters at the polling places to prevent universal intimidation or bribery. The newspapers are largely subsidized or muzzled, public opinion silenced, business prostrated, our homes covered with mortgages, labor impoverished, and the land concentrating in the hands of the capitalists. The urban workmen are denied the right of organization for self-protection; imported pauperized labor beats down their wages; a hireling standing army, unrecognized by our laws, is established to shoot them down, and they are rapidly degenerating into European conditions. The fruits of the toil of millions are boldly stolen to build up colossal fortunes for a few, unprecedented in the history of mankind, and the possessors of these in turn despise the Republic and endanger liberty. From the same prolific womb of governmental injustice we breed the two great classes—tramps and millionaires.

"The national power to create money is appropriated to enrich bondholders; a vast public debt, payable in legal tender currency, has been funded into gold bearing bonds,

thereby adding millions to the burdens of the people. Silver, which has been accepted as coin since the dawn of history, has been demonetized to add to the purchasing power of gold by decreasing the value of all forms of property as well as human labor, and the supply of currency is purposely abridged to fatten usurers, bankrupt enterprise and enslave industry.

"A vast conspiracy against mankind has been organized on two continents, and it is rapidly taking possession of the world. If not met and overthrown at once, it forebodes terrible social convulsions, the destruction of civilization, or the establishment of an absolute despotism. We have witnessed, for more than a quarter of a century, the struggles of the two great political parties for power and plunder, while grievous wrongs have been inflicted upon the suffering people. We charge that the controlling influences dominating both these parties have permitted the existing dreadful conditions to develop without serious effort to prevent or restrain them. Neither do they now promise us any substantial reform. They have agreed together to ignore, in the coming campaign, every issue but one. They propose to drown the outcries of a plundered people with the uproar of a sham battle over the tariff, so that capitalists, corporations, National banks, rings, trusts, watered stock, the demonetization of silver and the oppressions of the usurers may all be lost sight of. They propose to sacrifice our homes, lives and children, on the altar of mammon; to destroy the multitude in order to secure corruption funds from the millionaires.

"Assembled on the anniversary of the birthday of the nation, and filled with the spirit of the grand general and chieftain who established our independence, we seek to restore the Government of the Republic to the hands of the 'plain people' with whose class it originated. We assert our purposes to be identical with the purposes of the National Constitution, to form a more perfect union, and establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty for ourselves and our posterity. We declare that this Republic can only endure as a free government while built upon the love of the whole people for each other and for the nation; that it cannot be pinned together by bayonets; that the civil war is over and that every passion and resentment which grew out of it must die with it, and that we must be in fact, as we are in name, one united brotherhood of freedom.

"Our country finds itself confronted by conditions for which there is no precedent in the history of the world; our annual agricultural productions amount to billions of dollars in value, which must within a few weeks or months be exchanged for billions of dollars' worth of commodities consumed in their production; the existing currency supply is wholly inadequate to make this exchange; the results are falling prices, the formation of combines and rings, the impoverishment of the producing class.. We pledge ourselves that, if given power, we will labor to correct these evils by wise and reasonable legislation, in accordance with the terms of our platform. We believe that the powers of government—in other words, of the people—should be expanded (as in the case of the postal service) as rapidly and as far as the good sense of an intelligent people and the teachings of experience shall justify, to the end that oppression, injustice and poverty, shall eventually cease in the land.

"While our sympathies as a party of reform are naturally upon the side of every proposition which will tend to make men intelligent, virtuous and temperate, we nevertheless regard these questions—important as they are—as secondary to the great issues now pressing for solution, and upon which not only our individual prosperity, but the very existence of free institutions depends; and we ask all men to first help us to determine whether we are to have a Republic to administer, before we differ as to the conditions upon which it is to be administered; believing that the forces of reform this day organized will never cease to move forward until every wrong is righted, and equal rights and equal privileges securely established for all the men and women of this country. We declare, therefore,

"1. That the union of the labor forces of the United States this day consummated shall be permanent and perpetual; may its spirit enter into all hearts for the salvation of the Republic and the uplifting of mankind.

"2. Wealth belongs to him who creates it, and every dollar taken from industry without an equivalent is robbery. 'If any will not work, neither shall he eat.' The interests of rural and civic labor are the same; their enemies are identical.

"3. We believe that the time has come when the railroad corporations will either own the people or the people must own the railroads; and should the Government enter upon the work of owning and managing all railroads, we should favor an amendment to the Constitution by which all persons engaged in the Government service shall be placed under a civil service regulation of the most rigid character, so as to prevent the increase of the power of the National Administration by the use of such additional Government employes.

MONEY.—"1. We demand a National currency, safe, sound and flexible, issued by the General Government only, a full legal tender for all debts, public and private, and that without the use of banking corporations; a just, equitable and efficient means of distribution direct to the people at a tax not to exceed 2 per cent per annum, to be provided as set forth in the Sub-Treasury plan of the Farmers' Alliance, or a better system; also by payments in discharge of its obligations for public improvements.

"(A) We demand free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1.

"(B) We demand that the amount of circulating medium be speedily increased to not less than $50 per capita.

"(C) We demand a graduated income tax.

"1. That the union of the labor forces of the United States this day consummated shall be permanent and perpetual; may its spirit pervade the nation and bring its benefits for the salvation of the Republic and the uplifting of mankind.

"2. Wealth belongs to him who creates it and every dollar taken from industry without an equivalent is robbery. 'If any will not work, neither shall he eat.' The interests of rural and civic labor are the same; their enemies are identical.

"3. We believe that the time has come when the railroad corporations will either own the people or the people must own the railroads, and should the government ever come upon the work of owning and managing railroads, we should favor the government ownership to the transportation by which all persons and all corporations may be placed upon the same terms of equality, and the service rendered to the people at the lowest possible cost consistent with keeping the railroads in repair and providing for the employees a fair remuneration.

"(D) We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all State and National revenues shall be limited to the necessary expenses of the Government, economically and honestly administered.

"(E) We demand that Postal Savings Banks be established by the Government for the safe deposit of the earnings of the people and to facilitate exchange.

TRANSPORTATION.—"2. Transportation being a means of exchange and a public necessity, the Government should own and operate the railroads in the interest of the people. The telegraph and telephone, like the postoffice system, being a necessity for the transmission of news, should be owned and operated by the Government in the interests of the people.

LAND.—"3. The land, including all the natural sources of wealth, is the heritage of the people and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs, and all lands now owned by aliens, should be reclaimed by the Government and held for actual settlers only."

The following supplementary resolutions, not to be incorporated in the platform, came from the Committee on Resolutions and were adopted, as follows:

"Whereas, Other questions having been presented for our consideration, we hereby submit the following, not as a part of the Platform of the People's party, but as resolutions expressive of the sentiment of this convention:

ELECTIONS.—"1. Resolved, That we demand a free ballot and fair counting in all elections, and pledge ourselves to secure it to every legal voter without Federal intervention, through the adoption by the States of the unperverted Australian or secret ballot system.

TAXATION.—"2. That the revenue derived from a graduated income tax should be applied to the reduction of the burden of taxation now resting upon the domestic industries of this country.

PENSIONS.—"3. That we pledge our support to fair and liberal pensions to ex-Union soldiers and sailors.

IMMIGRATION.—"4. That we condemn the fallacy of protecting American labor under the present system, which opens our ports to the pauper and criminal classes of the world, and crowds out our wage-earners; and we denounce the present ineffective laws against contract labor, and demand the further restriction of undesirable immigration.

EIGHT-HOUR LAW.—"5. That we cordially sympathize with the efforts of organized workingmen to shorten the hours of labor, and demand a rigid enforcement of the existing Eight-Hour law on Government work, and ask that a penalty clause be added to the said law.

PINKERTON MEN.—"6. That we regard the maintenance of a large standing army of mercenaries, known as the Pinkerton system, as a menace to our liberties, and we demand its abolition; and we condemn the recent invasion of the Territory of Wyoming by the hired assassins of plutocracy, assisted by Federal officials.

MISCELLANEOUS.—"7. That we commend to the favorable consideration of the people and to the reform press the legislative system known as the initiative and referendum.

"8. That we favor a constitutional provision limiting the office of President and Vice-President to one term, and providing for the election of Senators of the United States by a direct vote of the people.

"9.—That we oppose any subsidy or national aid to any private corporation for any purpose.

"10.—That this convention sympathizes with the Knights of Labor and their righteous contest with the tyrannical combine of clothing manufacturers of Rochester, and declares it to be the duty of all who hate tyranny and oppression to refuse to purchase the goods made by the said manufacturers, or to patronize any merchants who sell such goods."

THE NOMINATIONS.

The following were placed in nomination for President: James B. Weaver, of Iowa; James H. Kyle, South Dakota; James G. Field, Virginia, and Mann Page, Virginia. The vote on the morning of July 5 resulted as follows: James B. Weaver, 995; James H. Kyle, 265.

For Vice-President, James G. Field, of Virginia, was chosen by a vote of 733 to 554 for Ben. Terrell, of Texas.

THE PROHIBITION CONVENTION.

This body met at Cincinnati, June 29, 1892. John P. St. John, of Kansas, was chosen temporary chairman, and Eli Ritter, of Indiana, permanent president.

THE PLATFORM.

"The Prohibition party, in National Convention assembled, acknowledging Almighty God as the source of all true government, and His law as the standard to which human enactments must conform to secure the blessings of peace and prosperity, presents the following declaration of principles:

LIQUOR.—"1. The liquor traffic is a foe to civilization, the arch enemy of popular government, and a public nuisance. It is the citadel of the forces that corrupt politics, promote poverty and crime, degrade the Nation's home life, thwart the will of the people, and deliver our country into the hands of rapacious class interests.

All laws that, under the guise of regulation, legalize and protect this traffic or make the Government share in its ill-gotten gains, are vicious in principle and powerless as a remedy.' We declare anew for the entire suppression of the manufacture, sale, importation, exportation and transportation of alcoholic liquors as a beverage by Federal and State legislation, and the full powers of Government should be exerted to secure this result. No party that fails to recognize the dominant nature of this issue in American politics is deserving of the support of the people.

WOMAN SUFFRAGE.—"2. No citizen should be denied the right to vote on account of sex, and equal labor should receive equal wages, without regard to sex.

MONEY.—"3. The money of the country should consist of gold, silver and paper, and be issued by the General Government only, and in sufficient quantity to meet the demands of business and give full opportunity for the employment of labor. To this end an increase in the volume of money is demanded. No individual or corporation should be allowed to make any profit through its issue. It should be made a legal tender for the payment of all debts, public and private. Its volume should be fixed at a definite sum per capita, and made to increase with our increase in population.

SILVER.—"4. We favor the free and unlimited coinage of gold and silver. (This plank was stricken out by the convention by a vote of 635 for it to 596 against it.)

TARIFF.—"5. Tariff should be levied only as a defence against foreign Governments which levy tariff upon or bar out our products from their markets, revenues being incidental. The residue of means necessary to an economical administration of the Government should be raised by levying a burden on what the people possess, instead of upon what they consume.

CORPORATIONS.—"6. Railroad, telegraph and other public corporations should be controlled by the Government in the interest of the people, and no higher charges allowed than necessary to give fair interest on the capital actually invested.

IMMIGRATION AND NATURALIZATION.—"7. Foreign immigration has become a burden upon industry, one of the factors in depressing wages and causing discontent; therefore our immigration laws should be revised and strictly enforced. The time of residence for naturalization should be extended, and no naturalized person should be allowed to vote until one year after he becomes a citizen.

LAND.—"8. Non-resident aliens should not be allowed to acquire land in this country, and we favor the limitation of individual and corporate ownership of land. All unearned grants of lands to railroad companies or other corporations should be reclaimed.

MOB LAW.—"9. Years of inaction and treachery on the part of the Republican and Democratic parties have resulted in the present reign of mob law, and we demand that every citizen be protected in the right of trial by constitutional tribunals.

MISCELLANEOUS.—"10. All men should be protected by law in their right to one day of rest in seven.

"11. Arbitration is the wisest and most economical and humane method of settling National differences.

"12. Speculations in margins, the cornering of grain, money and products, and the formation of pools, trusts and combinations for the arbitrary advancement of prices should be suppressed.

"13. We pledge that the Prohibition party if elected to power will ever grant just pensions to disabled veterans of the Union Army and Navy, their widows and orphans.

"14. We stand unequivocally for the American public school, and opposed to any appropriation of public moneys for sectarian schools. We declare that only by united support of such common schools, taught in the English language, can we hope to become and remain a homogeneous and harmonious people.

REPUBLICANS AND DEMOCRATS.—"15. We arraign the Republican and Democratic parties as false to the standards reared by their founders; as faithless to the principles of the illustrious leaders of the past to whom they do homage with the lips; as recreant to the 'higher law,' which is as inflexible in political affairs as in personal life, and as no longer embodying the aspirations of the American people, or inviting the confidence of enlightened, progressive patriotism. Their protest against the admission of 'moral issues' into politics is a confession of their own moral degeneracy. The declaration of an eminent authority that municipal misrule is 'the one conspicuous failure of American politics,' follows as a natural consequence of such degeneracy, and it is true alike of cities under Republican and Democratic control. Each accuses the other of extravagance in Congressional appropriations and both are alike guilty; each protests when out of power against infraction of the civil service laws, and each when in power violates those laws in letter and in spirit; each professes fealty to the interests of the toiling masses, but both covertly truckle to the money power in their administration of public affairs. Even the tariff issue, as represented in the Democratic Mills bill and the Republican McKinley bill, is no longer treated by them as an issue between great and divergent principles of government, but is a mere catering to different sectional and class interests. The attempt in many States to wrest the Australian ballot system from its true purpose, and to so deform it as to render it extremely difficult for new parties to exercise the rights of suffrage, is an outrage upon popular government. The competition of both these parties for the vote of the slums, and their assiduous courting of the liquor power and subserviency to the money power, have resulted in placing those powers in the position of practical arbiters of the destinies of the Nation. We renew our protest against these perilous tendencies, and invite all citizens to join us in the upbuilding of a party

that has shown in five National campaigns that it prefers temporary defeat to an abandonment of the claims of justice, sobriety, personal rights and the protection of American homes.

PROHIBITION.—"16. Recognizing and declaring that prohibition of the liquor traffic has become the dominant issue in National politics, we invite to full party fellowship all those who on this one dominant issue are with us agreed, in the full belief that this party can and will remove sectional differences, promote National unity, and insure the best welfare of our entire land."

For the third resolution a minority report favored "the issue of legal-tender Treasury notes, exchangeable in gold or silver bullion, on a plan similar to that which now floats $340,000,000 of greenbacks on $100,000,000 of gold reserve and makes them more acceptable and convenient than either gold or silver coin." This was defeated on a rising vote—yeas 316, nays 337.

For the fifth resolution, the minority reported a substitute declaring that the tariff should be so levied as to furnish revenue for the needs of the Government economically administered, relieving necessities used by the mass of the people, and for the benefit of labor, protecting American productions and manufactures against the competition of foreign nations, and suggesting the appointment of a tariff commission to recommend to Congress duties to meet the wants of the Government, so graduated as to protect American skill and labor against the competition of the world. This was defeated by a large vote.

The sixteenth resolution was reported by a minority of the Committee on Resolutions. After animated debate it was defeated, its friends being unable to rally the 200 votes necessary to order a vote by States. Subsequently it was taken from the table, and by a rising vote added to the platform; which, with the fourth paragraph out, was then adopted, as reported by James Black, chairman of the committee.

During the proceedings, on motion of a delegate from Virginia, speakers were requested to refrain from unnecessary references or illustrations which "could be considered as a reflection on participants in the war of the Rebellion."

THE NOMINATIONS.

John Bidwell, of California, was nominated for President on the first ballot. He received 583 votes; Gideon T. Stewart, of Illinois, 184; W. Jennings Demorest, of New-York, 142; H. C. Bascom, 3. The Rev. Dr. J. B. Cranfell, of Texas, was nominated for Vice-President on the second ballot. At the close of the first roll call he had received 345 votes, Mr. Levering 416, W. W. Satterlee 29, T. R. Carskadon, of West Virginia, 22.

SOCIALIST LABOR CONVENTION.

This body met in New-York on August 28, 1892, and nominated for President Simon Wing, of Massachusetts; for Vice-President, Charles H. Matchett, of Brooklyn, N. Y.

STATE PLATFORMS, 1892.

ALABAMA REPUBLICAN, April 28.

Indorses Harrison Administration, favors protection, sound currency and increase of the volume of money, and a free and honest ballot; opposes trusts and State convict lease system.

ALABAMA DEMOCRATIC, June 10.

Denounces "Force bill"; favors collection of revenue for necessary expenses of government only; denounces subsidies and bounties; demands repeal of McKinley act, a sound and elastic currency and repeal of Federal taxes on State bank circulation; also that money for the payment of pensions be raised by a graduated income tax.

ALABAMA PEOPLE'S, September 16.

ELECTIONS.—Demands "a free ballot vote and a fair count."

SILVER.—Demands free and unlimited coinage of silver at earliest date possible.

CURRENCY.—Demands that amount of circulation shall be increased to not less than $50 per capita, each dollar to be the equal of every other dollar.

INCOME TAX.—Demands a graduated income tax at earliest date possible.

OWNERSHIP OF LAND.—Declares that alien ownership should be "gradually extirpated."

TARIFF.—Demands "that the tariff should be reduced to the lowest possible amount consistent with an economical administration of the government, with such incidental protection as can be accorded to our industries by a wise levy of the same."

NATIONAL BANKS.—Demands "that the charters of the National banks shall be repealed, and a means be provided by which money shall be issued direct to the people with safety in the security and full indemnity to the Government."

MISCELLANEOUS.—Demands that the rights of the citizen shall receive more consideration and be as fully protected as the rights of capital, and that transportation facilities shall be controlled in the interest of the people.

ALABAMA INDEPENDENT, June 9.

Demands more money, an income tax, that National revenues be limited to the necessary expenses of the Government, and repeal of National bank charter; arraigns State Democracy as antagonistic to people's rights, and operated in the interest of class.

ARKANSAS REPUBLICAN, April.

TARIFF AND SILVER.—Commends the existing laws on tariff and silver, enacted by Republican Congress, as wise and beneficent, and declares interference with them inexpedient.

FAIR ELECTIONS.—Calls on the National Republican Convention to pledge the party to seek the enactment of such legislation as will secure to every citizen full recognition of all civil and political rights.

STATE ISSUES.—Notes that Henry Page, Republican State Treasurer, 1868-74, was the only State Treasurer since the war and prior to the present Administration who retired from office without charge of embezzlement or suspicion of peculation.

ARKANSAS DEMOCRATIC, June 14.

Denounces Republican Administration, McKinley act, Elections bill and Sherman act, favors a safe and sufficient currency composed of gold and silver and legal-tender paper, fair and free elections, and abolishment of convict lease system.

CALIFORNIA REPUBLICAN, May 4.

SILVER.—"We believe silver, equally with gold, to be the money of the people, and in behalf of the farmers, laborers and mechanics of the Nation, for whom the Republican party has always labored, we demand the passage of such laws as will provide for the free and unlimited coinage of the silver product of the mines of the U. S. as soon as the same can be done without injury to the business interests of the Nation."

MISCELLANEOUS.—Indorses the eight-hour law, demands an amendment to the Federal Constitution providing for the election of U. S Senators by direct vote, and praises Administration's foreign policy.

CALIFORNIA REPUBLICAN, July 27.

Indorses National platform and nominees of Republican convention, approves organization of the National Republican League and Republican College Leagues, demands early completion, under Government control, of Nicaragua Canal, liberal expenditure of money for improvement of harbors and internal waterways, and invites capital to build into the State competing transcontinental lines of railway.

CALIFORNIA DEMOCRATIC, May 18.

Favored tariff reform and opposed demonetization of silver.

COLORADO REPUBLICAN, April 27.

SILVER.—"Whereas, The great crime of the demonetization of silver in 1873 was conceived in deception and born in fraud, and since that time has been nurtured by wilful and deliberate misrepresentation on the part of the combined influence of the money lenders and bondholders of this country and Europe; and,

"Whereas, That crime has cheapened the products of the mine, of the farm and the workshop, and has resulted in unequivocal injury to all the great industries of our country, and has benefited only the money kings at the expense of the people; and,

"Whereas, We believe that the question of the free coinage of silver is the principal issue now before the American people, and steps should be immediately taken for its full restoration as a money metal; now, therefore,

"The Republican party of Colorado, in convention assembled, hereby demand the enactment by Congress of a law providing for the free and unlimited coinage of silver on an equal basis with gold."

MISCELLANEOUS.—Reaffirm allegiance to Republican doctrines and principles and oppose any cession of arid lands to the State or otherwise, except on terms that will fully protect the rights of homeseekers on the public domain.

COLORADO REPUBLICAN, September 9.

SILVER.—"We interpret that portion of the Republican platform relative to silver coinage, where it says 'the Republican party demands the use of gold and silver as standard money, so to be determined by legislation,' to mean that such wise legislation, if passed by the legislative branches of the Government, which represents the people, would be sanctioned by the Executive. By his assertion in his letter of acceptance that he is thoroughly convinced that the free coinage of silver at such a ratio to gold will maintain their equality in commercial usage of the two coined dollars, and would conduce to the prosperity of all the great nations of the world, President Harrison has placed himself equally upon record as favorable to the white metal, and has effectually disposed of the statements upon which are based the campaign of his enemies in the State."

TARIFF.—"We condemn the action of the Democratic party in attempting to take the duties off lead ore and wool, and we denounce the action of the Democratic House of Representatives in the attempt to remove the duty on lead ores as a move that would oblige the miners of Colorado to compete direct with the felon labor of Mexico."

COLORADO DEMOCRATIC, May 25.

Denounced the policy of the Harrison Administration concerning the removal of the Ute Indians to their reservation in Utah, urged modification of the existing tariff laws, and demanded as a right the free and unlimited coinage of silver. It was resolved that the delegates to the National Convention use every endeavor to secure a free silver plank, demanding free and unlimited coinage, and it was declared as the sense of the Democrats of the State that they could have little hope of the election of the Chicago nominee unless such declaration was made.

COLORADO DEMOCRATIC, September 13.

SILVER.—"We renew our pledges of allegiance to the principles of the Democratic party, and indorse the platform of the Chicago convention with the exception of that part of it relating to silver and coinage, and in lieu thereof we declare in favor of the full remonetization of silver and that free and unlimited coinage should be restored to the ratio of 16 to 1, as it existed before the great crime of 1873, which deprived it of free coinage and its full legal-tender quality."

PINKERTONS.—Emphatically opposes employment of Pinkerton or other private armed force in Colorado.

LABOR.—Urges enactment of 8-hour law, prohibition of employment of children under 15 in manufactories and mines, and new mechanics' lien law.

MISCELLANEOUS.—Denounces Railroad Commission act as an utter failure; demands enactment of law to prevent excessive freight and passenger charges and discriminations, and recommends legislation to prevent combinations unduly raising the price of coal or any other article of prime necessity.

COLORADO PEOPLE'S, July 28.

Realizes in Omaha platform "a declaration of war by the production classes against all forms of legislation which enable any man to exploit the labor of another."

SILVER.—"We pledge the People's party of this State to a loyal, cordial and unfaltering support of the declaration of the Omaha convention as a whole, and designate as of primary importance at this time to the people of Colorado that portion which declares for the free and unlimited coinage of silver and gold on a ratio of 16 to 1. It is the sense of this convention that our Senators and Representatives in Congress are not in accord with the best interests of Colorado and her people in advocating the election of an enemy of silver to the office of Chief Magistrate of the United States."

PINKERTONS.—Condemns attempted assassination of Mr. Frick, denounces punishment inflicted on Private Iams at Homestead, and emphatically opposes employment of "private armies" by individuals or corporations.

MISCELLANEOUS.—Declares all persons holding office of trust under Federal, State or municipal government ineligible to sit or vote in any convention of the party.

CONNECTICUT REPUBLICAN, May 4.

TARIFF.—Praises protection, which has given to the country a greater prosperity than is known to any other nation; heartily indorses the McKinley law, discerns in reciprocity an adequate opening of foreign markets to American products without in any degree infringing upon the policy of protection to American labor, and denounces proposed Democratic tariff legislation as a covert attack upon the American system.

IMMIGRATION.—Favors legislation prohibiting immigration of paupers and criminals.

CURRENCY.—"We commend the policy of the Republican party in maintaining an honest and sufficient currency and assert that to this party alone must the people look for the preservation of the good faith of the Nation in all matters of finance."

MISCELLANEOUS.—Reasserts the undying gratitude of the Republican party to American volunteers, and claims for the men they freed equal rights and equal protection in those rights.

CONNECTICUT REPUBLICAN, September 7.

TARIFF.—Indorses principle of protection, asserts that State industries are not over protected, and that any material reduction in protection afforded would result disastrously to manufacturers; protests against any disturbance of the established rate to which all business relations have adjusted themselves, warns against threatened Democratic policy, which would revolutionize industrial activities, reduce wages, unsettle values, destroy credit and paralyze enterprises for years to come; hints that tobacco-growers will refuse to encourage repeal of law which has brought to their labor a measure of prosperity never before equalled, invites their earnest attention to Democratic platform which denounces that law and declares the protection enjoyed under it by the tobacco-growers to be unconstitutional and a fraud, and asserts that "the general prosperity of the whole land is essential to the prosperity of every part, and that a fatal

blow struck at the tobacco, cutlery, hatmaking or any one established industry must react upon every other established industry."

IMMIGRATION.—Declares that if necessary existing immigration laws should be amended further to protect American wage-earners against degrading foreign competition.

MISCELLANEOUS.—Denounces attempt of Connecticut Democrats to secure partisan gain through disfranchisement of over 1,200 legal voters in election of 1890, and determination of Democratic Senate to block all public business, and so force compliance with its schemes; commends Republican executive officers, Senators and Representatives who resisted this revolutionary attempt, and upholds plan of town representation.

CONNECTICUT DEMOCRATIC, May 10.

TARIFF.—Declares allegiance to Democratic principles, demands a revision of tariff along the line of the Democratic Federal platform of 1888 and the State platform of 1890, especially removal of duties on raw materials, charges prevailing industrial stagnation to McKinleyism, and calls on farmers, manufacturers and workmen alike to intrust the revision of the tariff on sound principles to the Democratic party in the interest of all classes instead of the few.

CURRENCY.—"We declare for a stable currency, of gold, silver and paper, founded upon coined money of the least obtainable fluctuations in value, and we regard the unlimited coinage of silver dollars worth but 67 cents each, with the legal tender attribute attached, as a financial heresy, certain to result in a proportionate reduction in wages, the unsettling of contracts and widespread distress. We charge the continued agitation of this question upon the last Republican Congress and the present Administration in passing the Sherman Act of 1890, which involves most of the possible follies in currency legislation, and has thus far forced upon the Government the purchase of silver bullion, upon which the Treasury has already lost more than $11,000,000."

THE ADMINISTRATION.—Accuses President Harrison of bestowing Cabinet appointments on little statesmen, rewarding political work with judicial and other appointments, turning to partisan uses the Pension Bureau and the Census Bureau, sacrificing the country in the Behring Sea dispute, throwing the influence of his Administration in favor of the iniquities of the Force bill, for approving the McKinley bill, the Silver bill, and the extravagant appropriations of the last Republican Congress and for his hasty threats toward the weak but friendly republic of Chili.

STATE ISSUES.—Demands return to the fundamental law of the early Commonwealth by which the man receiving the larger number of votes became Governor of the State. The convention condemned the public acts of Morgan G. Bulkeley since Jan. 7, 1891, in not promptly surrendering the office of Governor of Connecticut to Luzon B. Morris as the choice of 67,658 electors of this State as against 63,975 for his chief competitor, Samuel E. Merwin, and none for himself, and condemned the Republican members of the House of Representatives for attempting to repeat in Connecticut the injustices of an electoral commission, for their delay to declare the election of officers whose election they themselves admitted, and for refusing to make the investigation of the election which they themselves held to be needful, in order that no result might be reached.

MISCELLANEOUS.—Praises Mr. Cleveland and Democratic Representatives in Congress.

CONNECTICUT DEMOCRATIC, September 13.

GOVERNMENT EXPENDITURES.—Declares that while taxes for the necessary support of the Government, State and National, should be cheerfully paid, the people have good reason for requiring the strictest economy in every department of government.

TARIFF.—Declares that custom-house duties should be the chief source of supply for Government revenues, and demands removals of all tariff taxes on the raw materials out of which manufactured goods are made.

LABOR AND CAPITAL.—Declares that in its conflicts labor, the parent of wealth, is entitled to generous consideration by impartial arbitrators, and that commercial and agricultural interests should be favorably considered when necessary legislation is adopted.

CURRENCY.—"We demand a safe currency, redeemable in gold, the standard money of the world, and protest against an issue of bank bills for circulation unless they are as safely secured as are the National bank bills."

BALLOT LAW.—Upholds secret ballot law as a protection to dependant voters, and a bar against corruption.

REPUBLICAN PARTY.—Asserts that Republican party has violated the pledge of 1884 to correct inequalities of tariff and relieve the taxpayer; has added burdens to the taxpayer and industrial interests, encouraged combinations and trusts, sent out of the country more than $100,000,000 in gold, violated the essential principle of Civil Service reform, encouraged waste in public expenditure, attempted to pass a law under which free ballots will be menaced by the bayonet, confined reciprocity to the smallest nations, and withholds it from those with whom our commerce might be greatly enlarged, and embarrasses commerce by protection.

MISCELLANEOUS.—Accuses Republican House of Representatives of violating the mandate of the Constitution to secure in office, for two years, their party adherents who had been overwhelmingly defeated at the polls or had not been voted for at all. Ad-

vocates election of County Commissioners by popular vote, and minority representation in each board; election of State officers by a plurality of votes, and enactment of stringent laws to protect dairy interests against impure food products.

DELAWARE REPUBLICAN, May 5.

Indorses President Harrison's Administration, Mr. Blaine's foreign policy, the McKinley bill and its results; favors free coinage only after the establishment by international agreement of the parity of gold and silver; opposes admission of foreign-built ships to American registry; favors just and liberal pension laws; opposes the Democratic administration of State affairs, and favors the calling of a convention to revise the State constitution.

DELAWARE DEMOCRATIC, May 18.

Declares that the principles of the McKinley tariff and its customs laws are fatal to commercial welfare and freedom and the interests of labor, and praises Cleveland's administration as a blessing to the whole country, which diffused a spirit of restored brotherhood throughout a union of coequal States and maintained peace with honor without large and costly outlays.

FLORIDA REPUBLICAN, April 14.

TARIFF AND ELECTIONS.—"We indorse the McKinley bill and the Reed rules, and sadly deplore the failure of the LIst Congress to enact the Lodge bill or some other equally salient election law that would secure to the people their rights under the Constitution and maintain the integrity and dignity of the Nation."

FORCE AND FRAUD.—"We denounce the Democratic rule in Florida as dishonest and tyrannical, bred in prejudice and hatred; nurtured in cowardice and crime, it is an enormity in its construction, with unlimited power for oppression and coercion; it is weak and imbecile in its ability to protect life or punish offenders. The Florida election laws are damnable in their conception and fiendish in their operation. They are the result of a long studied plan to rob the majority of its liberties, aided and abetted by an apathy on the part of the Government to maintain the dignity of its Constitution and protect the rights of its people, and enforce the provision of its constitution which guarantees to each State a Republican form of government; and how well they serve the end for which they were designated can be best understood if we quote from the official election returns. We give below the vote of Leon, Duval, Marion, Putnam and Escambia counties in 1884 as against the vote of the same counties in 1890:

	—1884.—		—1890.—	
	Dem.	Rep.	Dem.	Rep.
Leon	834	2,198	1,206	60
Duval	1,889	3,887	1,805	284
Marion	1,494	2,007	1,416	232
Putnam	1,094	1,158	1,126	205
Escambia	1,896	1,861	1,451	102

"In Orange County the Republican vote in 1888 was 1,515, and in 1890 420. The total vote of the State in 1884 was 31,769 Dem. and 28,031 Rep.; in 1890 it was 29,176 Dem. and 4,637 Rep. What has become of the Republican vote? Robbery, murder, arson, assassination, are evidences of the patriotism and of the crimes committed in the interest of Democracy. A Democrat was appointed by a Democratic Governor as clerk of the Circuit Court of Osceola County, as a reward for services rendered the Democratic party in destroying the election returns of Brevard County in 1876. Another was rewarded for services rendered in robbing 2,000 Republicans of their votes in Leon County by making him president of the Senate in 1889. Deputy U. S. Marshal Saunders went to Gadsden County in March, 1890, for the purpose of serving papers upon Democrats under indictment for election frauds, and was brutally murdered in broad daylight, while in a buggy with a prominent Democratic leader—the fatal shots being fired at such a close range that his body was badly powder-burned, and no arrests were made or rewards offered. The Republican vote of Gadsden County in 1884 was 881; in the election of 1890, six months after this murder, there was not a single Republican vote cast in the county. Deputy U. S. Marshal L'Estrange was assassinated in Sumter County the same year, while in the discharge of his duties, and again no arrests were made nor rewards offered. The Republican vote of Sumter County in 1884 was 324; in 1890 it was 51."

STATE ELECTION LAWS.—"We denounce the Florida election laws as tyrannical in substance, and the methods and manner of carrying them into effect as infamous and equivalent to a total disfranchisement of the entire Republican party of the State, and in the interest of good government and American manhood we demand the repeal of the present election laws entirely, and that just and equal rights be secured to all political parties in all elections."

CONVICT LABOR.—"We denounce the present system of leasing the State convicts to the highest bidder, and demand that a more humane treatment be secured for them."

FLORIDA DEMOCRATIC, June 3.

Advocates liberal policy in regard to public improvements; denounces McKinley act and Elections bill; urges legislation to prevent dealing in futures, demands unlimited coinage of silver, abolition of National banks and substitution of legal-tender Treasury notes for National bank notes, and that all money issued by the Government shall be a legal-tender for all debts, public and private. Demands graduated in-

come tax, repeal of State bank tax; that the circulating medium be increased to not less than $50 per capita, and that National and State revenue shall be limited to necessary expenses of Government. Favors Government control of railroads.

GEORGIA REPUBLICAN, April 15.

CURRENCY.—"Believing gold and silver should form the basis of our circulating medium, we indorse the Sherman amended coinage act of the last Republican Congress."

CONVICT LABOR.—"Resolved, That it is the duty of the State to abolish the chain gangs, as inhuman and barbarous, and as being abhorrent to enlightened civilization, the detriment of honest labor, and repugnant to the principles and purposes of human punishment; that the Penal Code of this State is, in many of its provisions, merciless and cruel, and that the same should be so amended as to conform its punishment to the spirit of this enlightened age."

GEORGIA DEMOCRATIC, May 18.

SILVER AND CURRENCY.—"We demand the free and unlimited coinage of both silver and gold on a parity with each other, to the end that the money of the people shall be of such quantity and quality as was originally contemplated by the Constitution. We desire that a uniform system of banking be provided for by the legislature of Georgia, with a flexible, expansive State bank currency. We further demand that the prohibition in the national bank law against accepting real estate as security for loans shall be stricken therefrom. We demand that the amount of circulating medium be speedily increased on a sound basis sufficient to meet the needs of the country."

FUTURES.—Demands that Congress shall pass laws to prevent dealing in futures.

MISCELLANEOUS.—Demands that national legislation shall be so framed in the future as not to build up one industry at the expense of the other; denounces the present tariff, and demands a removal of the existing heavy tariff tax from the necessities of life that the poor must have; demands a just and equitable system of graduated tax on income; that the money of the country be kept as much as possible in the hands of the people, and that all State revenue be limited to the necessary expense of the Government economically and honestly administered.

Demands also retrenchment and reform in the expenditure of national revenue, "and especially a correction of the present pension system, which rests like a mammoth war tax on our section of the Union."

GEORGIA DEMOCRATIC, August 10.

Pledges anew loyalty and devotion to the time-honored principles of democracy as promulgated and practised by the fathers and sages of the party; indorses National platform and nominees, and commends administration of Governor W. J. Northen, and the State House officers "whose most honest and economical management of the affairs of the State has conduced so largely to the progress and prosperity of the people."

IDAHO REPUBLICAN, May 6.

SILVER.—"The Republican party to-day is confronted with the alternative of restoring silver to free and unlimited coinage or losing the results of protection. The anti-silver policy of the Government is lowering the prices of all products and wages and they must eventually be involved in a disastrous decline, notwithstanding the protective system."

IDAHO REPUBLICAN, August.

SILVER.—Reiterates position on silver announced at Republican convention at Pocatello, and while favoring pending international conference, unalterably opposes any final settlement of the question on any other basis than that of free and unlimited coinage of silver, either upon the present or some other satisfactory ratio that will give that metal a fixed value at U. S. mints, and prevent its constant depreciation by the stock gamblers of Wall Street; also favors law of Congress creating a department of mines and mining, so that the leading industry in the U. S. may be properly represented and fostered in the councils of the Government.

FAIR ELECTIONS.—Declares that the essence of Republicanism lies in the maintenance of law and order, free and candid discussion of all public questions on their merits, and peaceful appeal to the ballot box for the redress of grievances, and condemns all acts of lawlessness, by whomsoever committed, and pledges to every person in the State prompt and equal protection of the laws.

LABOR.—Opposes any monopoly of the right of labor, favors organized labor, but suggests that all labor organizations should be conducted in the spirit of American institutions, and administered in subordination to the laws of the land; declares that every person has the right to earn an honest living, free from interference or wrong from any person or organization whatsoever, and that such right should be amply protected by law; that all labor, whether organized or not, should be protected against the unjust exactions of capital; condemns that system which compels an employe to patronize store or other business of employer or his managing agent, and pledges the Republican party to the passage of a law establishing Boards of Arbitration.

TARIFF.—Strongly favors protection, and especially commends the plank in the National platform for establishing a certain and definite guide in tariff legislation.

WORLD'S FAIR.—Pledges support of the Republican members of the next Legislature of Idaho for a liberal appropriation toward the Idaho display at the World's Fair.

IMMIGRATION AND SUFFRAGE.—Demands the immediate amendment of immigration and naturalization laws, and the adoption of an amendment to the Federal Constitution limiting the suffrage of all elections to citizens of the U. S. able to read the Constitution and to write their own names.

MORMONS.—"We congratulate the Mormon Church on the recent declaration abandoning polygamy and on the divorce of church and state in all political concerns; and accepting their declaration as sincere, we pledge the party that with the continuance of the evidence of this sincerity, we will at the next session of the Legislature restore to its members the full political privileges of citizenship secured to all others."

MISCELLANEOUS.—Calls attention of National administration to unnecessary delay in allotting the lands of the Nez Perce Indian reservation, favors the immediate passage of a law by Congress by which the postoffices can be used as savings banks of deposit and exchange, and indorses timely and energetic action of Governor Willey in promptly enforcing the State laws.

IDAHO DEMOCRATIC, August 25.

Favors free and unlimited coinage of silver, and denounces the proposed international monetary conference as a scheme of the gold-bugs; also pronounces against trusts; denounces the McKinley bill; favors liberal pensions to veterans of the civil war, and a generous appropriation for the State exhibit at the World's Fair.

ILLINOIS REPUBLICAN, May 5.

Avows devotion to the principles of the Government under Republican auspices, which have achieved such signal triumphs in the public welfare; declares the unexampled prosperity of the Nation to be the most forcible demonstration of the wisdom of Protection as expressed in the McKinley law; pledges unfaltering support to Reciprocity; heartily indorses the "wise, patriotic and thoroughly American Administration" of President Harrison; instructs the delegation to the National Convention to support him for renomination; recognizes the prudent and brilliant conduct of the State Department by Secretary Blaine, and the vigor and wisdom which characterize the Navy and other Departments of the Government; arraigns the Democratic party for treachery to the cause of honest money; indorses the Republican defence against spoliation and degradation of the National currency in the threatened free coinage of silver at a false value; favors an international conference looking to restoration of silver in the monetary system of the world; condemns the suppression of the colored vote of the South; favors legislation, National and State, against trusts and other forms of industrial tyranny; commends the anti-trust legislation of the last Congress, favors Governmental supervision to subordinate all corporations to the public welfare, and to this end urges the proper amendment and rigorous enforcement of the Interstate Commerce act and the establishment of the Government postal telegraph and telephone systems; urges the establishment of a department of labor for promoting the dignity and interests of the American workingmen; demands further legislation to exclude paupers, criminals and contract labor; favors further proper pension legislation; indorses the administration of Governor Fifer, and the faithful services of Senator Cullom and the Republican representatives of Illinois in Congress; and pledges the Republican party to the repeal of the present Compulsory School act, and the enactment of a new law which shall not interfere with parochial or private schools.

ILLINOIS DEMOCRATIC, April 27.

TARIFF.—"We demand an immediate revision of the tariff, free raw material, a reduction in the duties on the necessaries of life, and such changes in the shipping and navigation law as shall restore the American merchant marine and the supremacy of the American flag upon the high seas."

MONEY.—Favors the gold and silver coinage provided by the Constitution of the U. S., and a currency convertible into such coinage without loss to the holder, and recommends an invitation by our Government to the commercial powers of the world for an international conference to fix a ratio between the values of gold and silver so that parity may be maintained between the two metals and all mints thrown open to free coinage.

EDUCATION.—Denounces Republican party for enacting a law which tends to bring the cause of popular education into disrepute; demands its unconditional repeal, and pledges party candidates for the Legislature to vote and work to that end.

TRUSTS.—Denounces trusts, and demands from Legislature stringent laws to aid the judicial branch of the State in stamping out such iniquitous devices of monopolists to defraud the people.

LABOR.—Favors the prohibition of child labor, boards of arbitration to adjudicate all controversies between capital and labor, demands the protection of life and property of American citizens at home and abroad, regardless of race, color or previous condition, and favors all laws that can be enacted under the present Constitution that will prohibit the truck system, enforce weekly payment of wages in cash, fair weights and measures wherever used in fixing compensation, or an amendment to the Constitution under which laws can be enacted.

MISCELLANEOUS.—Denounces reckless extravagance of billion-dollar Congresses; insists that the autonomy of the States and the rights of local self-government and home rule should be zealously guarded; that no money should be taken from the people under any pretext for other than public purposes; that the strictest economy should be exercised in all governmental expenditures, and that the legislation should be confined to the legitimate objects of Government, and favors election of U. S. Senators by direct vote.

INDIANA REPUBLICAN, March 10.

FAIR ELECTIONS.—Insists on a pure ballot and fair count.

PROTECTION AND RECIPROCITY.—Demands that manufacturing and labor interests should be protected by duties on imports, and by excluding the criminal and vicious classes of other countries, and indorses reciprocity.

MONEY.—"We are in favor of honest money, of a dollar that, whether it be of gold, or silver, or paper, shall be of like value in the payment of debts."

LIST CONGRESS.—"We indorse the acts of the List Congress which, in the main, fixed in the laws of the land the principles advocated by the Republican party in the campaign of 1888, thus fulfilling its promises to the people."

INDIANA DEMOCRATIC, April 20.

Declares that the powers delegated by the people should be strictly construed; that the autonomy of States and the rights of local self government and home rule should be zealously guarded; that no money should be taken from the people under any pretext for other than public purposes; that the strictest economy should be exercised in all Government expenditures, whether local, State or National; that legislation should be confined to the legitimate objects of government; that public office is a solemn public trust. It is uncompromisingly opposed to the enlargement and concentration of Federal powers, to the usurpation by the general Government of the functions of the States, to bounties and subsidies in every form, to every species of class legislation and Government partnership with private enterprise, to the whole theory of paternalism. "We believe that in a free country the curtailment of absolute rights of the individual should only be such as is essential to the peace and good order of the community, and we regard all legislation looking to the infringement of liberty of person or conscience, not absolutely necessary to the maintenance of public order, as vicious in principle and demoralizing in practice."

THE ADMINISTRATION.—Arraigns Harrison Administration for its subserviency to the interests of the money power, and indifference to the welfare of the people; its violation of Civil Service pledges, prostitution of public patronage to partisan purposes, contemptuous repudiation of promises to veteran soldiers, its attempt to fasten on the country the un-American Force bill, and its weak and demagogical foreign policy.

TARIFF AND RECIPROCITY.—"We favor such a radical and comprehensive measure of tariff reform as shall relieve the necessities of the people and crude material of our manufactures from Federal taxation. We condemn the so-called reciprocity policy as a transparent attempt to impose upon the American people the shadow of commercial freedom for its substance, in order to perpetuate the existing system of licensed spoliation for the benefit of trusts and monopolies, which are the chief support of the Republican party."

MONEY.—"We believe that there should be kept in constant circulation a full and sufficient volume of money, consisting of gold, silver and legal tender paper currency at par with each other."

MISCELLANEOUS.—Approves passage of school-book law; denounces the "book trust;" praises Australian ballot law; demands liberal pensions; Commissioner Raum's removal; indorses the new tax law; condemns Governor Hovey for recommending an increased tax levy; denounces the conspiracy to create prejudice against the new tax law by local increases of taxation; demands the passage of a law taxing greenbacks like other money, and interstate commerce the same as domestic commerce; approves law for paying State officials by salary instead of fees; eulogizes the public school system, and favors election of U. S. Senators by direct vote.

IOWA REPUBLICAN, March 17.

THE ADMINISTRATION.—Cordially indorses the Administration of President Harrison as a worthy successor to the series of Republican Administrations begun by Lincoln, and praises the President for keeping every pledge made by his party; maintaining a sound policy at home and the National honor abroad, and surrounding himself by a Cabinet which has in every department deserved well of the party and country, and added new strength and laurels to American statesmanship.

MISCELLANEOUS.—"We appeal to Republicans in all parts of the State to unite, disregarding all local differences, and on the platform of National Republicanism, the maintenance of Protection, the full establishment of Reciprocity as a policy of the Government, which is one of the great achievements of Republican statesmanship, the elevation and prosperity of labor, the maintenance of a sound currency, every dollar of which shall be the equal of every other dollar, and of securing to all American citizens, white or black, their equal legal rights, the Republicans of Iowa shall re-establish its old political rank and make the State triumphantly Republican in November."

IOWA REPUBLICAN, June 29.

NATIONAL CONVENTION.—Ratifies and approves nomination of Benj. Harrison Whitelaw Reid, also the Republican National platform, and points with special de to the attitude upon the tariff issue, the silver problem, the temperance ques-, and its demands for a pure and untrammelled ballot.

STATE BANKS.—Denounces the Democratic party for its declaration in its recent tional convention in Chicago insisting upon the abolition of the National tax on issue of State banks. "After more than a quarter of a century of continuous sperity with a sound currency under the wise and beneficent system evolved and ntained by the Republican party, we condemn and denounce the attempt to rein-te wildcat money and worthless bank notes, which at one time ruined all financial rests of the country."

IOWA DEMOCRATIC, May 11.

TARIFF.—Denounces existing protective tariff and declares that tariff reform is the amount issue in the campaign.

SILVER.—"The Democratic party, recognizing the Nation's obligation to maintain a nd and honest currency of equal value in all its forms, and of sufficient volume to serve a just proportion between its purchasing power and the cost of the products labor at liberal wages, reaffirms its adherence to the financial system of the ers of the Republic based on equally free bimetallic coinage, and hereby declares unqualified opposition to all legislation calculated to reduce either of the precious als to the position of a commodity alone by establishing the other as a single stand- for the measurement of values."

IOWA DEMOCRATIC, August 18.

NATIONAL CONVENTION.—Indorses Chicago platform, nomination of Grover veland and Adlai E. Stevenson, and hails the opportunity for a full discussion determination by ballot of paramount issues, to wit: Radical reforms in the tariff the maintenance and perpetuity of the doctrine of local self-government.

TARIFF.—"We recognize the effort of the popular branch of the Congress of the S. to secure reform of the tariff, and we condemn the Republican Senate for fail- to consider measures passed by the popular branch, particularly when the people mselves had declared against the high protective policy represented by the Mc-ley bill by an overwhelming majority in the election of 1890. The failure of Republican National Administration and the Republican Senate to bow to the dict of the people at the polls is a denial of the right of popular sovereignty, such was not contemplated by the founders of the republic and such as would not be rated in any other civilized country on the globe."

LABOR.—Charges conflicts between capital and labor on the Republican party, which for its object the disbursement of taxes among a favored few and the maintenance the privileged classes at the expense of the masses; and while insisting that vio-ce and disorder must be restrained under all circumstances, and that the ballot-box the place for the determination of such vital questions, declares the proper solu- of present problems can be found only by returning to the simple original prin-les enunciated by the founders of the Republic.

LIQUOR TRAFFIC.—Reiterates principles enunciated in the platforms of the ra Democracy since 1889 touching regulation of liquor traffic; commends the mocratic members of the last General Assembly for their honest efforts to ure reform legislation, and promises the enactment of laws which shall give the ple in their respective localities management and control of the liquor traffic.

ELECTION OF UNITED STATES SENATORS.—"We declare our purpose to minate candidates for the U. S. Senate in general convention; and demand such nge in our National Constitution as will permit the election of the same by ect vote of the people."

MISCELLANEOUS.—Denounces as un-American any society or organization dged to deprive any citizen of his right to vote or hold office on account of re-ious belief or nationality; commends the abolition of separate boards of trustees l the substitution of a single board of control, non-partisan in its character, partial as between the several institutions and thoughtful of their interests and se of the State alike; insists on just and equal State taxation, and favors te movement for better roads.

KANSAS REPUBLICAN, May 5.

Demands an amendment to Interstate Commerce law to prohibit discrimina-n in freight rates; urges more stringent legislation against immigration of pauper eigners, and reaffirms adherence to the platform of 1888 in favor of Protection.

SILVER.—"We urge the passage of such laws as will increase the coinage of sil-, looking to the coinage of the production of our own mines as soon as it can be e without injury to the business interests of the country, and we approve the ef-ts of the present Administration in seeking the co-operation of the principal mmercial nations of the world in bringing silver to parity with gold as the cur-ncy of the world."

KANSAS REPUBLICAN, June 30.

Opposes gambling in futures, favors free delivery of mail in country districts; de-nds preservation of purity of ballot, and favors woman suffrage.

KANSAS DEMOCRATIC, April 20.

TARIFF.—Favors tariff reform, and declares for a tariff for revenue only, raw materials to be admitted free of duty.

SILVER.—"We believe the gold basis of currency insufficient, and that free and unlimited interchange of gold and silver is demanded by the necessities of the people as money, and not as articles of commerce, and we invite all nations to unite in securing this end."

MISCELLANEOUS.—Urges election of U. S. Senators by popular vote, favors liberal pensions and denounces present administration of the Pension Bureau.

KENTUCKY DEMOCRATIC, May 25.

Condemns Republican party for McKinley act, Elections bill, extravagant pension laws, and waste of public funds; demands sound and stable currency composed of or redeemable in gold and silver coin, and free coinage of silver without detriment to any business interest. Declares that intelligent and patriotic legislation upon this subject can be expected only from the Democratic party.

LOUISIANA REPUBLICAN, January 19.

Pledges unswerving devotion to Republican principles; favors an honest ballot and a fair count; declares it essential to the continuance of the Government that the XVth Amendment should be enforced; denounces the Democratic party, which has maintained itself by violence and fraud; protests against political intimidation and the murders which have so long disgraced the State; favors liberal appropriations for free public schools; indorses the present levee system and the sugar bounty; commends the wise and statesmanlike Administration of Benjamin Harrison; recommends the delegates from this State to support the renomination of Harrison; denounces trusts and monopolies and opposes the Louisiana Lottery and the revenue amendment, and any scheme that proposes to legalize gambling.

MAINE REPUBLICAN, April 27.

"The Republicans of Maine, assembled in State convention, look with gratification upon the many evidences seen in all parts of the country of the popular strength of the party, and approach the impending campaign with hope and confidence. They pledge anew their faith in the great principle to which the party is committed—the protection of American labor, joined with its ally and handmaiden, Reciprocity, and a sound currency for the people; the political rights of all citizens; the purity of the ballot, and a wise and prudent administration of the general Government."

MAINE REPUBLICAN, June 21.

Approves the unexampled growth and prosperity of the country under Republican auspices; favors protection to American labor, and Reciprocity; a sound currency in which the aim shall be to keep gold and silver at a parity; advocates immigration restriction, to exclude convict and pauper labor and criminal classes; anticipates the return of the Republican party to power in the National House of Representatives and the rescue of that branch of the Government from the control of the Democratic party; and recognizes "the remarkable success of President Harrison's Administration, which, in every department, has been conducted with wisdom and prudence, and which has been characterized by a series of triumphs in all its policy, both at home and abroad."

MAINE DEMOCRATIC, June 8.

Favors the making of election days, both State and National, legal holidays; the repeal of such portion of the prohibitory law as provides for the appointment of State constables in each county, deeming them useless and expensive, and that portion of the law which places hotels and drug stores where liquors are sold in the same category as common nuisances, with houses of ill-fame; opposes the McKinley Tariff law; declares for free raw material; opposes the adoption of the proposed Constitutional Amendment regarding the qualification of electors, and calls for the resubmission to the people of the Constitutional Prohibitory Amendment.

MARYLAND REPUBLICAN, May 4.

Declares firm adhesion to protective policy of Republican party; commends reciprocity; favors a dollar, whether gold, silver or paper, which shall be worth 100 cents; and indorses Harrison administration.

MASSACHUSETTS REPUBLICAN, April 20.

SILVER.—"The Republicans of Massachusetts, in harmony with the Republicans of the U. S., stand opposed to the free coinage of silver, and we, their delegates, denounce the measure supported in the present Congress by the vast majority of the representatives of that party which opposed the resumption of specie payments, gave itself up in the time of the country's greatest financial danger to every dishonest scheme which promised its restoration to power and still maintains its attitude as the consistent foe of an honest dollar. The passage of the bill now pending in Congress, which was temporarily defeated by the practically united action of the Republican members, would derange values, reduce the pay of labor, impair the obligation of contracts, and put our currency on the silver basis of the Asiatic nations. Our unit of value should be maintained at par with the money of the commercial world, and great as were the benefits of the silver law of 1890, great for what it averted as well as for what it secured for the country, we be-

an party for demonetizing silver; commends to Congress the fact that a la ge majority of the people of the State are in favor of restoring silver to its rightful lace as the coin of the Nation, co-equal with gold; declares that it is the duty of ie State Legislature to establish a proper tribunal with power to summon defend- its before it, adjust all disputes and enforce its judgments by proper process; ledges the Michigan Democracy to the establishment of a labor tribunal; favors ection of mine inspectors by direct vote of the people; recommends a commission devise means for the improvement of country roads; denounces convict labor, nd recommends laws to change the present system under which prisoners are em- loyed in constructing the State highways.

MICHIGAN PROHIBITION, March 18.

Asks that the sale and manufacture of liquor be made a public crime; demands qual suffrage regardless of sex; that gold, silver and paper all be made full egal tender, and that none but the Government issue money; that trusts and ombinations be prohibited by law; that farmers and industrial parties be invited o co-operate for the overthrow of class legislation; that the tariff be revised on usiness principles by experts, on a revenue basis only; that railroads, telegraph, elephone and express companies be owned by the Government; that pauper and riminal immigrants be excluded and foreigners not permitted to vote until one year fter taking out papers; avers that Prohibition party cannot entertain any proposi- ion to co-operate with a reform party which does not antagonize the liquor traffic s earnestly as it does any other monopoly and vicious legislation; urges that in- lividual and corporate ownership of land be limited; and favors a per diem pen- ion law.

MINNESOTA REPUBLICAN, May 5.

Renews declaration of belief in the principles of the Republican party and heartily ndorses the wise and statesmanlike Administration of Benjamin Harrison, which has ourageously upheld the Nation's honor and dignity at home and abroad, and pro- noted peace and prosperity in every section of the Union, maintained our credit, nd widened the influence of our ideas and institutions.

MINNESOTA REPUBLICAN, July 28.

TRUSTS.—Opposes trusts, favors legislation to eradicate and repress the evil, and efers with pride to the establishment at the State prison at Stillwater of the manu- acture of binding twine, thus protecting and defending farmers against one of the reat monopolies.

LABOR.—Favors suitable laws to protect the health, life and limb of all employes f transportation, mining and manufacturing companies while engaged in the ser- ice of such companies; boards or tribunals of conciliation and arbitration for the eaceful settlement of all disputes between capital and labor touching wages, hours of abor and questions pertaining to the safety and physical and moral well-being of the aborer; the exclusion of all foreign paupers, criminals, contract labor and other dan- erous classes; and the preservation of the public domain for actual and bona fide ettlers under the Homestead law.

OPEN MARKETS.—Favors such laws as will give farmers cheap, safe and easily btainable elevator and warehouse facilities, and furnish them promptly and without iscrimination, at fair and reasonable rates, proper transportation facilities to all ac- essible markets.

CORPORATIONS.—Favors laws compelling railroad, telegraph and telephone com- panies and all corporations or individuals charged with and performing any public ervice or employment to render the best and most approved service at a fair and easonable rate without discrimination.

MISCELLANEOUS.—Recommends the work and the object of the State League of Republican clubs and advises a continuance of the same, favors systematic improve- ment and maintenance of public highways, praises administration of Governor William R. Merriam, insists on free ballot and fair count, presents to Legislature of 1893 name of Cushman K. Davis for United States Senator, urges passage of Washburn-Hatch anti-option bill, and favors liberal pension policy.

MINNESOTA DEMOCRATIC, March 31.

SILVER.—"We hold, in accordance with the traditional policy of our party, to the use of both gold and silver, and that the sole coinage function of the Govern- ment is to examine the relative values of the metals of coinage as established by the commercial world, and if there has been a sufficient fluctuation in the value of either to make the existing ratios unequal, then to readjust the ratios so that the number of grains of either metal in the unit of coinage, the dollar, shall be equivalent in value, and then to permit the free, unrestricted coinage of both metals. We join the Democracy of New-York in demanding the repeal of the Sherman silver- coinage act. We condemn that act as an attempt to distract the friends of honest bimetallism and denounce it as calculated to debase our currency, contract the circu- lating medium, and wreck the confidence and safety of the business world."

MISSISSIPPI DEMOCRATIC, June 8.

Condemns the McKinley bill and the "outrageous Force bill," indorses the Ad- ministration of Grover Cleveland, and calls on all good men, irrespective of past differ-

ences, to remember the records of the Republican party in its control of the South, asserting that its dominance is a perpetual menace to domestic tranquillity.

MISSOURI REPUBLICAN, April 28.

TARIFF.—Indorses tariff legislation of 51st Congress and declares that the protective policy of the Republican party, embodied in the McKinley bill, has, after a trial of nearly two years, fully vindicated the wisdom and statesmanship of its framers.

CURRENCY.—"We commend the policy of the Republican party in maintaining an honest currency; we not only favor legislation that will maintain our gold, silver and paper money on a parity in value, but also favor an international monetary system as the only safe solution of the silver question."

TRUSTS.—"Monopolies and trusts, oppressing the people or unfairly discriminating against local interests, are wrong in principle, and should be prohibited by law, rigidly enforced by the authorities of the State and Nation."

FAIR ELECTIONS.—Favors free ballot and fair count and condemns that feature of the election laws of Missouri whereby the Recorder of Voters is empowered to appoint not only the judges and clerks of election for the Democratic party, but for the Republican party also, and insists that the executive committee of each party should have the right to name for judges and clerks of election those who are known to be strictly party men, sincere and honest in their convictions and alone anxious for the success of their party nominees and not those of its opponents; demands immediate steps to purge the registration books now in use of the hundreds and thousands of names of dead men and non-resident voters that are carried thereon purposely year after year and voted under the protection of the party in power in larger cities and towns; requests the State Legislature to take necessary action and denounces the Democratic Legislature for having so framed the Australian ballot law as practically to disfranchise independent voters not identified with either the Democratic or Republican party.

MISCELLANEOUS.—Demands equal taxation, reaching corporations as well as individuals, the valuation of the property of corporations on the same ratio as the property of individuals; denounces the Democratic Legislature for its gerrymander of the Congressional districts so as to disfranchise 236,000 Republican voters, and of the judicial circuits, thereby identifying the judiciary with party politics; favors liberal pension policy, and rigid enforcement of contract labor law.

MISSOURI DEMOCRATIC, May 11.

Denounces the McKinley bill, the "Force bill," the "Billion Congress," and arraigns Benjamin Harrison, President of the United States, as instigator and defender of all these crimes against the public welfare.

SILVER.—"We demand the repeal of the Sherman bullion-storage act, which makes of silver a commodity, and the National Treasury a partner in Wall Street speculation; that demoralizes trade, deranges values and debases the currency. We hold to the use of both gold and silver as the money of the country, and maintain that the sole function of the Federal Government is to ascertain the relative value of the money metals, and, in case there has been a sufficient fluctuation in the relative value of the two metals to make the existing coinage ratio unequal, we hold that it is the duty of the Government to readjust the coinage ratio and keep its mints open for the free coinage of both metals instead of discontinuing the coinage of either, to the derangement of commodity values and the contraction of the currency below the natural basis of supply."

MONTANA REPUBLICAN, May 9.

PROTECTION AND RECIPROCITY.—Reiterates advocacy of Republican doctrine of protection, recognizes in the McKinley bill the most consistent and beneficent embodiment of that great principle that has ever graced the statute books of the U. S.; indorses reciprocity; denounces vicious attempts of Democrats in Congress to undermine protection by the insidious and dishonest method of attacking the system through those industries that are not numerically strong at the polls, or in Congress, and, in particular, denounces the free wool bill; condemns the action of Representative W. W. Dixon in voting in favor of that repeal; also denounces efforts of Democrats in Congress to admit free of duty the lead ores of Mexico, a measure that would expose the labor of Montana to competition with that of a country where wages scarcely exceed 50 cents a day, and bring ruin and disaster upon the great mining industry which is so large a factor in affording employment to workingmen, in the creation of wealth and in promoting the prosperity of the State.

CURRENCY AND SILVER.—"We view with pleasure the demand from all sections of the country and all classes of our people in behalf of the free coinage of silver in the ratio existing previous to the act of 1873, and that it be made a legal tender in all sums and for all debts, public and private, except when otherwise expressly provided; we believe it to be in an essential degree obligatory upon the Republicans of the silver producing sections of the country to raise their voice in unison with those who are moving forward in the Congress of the U. S. and in the conventions of the party to promote this just and most beneficent policy; and our delegates to the Republican National Convention are accordingly instructed to strive diligently to secure recognition for the cause of free and unlimited coinage in the platform and candidates of the party."

FRAUD.—"The Democratic party, by its complicity in frauds upon the ballot-box,

by its continued suppression of one-half of the lawful vote in the Southern States, by its scandalous gerrymandering in the creation of Congressional districts and by the impudent felonies with which it secured a majority of the Legislature of New-York, stands arraigned before the bar of public opinion as an organized conspiracy against a fair and pure ballot and all of the vital principles of a representative form of government."

MISCELLANEOUS.—Demands vigorous measures for permanent exclusion of Chinese, favors revision of immigration and naturalization laws and liberal pensions.

NEBRASKA REPUBLICAN, August 4.

LABOR.—"We deplore the occurrence of any conflict between labor and capital; we denounce the agitation of demagogues, designed to foment conflicts, and we most earnestly disapprove the use of private armed forces in any trouble between them. We believe that an appeal to law and its officers is ample to protect property and preserve the peace, and favor the establishment in some form of boards or tribunals of conciliation and arbitration for the peaceful settlement of all disputes between capital and labor."

OPEN MARKETS.—"The farmers of this State, who constitute the chief element of our producing, wealth-creating population, are entitled to the cheapest and best facilities for storing, shipping and marketing their products, and to this end we favor such laws as will give them cheap, safe and easily obtainable elevator and warehouse facilities, and will furnish them promptly and without discrimination at a just and equitable rate proper transportation facilities for accessible markets."

MISCELLANEOUS.—Favors amendment to Constitution providing for an elective railroad commission empowered to fix local passenger and freight rates; favors postal telegraph and postal savings bank systems and rural free delivery; also anti-trust legislation.

NEBRASKA DEMOCRATIC, April 14.

TARIFF.—"We declare our steadfast adherence to the declarations and principles laid down in the National Democratic platform of 1884, and in that sterling message to Congress by that fearless Democrat, Grover Cleveland, in which this Nation was aroused as never before to a sense of the great injustice to the American people by the high Protection war tariff laid upon them. We denounce that most infamous law known as the McKinley bill."

NEVADA REPUBLICAN, April 30.

Condemns the Republican party of the Eastern States and Harrison Administration in so far as they have failed to accomplish the complete remonetization of silver and to enact laws providing for the free and unrestricted coinage of that metal; declares that the restoration of silver is essential to the prosperity of the country and paramount to all other political considerations; instructs the Minneapolis delegates to contend for a plank favoring free coinage and to oppose nominations for President or Vice-President of men not pledged to it.

NEVADA REPUBLICAN, September 1.

Indorses fully action of Harrison Administration, except as to finance; favors free coinage of gold and silver; looks with hope and encouragement to the approaching International Monetary Conference, though affirming confidence in power of American Republic to restore and maintain the parity of the two metals at the ratio of 16 to 1; advocates an increase of the currency; indorses the construction of the Nicaragua Canal; favors the amendment of immigration and naturalization laws and declares that the cause of silver can only win by calm discussion and not by association with "Free Tradeism, Greenbackism and communism."

NEVADA DEMOCRATIC.

Declares unalterable devotion to bimetallism and the free and unlimited coinage of silver. The State delegates to Chicago were instructed to vote for no man for President or Vice-President who is not in favor of the free coinage of silver. The convention declared itself absolved from all obligation to support the nominees of the National Democratic party unless they favor the free coinage of silver and stand on a free silver platform.

NEVADA SILVER CONVENTION, September 1.

Adopts the Republican State platform of April; favors unequivocally free coinage of silver, and declares that this question is paramount to all others.

NEW-HAMPSHIRE REPUBLICAN, April 27.

Indorses Administration of President Harrison, approves the bold, well-directed and successful efforts of the Republican majority of the House of Representatives in the LIst Congress to redeem the pledges upon which the Presidency and control of that Congress was won in 1888; invites intelligent voters to compare the achievements of that Republican House, since justified by results and upheld by the Supreme Court, with the grotesque performances of its successor; demands nomination by the convention at Minneapolis of candidates whose character and record are such that they will be recognized without platform or pledges, as representatives of the party that stands for tariff protection of home industry and enterprise upon the lines of the McKinley law, including the raising of necessary revenues by compelling foreigners to pay for the privilege of exchanging their merchandise for our money.

rather than by taxing our own citizens; free trade in articles which we cannot produce and upon which the tariff is a tax, and reciprocal arrangements which will open foreign markets to our products without destroying the domestic demand. Advocates an honest currency which cannot be used to rob wageworkers, pensioners or other private or public creditors of their just dues, and which will be accepted for what it purports to be at all times and under all circumstances without compulsion; a free ballot and an honest count and the rule of the majority; the assertion of the Nation's rights and the defence of the Nation's honor in all countries and upon all seas; the completion of a powerful Navy and adequate coast and harbor defence; substantial support of the merchant marine; liberal appropriation for internal improvements; a prompt and generous settlement of the just claims of the Union veterans and a sturdy defence of all else that goes to constitute aggressive and uncompromising Republicanism.

NEW-HAMPSHIRE DEMOCRATIC, May 11.

TARIFF.—Approves of "a system of taxation so adjusted as to produce the necessary revenues for the legitimate requirements of an honest government economically administered, with the least possible burden upon the people, and affording such incidental protection as meets every reasonable demand of American labor," and denounces the protective system embodied in the McKinley bill as "antagonistic in spirit and purpose to every principle of honest government; as strengthening monopoly rather than encouraging labor, and fostering trusts and combinations, which gather in the substance of the people and in return for the privileges pay a liberal tribute into campaign funds of the party through whose instrumentality that system has been established and maintained."

CURRENCY.—Favors a currency sufficient in volume for the proper demands of business, but presenting no device which can be manipulated to the advantage of any individual or class at the expense of any other currency whose every dollar is equal in value to every other.

NEW-HAMPSHIRE DEMOCRATIC, September 8.

TARIFF.—Reaffirms the Chicago platform and declares that the present Republican Administration came into power pledged to advance the interests of the overprotected monopolists by turning over to them the taxing powers of the Government in exchange for the corruption fund with which it purchased its elections; that the legislation it has imposed upon the country, especially the McKinley bill, has been enacted by resorting to absolutely revolutionary methods; declares that "our tariff laws should be adjusted with reference to the interests of the manufacturer and laborer, and the consumer alike," and "condemns the specious and false pretences of the Republican party that our manufacturing and industrial prosperity has been, or is, the result of tariff laws which were dictated and passed for the special purpose of building up the enormous private fortunes of the few at the expense of the toiling masses."

ELECTIONS AND CURRENCY.—Denounces the "Force" bill, LIst Congress, and the Harrison Administration, through which every insidious scheme for debasing the currency has become imminent.

MISCELLANEOUS.—"We call upon the people of this State at the coming election to aid us in righting the flagrant wrong committed at the assembling of the last Legislature, when a subservient clerk nullified the election of Representatives throughout the State, and an armed mob, at the command of a revolutionary Governor, filled the Capitol and insulted the people's representatives while the larceny of the State Government was accomplished." The resolutions insist that all corporations be held by law to a strict performance of their obligations to the people; assert that the rights of labor must be guarded and fostered; favor the principle of arbitration and conciliation in the settlement of disputes between labor and capital, and demand better liquor laws.

NEW-JERSEY REPUBLICAN, April 27.

Approves McKinley bill and uncompromisingly opposes all attempts to debase the National currency, upholding President Harrison and the Republican party in firm and unyielding opposition to the free coinage of a 70-cent silver dollar, and demanding no silver dollar that is not equal here and everywhere to any other dollar.

NEW-JERSEY REPUBLICAN, September 13.

NATIONAL PLATFORM.—"We approve and indorse the declaration of principle as set forth in the platform adopted by the Republican National convention at Minneapolis on June 9, 1892.

TARIFF.—Reaffirms belief in protection, opposes pernicious doctrine of free trade, whether presented in its own true name or disguised as tariff reform, and repudiates Democratic doctrine as enunciated in the platform of that party that "the Federal Government has no constitutional power to impose and collect tariff duties, except for the purpose of revenue only.

TRUSTS.—"We denounce as utterly vicious, scandalous and contrary to public policy the passage by the last Democratic Legislature, under the direction of a Democratic executive, with the co-operation of the members of the Democratic State Executive Committee, of a bill to legalize an unconstitutional and pernicious combination of corporations engaged in the production and carrying of coal, as the result of which the prices of this necessary commodity have been increased and the burdens of consumers have been vastly augmented. We remind the people that this legislation affects not

only men of wealth and the great industries of the State, but increases the cost of living to that more numerous class who are compelled to meet the increased burden out of the proceeds of their daily toil."

STATE DEMOCRACY.—"We arraign the Democratic party of the State for the atrocious crimes against the rights and liberties of the people. We pledge ourselves to the thorough reform of these evils, and we appeal to all patriotic voters in the State to aid us in the re-establishment of a government of which Jerseymen need not be ashamed. We are opposed to an administration of the State Government for personal uses, the subserviency of the Legislature and the courts to executive dictation; to the abolition by the Legislature under executive orders of local home government; to the multiplication of public offices and the increase of salaries for the furtherance of personal and political ends; to the appointment of public officers for a stated consideration to be paid to the party campaign fund; to the pardon of convicts in the State Prison; to the unheard of extravagance of the present State Administration in the expenditure of public money; to clothing the Governor with dictatorial powers by acts of a Legislature obsequiously subject to executive control; to the creation of unnecessary boards and commissions for partisan purposes, investing them with arbitrary powers, and placing them beyond the control of the people, making their terms of office subject to the will of the Government; to evasions and misconstructions of the Constitution by the chief executive to secure political and personal support; to the countenance and support by State officers and party leaders of race track gambling, with all its attendant evils; to the destruction of the right of suffrage by false registry, ballot-box stuffing and fraudulent count of votes, and to the general maladministration of public affairs, which during the present current administration have brought shame and disgrace upon the State."

MISCELLANEOUS.—Indorses principles set forth in the communication from the colored voters of New-Jersey, at Trenton, on September 12, 1892; demands that Charles M. Robinson, of Camden, be added to the Republican State Committee; favors an act restoring the proceeds of a sale of riparian lands to the State School Fund; indorses Harrison administration; favors arbitration between capital and labor, profit-sharing, reduction of hours of labor, tenement and factory inspection, and home rule, especially in New-Jersey local governments.

NEW-JERSEY DEMOCRATIC, May 25.

SILVER.—"We condemn the policy of free coinage of depreciated legal-tender silver and also further purchases of silver bullion under the Republican legislation of 1890, and we believe that the whole matter of the use of silver as a money metal should be relegated to the further concerted action of the commercial nations."

NEW-JERSEY DEMOCRATIC, September 14.

NATIONAL PLATFORM.—Indorses National platform and candidates.

FRAUDS.—"We denounce all frauds perpetrated upon the elective franchise, and we call the attention of the people to the fact that prosecution and punishment of those crimes have been the work of a Democratic court and prosecutor, and Democratic jurors. We ask from fair-minded citizens a comparison of this fact with the action of a Republican Senate, which voted to seat a Senator from Hudson, a man who every one knows was not entitled to the office. The action of that Senate was protected by a Constitutional privilege, but it was none the less a crime."

NEW-YORK REPUBLICAN, April 28.

TARIFF.—"The Republican party has a right to ask the approval and support of all good citizens for the policy it has pursued in revenue legislation; for the fruits, now apparent, of the McKinley tariff, under which agriculture has been encouraged, manufactures extended, trade promoted, and labor benefited; and for the system of reciprocity which has added greatly to our commerce with other nations on terms of mutual benefit, to the extent of increasing more than 50 per cent, and in some cases doubling, our exports of the products of the factory and the farm."

MONEY.—"We cordially indorse the vigorous declaration of President Harrison made in the city of Albany in favor of an honest dollar; we commend Republican members of Congress for having secured the defeat of the free-silver bill, the effect of which would have been to derange values, impair contract obligations, reduce the pay of labor and debase the currency. The people must continue to look to the Republican party to maintain the good faith of the Nation in all matters of finance, pledged, as it is, to keep any dollar bearing the stamp of the United States at par with gold and to repel the assaults of the reckless advocates of free and unlimited coinage of silver."

STATE ISSUES.—"We arraign the Democratic party of this State, through its recognized leaders, as guilty of a conspiracy against the constitutional rights of the people; a conspiracy which involved the falsification of official election returns, the removal of faithful county officials, the pardon of a duly sentenced criminal, theft and suppression of public records by sworn State officers (one of whom was promptly rewarded for his crime by elevation to a seat in the highest court in the State), the overriding of the decision of the court of appeals, and various other revolutionary and criminal acts which culminated in the reversal of the political majority of the Legislature as determined by the verdict of the people at the polls. We denounce the Legislature thus feloniously constituted, for its violation of the principles of genuine home rule in enacting notoriously partisan charter amendments; for granting valuable franchises to political favorites without recompense to the people; for the attempted invasion of Central Park; for its removal of wholesale restrictions upon the liquor traffic;

for its wasteful expenditure of the people's money, which has increased the tax rate 44 per cent over that of last year; for its utter failure to keep its ante-election pledges in behalf of ballot reform and tax reform; for its broken promises to the workingmen; for its whitewashing of a guilty judge of the Court of Appeals; for its return to the methods of Tweed in its iniquitous measure conferring upon Tammany officials absolute control of the Boards of Election Inspectors in the city of New-York; for constantly legislating for its partisan aggrandizement against the rural districts; for its unconstitutional and fraudulent midwinter enumeration by which the population of the rural districts was diminished, and that of the cities enormously increased, as the basis of an apportionment by which the representation of Republican portions of the State, in the Legislature and in Congress, were reduced, and all the increase given to Democratic cities, as is signally illustrated by the fact that Republican Monroe, with 181,000 population, receives only three Assemblymen, while the Democratic Albany, with 156,000 population, is awarded four. While these crimes were plotted and perpetrated by David B. Hill and his fellow-conspirators, the Democratic party, except the individuals who refused to sanction the revolutionary measures, has made itself full partaker in the guilt by its greedy seizure of the fruits of the felony, and its vicious and shameless use of the fraud-made majority in the Legislature. The Democratic party is further made responsible for the whole conspiracy, including the theft of the Dutchess returns, by the report of its committee to investigate the charges preferred by the Bar Association of New-York, against Isaac H. Maynard; by the votes in both Houses to sustain that report, and by the appointment and retention of said Maynard on the bench of the court of appeals for an offense by law punishable by fine and imprisonment. Such abhorrent and dangerous measures summon the electors to unite to defend the purity of the ballot and the finality of the legally expressed will of the majority, and this convention invites all the people, regardless of previous party lines, to join in condemnation and rebuke the larceny of the Legislature and the degradation of the bench of our highest tribunal. The Republican party is the only organization free from the control of the principles and accessories of these crimes, and through it alone can the wrong perpetrated be corrected and punished, and their repetition be prevented."

MISCELLANEOUS.—Indorses Harrison Administration and denounces treatment of colored people in the South as barbarous.

NEW-YORK DEMOCRATIC, February 22.

"The Democratic party of the State of New-York in convention assembled renews the pledge of its fidelity to the great cause of tariff reform and to the whole Democratic faith and tradition, as affirmed in our National platforms from 1876 to 1888, as well as in our State platforms, concurrent with the opening of Governor Tilden's brief, and the close of Governor Hill's long, twice-approved and alike illustrous service in the Chief Magistracy of the Empire State.

"New-York State Platform, 1874.—1. Gold and silver the only legal tender; no currency inconvertible with coin. 2. Steady steps toward specie payments; no step backward. 3. Honest payment of the public debt in coin; sacred preservation of the public faith. 4. Revenue reform; Federal taxation for revenue only; no Government partnership with protected monopolies. 5. Home rule; to limit and localize most jealously the few powers intrusted to public servants, municipal and Federal; no centralization. 6. Equal and exact justice to all men; no partial legislation; no partial taxation. 7. The Presidency a public trust, not a private perquisite; no third term. 8. Economy in the public expense, that labor may be lightly burdened.

"New-York State platform, 1891.—We now, as then, steadfastly adhere to the principles of a sound finance. We are against the coinage of any silver dollar which is not of the intrinsic value of every other dollar of the United States. We therefore denounce the new Sherman Silver law, under which one-tenth of our gold stock has been exported and all our silver output is dammed up at home, as a false pretence, but actual hindrance of return to free bimetallic coinage, and as tending only to produce a change from one kind of monometallism to another. We therefore unite with the friends of honest money everywhere in stigmatizing the Sherman progressive silver basis law as no solution of the gold and silver question, and as a fit appendix to the subsidy and bounty swindle, the McKinley worse than war tariff, the Blaine reciprocity humbug, the squandered surplus, the advancing deficit, the defective census and falsified representation, and the revolutionary procedures of the Billion Congress—all justly condemned by the people's great uprising last November (1890)—a verdict which, renewed next year (1892), will empower Democratic statesmen to guide the people's councils and to execute the people's will. The Democrats of New-York recall with proud memory the inflexibly sound finance of Governor Tilden, who not only administered the State Government with frugality, but who also, with unequalled ability and unflagging resolution, demanded a thorough reform of tariff taxation, and likewise, with a statesman's energy and foresight, assailed the shameless degradation of our greenback currency, and led the Democratic party in pushing on the compulsory Republican advance to a current coin redemption, if not also to that coin payment of the same, whereto, as well, "the faith of the United States is solemnly pledged." The Democrats of New-York refer with grateful pride to the inflexibly sound finance of Governor Hill, who by efficient economy throughout his long administrative career has accomplished the practical extinction of our State debt, has faithfully urged with a powerful and practised advocacy the Nation's release from the bondage of unequal, unnecessary and unjust taxation imposed by the tariff of 1883, and the repeal of the superadded impositions of the two McKinley laws; and likewise, with a statesman's energy and true foresight of the seventy-cent dollar, pushing for birth in the body of the Sherman Silver law, has taken

up the people's cause, assailed the Republican degradationof the people's silver money, and led the advance of the Democratic party of New-York with unfaltering steps to that solid ground of high justice and equity upon which they stand to-day absolutely without discord or division, in this behalf "demanding," with him, "that every dollar coined in these United States shall be the equal of every other dollar so coined, and demanding the redress of their present shameless inequality." The Democrats of New-York, with proud hope, yet with perfect deference to their brethren of other States, and cordial estimation of their renowned leaders, as worthy standard-bearers of a people's cause, point to the nomination of David B. Hill to the office of President as a fit expression of the whole Democratic faith and tradition, and of our settled purpose to rescue this perverted Government from the clutch of autocrats and plutocrats, from spendthrift administration, odious taxes and debased money. In obedience to the mandate of the Democratic voters of New-York, the delegates selected by this convention are instructed to present to the National Democratic convention the name of David B. Hill as the candidate for President of the United States, a Democrat who has led his party from victory to victory for seven successive years, and who has never known defeat. The said delegates are further instructed to act as a unit in all matters intrusted to their charge, said action to be determined by the vote of a majority of the delegates. Resolved, that we congratulate the people of the State upon the auspicious opening of Governor Flower's Administration, and extend to him the assurance of our cordial support in his earnest effort to give the people a frugal, honest and efficient government of State affairs."

NEW-YORK DEMOCRATIC, May 31.

NATIONAL GOVERNMENT.—Declares that most urgent necessity of the Union is a radical reform in administration of Federal Government; denounces Republican Congress for extravagance and Republican party for depriving New-York of its "just representation in Congress and in the Electoral College by a fraudulent census," and for fraudulent pension administration, and endeavor to enact Elections bill.

TARIFF.—"We denounce the McKinley tariff; we declare that a tariff is a tax; that all taxation is a burden; that it should never exceed the necessities of a Government wisely and economically administered. We condemn the present tariff not only because it is excessive and restrictive of the commercial development of the country, but because it has been enacted in the interest of a few at the expense of the mass of the people. It is class legislation. It does not increase the receipts of wage-earners, but it turns over to the protected manufacturers, ever becoming more and more rapacious, the Federal Treasury and the taxing power of the Federal Government to use for their own benefit, and it leaves it to them to decide whether or not the wage-earners they employ shall receive any part of this enormous bounty. It is an inexhaustible source of corruption, a constant menace to free government. It has sapped the independence of industry and induces men to seek to grow rich by official favoritism rather than by their own exertions. An inevitable consequence is that the class in receipt of these vast pecuniary favors should seek to perpetuate their grasp upon the Government by supplying, in practically unlimited amounts, the money with which an electorate may be corrupted and popular government destroyed. The Democratic party has no more urgent mission than to destroy a system productive of so much evil, and, in a spirit of moderation, with due regard to the interests of capital now invested and labor now employed in protected industries, the paramount duty of the party is to continue its opposition to the tariff until all customs taxation is enacted for revenue only. The recent change in the policy of the Republican party from a general system of high tariff taxes to the reciprocity system is an admission of the vast benefits to be derived from the extension of our foreign trade and of the justice of the tariff reform principle."

MONEY.—"We approve the use of both gold and silver as money, and we demand that all dollars, whether gold or silver, shall be equal in value to each other in fact as well as by declaration of law. We are opposed to the free coinage of silver by the United States alone at the existing rate of sixteen to one because we believe that free coinage at that ratio will result in the immediate disappearance of gold from the business of this country, the use of silver with certain loss to every wage-earner and every savings bank depositor, with impairment of credit and disastrous disturbance of business of every kind. We demand the repeal of the Sherman silver law of 1880, as an obstruction of international bimetallism, and because it is rapidly bringing this country to silver monometallism with all its attending evils."

PARTY TREASON.—"We recognize the necessity of an organization through which the party may direct its energies; but when such an organization claims to be the party instead of its instrument; when it suppresses the voice and misrepresents the desire of the party; when it calls the caucuses at unaccustomed seasons and upon insufficient notice; when, regardless of the votes cast, it places upon the convention roll and admits to the convention only those who, without respect to the voice and wishes of their constituents, will agree in advance to support the schemes and oligarchy it has established; when it gives notice in advance that they who will not agree to be as subservient will not be admitted; when it ceases to be representative, creates discontent, rouses resentments, and imperils the success in this emergency of the party, it becomes the duty of the original elements of the party to take such notice as will restore to it just relations between its members and their agents. We believe in and demand fair primaries, fair conventions, fair elections, fair returns and the faithful observance of the verdict of the ballot-box."

NORTH CAROLINA REPUBLICAN, September 7.

ELECTIONS.—"We denounce the election laws now in force in North Carolina, enacted to prevent fair elections, and so framed as to allow the minority to rule by fraud and trickery, and oppress the people, rather than to obtain a full and free expression of the will of the voters."

LABOR.—"We denounce the Democrats for placing convict labor in competition with free labor. We favor such legislation as will remedy the evil of excessive hours of labor in our factories and workshops."

CURRENCY.—"We favor an increase of the National circulating medium in this country, and the establishment of postal savings banks for the purpose of securing a better distribution of money."

MISCELLANEOUS.—Denounces arbitrary system of county government; favors education of the people; denounces fraudulent Democratic claim of economical administration of State finances, while increased and fictitious property valuation has nearly doubled people's burdens; denounces present method of letting out public printing; indorses Harrison Administration and Minneapolis platform and candidates, and pledges them earnest support.

NORTH CAROLINA DEMOCRATIC, May 18.

Repeats platform of 1890, with three planks from the Ocala platform, and one new plank for a graduated income tax.

NORTH DAKOTA REPUBLICAN, May 4.

Indorses Harrison Administration; favors sound money, and opposes gerrymandering.

OHIO REPUBLICAN, April 28.

TARIFF.—Declares that the best exemplification of Protection that has found expression in the statutes is the McKinley bill; cordially favors that measure, including, as worthy of particular mention, its reciprocity features, and points out that Democrats have deliberately determined it inexpedient and unsafe party policy pending a general election to attempt its repeal or even modification, except as to less than half a dozen out of thousands of items.

FREE WOOL.—"We condemn the bill recently passed by the Democratic majority in the House of Representatives to place wool on the free list as an unjust and hurtful attack on the agricultural industries of the country, and we insist on such full and adequate protection for the wool industry as will enable American farms to supply the wool required for consumption in the United States."

SILVER.—"We are opposed to the free coinage of silver by the United States under existing circumstances, and we would not favor it, except under conditions that would reasonably insure the maintenance of the substantial parity between the bullion and the mint or money value of its coin. Every coined dollar should have the intrinsic as well as the monetary value of every other coined dollar."

MISCELLANEOUS.—Indorses Harrison Administration, liberal pensions and Disability Pension bill; insists on fair elections, with Federal intervention, if necessary, and demands restriction of immigration.

OREGON REPUBLICAN, April 6.

TARIFF.—Reaffirms devotion to Protection, McKinley bill and Reciprocity; denounces the Democratic doctrine of Free Trade in so-called "raw materials," coupled with a high protective tariff on goods manufactured therefrom, and demands protection for the wool industry equal to that accorded the most favored manufacturers of wool, denouncing the Springer Free-Wool bill as unjust and unpatriotic.

SILVER.—"We indorse the amended coinage act of the last Republican Congress by which the entire production of the silver mines of the U. S. is added to the currency of the people."

MISCELLANEOUS.—Demands exclusion of Chinese, favors amendment to the Constitution providing for election of U. S. Senators by direct vote, commends the work of last Republican Congress and Administration of President Harrison, and favors prompt construction of ample coast defences, building of an efficient navy, and maintenance of Monroe doctrine.

OREGON DEMOCRATIC, April 19.

TARIFF.—"We declare our unfaltering adherence to the cause of tariff reform, holding that the policy of favoritism pursued by the Republican party in general legislation is subversive of the principles that underlie equality and true Democracy, and deny the right of the Government to levy a protective tariff except as incidental to the raising of revenue to defray the expenses of the Government economically administered, or for any consideration save that of the public welfare. We demand such a revision of the tariff laws as will entirely eliminate personal, class or special interests, with a view of securing the greatest possible revenue with the least possible burden to the people."

SILVER.—"We believe in honest money, the gold or silver coinage of the Constitution, and in a currency convertible into such coinage without loss, and of sufficient volume to meet all demands of the people. We demand that all the money coined or issued by us should be of equal monetary value and of equal purchasing power for the rich and the poor, and that all paper currency issued by the Government should be re-

deemable in either gold or silver coin at the option of the holder, and not at the discretion of the Secretary of the Treasury."

MISCELLANEOUS.—Favors election of U. S. Senators by direct vote; opposes Chinese immigration; condemns McKinley bill and Republican Congress, and praises Cleveland Administration.

PENNSYLVANIA REPUBLICAN, April 20.

TARIFF.—"We reaffirm as the cornerstone of Republican faith the principle of protection to American labor, upon which our National greatness is founded and by which our prosperity must be maintained. We heartily commend the McKinley act as an exemplification of this principle, and challenge intelligent criticism of its spirit and details. It protects every industry which still needs protection, while reducing duties upon the necessaries of life and making large additions to the free list. We hail with satisfaction the signs in the recent elections that the country has come to realize the wisdom of its purposes, as commerce and manufacture have adjusted themselves to its provisions."

CONGRESS.—"We denounce the policy of cowardice and false pretence pursued by the Democratic party in the present Congress. They evade a direct and manly issue upon the tariff question, and insidiously attack the existing law by a series of separate and inconsistent bills, aimed at particular industries, the first of which, placing wool upon the free list and threatening disaster to the interest of the American farmer, has already passed the Democratic House. In further pursuance of this policy of subterfuge, they reduce appropriations below the needs of the public service and so render necessary the passage of deficiency bills by the subsequent Congress. They have even refused to appropriate the comparatively small sum of $100,000 for the relief of the starving people of Russia, the nation most friendly to our own in the hour of its utmost need."

INTERNAL IMPROVEMENT.—Favors liberal but well guarded appropriations for internal improvements, and especially the construction of a ship canal between Lake Erie and the Western river system.

SILVER.—"We approve and commend the general policy of the last Republican Congress in dealing with the silver question. We are opposed to the free coinage of silver, but favor the purchase of American silver at its market value and the issue by the Government of Treasury notes in payment thereof. That the course of the Republican party upon this question has hitherto been wise and liberal is proven by the fact that to-day there is no scarcity of money in our country for the transaction of legitimate business or the payment of wages, and by the further fact that a silver dollar or a paper dollar is the equivalent in value of a gold dollar in the purchase of the necessaries of life."

ELECTIONS.—"We believe in a free ballot and a fair count, and affirm that, unless intelligent and patriotic sentiment accord these rights to the humblest citizen in every section of the country, it becomes the duty of the Federa Government to secure them by Congressional enactment, under the authority conferred by the Constitution."

MISCELLANEOUS.—Commends action of Legislature of 1891 in the direction of relief of local taxation by the appropriation of $5,000,000 annually for public schools, the surrender to the local treasuries of the entire revenues derived from retail liquor licenses, and the return to counties of three-fourths of the revenues derived from the taxation of personal property; urges continued efforts for the relief of taxation upon real estate; approves liberal pensions and demands stringent immigration laws.

PENNSYLVANIA DEMOCRATIC, April 13.

"We believe in and we declare for honest and economical administration, for local self-government, for honest money, the gold and silver coinage of the Constitution, and for a currency convertible into such coinage without loss; for that genuine civil service reform which recognizes public office as a public trust; for liberal but not reckless pensions, and for the speedy abatement of all forms of needless and oppressive taxation."

TARIFF.—"The paramount reform now demanded of the Federal Legislature is the reform of the tariff laws, on the basis of the Democratic National platform of 1888, to the end that no money shall be needlessly exacted from the industries and necessities of the people; and that our industrial interests shall not be prejudiced by excessive taxation, false systems of finance, or extravagant cost of production. To this end the McKinley tariff bill should be repealed, the essential raw materials of American manufactures should be put upon the free list, and a revised tariff should be adopted, with due regard for the rights of American labor and the preservation of our manufactures."

MISCELLANEOUS.—Commends Administration of Governor Pattison; denounces the action of the Republican State Senate in evading the duty of pronouncing judgment upon faithless State officials as a cowardly subterfuge and a disgraceful violation of public duty; and directs the Democratic State, County and City committees to further by every means in their power the organization of regular Democratic societies in every district, and the union of such societies in the Democratic Society of Pennsylvania and the National Association of Democratic Clubs.

RHODE ISLAND REPUBLICAN, March 15.

SILVER.—"The adoption of the proposition which has the support of a controlling majority of the Democratic party, to open the mints of the United States to the free coinage of silver would, in the absence of an international agreement for the monetary

restoration of silver, result in a disastrous derangement of our currency, unsettle and destroy business confidence, insidiously but surely depreciate the value of the earnings and savings of labor, and unjustly diminish the purchasing power of money paid by a grateful Government to its pensioners."

TARIFF.—"We heartily approve the policy inaugurated by the availment of the reciprocity section of the Tariff act of 1890, by which foreign markets for our agricultural and manufactured products have been secured without lessening the extent or impairing the value of the home market for these and other American products, and the thanks of the country are due to the President and Secretary Blaine for the successful manner in which they have conducted the negotiations and secured arrangements to carry this wise legislation into effect. The maintainance of a tariff system for the protection of labor is the cardinal principle of the Republican party. The comfort and prosperity of the great mass of the people of the United States is directly dependent upon the continuance of the present high level of wages in all American industries, and the result can only be obtained by levying such protective duties upon competing articles imported from foreign countries as shall give to American workmen an equal chance to secure American markets."

MISCELLANEOUS.—Commends Harrison Administration and insists on a free vote and an honest count for every voter in the country.

SOUTH CAROLINA REPUBLICAN, April 20.

Indorses protection and reciprocity.

SOUTH CAROLINA DEMOCRATIC, May 18.

THE PRESIDENCY.—"We assert that Grover Cleveland does not represent the principles of Democracy as taught our forefathers and as we understand them. We therefore enter our solemn protest against the nomination of Grover Cleveland or any other candidate known or believed to be selected in the interest and at the dictation of Wall Street, but we demand as our standard-bearer a man for the people and with the people, and who will serve the people and not any class or faction. We shall look upon the nomination of ex-President Cleveland, if forced upon the party at the Chicago Convention, as a prostitution of the principles of Jeffersonian Democracy, as a repudiation of the demands of the Farmers' Alliance, which embody the true principles of Democracy, and a surrender of the rights of the people to the financial kings of the country."

MISCELLANEOUS.—Embodies entire Ocala Alliance platform, demanding abolition of National banks, establishment of Sub-Treasuries for lending money at 2 per cent on farm products and real estate, increase of circulating medium to not less than $50 per capita, passage by Congress of laws against dealings in futures, free and unlimited coinage of silver, laws prohibiting alien ownership of land and the reclamation by the Government of all lands now held by railroads and other corporations in excess of such as are actually used, and removal of existing heavy tariff upon the necessaries of life.

SOUTH CAROLINA DEMOCRATIC, September 21.

Denounces as unpatriotic and infamous attempts to injure the credit and honor of the State, declares that every just obligation of the State should be promptly discharged, the receipts from phosphate royalty alone in two months having been nearly sufficient to meet the interest on the debt and eventually to pay the debt itself, and recommends the Legislature to set apart by law any excess of phosphate royalty, after paying annual interest on the State debt, as a sinking fund, to be placed at interest and used for paying the principal.

SOUTH DAKOTA REPUBLICAN, July 22.

MONEY.—"We favor the use of both gold and silver as standard money under such legislative regulations as will secure the parity of values of the two metals and we commend the steps already taken by our Government to secure this important object by an international monetary conference."

LABOR.—Deplores conflicts between labor and capital, denounces agitation of demagogues designed to foment and intensify these conflicts, earnestly disapproves the use of private armed forces in any attempt to settle them, and recommends their reference to legally created or amicably chosen boards of arbitration.

TARIFF.—Approves protection, denounces Omaha platform declarations as seditious and scandalous, and declares that reciprocity has already very largely augmented the exportation of manufactured wares and agricultural products.

LAND QUESTION.—Urges legislation for reclaiming arid land, and Government aid for the establishment of a system of irrigation by artesian wells, and commends the present General Land Office for securing to the settlers on the public lands titles to their homes.

OPTIONS AND TRUSTS.—"We demand such legislation by our general and State Government as will prevent dealing in options of agricultural products by speculators and the forming of combinations and trusts."

BALLOT.—"As a fitting supplement to our Australian system of voting, we demand the enactment of a law requiring the registration of voters in all cities having a population of 1,000 and upward."

MISCELLANEOUS.—Indorses State government; demands revision of revenue and tax laws; invites attention to road improvement; favors postal telegraph and

postal savings bank system, rural free delivery; demands laws regulating the rates charged by express companies; favors election of railroad commissioners by the people; demands that the commissioners have power to fix local passenger and freight rates; favors laws for the regulation of railroads, and indorses action of Congress as to pensions.

SOUTH DAKOTA DEMOCRATIC, September 1.

Demands resubmission of prohibition question to voters; denounces Pinkertonism; strongly indorses tariff reform, and touches on various other questions of State interest.

TENNESSEE REPUBLICAN, May 4.

CURRENCY.—"We commend the LIst Congres for increasing the currency by enacting a law authorizing the purchase of 4,500,000 ounces of silver monthly, and the issuance of an equivalent in paper currency. We believe that 'every dollar of American money should have the same intrinsic value as every other dollar,' and 'believing that the full use of silver as a coin metal upon an agreed ratio by the great commercial nations of the world would highly promote the prosperity of all their people, no favorable opportunity should be permitted to pass for the promotion of that most desirable result; or if international silver coinage is not presently attainable, then legislation should secure the largest practicable use for that metal.'"

LABOR.—"We denounce the incompetency of the Democratic State government of Tennessee, which has, by tampering with the convict lease system, disgraced the State, so that, as a culmination of the outrageous management, to-day the public work of the capital city of the State is performed by penitentiary convicts, and that convicts are now employed on the public streets of the capital city, in full view of the capitol, to the great detriment and injury of honest laborers, who, with their families, are dependent on such work, and are forced to seek employment elsewhere. And to the end that convict labor shall no longer be brought into competition with free labor anywhere in the State we demand the abolition of the convict lease system."

ELECTIONS.—"We denounce the infamous, unconstitutional, and partisan legislation by which large numbers of honest voters are deprived of the right of suffrage; and we demand the repeal of the poll tax provision in the election laws and an amendment of the laws by which illiterate voters may be rendered assistance so as to enable them to cast their votes in elections, as under the Constitution of the State they are entitled to do. We are in favor of an honest ballot and a fair count, and we denounce all intimidation, schemes and fraudulent or oppressive practices by which legal voters are either prevented from voting or their votes not counted in the result. Each legal vote should be counted and none other, and every legal voter should be allowed to vote and his vote counted as cast."

TENNESSEE DEMOCRATIC, May 26.

CURRENCY.—"We favor a currency of gold, silver and of paper, convertible into coin at the option of the holder, and in such amount as will meet the business necessities of internal trade and commerce among the people; and we further favor a parity of the two metals as a commercial unit of value and as a legal-tender for the payment of all debts, public and private, as existed under the laws of the United States down to the infamous and surreptitious demonetization of silver in 1873 by the Republican party; and we further favor the continued coinage of the silver and gold bullion in such manner as that every dollar so coined shall be equal to every other dollar."

MISCELLANEOUS.—Declares the National bank system a monopoly.

TENNESSEE DEMOCRATIC, August 9.

Indorses Chicago platform and nominees; favors abolition of convict lease system; demands that taxation be reduced to meet the actual needs of the Government, and declares against the Elections bill and monopoly.

TEXAS REPUBLICAN, September 14.

Favors regulation of railway corporations under such restrictions as will insure equal justice to the railways as well as people, condemns revolutionary methods and violence; legislation calculated to drive capital out of the State or turn immigration away; favors low rate of interest; demands that the Legislature shall provide for the collection from the Federal Government of the bounty on sugar produced on the State farms; demands State laws to protect the ballot of every citizen, in accordance with the National Republican platform; the passage of laws to further the building and keeping in repair of a system of intercounty public roads by penitentiary convicts, thus procuring for them profitable employment without bringing them in competition with free labor; condemns the law which discriminates against colored teachers on the county school Board of Examiners; and demands that the Legislature comply with the constitutional requirements, and establish a branch for the colored youth at the State University.

TEXAS DEMOCRATIC, August 18.

TARIFF.—"We oppose all taxation and tariffs of every kind for purposes other than revenue consistent with the necessities of the Government economically administered."

SCHOOLS.—"We oppose the proposed collection and distribution by the Federal Government of money in aid of the educational system of the various States."

GOVERNMENT LOANS.—"We denounce all acts and efforts by the Federal Government whereby it in fact does or proposes to advance or lend money to any citizen, corporation or class upon any sort of security, and we oppose Governmental ownership of railroads, telephone and telegraph lines."

BOUNTIES.—"We denounce all bounties and subsidies given by the Federal Government in aid of private enterprises as class favors repugnant to the democratic people and unwarranted by a correct construction of the constitutional powers of Congress. We denounce all species of class legislation as iniquitous, unconstitutional and subversive of the aims and the ends of government."

ELECTIONS BILL.—"We cite the so-called Force bill as the extreme evidence of the enmity of the Republican party to local self-government, and denounce it as a violation of the Constitution, corrupt in conception, vicious in sentiment, criminal in detail, the only mission of which is to foment race prejudice, to produce sectional strife and ill feeling, so fatal to the tranquillity of the people of the several States."

SILVER.—"While we yield to the wisdom of a majority of the National Democracy in making the reduction of revenue taxation to the necessities of the Government economically administered, the paramount leading issue of this campaign, upon the policy that it is safest to make the struggle to secure one reform at a time, we nevertheless proclaim our adherence to the principle, justice and necessity of a free and unlimited coinage of silver at the ratio heretofore provided by law, and shall continue to contend for it. We therefore commend our Senators and Representatives for their faithful efforts to promote the success of this measure, and pledge that they shall so continue."

BANKS.—"We oppose the National Banking system, we demand the repeal of the Federal tax on State banks, and favor an amendment to our State Constitution permitting the incorporation of State banks, under proper restrictions and control, for the protection of depositors and the people. We favor a graduated income tax for Federal purposes."

RAILROADS.—Indorses Texas Railroad Commission law; favors an appointive commission, unless the Constitution be so changed as to permit of the election of one of the Commissioners every two years, making their tenure of office six years, and demands a law to prevent stock watering.

LANDS.—Commends public officials seeking to recover land unlawfully obtained by railroad companies from the State for sidings and switches; promises that innocent purchasers for value and actual settlers shall have their titles validated, and demands law to define perpetuities, prohibit the further operation of land corporations in the State, and require those now in possession of lands for agricultural, horticultural, grazing and speculative purposes, excepting overflowed and irrigated lands, to dispose of these within such reasonable time as may not impair vested rights.

MISCELLANEOUS.—Denounces reports that Texas Democrats are hostile to immigration or the legitimate investment of foreign capital; favors State provision for Confederate soldiers; demands execution of public free school law and endowment of university; opposes convict lease system; promises enactment of mechanics' lien law; favors time limit for Federal officeholders and demands restriction of municipal bond issues.

VERMONT REPUBLICAN, April 13.

"The Republicans of Vermont regard protection for American industries, an honest dollar and an honest ballot the leading considerations, deserving continued and earnest National indorsement. We indorse the Administration of President Harrison as pure and progressive, and in the treatment of foreign questions broadly and courageously American."

VERMONT REPUBLICAN, June 22.

Indorses protection, demanding that tariff laws should be from time to time readjusted to secure full industrial development; approves of reciprocity; demands that American ports be closed, "not only against foreign criminals and paupers, but also, so far as can be, against those classes who, with no knowledge of our language and no respect for our institutions, seek here a temporary abode"; asserts that the confessed and continued suppression of the negro vote at the South is a menace of free institutions and a disgrace to our civilization; favors such general Federal laws as will give to every American citizen who is qualified to vote in Federal elections the right to cast that vote and have it counted; indorses Administration of President Harrison; approves Minneapolis platform and candidates; demands continuance of Prohibitory liquor law; asserts that the attitude of Republicans in the State leaves Vermont Prohibitionists without an occupation.

VERMONT DEMOCRATIC, May 5.

Expresses renewed devotion to tariff reform; insists that no more money shall be taken from the people by taxation than the necessities of the Government require; that while the Government must furnish a currency ample and sufficient for the transaction of business, nothing can justify the conversion into money of more silver than is required for circulation, as free coinage is forcing the people to buy what they do not want at a fixed price, much above its market value; that while the Gov-

ernment should grant liberal pensions, a more efficient management should direct the Pension Department to disallow unjust claims; that the economy of the Cleveland Administration, as compared with the Harrison Administration, should encourage all honest citizens to renewed efforts for Democratic success at the coming election.

VIRGINIA REPUBLICAN, May 5.

Indorses President Harrison's Administration, praises Mr. Blaine, calls for immediate action on the free-silver question, indorses the McKinley bill, demands efficient coast defences and a navy that shall inspire due respect throughout the world.

VIRGINIA DEMOCRATIC, May 18.

TARIFF.—"A tariff is a tax; all unnecessary taxation is unjust taxation; the Government has not power under the Constitution to collect from the people any money except what is necessary to defray the expenses of its economical administration; one class of our people should not be required to pay tribute money for the benefit of another class, and the burdens of government should be imposed upon the luxuries and not upon the necessaries of life."

MISCELLANEOUS.—Denounces the "Force bill" and the centralizing tendencies in government; favors abolition of internal revenue; indorses the wise economy, clean and honest methods and non-sectional character of the late Democratic Administration; and demands an increase in the volume of currency to an extent sufficient for the commercial and agricultural needs of the country.

WASHINGTON REPUBLICAN, April.

TARIFF.—"We unqualifiedly advocate and assert our adherence to the principles of a protective tariff as heretofore announced by the Republican party in the National platform and as now practised under the provisions of the act of Congress known as the McKinley Tariff bill."

NICARAGUA CANAL.—"We believe the interests of that great and important part of our country known as the Pacific Coast States require that the Nicaragua Canal should be built as soon as practicable, and favor such friendly legislation by Congress as may speedily effect that result."

WASHINGTON DEMOCRATIC, August 26.

Urges imposition of taxes on luxuries rather than on necessities; free silver; establishment of a Government Assay Office in Washington, and favors Nicaragua Canal.

WEST VIRGINIA REPUBLICAN, May 5.

Reaffirms Republican platform of 1888, condemns the gubernatorial steal four years ago, indorses protection as a principle, and commends the McKinley tariff law and reciprocity; asserts belief in American ability to make all the tinplate consumed in the country, and exhorts all Americans to purchase American products in preference to imported goods, condemns free-wool bill as an unjust and hurtful attack on the agricultural interests of the country, demands better immigration legislation; regards as of highest importance that every dollar issued by the U. S. shall have a purchasing power of 100 cents, so that our gold, silver and paper issues may be kept on an equal footing, favors liberal pensions and denounces as partisan the Democratic attacks on the present administration of the Pension Office.

WEST VIRGINIA REPUBLICAN, August 3.

Indorses Minneapolis nominations and platform; policy of Protection as necessary to the development of the country; favors anti-Pinkerton law, and denounces Democratic State administration for creation of a State debt, legislative gerrymander and steal of the Governorship in 1889.

WISCONSIN REPUBLICAN, May 5.

MONEY.—"While we favor the use of both gold and silver as money metals, under conditions which shall guarantee their circulation at a continuing and substantial parity with each other, under existing circumstances and conditions, we are unalterably opposed to the free and unlimited coinage of silver."

MISCELLANEOUS.—Indorses Harrison Administration; commends movement for an international silver conference, recommends a modification of the silver act of 1890 to enable the President to regulate silver purchases; declares the educational issue of 1890 permanently settled; denounces the "Dodge" law as the most objectionable form of paternal legislation, and expresses satisfaction at the "gerrymander" decision.

WISCONSIN REPUBLICAN, August 17.

STATE BANKS.—Asserts unqualified opposition to proposition in Democratic National platform to repeal the tax levied by the Federal law on the circulation of State banks, a policy which would again flood the country with wildcat money and subject the people to annoyance and losses consequent upon a fluctuating, uncertain and depreciated currency.

EDUCATION.—Reaffirms and unqualifiedly indorses the declaration of the May Republican convention, and denounces further agitation of the subject or any attempt by any one or any party for any purpose to create or foster division lines of religion, education or nativity.

APPORTIONMENT LAW.—Denounces outrageous partisanship of Democratic majority in the late extra session of the Legislature in forcing enactment of so-called apportionment law, in defiance of the plain provisions of the constitution as expounded by the Supreme Court, and in disregard of the rights of the people.

MISCELLANEOUS.—Denounces Democratic statement that Republican success involves a surrender or compromise of rights upon the bond of ex-State Treasurers; favors amendment of law regulating balances in State banks; denounces parsimony of Democrats in refusal to make appropriation for a representation at World's Fair; denounces cruel and barbarous treatment of American citizens in some of the Southern States as tending to corrupt good government, and contrary to the spirit of the Constitution of the U. S., and indorses Harrison Administration and Minneapolis platform.

WISCONSIN DEMOCRATIC, May 4.

TARIFF.—"Unnecessary taxation is unjust taxation, and therefore we reaffirm the oft-asserted doctrine that there should be no tariff except for revenue."

SILVER.—"We maintain that the true interests of the people demand sound, honest and stable money composed of, or based on and redeemable in gold and silver coin of equal intrinsic value. We therefore oppose the project of unlimited coinage of silver dollars of less commercial value than gold dollars as undemocratic, dishonest and specially hurtful to the farmers and laboring classes, the first and most defenseless victims of unstable money and fluctuating currency. We denounce the Republican legislation on this subject, more particularly the Sherman act of 1890, as a cowardly makeshift and an inexcusable waste of the national resources in the purchase and storage of tons of bullion per day, and as a menace to the maintenance of a sound and stable currency; and we demand the repeal of this act. We heartily commend the action of those Democratic representatives in Congress from this State who have opposed all measures for silver coinage on a false basis."

EDUCATION.—Opposes State interference with parental rights and rights of conscience in the education of children, as an infringement of the fundamental Democratic doctrine that the largest individual liberty consistent with the rights of others insures the highest type of American citizens and the best government.

MISCELLANEOUS.—Praises Mr. Cleveland and instructs Chicago delegates to act as a unit; opposes sumptuary laws and praises Democratic State government.

WISCONSIN DEMOCRATIC, August 31.

EDUCATION.—"The Bennett law has been repealed and the Democrats of Wisconsin have shown their loyalty to the cause of popular education in practical form by adding over $100,000 to the school-fund income and by increasing the appropriations to the State University over $65,000 a year for the next six years."

MISCELLANEOUS.—Opposes sumptuary laws and pledges the Democratic party anew to continued honesty and economy, and indorses Chicago platform and candidates.

WISCONSIN PEOPLE'S PARTY, March 30.

Indorses resolutions adopted at the St. Louis conference, demanding free and unlimited coinage of silver, graduated income tax, postal savings banks and Government ownership of railroads and telegraph and telephone lines, and demands that evidence of indebtedness shall be taxed and shall not draw interest unless shown to be duly assessed; that board of trade gambling be suppressed and laws enacted to prohibit combinations to control the markets; asks Wisconsin Representatives in Congress to support the passage of an anti-option bill at the present session, and favors woman suffrage.

WYOMING REPUBLICAN, May 4.

Reiterates devotion to Protection; opposes strenuously importation of servile labor; favors liberal pensions; declares that "the money of the country should be founded on both gold and silver, and this result may be achieved by wise and timely legislation and international conference, tending to the restoration of silver, not only as money of the Nation, but as current coin of the civilized world"; demands the enforcement of the law among all, of whatever rank or condition in life; pledges the party to every means and influence in its power to protect life and property in every section of the State; hails with pleasure the presence of ladies in the convention as accredited delegates; invites the women of the State to participate in the party conventions, and praises Harrison's Administration.

WYOMING REPUBLICAN, September 14.

TARIFF.—"We indorse the McKinley bill, which has given a new impetus to American industries; the Blaine Reciprocity measures, which have opened to the U. S. the markets of the world and brought our exports up to more than $1,000,000,000 per annum: we are opposed to the Democratic schemes of forcing American workingmen to compete with the cheap labor of Europe and Asia by admitting the products of such labor free; of repealing our reciprocity treaties, and closing the markets of the world to our produce for the benefit of other nations."

STATE BANKS.—"We oppose restoring the old wildcat banking system of antebellum days and again flooding our country with worthless money."

LAND.—Favors session of the arid lands to the State, subject to the homestead laws, with such legislation as will secure maximum benefits to the people and prevent ac-

cumulation of land in large tracts in the hands of single individuals or corporations, and with power to lease the same in small tracts to actual settlers; and denounces Democratic proposition to maintain such lands forever as an open common, as making their use and occupancy a constant cause of conflict and contention between our citizens.

MISCELLANEOUS.—Opposes class legislation, favors equal and exact enforcement of laws, establishment of Bureau of Labor and Arbitration, and approves Harrison Administration and Minneapolis platform.

WYOMING DEMOCRATIC, April 15.

"We arraign the National Republican party for its pursuance of a ruinous public policy, detrimental to the general welfare of the great laboring and producing masses of the people of the United States, and we especially charge that it has degenerated into a vast commercial combine, using the lawmaking and executive branches of the Government to create and foster favored classes and monopolists, thereby enriching these classes until their enormous wealth threatens the purity and stability of republican institutions. And on the other hand, by its grinding exactions and discriminations it is impoverishing the masses of the common people of the Nation. We denounce the appropriations of the LIst Congress as a reckless and extravagant expenditure of public money and we demand strict economy in the management of Governmental affairs."

ELECTION OF U. S. SENATORS, 1892.

LOUISIANA.

No Senator was elected by the Legislature of 1892 to succeed the Hon. Randall L. Gibson (Dem.), whose term will expire March 3, 1895. THE LIIID CONGRESS

THE SENATE.

At the election of 1892, the Democrats, who had 39 members of the previous Senate, held all the previously Democratic Legislatures, which are to choose Senators in 1893, and gained two Legislatures, New-York and Wisconsin. Thereby they will increase their membership to 41 and reduce the Republican membership to 45. Besides these losses, the Republicans appear (Dec., 1892) to have lost the Legislatures of California, Kansas, Montana and Nebraska, in which Senators are to be chosen. But it is not clear, at this writing, that out of these Legislatures will come the 3 Democratic Senators required to give that party, with the vote of the Vice-President, the majority of the body. The Republicans will not improbably be able to secure at least one Senator from these four States. It is assumed that Hon. William M. Stewart will be re-elected from Nevada, and that he will continue to act with the Republicans on general questions. In that event, it is not improbable that in the next Senate the Republicans will have 42, the Democrats 42, and the Independents the other 4, and that thus no party will have a clear majority.

UNITED STATES MILITARY ACADEMY.

METHOD OF APPOINTMENT.—Each Congressional District and Territory and the District of Columbia is entitled to have one cadet at the academy. Ten are also appointed at large. The appointments (except those at large) are made by the Secretary of War at the request of the Representative or Delegate in Congress from the district or territory, of which the appointee must be an actual resident. The appointments at large are specially conferred by the President of the United States.

MANNER OF APPLICATION.—Applications can be made at any time, by letter, to the Secretary of War, to have the applicant's name registered for submission to the proper representative when a vacancy occurs. The application must exhibit the full name, date of birth and permanent abode of applicant, with the number of the Congressional district in which his residence is situated.

DATE OF APPOINTMENT.—Appointments must be made one year in advance of date of admission, except in cases where, by death or otherwise, a vacancy occurs which cannot be provided for by such appointment in advance. These vacancies are filled in time for the next annual examination.

ALTERNATES.—The Representative or Delegate in Congress may nominate a legally qualified second candidate, to be designated the alternate. The alternate will receive from the War Department a letter of appointment and will be examined with the regular appointee, and if duly qualified will be admitted to the academy if the principal fails to pass the prescribed preliminary examinations. The alternate may not defer reporting at West Point until the result of the examination of the regular appointee is known, but must report at the time designated in his letter of appointment. The alternate, like the nominee, should be designated as nearly one year in advance of the date of admission as possible.

ADMISSION OF CADETS.—The candidate, upon receiving his conditional appointment, is ordered to report at West Point to the Superintendent of the Military Academy in time to appear before the Academic Board for examination at its meeting early in June, unless there be good reasons for designating another time. The candidate, soon after arrival at West Point, is subjected to a rigid physical examination by a board of Army surgeons. If he passes successfully, he is then examined by the Academic Board. These examinations are made as soon as practicable after the candidate reports to the Superintendent. The candidate who passes successfully both examinations is admitted, at once, to the Academy without returning to his home. Immediately after his admission, and before receiving his warrant of appointment, he must sign the following engagement for service, in the presence of the Superintendent, or of some officer deputed by him:

I, ——, of the State (or Territory), of ——, aged —— years —— months, do hereby engage (with the consent of my parent or guardian) that, from the date of my admission as a Cadet of the U. S. Military Academy, I will serve in the Army of the U. S. for eight years, unless sooner discharged by competent authority.

In the presence ——. —— ——.

The candidate must then take the following oath or affirmation:

I, —— ——, do solemnly swear that I will support the Constitution of the U. S., and bear true allegiance to the National Government; that I will maintain and defend the sovereignty of the U. S. paramount to any and all allegiance, sovereignty or fealty I may owe to any State or country whatsoever; and that I will at all times obey the legal orders of my superior officers, and the rules and articles governing the armies of the U. S.

Sworn and subscribed, at ——, this —— day of ——, eighteen hundred and ——, before me. —— ——.

QUALIFICATIONS.—The age for the admission of cadets to the Academy is between 17 and 22 years. Candidates must be unmarried, at least 5 feet in height, free from any infectious or immoral disorder, and generally, from any deformity, disease, or infirmity which may render them unfit for military service. They must be well versed in reading, in writing, including orthography, in arithmetic, and have a knowledge of the elements of English grammar, of descriptive geography (particularly of our own country), and of the history of the U. S.

THE NATIONAL ENSIGN.

On November 13, 1890, Secretary Tracy issued an order that until July, 4, 1891, the union of the National ensign and the union jack used in the Naval Service should be composed of five rows of seven stars and one row of eight stars, to provide for the addition of the five new States of North and South Dakota, Montana, Washington and Idaho. In the arrangement space was left for the addition of another star to represent Wyoming, which was added on July 4, 1891. June 14, the anniversary of the adoption of the stars and stripes as the National flag, is now celebrated by the Sons of the American Revolution as Flag Day, by a display of the flag, and the society invites the people of the whole country to follow its example.

No officer on the retired list of the Navy shall be employed on active duty except in time of war. And those officers on the retired list, and those hereafter retired, who were, or who may be, retired after forty years' service, or on attaining the age of sixty-two, in conformity with section 1 of the act of December, 1861, and its amendments, dated June 25, 1864, or those who were or may be retired from incapacity resulting from long and faithful service, from wounds or injuries received in the line of duty, from sickness or exposure therein, shall be entitled to seventy-five per centum of the present sea-pay of their grade or rank at time of retirement. The rear-admirals provided for in the act of June 8, 1872, shall be considered as having been retired as rear-admirals. (Act 3d March, 1873.)

UNITED STATES NAVAL ACADEMY.

STUDENTS AND COURSE.—The students at the U. S. Naval Academy at Annapolis, Md., are styled Naval Cadets. One cadet is allowed for every Member or Delegate of the House of Representatives, one for the District of Columbia, and ten at large. No more than ten appointed at large are allowed in the Academy at any one time. The course of study is six years, four years at the Academy and two at sea, at the end of which time the Cadet returns to the Academy for final graduation, and the district then becomes vacant.

NOMINATIONS.—The Secretary of the Navy, as soon after March 5 in each year as possible, notifies in writing each Member or delegate of the House of Representatives of any vacancy in his district. The nomination of a candidate to fill the vacancy is made on the recommendation of the Member or Delegate, if such recommendation is made by July 1 of that year; but if not the Secretary of the Navy fills the vacancy. The candidate allowed for the District of Columbia and all the candidates appointed at large are selected by the President. Candidates allowed for Congressional districts, for Territories and for the District of Columbia must be actual residents of the districts or Territories from which they are nominated. And all candidates must, at the time of their examination for admission, be between the ages of fifteen and twenty, physically sound, well-formed, and of robust constitution.

ENTRANCE EXAMINATION.—Candidates nominated in time to enable them to reach the Academy by May 15 receive permission to present themselves on that date to the Superintendent for examination for admission. Those not nominated in time to present themselves at the May examination are examined on the first of September following. When either of the above dates falls on Sunday the candidates present themselves on the Monday following. Candidates are required to enter the Academy immediately after passing the prescribed examinations. No leave of absence is granted to cadets of the fourth class.

GRADUATE APPOINTMENTS.—Appointments to fill all vacancies that may occur during a year in the lower grades of the Line and Engineer Corps of the Navy and of the Marine Corps are made from the Naval Cadets, graduates of the year, at the conclusion of their six years' course, in the order of merit as determined by the Academic Board. At least fifteen appointments from such graduates will be made each year. To surplus graduates who do not receive such appointments will be given a certificate of graduation, an honorable discharge, and one year's sea pay, as provided for Naval Cadets.

Iron, wrought, and steel, in wire, nails, screws, nuts and pipes. Iron, wrought, and steel, in ordinary manufactures and wire cloth unmanufactured. (See repertory.) Cotton, raw, with or without seed. Cottonseed and meal cake of same for cattle. Tallow and all other animal greases, melted or crude, unmanufactured. Books and pamphlets, printed, bound and unbound. Woods of all kinds, in trunks or logs, joists, rafters, planks, beams, boards and round or cylindric masts, although cut, planed, tongued and grooved, including flooring. Wooden cooperage, including staves, headings and wooden hoops. Wooden boxes, mounted or unmounted, except of cedar. Woods, ordinary, manufactured into doors, frames, windows and shutters, without paint or varnish, and wooden houses, unmounted, without paint or varnish. Woods, ordinary, manufactured into all kinds of articles turned or unturned, painted or varnished, except furniture. (See repertory.) Manures, natural or artificial. Implements, utensils and tools for agriculture, the arts and mechanical trades. Machines and apparatus, agricultural, motive, industrial and scientific, of all classes and materials, and loose pieces for the same, including wagons, carts and handcarts for ordinary roads and agriculture. Material and articles for public works, such as railroads, tramways, roads, canals for irrigation and navigation, use of waters, ports, lighthouses and civil construction of general utility, when introduced by authorization of the Government, or if free admission is obtained in accordance with local laws. Materials of all classes for the construction, repair in whole or in part of vessels, subject to specific regulations to avoid abuse in the importation. Meats, in brine, salted and smoked, including bacon, hams and meats preserved in cans, in lard or by extraction of air; jerked beef excepted. Lard and butter. Cheese. Fish and shellfish, live, fresh, dried, in brine, salted, smoked and pickled; oysters and salmon in cans. Oats, barley, rye and buckwheat, and flour of these cereals. Starch, maizena and other alimentary products of corn, except cornmeal. Fruits, fresh, dried and preserved, except raisins. Vegetables and garden products, fresh and dried. Hay, straw for forage and bran. Trees, plants, shrubs and garden seeds. Tan bark."

SCHEDULE B—DUTIES STATED.—"Corn or maize, 25 cents per 100 kilos. Cornmeal, 25 cents per 100 kilos. Wheat, 30 cents per 100 kilos. Wheat flour, $1 per 100 kilos. Carriages, cars and other vessels for railroads or tramways, where authorization of the Government for free admission has not been obtained, 1 per cent ad val."

SCHEDULE C—50 PER CENT REDUCTION.—"Marble, jasper and alabaster, of all kinds, cut into flags, slabs or steps, and the same worked or carved in all kinds of articles, polished or not. Glass and crystal ware, plate and window glass, and the same silvered, quicksilvered and platinized. Clay in tiles, large and small, and mosaic for pavements, colored tiles, roof tiles glazed and pipes. Stoneware and fine earthenware and porcelain. Iron, cast, in fine manufactures or those polished, with coating of porcelain or part of other metals. (See repertory.) Iron, wrought, and steel, in axles, tires, springs and wheels for carriages, rivets and their washers. Iron, wrought, and steel, in fine manufactures, or those polished, with coating of porcelain or other metals, not expressly comprised in other numbers of these schedules, and platform scales for weighing. (See repertory.) Needles, pens, knives, table and carving, razors, penknives, scissors, pieces for watches and other similar articles of iron and

steel. Tin plates in sheets or manufactured. Copper, bronze, brass and nickel, and alloys of same with common metals, in lump or bars, and all manufactures of the same. All other common metals and alloys of the same, in lump or bars, and all manufactures of the same, plain, varnished, gilt, silvered, or nickelled. Furniture of all kinds, of wood or metal, including school furniture, blackboards and other materials for schools and all kinds of articles of fine woods not expressly comprised in other numbers of these schedules. (See repertory.) Rushes, esparto, vegetable hair, broomcorn, willow, straw, palm and other similar materials, manufactured into articles of all kinds. Pastes for soups, rice flour, bread and crackers, and alimentary farinas not comprised in other numbers of these schedules. Preserved alimentary substances and canned goods, not comprised in other numbers of these schedules, including sausages, stuffed meats, mustards, sauces, pickles, jams and jellies. Rubber and gutta-percha, and manufactures thereof, alone or mixed with other substances (except silk), and oilcloths and tarpaulin. Rice, hulled or unhulled."

SCHEDULE D—25 PER CENT.—"Petroleum, refined, and benzine. Cotton manufactured, spun or twisted, and in goods of all kinds, woven or knit, and the same mixed with other vegetable or animal fibres in which cotton is an equal or greater component part, and clothing exclusively of cotton. Rope, cordage and twine of all kinds. Colors, crude and prepared, with or without oil, inks of all kinds, shoe blacking and varnishes. Soap, toilet and perfumery. Medicines, proprietary or patent, and all others, and drugs. Stearine and tallow manufactured in candles. Paper for printing, for decorating rooms, of wood or straw for wrapping and packing, and bags and boxes of same, sandpaper and pasteboard. Leather and skins, tanned, dressed, varnished or japanned, of all kinds, including sole leather or belting. Boots and shoes in whole or in part of leather or skins. Trunks, valises, travelling bags, portfolios and other similar articles in whole or in part of leather. Harness and saddlery of all kinds. Watches and clocks, of gold, silver or other metals, with cases of stone, wood or other material, plain and ornamented. Carriages of two or four wheels and pieces of the same."

It is understood that flour, which, on its exportation from the U. S., has been favored with drawbacks, shall not share in the foregoing reduction of duty.

The provisional arrangement as set forth in the Transitory Schedule came to an end on July 1, 1892, and on that date was substituted by the definitive arrangement as set forth in Schedules A, B, C and D.

AUSTRIA-HUNGARY (proclaimed May 26, 1892).

Austria-Hungary admits free of duty after May 25, 1892, all the articles of merchandise, the product of the U. S., "named in the commercial treaties which Austria-Hungary has celebrated with Germany and other nations, on the terms stated in the treaties."

AMERICAN PORK IN EUROPE.

The State Department records do not show that American pork is excluded by law from Belgium, Great Britain, Portugal, or Russia. On Sept. 3, 1891, Germany removed the prohibition existing in that country with regard to all American hogs and hog products officially certified in America to be free from qualities dangerous to health. The duty was placed at 20 marks the 200 pounds. On Aug. 25, 1892, the German Interior Department recommended by circular the domestic re-examination of American hams and sides before sale. On Sept. 8, 1891, Denmark removed, under similar conditons as to inspection, the Danish prohibition enforced since March, 1888. On Oct. 19, 1891, Italy took similar action, placing the duty at 25 francs the 100 kilos. On Nov. 16, 1891, the French embargo was finally removed, and the same duty was imposed. The removal of the Austrian prohibition was made known in the President's message, Dec. 9, 1891. On May 23, 1892, similar action by Spain was officially announced. Greece abolished the prohibition in March, 1884. In Sweden, exclusion or non-exclusion appears to depend on the result of inspection. Norway and Switzerland have taken no definite action. Turkey declared against American pork in 1883.

In June, 1892, 85,700,000 pounds of hog products were shipped from the United States to Europe, against 46,500,000 pounds in June, 1891. In September, 1892, farmers received an increase of 80 cents per 100 pounds for their hogs, or an average increase of $2 for every hog sold, over Sept., 1890.

a Number not credited upon the quotas of any State.

b Includes losses in all colored organizations excepting three regiments from Massachusetts.

NOTE.—The colored soldiers organized under the direct authority of the General Government and not credited to any State were recruited as follows Alabama, 4,969; Arkansas, 5,526; Colorado, 95; Florida, 1,044; Georgia, 3,486; Louisiana, 24,052; Mississippi, 17,869; North Carolina, 5,035; South Carolina, 5,462; Tennessee, 20,133; Texas, 47; Virginia, 5,723. There were also 5,896 negro soldiers enlisted at large or whose credits are not specifically expressed by the records. Of the number of colored troops credited to the States 5,052 were obtained, under the provisions of Section 8, act of Congress approved July 4, 1864, from the States that had seceded. The number of officers and men of the Regular Army among whom the casualties herein noted occurred is estimated at 67,000; the number in the Veteran Reserve Corps was 60.508, and in Hancock's Veteran Corps, 10,883. The other organizations of white volunteers, organized directly by the U. S. authorities, numbered about 11,000.

Appropriation for fiscal year 1893, $144,956,000; estimated deficiency, $10,508,621; estimate for fiscal year 1894, $165,000.

The 1892 applications include 131,484 invalids and 31,282 widows, under act of June 27, 1890, and 395 survivors and 759 widows of war with Mexico. The 1892 claims include 162,896 invalids and 34,974 widows, under act of June 27, 1890, and 416 survivors of the war with Mexico. "Invalids" and "widows" in foregoing table include pensioners under act of June 27, 1890, and survivors and widows of war of 1812, beginning with 1871, and survivors and widows of the war with Mexico, beginning with 1887.

PENSION OFFICE PROCEDURE.

PENSION LEGISLATION—Our present pension system has been built up between 1862 and 1890. In that time sixteen acts have been passed, fifteen of which may be classified as an extension of the original Pension Law to fit the necessities of Union Veterans. The sixteenth is the great Dependent Pension Law. Most of the pensions range between $2 and $30 a month for privates, though $72 a month is granted to those who have lost both hands, both feet and both eyes. The pension for widows is $12 a month.

METHOD OF APPLICATION—The first step toward securing a pension under the law of June 27, 1890, generally known as the Dependent Pension Law, is to apply to the Commissioner of Pensions, setting forth the military or naval service of the applicant, and the nature and character of his disabilities. The applicant must also be identified by two witnesses. When the application is filed in the Pension Office he is informed of the fact, and is then ordered to go before a Pension Board of

Surgeons for physical examination. If a disability is found sufficient to entitle him to a pension, he gets one on the report of the Board, or on the report of the Board his application is rejected. Widows are required to make application in the same form. With the application they must furnish proof of marriage to the soldier or sailor by a verified transcript from a church or other public record, if one exists, or by affidavits of the clergyman or magistrate who performed the ceremony, or by affidavits of two witnesses of the marriage, or by the record of the baptism of children. There must be evidence of witnesses that the widow has not married since her husband's death and that she depends on her daily labor for support. If she or her husband had been previously married, the date of death or divorce of former husband or wife must be cited. The widow must also prove the death of the soldier, and, if he enlisted under an assumed name, must prove his identity.

CHILDREN AND PARENTS—Children under sixteen and dependent parents are entitled to pensions under the law, but must show by the evidence of comrades or officers that the soldier's or sailor's death was due to his services.

RECONSIDERATION—On the evidence of two physicians that disability exists, an application rejected by a Board of Pension Surgeons may be reconsidered. In this case the applicant is ordered to go before another board of surgeons.

Procedure under the original Pension Law is similar to that outlined above, though the requirements for identification are more rigid.

There were 7,487 failures in the United States during the first nine months of 1892, or 1,341 less than during the same period in 1891. The total liabilities were $90,932,915, against $136,718,761, showing a decrease of $55,785,846.

INTEROCEANIC CANALS.

NICARAGUA.—The Maritime Canal Company of Nicaragua, capital $100,000,000 (which may be doubled), was incorporated under a charter granted by Congress in 1889. It had previously secured from the Nicaragua Government the exclusive right to construct and operate an interoceanic ship canal. On October 8, 1891, excavation was begun at San Juan del Norte, or Greytown. The total length of the proposed waterway is 169 2-3 miles, of which 28.89 miles represent canal in excavation. The minimum depth is 30 feet. From Greytown to Ochoa there will be 17.17 miles of excavated canal and 15 miles of free navigation in natural basins, with three locks; from Ochoa, 120.50 miles of free navigation in the San Juan River and Lake Nicaragua; from the lake to Brito, on the Pacific Coast, 5.28 miles of free navigation in a natural basin and 11.72 miles of excavated canal, with three locks. The great reservoirs of Lakes Nicaragua and Managua furnish an adequate high-level water supply. In November, 1892, the canal had been opened for one mile from Greytown, a construction railway built 12 miles in length, a breakwater constructed and the harbor of Greytown virtually opened to vessels of 14 feet draught. Numerous construction buildings had also been erected, the line of proposed excavation cleared and the surveys completed. The amount expended in plant and work is over $6,000,000. A bill reported unanimously from the Senate Foreign Committee recommending a Government guarantee of $100,000,000 for the work was withdrawn in February, 1891, after prolonged debate.

PANAMA.—The Panama Canal Company was organized March 3, 1880, and under the concession obtained from the Colombian Government was to construct and open the canal by March 3, 1892. The face value of the shares issued was approximately $500,000,000, but after $266,000,000 had been sunk the company, in 1889, became bankrupt. The total length of the proposed waterway is 45½ miles, and the work actually done is variously estimated at one-third, one-fifth and one-tenth of the whole. Under the original contract the completed fraction with all permanent plant would have reverted to the Colombian Government on March 3, 1892. Lieutenant Wyse, however, obtained in 1891 an extension of the concession for ten years, provided a new company should be organized by February 28, 1893, with sufficient capital to resume work "in a serious and regular manner." Otherwise the Colombian Government will seize the property and receive bids for its completion without reference to the claims of the first investors. The original plans for a tide-level canal have been altered so as to provide locks and cheapen the construction. The estimates of the cost of completion range between $100,000,000 and $2 000.000. The property is kept in order by a permanent staff at an expense of $60,000 a month. In November, 1892, the French Procureur-General instituted criminal proceedings on behalf of the Government against the leading officials of the canal company. The Chamber of Deputies also appointed a committee of inquiry into the canal affairs.

NATIONAL LEAGUE FOR GOOD ROADS.—Organized 1892—President, Senator Charles F. Manderson, Nebraska; general vice-president, and acting secretary, General Roy Stone, 45 Broadway, New-York; general Western secretary, S. Thornton K. Prime, Dwight, Ill.; treasurer, William H. Rhawn, Philadelphia; executive committee, E. H. Thayer, Iowa; Philip D. Armour, Chicago; Leland Stanford, California; Clem Studebaker, Indiana; Samuel W. Allerton, Illinois; Chauncey B. Ripley, New-Jersey; Alex. J. Cassatt, Pennsylvania; W. Seward Webb, New-York; George Peabody Wetmore, Rhode Island; Charles L. Burdett, Connecticut. Objects, "to awaken general interest in the improvement of public roads, determine the best methods of building and maintaining them, secure the legislation, State or National, that may be necessary for their establishment and support, and conduct or foster such publications as may serve these purposes."

NATURALIZATION LAWS OF THE UNITED STATES.

DECLARATION OF INTENTION.—An alien seeking naturalization as a citizen of the United States must declare on oath before a Circuit or District Court of the United States, or a District or Supreme Court of the Territories, or a court of record of any of the States having common law jurisdiction and a seal and clerk, at least two years before his admission that it is, bona-fide, his intention to become a citizen of the United States, and to renounce forever all allegiance and fidelity to any foreign State or ruler, and particularly to the one of which he may be at the time a citizen or subject.

OATH ON APPLICATION FOR ADMISSION.—At the time of his application for admission he must also declare on oath, before some one of the courts above specified, "that he will support the Constitution of the United States, and that he absolutely and entirely renounces and abjures all allegiance and fidelity to every foreign prince, potentate, State or sovereignty, and particularly, by name, to the prince, potentate, State or sovereignty of which he was before a citizen or subject."

CONDITIONS OF CITIZENSHIP.—It must appear to the satisfaction of the court to which the alien has applied for final admission that he has resided continuously within the United States for at least five years, and in the State or Territory where the court is held at least one year, and that during that time "he has behaved as a man of good moral character, attached to the principles of the Constitution of the United States, and well disposed to the good order and happiness of the same."

TITLES OF NOBILITY.—If the applicant bears any hereditary title or belongs to any order of nobility, he must make an express renunciation at the time of his application.

SOLDIERS.—Any alien twenty-one years old and upward, who has been honorably discharged from the armies of the United States, may become a citizen on his petition, without any previous declaration of intention, provided he has resided in the United States at least one year previous to his application, and is of good moral character.

MINORS.—Any alien under the age of twenty-one, who has resided in the United States three years next preceding his twenty-first birthday and has continued to reside therein up to the time he makes application to be admitted a citizen, may, after he arrives at the age of twenty-one, and after he has resided five years within the United States, including the three years of his minority, be admitted a citizen; but he must make a declaration on oath and prove to the satisfaction of the court that for the two years next preceding it has been his bona-fide intention to become a citizen.

CHILDREN OF NATURALIZED CITIZENS.—The children of persons who have been duly naturalized, being under twenty-one at the time of the naturalization of their parents, shall, if dwelling in the United States, be considered as citizens.

CITIZENS' CHILDREN BORN ABROAD.—The children of persons who now are or have been citizens of the United States are considered as citizens, though they may be born out of the limits and jurisdiction of the United States.

CHINESE.—The naturalization of Chinamen is prohibited by Section 14, Chapter 126, Laws of 1882.

PROTECTION OF NATURALIZED CITIZENS.—Section 2,000 of the Revised Statutes of the United States expressly declares that "all naturalized citizens of the United States while in foreign countries are entitled to and shall receive from this Government the same protection of person and property which is accorded to native-born citizens."

THE RIGHT OF SUFFRAGE.—The right to vote is conferred by the State, naturalization by the United States. In several States aliens who have declared their intentions enjoy the right to vote equally with naturalized or native-born citizens. But the Federal naturalization laws apply to the whole Union alike, and no alien may be naturalized until after five years' residence, except an honorably discharged soldier or a person whose parents have been naturalized while he was under twenty-one years of age, as above recited. Even after five years' residence and due naturalization, he is not entitled to vote unless the laws of the State confer the privilege upon him.

REGISTRATION OF VOTERS.

Voters are required to register in Alabama, Arizona, California, Colorado, Connecticut, Florida, Louisiana, Maine, Maryland, Massachusetts, Mississippi, Nevada, New-Hampshire, North Carolina, Pennsylvania, South Carolina, Vermont and Virginia. In Georgia registration is required in a few counties; in Iowa, Kansas and Nebraska, in all cities. In Illinois registration is required, but, except in a few cities, a legal voter not registered may vote upon filing an affidavit by himself and another known legal voter that he is a qualified voter and has not already voted. In Minnesota registration is required in all cities of 1,200 inhabitants or over; in Missouri, in cities of 100,000 inhabitants and over; in New-Jersey, in cities of over 10,000 inhabitants; in Wisconsin, in cities of 20,000 inhabitants or over; in Ohio, in Cincinnati and Cleveland only. Registration is not required in Arkansas, Delaware, Indiana, Kentucky, Oregon, Tennessee, Texas and West Virginia. It is prohibited in Arkansas, Texas and West Virginia by the Constitution. In New-York, voters in cities must register personally; in all other places within the State they may register on the first two registration days by proxy.

BALLOT REFORM.

The following States and Territories have passed ballot reform laws in a more or less complete and effective form:

1888—Kentucky (applying only to Louisville), Massachusetts.

1889—Connecticut, Indiana, Michigan, Minnesota, Missouri, Montana, Rhode Island, Tennessee, Wisconsin.

1890—New-Jersey, New-York, Oklahoma, Vermont, Washington, Wyoming.

1891—Arkansas, California, Colorado, Delaware, Illinois, Kentucky, Maine, Nebraska, New-Hampshire, North Dakota, Ohio, Oregon, Pennsylvania, South Dakota, Texas, West Virginia.

The Australian rule of placing candidates' names on the ballot in alphabetical order under the titles of offices prevails in Arkansas, California, Massachusetts, Minnesota, Montana, Nebraska, New-Hampshire, North Dakota, Oregon, Rhode Island, South Dakota, Tennessee, Vermont, Washington, Wisconsin and Wyoming.

The Belgian system of grouping party tickets in a blanket ballot is followed in Colorado, Delaware, Illinois, Indiana, Maine, Maryland, Michigan, Missouri, Oklahoma, Pennsylvania and West Virginia.

All the States arranging names by party groups, excepting Maine, Missouri, Pennsylvania and West Virginia, provide for party emblems to distinguish the groups. In Mississippi, the order of arranging names on the ballot is not specified.

In all, 32 States and Territories have passed Ballot Reform laws, and all, except New-York, New-Jersey and Connecticut, have adopted the "blanket" ballot.

Three States, Mississippi, Kentucky and Texas, have adopted the new ballot system in their constitutions.

The first bill embodying the principles of the Australian system ever presented to a Legislature in America was introduced in the New-York Assembly in 1888, by Charles T. Saxton, of Clyde.

WOMAN SUFFRAGE.*

AMERICA—Twenty-eight States, a large majority of the Union, have given women some form of suffrage. The Judiciary Committee of the Federal House of Representatives reported in the spring of 1890 a constitutional amendment securing suffrage to the women of the whole country. In Canada women have municipal suffrage in every Province and Territory; in Ontario, for all elective offices but members of the Legislature and Parliament.

In Arizona, Colorado, Delaware, Idaho, Illinois, Indiana, Kansas, Kentucky, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New-Hampshire, New-Jersey, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Vermont, Washington and Wisconsin women have various degrees of school suffrage.

In Arkansas and Missouri women vote, by signing or refusing to sign petitions, on liquor license in many cases. In Louisiana they vote on allowing railroads to run through their parishes. In Mississippi, in 1892, they were admitted to vote on fence questions by the stock law. In Delaware suffrage is exercised by women in several municipalities. In Kansas they have equal suffrage with men at all municipal elections. About 60,000 voted in 1891. In Montana they vote on local taxation. In New-York they vote at school elections; 3,000 voted at Binghamton in 1890. They vote also in various cities and villages on local improvements, such as gas and electric street lighting, paving, sewerage and municipal bonds. In Pennsylvania women vote, by signing or refusing to sign petitions, on paving and other local improvements. In Utah women voted from 1870 until disfranchised by Congress in the "Edmunds Law." They are now actively demanding the repeal of this law. In 1884 the people formed a State constitution securing suffrage to women, but Congress did not admit the State. In Washington women voted generally for five years, and then were excluded by decision of the Territorial Supreme Court. They were mostly debarred from voting on the State Constitution, and the men, mostly newcomers, voted down a constitutional provision guaranteeing suffrage to women. The women assert that they were shut out unlawfully, and are at work to undo their disfranchisement; 14,000 women voted in the Territory in one year. In Wyoming women have had the same vote with men since 1869. They requested the constitutional convention to guarantee suffrage to them in 1889. This was done with practical unanimity in convention and at the polls. Congress declared that it "accepted, ratified and confirmed" this constitution, and admitted the State, July 10, 1890. The women have generally voted the Republican ticket, as that party was mainly instrumental in enfranchising them.

The New-York Assembly passed in April, 1891, by 71 votes to 34, the bill proposed in 1880 and since urged by Hamilton Willcox, enabling all woman citizens to vote at all elections. A majority of the Senate favored it; but no vote was taken. Both Houses, however, passed in 1891 a law enabling women outside of cities to vote for a school commissioner in each Assembly district once in three years, at State elections. The Vermont lower House passed in 1891 a bill securing municipal suffrage, by 149 to 83; but the bill failed in the Senate.

AFRICA—Cape Colony has municipal woman suffrage. The colony rules a million square miles.

*Prepared by Hamilton Willcox, of New-York, Chairman State Executive Committee Woman Suffrage Party.

ASIA—All Russian colonies in Siberia have municipal women suffrage for heads of households. So have the women taxpayers of India in the rural districts of British Burmah and the municipalities in the presidencies of Bombay and Madras.

AUSTRALIA—Every province has municipal and school woman suffrage. The country is about as large as the United States, not including Alaska.

AUSTRALASIA.—New-Zealand and Tasmania have municipal and school woman suffrage. Both Houses of the New-Zealand Legislature passed in 1891 a bill admitting women to vote for Members of Parliament, but it failed to become a law owing to a disagreement as to details.

EUROPE—In England, Scotland and Wales women vote for all elective officers but members of Parliament. In France the women teachers elect women members of all boards of education. In Sweden women vote for all elective officers but Representatives; also, indirectly, for members of the House of Lords. In Norway they have school suffrage. In Ireland they vote for harbor boards, poor-law guardians, and in Belfast for municipal officers. In Russia women householders vote for all elective officers and on all local matters. In Finland for all elective officers. In Austria-Hungary they vote, by proxy, for all elective officers. In Croatia and Dalmatia they do so at local elections in person. In Italy widows vote for members of Parliament. In Prussia, women vote mainly by proxy, at local elections and for members of provincial Diets. In Belgium, women taxpayers have municipal suffrage by proxy, and in Luxemburg for members of the Legislature also. In Switzerland, woman real estate owners have local suffrage in the canton of Berne. In Roumania, women taxpayers have municipal suffrage by proxy.

ISLANDS—Iceland, the Isle of Man and Pitcairn Island have full woman suffrage. Nearly 2,000 Islands have it in some degree. Guernsey, in the English Channel, enacted it in 1891.

The area of countries where women have some suffrage is about 20,000,000 square miles, larger than all Asia, and their population is about 385,000,000, more than that of all Europe.

NAVAL MILITIA.

Secretary Tracy, in his first and second annual reports, called attention to the great importance of a trained militia for the Navy. On March 2, 1891, Congress accordingly appropriated $25,000 to purchase arms for the militia, to be expended under direction of the Secretary of the Navy. A second appropriation of like amount was made in 1892. This fund is not distributed directly to the States, but is used, under supervision of the Bureau of Ordnance, to fill requisitions from Governors for arms and equipment. California, on July 1, 1892, had received $8,094 43, New-York $7,461 71, Massachusetts $5,123 93, North Carolina $2,203 60, Rhode Island $1,178 16, and Texas $988 17. California had mustered in 371 men, New-York 342, Massachusetts 238, North Carolina 101, Rhode Island 54, Maryland 125, and Texas 43; total, 1,274.

The First Naval Battalion of the State of New-York is regularly mustered in as a part of the State militia, and has 310 members. The officers are: Commander, J. W. Miller; Lieutenant Commander and Executive Officer, George Edward Kent; Lieutenant and Navigator, H. L. Satterlee; Paymaster, Lieutenant J. G. Agar; Surgeon, Lieutenant (J. G.) John Vanderpoel; Assistant Surgeon, Ensign A. M. Thomas; Lieutenants, S. Dana Greene, W. B. Duncan, Robert P. Forshew, L. M. Mowbray; (J. G.) Washington Irving, E. C. Weeks and W. H. Stayton; Ensigns, Daniel Bacon, T. C. Zerega, Byron French, W. C. Brown, George W. Blair, W. J. Henderson and W. DeW. Dimoch. The battalion is divided into four divisions, and has been drilled each summer on board men-of-war assigned by the Government for the purpose. In winter the drills take place in some available armory. The men are instructed in all the duties of a navy sailor, including the construction and management of steam and electrical machinery, the preparation and use of high-power explosives and signalling. The Naval militia is intended primarily to furnish a force which in time of war can defend the State seaports. The headquarters of the New-York Naval Reserve Association are at No. 55 West 26th-st., New-York. The president is Herbert L. Satterlee, and the secretary, J. Arden Harriman.

REVISION OF THE PRESBYTERIAN CREED.—For several years the Presbyterian Church in the United States of America (the Northern Church) has considered the advisability of revising its ancient Confession of Faith, promulgated by the Westminster Divines in 1646. The question came up in practical shape before the General Assembly of 1889, which, after discussion, asked the various Presbyteries whether they desired a revision. A majority replied in the affirmative, and the Assembly of 1890 appointed a Committee on Revision, made up of theological professors, college presidents, ministers and elders, chosen from both parties. This committee reported in 1891, recommending many changes and modifications in the Confession, but declaring according to the terms of its appointment that "no alterations or amendments should be proposed that would in any way impair the integrity of the Reformed or Calvinistic system of doctrine taught in the Confession." The Assembly referred this report back to the Presbyteries for further presentation in 1892. The Assembly in 1892 adopted the second report based on the answers of the Presbyteries. Two chapters have been added to the Confession and changes recommended in about thirty sections. The Presbyteries are now discussing the revised recommendations, and if a sufficient number approve they will take the place of the old sections.

THE WORLD'S CONGRESS AUXILIARY.

President, Charles C. Bonney; vice-president, Thomas B Bryan; treasurer, Lyman J. Gage; secretary, Benj. Butterworth.

ORGANIZATION.—The World's Congress Auxiliary consists of a central organization, authorized by the Exposition Directory of the World's Columbian Exposition, and recognized by the Federal Government; a local committee of arrangements for each Congress; an advisory council for each committee: general honorary and corresponding members, and committees of co-operation, appointed by particular organizations, and recognized by the Auxiliary as representatives of societies or institutions. The Woman's Branch of the Auxiliary consists of committees of women appointed to co-operate with the corresponding committees of men in making arrangements for Congresses appropriate for the participation of women. Mixed committees are not appointed, but the two committees may act as a joint committee, when occasion requires. In case a separate Congress of Women is desirable, it will be in special charge of this branch of the Auxiliary, of which Mrs. Potter Palmer is president and Mrs. Charles Henrotin vice-president.

OBJECTS.—To provide for the proper presentation of the world's intellectual and moral progress, with the assistance of the leaders in all the chief departments of human achievement; to provide places of meeting and other facilities for kindred organizations to unite in Congresses in Chicago during the Exposition season, for the consideration of questions in their respective departments; to conduct popular Congresses in which will be presented summaries of the progress made and the most important results attained in the several departments of civilized life; to provide for the proper publication of the Congress proceedings as the most valuable and enduring memorial of the Exposition; and to bring all the departments of human progress into harmonious relation in the Exposition.

The building will contain two large audience rooms, seating about 8,000 persons each; and twenty smaller rooms, seating from 300 to 700 persons each. Two General Congresses and twenty Special Congresses or Conferences may thus, if necessary, sit at the same time. The topics presented will be selected with a view to complete and orderly treatment of the general subject. The programmes will be carefully compared, and all papers and remarks strictly limited to an allotted time. The object is to ascertain results and consider existing problems, and long papers are therefore not desired. The time at disposal after the delivery of a discourse will be given to the most eminent expert present, who will speak on the call of the presiding officer, and the largest practicable number of persons eminent in the work of a given Congress will be asked to act as presiding officers during the different sessions.

WORLD'S FAIR DATES.

The World's Columbian Exposition was created by act of Congress, April 25, 1890. President Harrison, on Dec. 24, 1890, proclaimed the Exposition to the world, and invited foreign nations to participate. On October 21, 1892, the Exposition grounds and buildings at Chicago were formally presented by President Higinbotham, of the World's Columbian Exposition, to President Palmer, of the World's Columbian Commission, and were dedicated, with appropriate ceremonies, by Levi P. Morton, Vice-President of the United States, on behalf of President Harrison. The Exposition will open to the public on May 1, 1893, and close on Oct. 30, 1893. The programme of ceremonies will be prepared early in 1893. The Exposition act provides for a naval review in New-York harbor in April, 1893, in which foreign navies are invited to participate.

POSTAGE RATES.

CLASSES OF MAIL MATTER.

Domestic mail matter is divided into four classes:

First Class—Letters, postal cards, and matter wholly or partly in writing, whether sealed or unsealed (except manuscript copy accompanying proof-sheets or corrected proof-sheets of the same), and all matter sealed or otherwise closed against inspection.

Rate of Postage—Two cents per ounce or fraction thereof. Postal cards, one cent each. On "drop" letters, two cents per ounce or fraction thereof, when mailed at letter-carrier's office; and one cent per ounce or fraction thereof at other offices.

Second Class—Newspapers and publications issued at stated intervals as often as four times a year, bearing a date of issue and numbered consecutively, issued from a known office of publication, and formed of printed sheets, without board, cloth, leather or other substantial binding. Such publications must be originated and published for the dissemination of information of a public character, or devoted to literature, the sciences, art, or some special industry. They must have a legitimate list of subscribers, and must not be designed primarily for advertising purposes, or for free circulation at nominal rates.

Rate of Postage—For publishers and news agents: 1 cent a pound or fraction thereof. For others than publishers and news agents: 1 cent for each four ounces or fraction thereof.

Third Class—Books, periodicals and matter wholly in print (not included in second class), proof-sheets, corrected proof-sheets and manuscript copy accompanying the same.

Rate of Postage—One cent for each two ounces or fraction thereof.

Fourth Class—Merchandise, namely, all matter not embraced in the other three classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service, and not above the weight provided by law.

Rate of Postage—One cent per ounce or fraction thereof, but on seeds, cuttings, roots, scions and plants, one cent for each two ounces or fraction thereof.

THE LIMIT OF WEIGHT.

A package must not exceed four pounds in weight, unless it be a single book.

PAYMENT OF POSTAGE.

On first-class matter the postage should be fully prepaid, but if two cents in stamps be affixed the matter will be forwarded and remainder due collected of addressee before delivery.

On Second-Class Matter—The postage must be fully prepaid.

On Third-Class Matter—The postage must be fully prepaid.

On Fourth-Class Matter—The postage must be fully prepaid.

WHAT MAY BE WRITTEN OR PRINTED ON MAIL MATTER.

Second Class—Name and address of persons to whom the matter is to be sent; index-figures of subscription book printed or written; printed title of publication, printed or written name or address, without advertisement of publisher or sender; written or printed words or figures, or both, indicating date on which subscription ends; correction of typographical errors, a mark except by written or printed words to designate a word or passage to which it is desired to call attention; the words "sample copy"; publishers' or news agents' bills, receipts, and orders for subscription, but the same shall convey no other information than the name, place of publication, subscription price, and amount of subscription due. The number of copies inclosed may be indicated on wrapper or face of package.

Third Class—Sender's name and address, with the word "from"; marks other than by written or printed words to call attention to word or passage; correction of typographical errors; on the blank leaves or cover of any book may be placed a simple manuscript dedication or inscription not in the nature of a personal correspondence; upon the address side of wrapper, envelope, tag or label must be left space sufficient for legible address and necessary stamps.

Fourth Class—With matter of this kind may be inclosed any mailable third-class matter. On wrapper, cover, tag or label may be written name and address of sender with word "from"; marks, numbers, names or letters for purposes of description, or same may be printed; any printed matter not in nature of a personal correspondence. On address side must be left space sufficient for legible address and necessary stamps.

THE REGISTRY SYSTEM.

All mail matter, including drop letters, may be registered; but not matter addressed to fictitious names, initials, or box numbers, or bearing vague and indefinite addresses.

The registry fee is ten cents in addition to postage. It must be prepaid by stamps affixed.

The rates of postage to all other countries and colonies (except Canada and Mexico) are as follows:

Letters, 15 grams (½ ounce)..5 cents.
Postal cards, each.....2 cents.
Newspapers and other printed matter, per 2 ounces.....1 cent.
Commercial papers:
- Packets not in excess of 10 ounces .....5 cents.
- Packets in excess of 10 ounces, for each 2 ounces or fraction thereof .....1 cent.

Samples of merchandise:
- Packets not in excess of 4 ounces .....2 cents.
- Packets in excess of 4 ounces, for each 2 ounces or fraction thereof ..... 1 cent.

Registration fee on letters or other articles .....10 cents.

Ordinary letters for countries of the Postal Union (except Canada and Mexico) must be forwarded whether any postage is prepaid on them or not. All other mailable matter must be prepaid, at least, partially.

CANADA AND MEXICO.

Matter mailed in the United States addressed to Canada or Mexico is subject to the same postage rates and conditions as it would be if it were addressed for delivery in the United States.

THE SALVATION ARMY.

International headquarters, No. 101 Queen Victoria-st., London, E. C., England. The Rev. William Booth, General. United States National Headquarters, No. 111 Reade-st., New-York City. Ballington Booth, Commander.

The Salvation Army was inaugurated on July 5, 1865, at Mile End, London, by the Rev. William Booth, formerly a minister of the Methodist New Connexion. Its name was originally the Christian Mission. The new title was adopted in 1878. The theology of the Army is described as "almost if not quite identical with that of the Methodist Church." Its flag now flies in thirty-four countries or colonies, where, under the leadership of 11,149 men and women, whose lives are entirely given up to the work, it holds 49,800 religious meetings every week. It has 27 weekly newspapers and 15 magazines, with a total annual circulation of 49,015,044. It has accumulated $4,015,085 worth of property, pays rentals amounting to $1,100,000 per annum for its meeting places, and has a total income from all sources of $3,750,000. The Army literature is issued in 15 languages and services are held in 29 languages. The number of local officers, bandsmen and office employes is 23,540.

The United States branch was established in 1880. There are now in this country 536 corps and outposts and 1,487 officers, with 15,000 adherents. The value of the property held by the United States wing of the Army is $175,000.

PATENT OFFICE PROCEDURE AND STATISTICS.

Applications for United States patents must be addressed to the Commissioner of Patents, Washington, D. C., and signed and sworn to by the inventor. The invention must not have been in public use or on sale for more than two years prior to the application. The applicant must fully describe his invention, and distinctly claim those parts which he believes to be new. The application must be illustrated with drawings when possible. When filed, a first fee of $15 is payable, and a second fee of $20 is exacted if the application is allowed, before the patent will be issued. The patent runs 17 years from date of issue. Extensions can be obtained only by special act of Congress. A pamphlet of rules and forms is distributed free by the Commissioner of Patents. Suits to enjoin infringement of letters patent are brought by bill in equity in U. S. District or Circuit courts. The profits realized by an infringer can also be recovered.

The total number of United States Patents granted up to and including Oct. 25, 1892, was 485,158. The average issue is about 25,000 a year. The average number of applications for patents is 40,000 a year. Since 1881, the annual receipts of the Patent Office have exceeded $1,000,000. The figures for fiscal year ending June 30, 1892, were $1,268,727 35. The expenditures for the same year were $1,114,134 28. The total balance to the credit of the Patent Fund in the United States Treasury on June 30, 1892, was $4,102,441 09. The two main items of expense are salaries, about $650,000, and printing and photo-lithographing, about $400,000 annually. The Patent Office Library contains 60,000 volumes. The model hall has 154,000 models. The office does not require models now, except in special cases.

UNIVERSITY EXTENSION.

The university extension movement, started in the United States in 1890 by Dr. William Pepper, provost of the University of Pennsylvania, is a system of instruction for adults, embracing lecture courses, with classes, weekly exercises, examinations and certificates.

The American Society for the Extension of University Teaching (president, Professor Edmund J. James, Wharton School, University of Pennsylvania; treasurer, Frederick B. Miles; headquarters, Fifteenth and Chestnut sts., Philadelphia), was founded in 1890 by Dr. Pepper, has organized "local centres" in neighboring States, and through branch societies and affiliated colleges has stimulated general diffusion of the system.

The "unit of instruction" is a course of six or twelve weekly or fortnightly lectures, followed by a special conference or class. The "unit of organization" is a committee of citizens or the directors of a literary or social club, willing to assume the local management of the course. Lecturers are secured through the central office, either from the faculty of a neighboring college or from the society's regular staff. In 1890-'91 there were 23 "centres" in and near Philadelphia, before which 42 lecture courses were given to an average attendance of 10,000. In 1891-'92 there were 59 "centres," 120 courses, and 25,000 students. At the annual National Conference at Philadelphia many colleges and active extension centres in twenty States were represented. Connecticut has a State branch of the American Society; Rhode Island, New-York, Ohio, Wisconsin and Kansas are also active in the movement. The "Handbook of University Extension," edited by George F. James, general secretary of the American Society, gives full particulars.

COPYRIGHT AND TRADE MARKS.

Under the International Copyright act (approved, March 3, 1891; took effect, July 1, 1891) any United States citizen, or citizen or subject of foreign nations granting copyright to United States citizens on substantially the same basis with their own citizens, or which become parties to an international agreement for reciprocity in copyright, who is "the author, inventor, designer or proprietor of any book, map, chart, dramatic or musical composition, engraving, cut, print, or photograph or negative thereof, or of a painting, drawing, chromo, statue, statuary, and of models or designs intended to be perfected as works of the fine arts, and the executors, administrators, or assigns of any such person" may secure for 28 years, the sole liberty of printing, reprinting, publishing, completing, copying, executing, finishing, and vending the same; and, in case of a dramatic composition, of publicly performing or representing it or causing it to be performed or represented by others.

The applicant, on or before the day of publication in this or any foreign country, must deliver at the office of the Librarian of Congress, or deposit in the mail within the United States, addressed to him at Washington, D. C., a printed copy of the title of the book, map, etc., or a description of the painting, etc., or a model or design for a work of the fine arts for which he desires a copyright. He must also, not later than the day of publication in this or any foreign country, deliver at the Librarian's office, or deposit in the mail within the United States, addressed to him at Washington, D C., two copies of a book, photograph, chromo or lithograph, printed from type set within the United States, or from plates made therefrom, or from negatives or drawings on stone made within the United States, or from transfers made therefrom, or a photograph of a painting, drawing, statue, model or design. The Librarian's fees are: 1. For recording the title or description of any copyright book or other article, 50 cents. 2. For every copy under seal of such record actually given to the person claiming the copyright, or his assigns, 50 cents. 3. For recording and certifying any instrument of writing for the assignment of a copyright, $1. 4. For every copy of an assignment, $1. The charge for recording the title or description of any article entered for copyright, the production of a foreigner, is $1. The Secretary of the Treasury prints at short intervals catalogues of title-entries for distribution at a small charge.

Proprietors of copyrights must send to the Librarian copies of all subsequent editions in which substantial changes are made. Authors have exclusive right to dramatize or translate their works copyrighted in the United States. An author, inventor or designer, or his widow or children, may secure an extension of the copyright for 14 years, by recording the title a second time within 6 months before the expiration of the first period. The penalty for unauthorized use of a copyright notice is $100. Every person who shall "without the consent of the proprietor of the copyright first obtained in writing, signed in presence of two or more witnesses, print, publish, dramatize, translate or import, or knowing the same to be so printed, published, dramatized, translated or imported, shall sell, or expose to sale" any copy of a copyrighted book, must forfeit every copy to the proprietor and is liable for damages in a civil action. In the case of paintings or statuary the infringer forfeits $10 for every copy he sells, possesses or exposes for sale. With other copyrighted articles he forfeits the plates and $1 for every sheet he possesses or exposes for sale. Persons purchasing for use, and not for sale, may import, subject to duty, not more than two foreign copies of a copyrighted book.

Switzerland, France, Belgium, England, Germany and Italy have been admitted to the benefits of the new law. For an American citizen to secure copyright in Great Britain, the title must be entered at Stationers' Hall, London, the fee for which is 5 shillings sterling, the work must be published in Great Britain simultaneously with its publication in the U. S., and five copies of the publication are required.

A foreigner may secure copyright in France, by depositing two copies of the publication at the Ministry of the Interior in Paris.

In Germany a foreigner must enter his work in the general registry book of copyrights at Leipzig, and have it published by a firm having its place of business within the German Empire.

Copyright in Canada is to be registered with the Minister of Agriculture, fee $1 the work to be published in Canada.

AMERICAN COPYRIGHT LEAGUE.—Secretary, R. U. Johnson, 33 East 17th st., New-York.

TRADE-MARKS.—These are registered at the Patent Office, Washington, D. C. The fee for registering trade-marks is $25; labels, $6.

HOW TO DETECT COUNTERFEITS.

The principal defects of some of the counterfeits given in annexed tables are noted below:

Treasury Notes—$1. B C D. Engraving coarse; Chase's mouth crooked, eyes blurred; numbering irregular, ones in circles in border almost illegible. D. Numbering very irregular; words on back misspelt. $2. B C D. Lettering uneven; imprint of Bank Note Co. almost illegible. D 1880. Picture of Capitol mere outline; "Legal-lender" for "Legal-tender" on back. $5. A. Mar. 10, 1863, "convertible" instead of "non-convertible." A D. Liberty at left very coarse; Hamilton coarse, and not a likeness. Chittenden signature coarse and not fac-simile; or Liberty scratchy and unfinished, drapery about feet of statue unfinished; or ball-tassels in drapery below knee not prominent enough. C. Jackson's face has scared expression; flourishes lacking about "Series of 1875"; after word "Bureau" is a period instead of a comma. D. ¼-inch short; Jackson lacks fine dotted lines. A. Series 1875. Seal pale; lathe work blurred. B. Lacks parallel silk thread; Wyman's name spelled "Wgman"; or words "Bureau of Engraving and Printing" reversed beginning at lower right hand end instead of upper left hand. $10. B C. Lincoln's eyes wild and staring; in National Bank Note Co.'s imprint first "a" smaller than adjoining letters; or under eagle's wing four feathers indistinct instead of clear and sharp; or "T" of "note" in imprint of National Bank Note Co. leans. A B C D. Only three green dots instead of four to the left of figures "10" in green counters. C. Webster's face surly; W, D and C, in "Washington, D. C.," centre of bill, same size as other letters; should be larger. D. Words "Register of the Treasury" and "Treasurer of the U. S." omitted below signatures; green ink washes off. L. Series of 1880. Same general appearance as foregoing; none genuine with check letter L. $20. On all of 1862 or 1863 small "telegraph lines" across large green figures 20 are lacking or defective. A B C. Imprint of Bank Note Co. very imperfect. A B C D. Liberty's hands shapeless; inscription beneath vignette very imperfect; or background of Hamilton's portrait lacking fine lines; or wetting will disturb inks, and lacks parallel silk threads; or lacks at top centre face, "Engraved and printed at the Bureau of Engraving and Printing." A. March 10, 1863. Marked exchangeable for six per cent bonds; or Liberty badly drawn; or fingers of left hand appear broken. $50. C. Hamilton's nose sharply pointed, numbering imperfect. A B C D. Altered note, Hamilton's vignette at bottom instead of top; or words "fifty, fifty" surrounding small numbers "50" illegible; or counters on back circles instead of octagons. A C D. Splendid counterfeit. Same defect. B. Very dangerous. On back centre, top of large 50, star top of 5 shows six points instead of five, stars at bottom have points instead of four. D. Moisture disturbs color on back. A, series 1880. "Act of March 3, 1863," over Franklin's portrait, omitted; also "Series," over N in "United States"; also "engraved and printed," etc. $100. Stem of feather in eagle's tail not distinct. On back in scroll work, figures repeated are "100,001" instead of "001,100." $500. B C, series 1869. Very dangerous. Nearly all the genuine notes withdrawn; better receive only as bills for collection. $1,000. Same as foregoing.

SILVER CERTIFICATES—$1. No silk thread. $2. B. Lacks silk threads, large seal printed in different shades of color. C. One-quarter inch too short, Hancock's head smaller and narrower than in genuine, or check letter C next vignette omitted or very indistinct. $5. A. Silk thread imitated by line on back, Grant's portrait bad. D. No silk thread, word "Register" in "Register of the Treasury" out of line. C. Series 1891, Grant's portrait poor, nose broad and flat, green on back has bluish tinge, geometric lines untrue and indistinct. $10. Series 1880. On back "all" in "and all public dues" omitted; or "Engraved and printed at the Bureau of Engraving and Printing" or small lettering on face omitted. Lettering blotched, blurred and soiled. B., series 1886. "This certifies that there have been deposited in the Treasury" omitted from top centre. $10 and $20. Penwork counterfeits are numerous; Treasury number washes off $10 D and $20. B, series 1880. Color of seal disturbed by moisture. $20. B, series 1880. Treasury number, 2774258X, very dangerous. C. In left panel R T and F in word "certificate" upside down; on back, "taxes" and "engraved" spelled "taxes" and "engravod."

NATIONAL BANK NOTES.—$1. Natl. Eagle Bank, Boston, red numbering inferior. $2. Natl. Union, Kinderhook, N. Y., under check letter A at left are two flourishes instead of one; Linderpark, N. Y., no such bank; Market Natl., N. Y., only one flourish over AR in Market instead of three; Marine Natl., N. Y., "city of" omitted before New-York, black panel under title; Ninth Natl., N. Y., "the" after "of" omitted in title; St. Nicholas Natl., N. Y., "New-York" over date, July 1, 1865, in script instead of italics; Westchester Co. Natl., Peekskill, under left check letter A two flourishes instead of one; Natl. of Rhode Island, imprint of Bank Note Co. hardly legible. $5. C, Jewett City Natl., Norwalk Central Natl., series 1882; refuse all. First Natl., Aurora, Ill.; Central Natl., First Natl., German Natl., Chicago; First Natl., Paxton, Ill.; First Natl., Peru, Ill.; First Natl., Canton, Ill.; First Natl., Northampton, Mass.; refuse all signed S. B. Colby, Register of the Treasury; First Natl., Merchants' Natl., Traders' Natl., Chicago; Natl. of Pontiac, Ill., vertical lines dividing vignette on back from coat of arms if continued down would pass between two s instead of cutting one. Union Natl., Chicago, Farmers' Natl., Virginia, Ill., refuse, May 10, 1865. Boylston Natl., Boston; Leicester Natl., First Natl., St. Johnsbury, new process photograph. Globe Natl., Boston; Pocasset Natl., Fall River; Peoples' Natl., Boston; Southbridge Natl., Montpelier Natl., Dedham Natl., green tint uneven and smeared; omitted in space at top where "National Currency" appears. First Natl. of New-Bedford, Treasury and charter numbers and pink seal too bright. Mer-

chants' Natl., New-Bedford; Hampden Natl., Westfield; Pacific Natl., Boston, vignette of Columbus imperfect; vertical lines at left of vignette on back would pass between figures instead of through one. First Natl., Cecil, Ill.; First Natl., Galena, Ill., no such banks. People's Natl., Jackson, Mich., coarse, defects numerous. Manufacturers' Natl., Amsterdam, N. Y., no shading inside first "a" in "Manufacturers'," face of man kneeling wild, not devout; in vignette on back line of horizon not distinct above head of Columbus. Natl. of Pawling, N. Y., signatures of president and cashier printed, not written; Columbus's mustache straight instead of curved; "F" in word "Five" does not touch ornament in left upper corner. Fort Stanwix Natl., Rome, N. Y.; see Manufacturers' Natl., Amsterdam. Natl. State, Troy, N. Y., signed "Jno C. New, Treasurer of the United States," and bears at same time old pointed Treasury seal. First Natl., Hanover, Penn., "Act approved June 30, 1864," instead of "Act approved Feb. 25th, 1863." First Natl., Tamaqua, Penn., on back, "owing" spelled "ownig," and "thousand," "thousaud." First Natl., Milwaukee, Wis., poor counterfeit; color very bad. **$10.** NOTE. Most Indiana counterfeits are coarse, especially in vignette, lower left corner; in border, upper left end, "Currency" lettered in reverse and spelled backward. In most Pennsylvania, post in vignette, lower left corner has no knothole or nick; no charter number.

In most of New-York, lathework irregular; in counters "10," right upper corner, face, small heart-shaped centres variable, work incomplete, title lines of banks irregular; in counters "TEN," left upper corner, heavy white line just above word is continuous and touches top of E; no knothole quarter length of post from bottom. Lafayette Natl., of Ind., refuse any charter number except 2,213. Muncie Natl., of Ind., refuse any charter number except 793. Richmond Natl., of Ind., portion of eagle's wing covers bottom of "1873." First Natl., Atchison, Kan., refuse bank numbers 655 to 668 and Treasury numbers 679,929 to 679,942 inclusive. Germania Natl., New-Orleans, no silk threads, vignettes coarse and scratchy. Albany City Natl., City Natl., Poughkeepsie, Highland Natl., Newburg, Croton Natl., N. Y., see note. Auburn City Natl., in vignette, lower left corner, Franklin's kitestring not wholly visible. Merchants' Natl., Albany, refuse bank numbers 759 to 766 and Treasury numbers 45,195 to 45,202 inclusive. Farmers and Manfrs.' Natl., Buffalo, no such bank. First Natl., Lockport, N. Y., First Natl., Poughkeepsie, refuse all signed S. B. Colby, Register of the Treasury. American Natl., Market Natl., Natl. Bk. of Commerce, N. Y., Natl. Bk. of the State of N. Y., Union Natl., N. Y., Flour City Natl., Rochester, N. Y., refuse all dated July 1, 1865. Croton Natl. N. Y., refuse all. Marine Natl., Mechanics' Natl., N. Y. refuse all whose title omits words "the city of." Mechanics' Natl. N. Y., signatures printed instead of written. Farmers and Manfrs'. Natl., Poughkeepsie, "P" in title strikes "O" and extends below base of other letters. First Natl., Red Hook, N. Y., refuse all dated Feb. 20, 1865. Central Natl., Rome, N. Y., refuse all dated May 12, 1865. Syracuse, N. Y., Natl., very dangerous; see note and compare back of bill with genuine. Mutual Natl., Troy, N. Y., eagle's wing covers bottom of "65." Saratoga Co. N. B., Waterford, N. Y., refuse all bank number 1,048. Treasury number 810,516. Watkins Natl., Watkins, N. Y., refuse all dated Aug. 1, 1865. Third Natl., Cincinnati, no parallel silk threads, paper greasy and stiff, vignettes coarse and scratchy. First Natl., Philadelphia, refuse all dated Feb. 20, 1864. Third Natl., Philadelphia, see note; first P in Philadelphia extends below other letters. Natl. Bk. of Barre, Vt., refuse bank numbers 911 to 936, Treasury numbers 932,805 to 932,830 inclusive. **$20.** NOTE.—In most New-York counterfeits, word "Loyalty" in vignette hardly legible, Liberty's toes missing, faces wild. In Conn., Ind. and Penn., foliage to right of "20," upper left end, bunchy and heavy; musket on ground in vignette seems to pierce leg of fallen man; eyes of kneeling woman mere dots. First Natl., Portland, Conn., First Natl., Indianapolis, see note. Atchison, Kan., refuse bank numbers 655 to 668. Treasury numbers 679,929 to 679,942. Merchants' Natl., Albany, refuse bank numbers 759 to 766, Treasury numbers 45,195 to 45,202 inclusive. First Natl N. Y., refuse all dated July 19, 1865. Market Natl., Merchants' Natl., Natl. Bank of Commerce, Natl. Shoe and Leather, Tradesmen's Natl., N. Y., Oneida Natl., Utica, N. Y., refuse all signed "L. E. Chittenden, Register of the Treasury." City Natl., Utica, N. Y., no such bank; should be "Utica City Natl." Fourth Natl., Philadelphia, "A" in Philadelphia not crossed, "w" in "twenty" lower right end border face, shorter than other letters. Natl. DIVORCE STATISTICS.

The total number of divorces in the United States and Territories from 1867 to 1886, inclusive, was 328,716. From 9,937 in 1867 the number rose to 25,535 in 1886, an increase of nearly 157 per cent in twenty years. The population of the United States increased about 60 per cent in the same period. From 1870 to 1880 the population increased 30.1 per cent and the divorces 79.4 per cent. The only States and Territories in which the percentage of increase in population between 1870 and 1880 was greater than the increase in divorces were Connecticut, New-York, Utah, Vermont and Wyoming. The number of absolute divorces in 1886 in Great Britain was 475; in France, 6,211; in Germany, 6,078.

The average duration of married life in the United States before divorce during the twenty years from 1867 to 1886 was 8.97 years for the husband and 9.27 for the wife, or considering both together, 9.17. 15,622 couples were divorced one year after marriage, 21,525 after two years, 27,270 after three years, 27,909 after four years and 25,871 after twenty-one years or more.

OCEAN RECORDS.

Since the Guion Line steamer Arizona captured the ocean pennant in 1880 with a North Atlantic voyage of 7d. 7h. 23m., records have been made only to be broken. The City of Paris, of the Inman Line, now flies the pennant, having crossed the Atlantic in 5d. 14h. 24m., from Queenstown to New-York, Oct. 13-18, 1892. The Teutonic, of the White Star Line, has held, since October, 1891, the eastbound record of 5d. 21h. 3m. The following table shows how the time across the Atlantic has been steadily reduced in the last forty years:

RECORD-BREAKERS SINCE 1851.

In July, 1892, the City of Paris not only lowered the record, but beat the best previous day's run by runs of 519 and 520 miles, and the best previous three days' run by a record of 1,543 miles, and attained an average speed for the voyage of 20.43 knots, against the best previous average of 20.34 knots. In October, 1892, she surpassed herself, lowering the passage record by 1h. 34m., sailing 530 miles in one day, and attaining an average hourly speed of 20.70 knots. The Teutonic, it is claimed, on August 2, 1892, running west, steamed 528 miles in the nautical day of 25 hours from noon to noon.

In August, 1890, the Teutonic ran from Queenstown to Sandy Hook in what her owners claimed to be 5d. 19h. 5m., beating the record of the City of Paris by 18 minutes. This claim was not admitted. The victories in 1891 of the Majestic and Teutonic are, however, undisputed. The Teutonic's August, 1891, run was remarkable for noting what was then the highest average hourly speed ever achieved, 20.349 miles, the best day's run, 517 miles, and the best three days' run, 1,582 miles. Her course measured only 2,778 miles, or three miles more than the exact distance between Roche's Point and Sandy Hook. On September 29 she beat the eastbound record of 5d., 22h., 50m., held by the City of Paris, by 1h., 28m., and on October 27 reduced her own record by 19m.

The Umbria in June, 1892, lowered the record for single-screw steamers between Queenstown and New-York to 6d. 22h. and 7m., the best previous voyage having been that of the Etruria, 6d. 1h. and 50m.

In the last fifty years the time of the transatlantic voyage has been cut down by half, the size of the ships has been multiplied by twelve, and their power and carrying capacity by more than fifty. The annexed table reveals at a glance the enormous strides made in shipbuilding and the increase in the size of ocean steamships:

Year built.	Name.	Length. ft. in.	Beam, ft. in.	Depth, ft. in.	Horse power.	Tonnage.

1891—Swanhilda, San Francisco to Havre	106	...

On December 11, 1806, the schooner yachts Henrietta, Fleetwing and Vesta sailed from Sandy Hook to the Needles, Isle of Wight, for a stake of $90,000. The Henrietta, owned by James Gordon Bennett, won in 13d. 21h. 55m.; average of 9½ knots for 3,100 miles.

Among the previous ocean runs were: H. M. S. Newcastle, N. Y. to Falmouth, 11 days; clipper ship Independence, N. Y. to Liverpool, 18d. 15h.

On July 4, 1870, the schooner yachts Dauntless and Cambria started from Old Kinsale Head, Ireland, for Sandy Hook Lightship for a £250 cup. Cambria won in 23d. 5h. 17m.; Dauntless's time, 28d., 7h.

On March 12, 1887, the schooner yachts Coronet and Dauntless started from Bay Ridge for Queenstown for stakes of $10,000 a side. Coronet's time, 14d. 23h. 30m. 46s.; Dauntless, 16d. 1h. 45m. 13s. The Coronet's owner was the late Rufus T. Bush, of Brooklyn. The Dauntless was sailed by Captain Samuel Samuels, of the old clipper Dreadnought, and owned by Caldwell H. Colt, of Hartford.

THE AMERICA CUP.

The "America Cup," offered by the Royal Yacht Squadron of England, was won by the schooner yacht America on Aug. 22, 1851, in a race around the Isle of Wight, against six schooners and seven cutters of the squadron. In 1857, the America's owners presented the cup to the New-York Yacht Club for a perpetual international challenge cup by an instrument known as the first deed of gift. On Aug. 8, 1870, the English schooner Cambria raced for the cup against a fleet of schooners representing the New-York Yacht Club. The Magic won. In October, 1871, the English schooner Livonia sailed against boats selected to meet her, and was beaten in four of the races, once by the Columbia and twice by the Sappho. On Aug. 11 and 12, 1876, the schooner Madeline defeated the Canadian schooner Countess of Dufferin. In November, 1881, the American sloop Mischief defeated the Canadian sloop Atalanta. In 1882 the New-York Yacht Club returned the cup to George L. Schuyler, the only survivor of the original donors, to be given back to the club under new conditions. Mr. Schuyler made a second deed of gift, providing that the challenging boat should belong to some recognized foreign yacht club having an annual regatta over an ocean course, should be of not less than 30 nor more than 300 tons register, and should sail on its own bottom to the port of contest. In Sept., 1885, the English cutter Genesta was beaten by the sloop Puritan in a race off Sandy Hook. In Sept., 1886, the American yacht Mayflower defeated the cutter Galatea, representing the Royal Northern Yacht Club. In Sept., 1887, the Volunteer defeated the cutter Thistle, of the Royal Clyde Yacht Club. The cup was again returned to Mr. Schuyler, who restored it to the club under a third deed of gift. The "dimension clause" requires that a foreign yacht intending to compete for the cup shall challenge ten months before the proposed races, and shall give with the challenge the length on load-waterline, beam at load-waterline, extreme beam and draught of water; these dimensions not to be exceeded. On Nov. 25, 1892, the Royal Yacht Squadron challenged for the cup in behalf of Lord Dunraven, a special committee of the New-York Yacht Club having previously come to a satisfactory understanding with Lord Dunraven as to the meaning of the last deed of gift. The challenge was formally accepted by the New-York Yacht Club on Dec. 13.

SONS OF THE AMERICAN REVOLUTION.

A society of the male descendants of soldiers, sailors and conspicuous patriots of the Revolution, formed to encourage the celebration of Revolutionary anniversaries, the preservation of records and relics and perpetuation of the memory and spirit of the men who established popular government in America. There are 30 branch societies in all the New-England States, New-York, New-Jersey, Ohio, Indiana, Illinois, Michigan, Minnesota, Wisconsin, Missouri, Arkansas, Nebraska, California, Washington, Oregon, Delaware, the District of Columbia, Virginia, West Virginia, South Carolina, Georgia, Louisiana, Kentucky, Tennessee, Alabama and Kansas. Total membership, 3,600. Originally organized in California, July 4, 1876. The several State societies organized a National Society, April 30, 1889. Officers of National Society:

Vice-Presidents-General, Jonathan Trumbull, Norwich, Conn.; Gen. J. C. Breckenridge, Washington; Henry M. Shepard, Chicago; Theo. S. Peck, Burlington, Vt.; Paul Revere, Morristown, N. J. Secretary-General, A. Howard Clark, Smithsonian Institution, Washington. Treasurer-General, C. W. Haskins, 2 Nassau-st., New-York. Registrar-General, Dr. George Brown Goode, Washington. Historian-General, Henry Hall, New-York. Surgeon-General, Dr. Aurelius Bowen, Nebraska. Chaplain-General, Rt. Rev. Charles E. Cheney, Chicago.

Annual election of officers, April 30.

SONS OF THE REVOLUTION.

This is a rival organization to the S. A. R. It has seven State branches in New-York, Pennsylvania, the District of Columbia, Massachusetts, New-Jersey, Iowa and Georgia, the last four containing only enough members for organization. Total membership, about 1,400. The first society, that in New-York, was organized on December 4, 1883. The General (or National) Society was organized on April 19, 1890. This society, while no more rigid in examining the credentials of applicants than the S. A. R., lodges all power in the Board of Managers, and refuses to admit to membership men not employed in occupations supposed to be suitable for gentlemen. General officers:

General President, John Lee Carroll, Washington, D. C.; General Vice-President, William Wayne, Paoli, Penn.; General Secretary, James Mortimer Montgomery, New-York; General Assistant Secretary, Timothy Matlack Cheeseman, M. D., New-York; General Treasurer, Richard McCall Cadwalader, Philadelphia; General Assistant Treasurer, Arthur Henry Dutton, Boston; General Chaplain, the Rev. Daniel Cony Weston, D. D., New-York.

SOCIETY OF THE CINCINNATI.

OFFICERS—President-general, Hamilton Fish, New-York; vice-president-general, obert M. McLane, Maryland; secretary-general, Asa Bird Gardiner, Rhode Island; reasurer-general, John Schuyler, C. E., New-York; assistant secretary-general, homas Pinckney Lowndes, South Carolina; assistant treasurer-general, Dr. Herman urgin, New-Jersey. The office of the secretary-general is at Garden City, L. I.

The society was founded by American and French officers of the American Revo utionary Army after the peace of 1783. Baron Steuben presided at the meeting for rganization. The constitution was drafted by General Knox, and declared that the ficers of the American Army "associated themselves into one society of friends to ndure as long as they shall endure or any of their eldest male posterity; and in fail re thereof, the collateral branches who may be judged worthy of becoming its sup porters." At the first general meeting of the society in Philadelphia in 1784 an ffort was made to modify the constitution, but failed. Washington was elected presi ent-general in 1784. Robert Burnet, of New-York, who died in 1854, was the last urvivor of the original members. Seven of the original thirteen State societies still urvive and hold annual meetings on July 4. The general society, which consists of he general officers and five delegates from each State society, will hold its next tri ennial meeting in Boston on May 17, 1893.

The secretaries of the State societies are as follows: Massachusetts, David Greene Haskins, jr., No. 83 Devonshire-st., Boston; Rhode Island, Asa Bird Gardiner, Gar den City, L. I., N. Y.; Thomas Arnold Peirce, assistant secretary, East Greenwich, R. I.; New-York, John Schuyler, No. 63 William-st., New-York; New-Jersey, Wil am Chetwood Spencer, acting, Elizabeth; Pennsylvania, Francis Marinus Caldwell, No. 4,814 Chester-ave., Philadelphia; Maryland, Wilson Cary McHenry, No. 108 St. Paul-st., Baltimore; South Carolina, Daniel Elliott Huger Smith, Charleston.

SOCIETY OF TAMMANY OR COLUMBIAN ORDER.

OFFICERS—Grand Sachem, Thomas F. Gilroy; Sachems, Hugh J. Grant, Richard Croker, John J. Gorman, Henry D. Purroy, John McQuade, Charles Welde, Bernard F. Martin, William H. Clark, John H. V. Arnold, W. Bourke Cockran, Charles E. Sim mons, Thomas L. Feitner, Charles M. Clancy; Secretary, John B. McGoldrick; Treasurer, Arthur Leary; Sagamore, William H. Dobbs; Wiskinkie, Daniel M. Donegan.

Tammany was a Delaware chieftain who lived for over 100 years, and in Revolu tionary days was popularly styled the patron saint of the Republic. His name was adopted by several secret charitable societies organized in different cities of the Union soon after the Revolution as an offset to the aristocratic Society of the Cincinnati. The New-York society was established on May 12, 1789, and incorporated in 1805, but soon became a political instrument in the hands of the Democratic managers. William Mooney, its principal founder, was the first Grand Sachem.

NATIONAL LEAGUE FOR PROTECTION OF AMERICAN INSTITUTIONS.

Incorporated, 1889; non-partisan and unsectarian. President, William H. Parsons; vice-president, William Strong; general secretary, Dr. James M. King; treasurer, William Fellowes Morgan; law committee, William Allen Butler, Dorman B. Eaton, Cephas Brainerd, Henry E. Howland and Stephen A. Walker. Offices, 140 Nassau st., New-York. Objects: "To secure constitutional and legislative safeguards for the protection of the common school system and other American institutions, to promote public instruction in harmony with such institutions, and to prevent all sectarian or denominational appropriations of public funds." The League proposes to secure this amendment to the Federal constitution: "No State shall pass any law respecting an establishment of religion, or prohibiting the free exercise thereof, or use its property or credit, or any money raised by taxation, or authorize either to be used, for the pur pose of founding, maintaining or aiding, by appropriation, payment for services, ex penses, or otherwise, any church, religious denomination or religious society, or any institution, society, or undertaking which is wholly or in part under sectarian or eccle siastical control." It will also endeavor to secure similar amendments to State consti tutions. State Leagues are organizing.

MILITARY ORDER OF THE LOYAL LEGION.

Organized April 15, 1865; non-sectarian and non-political. The members are of three classes: 1, commissioned officers and honorably discharged commissioned officers of the Army, Navy and Marine Corps (regulars or volunteers), actually engaged in sup pressing the Rebellion prior to April 15, 1865; 2, the eldest sons of living original com panions of the first class who are twenty-one years old; 3, men who, in civil life, during the war were specially distinguished by active and eminent services to the Union, the ratio not to exceed 1 to 33 of the first class.

Membership on July 31, 1892, 7,931. Largest commanderies. New-York, 1,061 members; Pennsylvania, 1,072. The other seventeen local or State commanderies in order of their organization, are: Maine, headquarters, Portland; Massachusetts, head quarters, Boston; California, headquarters, San Francisco; Wisconsin, headquarters,

Milwaukee; Illinois, headquarters, Chicago; District of Columbia, headquarters, Washington; Ohio, headquarters, Cincinnati; Michigan, headquarters, Detroit; Minnesota, headquarters, St. Paul; Oregon, headquarters, Portland; Missouri, headquarters, St. Louis; Nebraska, headquarters, Omaha; Kansas, headquarters, Leavenworth; Iowa, headquarters, Des Moines; Colorado, headquarters, Denver; Indiana, headquarters, Indianapolis; Washington, headquarters, Tacoma; and Vermont. The Pennsylvania Commandery was the acting commandery-in-chief until October 21, 1885, when a National Commandery was organized, with Major-Gen. W. S. Hancock as Commander-in-Chief. Lieut.-Gen. P. H. Sheridan succeeded him. The present National officers are:

Commander-in-chief, Major-Gen. Rutherford B. Hayes; senior vice-com.-in-chief, Rear Admiral John J. Almy; junior vice-com.-in-chief, Col. Nelson Cole; recorder, Lieut.-Col. John P. An establishment "for the increase and diffusion of knowledge among men," founded in 1846, on the bequest of James Smithson, of England, and located at Washington, D. C., in the centre of one of the largest Government reservations. The total amount of the original bequest was $541,879, which has been swelled by subsequent additions to about $900,000. The Board of Regents is composed of the Vice-President and the Chief Justice of the United States, three Senators, appointed by the Vice-President of the U. S., three Representatives, appointed by the Speaker of the House, and six citizens, chosen by Congress. The President and Vice-President of the U. S., the Chief Justice, Secretary of State, Secretary of the Treasury, Secretary of War, Secretary of the Navy, Postmaster-General, Attorney-General, Commissioner of Patents, and such honorary members as they may elect form the "establishment." The building of the Institution is one of the most imposing in the U. S.

Under the charge of the Smithsonian Institution are the National Museum, Director S. P. Langley; Assistant Secretary in Charge, G. Brown Goode; Chief Clerk, W. V. Cox; the Bureau of Ethnology, Director John W. Powell, Chief Clerk, Henry C. Rizer; the National Zoological Park, Acting Manager, Frank Baker, and an Astrophysical Observatory, Senior Assistant, F. L. O. Wadsworth.

All correspondence should be directed to the Secretary.

AMERICAN MEDICAL ASSOCIATION.

OFFICERS—President, Dr. Hunter McGuire, Va.; vice-presidents, Drs. H. O. Walker, Mich.; H. Brown, Ky.; H. Janes, Vt.; J. Hawes, Col.; permanent secretary, Dr. William B. Atkinson, Penn.; treasurer, Dr. R. J. Dunglison, Penn.; librarian, G. W. Webster, Ill.

The office of the permanent secretary is at No. 1,400 Pine-st., corner of Broad-st., Philadelphia. The next annual meeting will be held at Milwaukee, Wis., June, first Tuesday, 1893.

The estimated number of physicians of this school is 84,000; number of colleges, 100; professors and instructors, 1,800; students in attendance, 10,000. About 4,000 received the degrees of M. D. during 1892. Of those attending the colleges, about 1,000 had degrees in science or letters. The libraries of the schools equal 50,000 volumes. The buildings, lands and scientific apparatus are worth $4,000,000. The membership of the association is over 5,000. There are besides a number of special organizations, such as the American Academy of Medicine, composed only of medical graduates who have received a degree in letters prior to graduation (membership about 600); American Association for the Study and Cure of Inebriates, American Climatological Association, American Gynaecological Association, American Public Health Association, etc., etc.

Forty-one States have State medical societies; twenty-two have State licensing and examining boards. In many States the county medical societies only are represented in the State body, but in others, particularly in the West, the State body is made up independently. The aggregate membership of these State and local medical societies is 40,000. There are 700 county and district medical societies. All these are entitled to send delegates to the annual sessions of the American Medical Association, and are regarded as auxiliary thereto. The number of hospitals is about 730.

AMERICAN BAR ASSOCIATION.

Organized 1878. President, John Randolph Tucker, Lexington, Va.; secretary, Edward Otis Hinkley, 215 N. Charles-st., Baltimore; Treasurer, Francis Rawle, 328 Chestnut-st., Philadelphia. Executive Committee—President, secretary and treasurer, ex-officio; John F. Dillon, New-York; Geo. A. Mercer, Savannah; Alfred Hemenway, Boston, and Bradley G. Schley, Milwaukee. One vice-president is elected from each State. Present membership, about 1,100. Annual meeting at Milwaukee, Aug. 30, 1893.

AMERICAN INSTITUTE OF ARCHITECTS.

President, E. H. Kendall, New-York; first vice-president, D. H. Burnham, Chicago; second vice-president, Henry Van Brunt, Kansas City; secretary, Dankmar Adler, Chicago; treasurer, S. A. Treat, Chicago. The Institute has 23 chapters, 475 fellows and 81 honorary members. Twenty-seventh annual convention, Chicago, first week in August, 1893.

CHAUTAUQUA.

Lewis Miller, President; W. A. Duncan, Secretary; E. A. Skinner, Treasurer; John H. Vincent, Chancellor; William R. Harper, Principal; George E. Vincent, Vice-Principal.

The Chautauqua plan of summer education was started in 1874. The institution was organized by Lewis Miller, of Akron, Ohio, and the Rev. Dr. John H. Vincent, now a Bishop of the Methodist Episcopal Church. In August, 1873, Mr. Miller and his associate selected a site for a Summer Assembly at Fair Point, on the west side of Chautauqua Lake, in Chautauqua Co., N. Y., where the village of Chautauqua now stands. The first Assembly was called for the discussion of religious and secular topics and opened on the first Tuesday in August, 1874. It lasted three weeks. Since then an Assembly has been held regularly every year. That of 1892 opened on June 30 and closed on August 26. About 50,000 persons visited the Assembly between those dates.

Besides the platform lectures and entertainments, the Chautauqua managers employ several other methods for placing education within the reach of the people. These are described below in the order of their establishment:

CHAUTAUQUA LITERARY AND SCIENTIFIC CIRCLE—Dr. Jesse L. Hurlbut, Principal; Miss K. F. Kimball, Executive Secretary; A. H. Gillett, D. D., Field Secretary; A. M. Martin, General Secretary.

Counsellors—Lyman Abbott, D. D.; J. M. Gibson, D. D.; Edward Everett Hale, D. D.; Bishop H. W. Warren, D. D.; W. C. Wilkinson, D. D.; James H. Carlisle, LL. D.

The C. L. S. C. comprises a system of home reading circles, the members of which pursue courses of reading laid out by the officers in books and magazine articles approved by the Board of Counsellors. Anybody can join it, and at any time, by sending his name to Miss K. F. Kimball, Buffalo, N. Y., with a 50-cent fee. In return he will receive a membership book, telling him what books to read and how to read them, and containing examination papers, by which, at stated periods, his proficiency may be ascertained. Two or more members form a local circle. The course covers four years, requiring an average of forty minutes' reading a day during ten months of each year. All the classes, though in different periods of their course, study the same subjects simultaneously. No reader is pledged to continue the work for the four years. The course for 1892-'93 includes Grecian history, literature, life and art, diplomatic relations of the U. S., and religious literature. Among the writers furnishing books or articles for the current readings are James R. Joy, W. C. Wilkinson, Alfred J. Church, George Park Fisher, Wm. H. Goodyear and others. Special courses are provided for graduates wishing to continue their readings. The Order of the White Seal League of the Round Table and other associations are formed of those who have passed examinations in the special courses.

CHAUTAUQUA COLLEGE OF LIBERAL ARTS—John H. Daniels, Executive Secretary, Drawer 194, Buffalo, N. Y.

THE EPWORTH LEAGUE.

An organization of young people of the Methodist Episcopal Church, formed in 1889 by the union of five general societies, to train them in experimental religion, practical benevolence and church work, and formally recognized by the General Conference of 1892 as a department of the church. There are now 8,869 local leagues, and over 442,000 members. President, Bishop James N. Fitzgerald, New-Orleans; vice-presidents: Spiritual Work, W. W. Cooper, St. Joseph, Mich.; Mercy and Help, Rev. W. I. Haven, 85 Lexington-st., East Boston, Mass.; Literary Work, R. R. Doherty, 150 Fifth-ave., New-York; Social Work, Rev. H. C. Jennings, Red Wing, Minn. Secretary, ———, central office, 57 Washington-st., Chicago; treasurer, Charles E. Piper, 185 Dearborn-st., Chicago.

UNITED SOCIETY OF CHRISTIAN ENDEAVOR.

Headquarters, 50 Broomfield-st., Boston. President, the Rev. Francis E. Clark, D. D.; general secretary, John Willis Baer; treasurer, William Shaw.

The first Christian Endeavor Society was established by the Rev. F. E. Clark, at Williston Church, Portland, Maine, Feb. 2, 1881. To-day there are more than 22,000 societies, in all parts of the world, with 1,800,000 members; 400,000 members were added in 1892. At the international convention in New-York City, in July, 1892, 35,000 delegates were present. The next convention will be held in Montreal in July, 1893. Nearly thirty denominations are represented in the society's membership. Its object is "to make young people more intelligently useful in the service of their own church." Motto, "For Christ and the Church."

ORDER OF THE KING'S DAUGHTERS.

Officers of the Central Council.—Office, 158 West Twenty-third-st., New-York, President, Mrs. Margaret Bottome; vice-president, Miss Kate Bond; general secretary, Mrs. M. L. Dickinson; treasurer, Miss M. P. Barker; corresponding secretary, Mrs. Isabella Charles Davis.

This order, founded in January, 1886, has now about 200,000 members. It originated in New-York, and has spread all over the Union and into Europe, Asia and Australia. Its object is to "develop spiritual life and stimulate Christian activity." Its members are bound to "serve the needy and the suffering, to consider the poor, and be helpful in good work." The motto of the society is "In His Name." The badge is a purple ribbon or a small silver cross bearing the initials I. H. N. Any woman may form a branch by uniting other women with herself for joint effort in doing good. The yearly membership fee is 10 cents, payable to the treasurer.

AMERICAN INSTITUTE OF CHRISTIAN PHILOSOPHY.

Organized to cultivate the study of the relations between science and religion, but mainly to produce and circulate literature antagonizing agnosticism and materialism. President, Chas. F. Deems, D. D., LL. D.; treasurer, William Harman Brown, 45 Exchange Place, New-York; secretary, Chas. M. Davis, 4 Winthrop Place, New-York; cor. secretary, Rev. John B. Devins, 4 Winthrop Place, New-York.

AMERICAN BOARD OF COMMISSIONERS FOR FOREIGN MISSIONS.

The "American Board," the oldest foreign missionary society in the United States, organized June 29, 1810, is an incorporated body, with 250 members, mostly representatives of Congregational churches. It supports 534 missionaries and assistant missionaries, and 2,600 native workers in 20 missions in the Pacific Islands, Asia, Africa, Europe and America. It has 534 churches, with 40,000 members, and 1,123 schools, with 47,000 pupils. Its income for the last fiscal year was $641,000. Next annual meeting, Worcester, Mass., October, 1893.

President, Richard S. Storrs, D. D., LL. D.; vice-president, E. W. Blatchford; Prudential Committee, Augustus C. Thompson, D. D., Joseph S. Ropes, Edwin B. Webb, D. D., Charles C. Corresponding Secretary, Mrs. Caroline B. Buell, Chicago. Miss Mabel Morrison, Secretary; office, The Temple, Chicago. Recording Secretary, Mrs. Mary Woodbridge, Ravenna, Ohio. Assistant Recording Secretary, Mrs. L. M. N. Stevens, Portland, Me. Treasurer, Miss Esther Pugh, Chicago, Ill.

PLEDGE.—"I hereby solemnly promise, God helping me, to abstain from all distilled fermented and malt liquors, including wine, beer and cider, and to employ all proper means to discourage the use of and traffic in the same."

ORIGIN AND OBJECTS.—This society is the lineal descendant of the great Temperance crusade of 1873-'74, and is a union of Christian women for educating the young, forming a better public sentiment, reforming the drinking classes, transforming by the power of Divine Grace those enslaved by alcohol, and securing the entire abolition of the liquor traffic. With forty-three auxiliary State and eight Territorial unions, besides that of the District of Columbia, it is the largest society ever composed exclusively of women and conducted entirely by them. It has been organized in every State and Territory of the Nation. Great Britain, Canada and Australia, Hawaiian Islands, New-Zealand, India and Japan, Madagascar and South Africa have also organized. The number of local unions in the United States is estimated at 7,000, including Young Wo-

men's Christian Temperance Unions, with about 150,000 members, and a following of 250,000.

ORGANIZERS—Mrs. M. L. Wells, Chattanooga, Tenn.; Mrs. L. H. Washington, Port Jervis, N. Y.; Mrs. Mary Read Goodale, Baton Rouge, La.; Miss Frances E. Griffin, Montgomery, Ala.; Mrs. Helen L. Bullock, Elmira, N. Y.; Mrs. E. A. Blair Creighton, Neb.; Miss Ida Clothier, Manitou Springs, Col.; Mrs. Maude L. Greene, Manitou Springs, Col.

ANCIENT ORDER OF HIBERNIANS.

New-York officers—Edward L. Carey, county delegate; John Magniore, recording secretary; Bernard Ford, financial secretary; John Madden, treasurer.

This is a social and benevolent organization, having also for its object the liberation of Ireland. The parent body, which is called "The Board of Erin," has existed in Ireland for over fifty years. Membership is restricted to Irish Catholics and their sons. The American organization consists of 48 divisions and has 5,000 members. Monthly meetings of the County Board are held at Central Hall, 229 East 47th-st. A permanent home for the order is to be built in East 44th-st. An annual convention of delegates from all parts of the United States is held in New-York on May 1 of each year for the election of National officers. About ten years ago a section of the order rebelled and started a rival organization. Judge Bartlett, of the Supreme Court of Kings County, set aside their claim to the title in favor of the older body.

IRISH PARLIAMENTARY FUND ASSOCIATION.

Officers—President and treasurer, Eugene Kelly; secretary, J. M. Wall.

Organized in November, 1885, by Eugene Kelly, Gen. James R. O'Beirne, Richard M. Walters, Lawrence J. Callanan, Judge Morgan J. O'Brien, David McClure, Edward Browne, Michael Giblin, Joseph J. O'Donoghue, William R. Grace, Colonel William L. Brown, Bryan G. McSwyny, John D. Crimmins, James S. Coleman, J. P. Farrell, and other prominent Irishmen. Its object was primarily to raise money to help defray the expenses of Irish Members of Parliament, but this was afterward broadened to include furtherance in other ways of the Irish Home Rule agitation. One of the first subscriptions was an anonymous one of $5,000, which came through Mr. Kelly. Total amount received to May 4, 1889, $163,200 18. During the visit, in November, 1890, of the Irish Members of Parliament, Dillon, O'Brien, Gill, Harrington, Sullivan and T. P. O'Connor, $37,000 additional was subscribed.

(a) Observed at Fort St. Michaels; minimum for Sitka, 4.
(b) Lowest at Fort Bidwell; San Francisco, 34.
(c) This maximum observed in Death Valley.
(d) Pike's Peak minimum; Denver, —29.

Note—The maximum and minimum temperatures quoted above were observed in only a few cases at the particular stations indicated; more frequently they represent some other point in the State or Territory. The annual mean temperatures and rainfall, however, belong to the stations named in connection therewith. All observations are made with instruments approved by the State or National Weather Bureau, although the observers are in many cases volunteers.

WEATHER SIGNALS BY FLAG AND WHISTLE.

FLAGS—Flag signals, communicating the forecasts telegraphed at 10 a. m. and 10 p. m. from the Government Weather Bureau in Washington, are now displayed at nearly 2,000 points in the U. S. The flags employed are represented herewith:

1 2 3 4 5 and 6

All but one of these flags are 6 feet square; No. 4 is 6 feet long and 4 feet wide at the base. Sometimes they are displayed singly; and sometimes two are used together.

No. 1 is white and indicates fair weather; stationary temperature.

No. 2 is dark blue; rain or snow; stationary temperature.

No. 3 is half white and half dark blue; local rains; stationary temperature.

No. 4 (black) is the "Temperature Pennant." If placed ABOVE one of the other flags, it foretells rising temperature; if BELOW, falling. But if not exhibited at all, no special thermal change is expected.

No. 5 (black square on a white ground) stands for "Cold Wave," by which the Weather Bureau means a sudden and serious fall of temperature, to or below 42 degrees Fahrenheit. This flag is always displayed above No. 1 or No. 2, if used at all.

No. 6 (black square on a red ground), known as the "Storm Signal," is used in the two Dakotas, Minnesota (except at lake stations), Iowa, Nebraska and Wyoming, to indicate high winds, accompanied by snow, with temperature below freezing.

These flags are to be obtained from dealers whose addresses can be procured at almost any weather station. They cost $2 apiece. The necessary information is sent daily by telegraph, without charge, from the weather station to a single person in a town or village who will employ the signals. Other applicants will be furnished at their own expense. Many business men find it a good advertisement to buy one of these flag outfits and provide their community with daily forecasts. Professor Mark W. Harrington, Chief of the U. S. Weather Bureau, Washington, D. C., or the Chief of any of the State Weather Services may be consulted on the subject by letter.

Tin or sheet-iron signal flags, painted to correspond with the foregoing schedule, have also been employed for weather forecasts. These latter are displayed from the baggage-cars of railway trains, the baggage-master being guided by telegraphic information.

STEAM WHISTLES.—Steam whistles on mills, factories, shops and locomotives may by used to disseminate weather indications, in co-operation with the Government. Professor Harrington will send, without charge, to persons who will thus notify the public, telegraphic or telephonic advices, under the same conditions as to those using flag signals. Whistles are employed as follows: First, as a warning, to attract attention, what is called the "long blast," is blown, lasting twenty seconds. After this, blasts of from four to six seconds' duration will refer to the weather (or sky); short blasts of three seconds each will refer to the temperature; those for the weather to be sounded first like this:

Blasts.....	One long.	Two long.	Three long.	One short.	Two short.	Three short.
Indications....	Fair.	Rain or snow.	Local rain.	Colder.	Warmer.	Cold wave.

FOR MARINERS.—Storm, Cautionary and Information Signals are displayed at seaports and lakeports of the United States according to the following code:

(1) Cautionary Signal (displayed only at stations on the lakes): A red flag (8 feet square) with white centre (4 feet square) indicates that the winds expected will not be so severe that well-found, seaworthy vessels cannot meet them without danger.

(2) Storm Signal: A red flag (8 feet square) with black centre (3 feet square) indicates that the storm is expected to be dangerous.

(3) A Red Pennant (5 feet hoist and 12 feet fly) displayed with the flags, indicates easterly winds—that is, from northeast to south, inclusive, and that the storm centre is approaching.

(4) A White Pennant (5 feet hoist and 12 feet fly) displayed with the flags, indicates westerly winds—that is, from north to southwest, inclusive, and that the storm centre has passed.

(5) When Red Pennant is hoisted ABOVE Cautionary or Storm Signal, winds are expected from the NORTHEAST QUADRANT; when BELOW, from the SOUTHEAST QUADRANT.

(6) When White Pennant is hoisted ABOVE the Cautionary or Storm Signal, winds are expected from the NORTHWEST QUADRANT; when BELOW, from the SOUTHWEST QUADRANT.

(7) NIGHT SIGNALS.—By night a red light indicates easterly winds; a white ABOVE a red light, westerly winds.

(8) The Information Signal consists of a red pennant and indicates that information is received of a storm covering a limited area, dangerous only to vessels about to sail to certain points. The signal warns shipmasters that important information will be given them by the displayman.

INTERNATIONAL MONETARY CONFERENCE.*

On April 28, 1892, by direction of the President, the Secretary of State addressed a communication to United States Ministers in Europe, asking them to propose in behalf of this Government a convention of the powers to confer as to what measures, if any, could be taken to increase the use of silver in the currency systems of nations. All the countries of Europe, as well as Mexico, accepted the invitation of the United States to attend this conference, and appointed delegates to represent them. Congress appropriated $80,000 to defray this country's proportion of the joint expenses.

The delegates from the United States were Senator William B. Allison, Congressman James B. McCreary, E. Benjamin Andrews, president of Brown University; Professor Ronald P. Falkner, University of Pennsylvania; Thomas W. Cridler, Thomas T. Keller, James T. Morgan, Senator John P. Jones, Henry W. Cannon, president of the Chase National Bank, and E. O. Leach, Director of the Mint. The other countries represented were France, Germany, Great Britain, India, Italy, Mexico, the Netherlands, Sweden and Norway, Switzerland, Belgium, Austria, Russia, Denmark and Spain.

The Conference met at Brussels on Nov. 22, but adjourned on Dec. 17, no conclusion having then been reached, until May 13, 1893.

This table contains the "relative sunspot numbers" of Dr. Rudolph Wolf, of Zurich, for many years a standard authority on this subject. The values for 1892 are not final and definite, but approximate. But they clearly show a rapid increase in solar activity last year, a fact which is also revealed by Tacchini's observations of spots, faculae and prominences. The mean for the first nine months (73.9) is already higher than that of any complete year at the last maximum stage (1883-'84.) This does not, however, indicate that the new maximum has yet been fully attained, since the maximum of 1883-4 was the lowest in nearly 70 years, apparently coming at the minimum stage of a longer cycle. Dr. Wolf thinks there is such a cycle extending through 66 years. Another reason for believing that 1893 will show a still further increase in spot abundance is that, while the rise from minimum to maximum in the 11-year cycle usually takes at least four years, the last cycle was unusually long—nearly 14 years—and a shorter one, of only 8 or 9 years, may be reasonably expected to follow it.

THE TURF.

The notable incidents of the racing season of 1892 were:

The resumption of racing at Monmouth Park; death of D. D. Withers; killing of J. M. Brown at Chicago; break down of St. Florian, Potomac, Major Domo, La Tosca, Long-tr.et, Clarendon and His Highness (with the possible exception of Clarendon and St. Florian, these horses may race again); entrance on the Eastern turf of J. J. McCafferty; large number of handicaps won by Banquet; purchase of G. W. Johnson by Dr. Gideon Knapp; purchase of Lamplighter from Brown & Rogers by Pierre Lorillard; the great sales of yearlings; sale of the Algeria stud, Oct. 17-18; sale of the Fernclifte stud, Oct. 18-19; sale of the Ehret stable, Nov. 12, and the retirement of Frank A. Ehret from the turf; purchase of Don Alonzo, Yorkville Belle, Dobbins and Fairy at the Ehret sale by M. F. Dwyer; purchase of Ormonde by W. O'B. McDonough for $150,000.

Baseball in 1892 was conducted on an entirely new basis, the National League comprising twelve clubs and the American Association retiring. The championship season was divided into two periods, April-July, and July-October. Boston won the first series and Cleveland the second. On the "play-off," New-England captured the world's championship.

The intercollegiate championship resulted in a tie between Harvard and Yale, each winning three games and losing one. Princeton did not win a game.

LAWN TENNIS.

Three new college players, W. A. Larned, of Orange, N. J., R. D. Wrenn, of Cambridge, Mass., and Malcolm G. Chace, of Providence, representing Cornell, Harvard and Brown, won some important victories during 1892. In the National championship tournament at Newport Wrenn defeated A. E. Wright and W. P. Knapp, two veteran experts, and Larned defeated H. W. Slocum, jr., V. G. Hall and E. L. Hall. F. H. Hovey, of Newton Centre, Mass., who won first prize in the all-comers' tournament at Newport, defeated Larned in the final round by three straight sets (score 6—0, 6—2, 7—5), but was in turn beaten by O. S. Campbell, the previous holder of the National championship, in the challenge round for that honor, by three sets to one (score 7—5, 0—6, 3—6, 7—5). Valentine G. Hall and Edward L. Hall won the Eastern championship at doubles at Saratoga, and J. W. Carver and J. A. Ryerson the championship of the West at Chicago. The Eastern team won the Newport "play-off" by default. The Hall brothers, who then met O. S. Campbell and R. P. Huntington, jr., the holders, in the challenge round for the National championship at doubles, were defeated by three sets to one (score 6—4, 6—2, 4—6, 6—3). Miss Mabel E. Cahill, of New-York, the holder of the women's National championship, defeated her challenger, Miss Bessie Moore, of Ridgewood, N. J., at Philadelphia, after a close match of five sets (score 5—7, 6—3, 6—4, 4—6, 6—2). With Miss A. M. McKinlay, of New-York, Miss Cahill also won the National championship at women's doubles. The new National championship at mixed doubles, first contested at Philadelphia in June, was won by Clarence Hobart, of New-York, and Miss Cahill. At the end of 1892 the relative standing of the first ten American players was: 1, O. S. Campbell; 2, F. H. Hovey; 3, E. L. Hall; 4, Clarence Hobart; 5, W. A. Larned; 6, R. D. Wrenn; 7, W. P. Knapp; 8, M. G. Chace; 9, Richard Stevens; 10, S. T. Chase.

At the September election, 1892, a Constitutional amendment was adopted—yeas, 75,647; nays, 56,589—which gives the right to vote to "every male citizen of U. S., or male person who has declared his intention of becoming a citizen of the same, of the age of 21 years, who has resided in the State 12 months, in the county 6 months, and in the precinct or ward 1 month, next preceding any election at which he may propose to vote, except such persons as may, for the commission of some felony, be deprived of the right to vote by law, passed by the General Assembly, and who shall exhibit a poll tax receipt or other evidence that he has paid his poll tax at the time of collecting taxes next preceding such election." the tax receipt to be so marked by dated stamp or written indorsement by the judges of election, to whom it may be first presented, as to prevent the holder thereof from voting more than once at any election.

In 1876 the vote in Mississippi on Presidential electors was 164,778. In 1892 52,809, or about one-third as many, notwithstanding a steady increase in population. In 1890 a new Constitution was adopted by a majority of the convention which framed it, and without submission to a vote of the people, providing for a registration of voters, and requiring that every elector shall convince the registering officers that he is "able to read any section of the Constitution of the State, or able to understand the same when read to him, or give a reasonable interpretation thereof." This is the first Presidential election held under a registration so required. The State contains 257,005 males over 21 years of age. The completed registration embraced the names of 76,742 persons, who alone have the right of suffrage in the State. Of these, 68,127 are whites, and 8,615 colored. The male whites in the State number 112,005; the number deprived of registration is 43,878. The colored males number 145,000; those deprived of registration, 136,385. The total number disfranchised is 180,263. Of these 117,878 are classed as "illiterates." So that over 60,000 male persons, white and colored, not classed by the census as "illiterates," are disfranchised. The vote polled was five-sevenths of the registration, and was one-fifth of the males over twenty-one years of age.

The XIVth Amendment to the Federal Constitution says: "Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male inhabitants of such State being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of citizens twenty-one years of age in such State."

In this case, the "proportion" is that of 257,005 to 74,742. With the U. S. Constitution applied to this situation, Mississippi's quota of representatives in the House would fall from 7 members to 2.

ELECTION OF 1892.—The vote of the State on President was so nearly balanced between the Repe. and the People's Party fusion with the Dems., that each candidate for President will have 1 elector. The whole Fusion State ticket was chosen, except the Secretary of State, to which office C. M. Dahl, Rep., was elected by more than 700 majority over Kempe Peabody, Peo. and Dem. For Governor, E. C. D. Shortridge, P. and D., had a majority of more than 1,700 over Andrew H. Burke, Republican.

The State Board of Canvassers, Nov. 26, 1892, declared the above to be the true result. The local boards had thrown out enough votes to make the returns: Murray, Rep., 2,695; Moise, Dem., 4,937. The State Board revised this action, and restored 2,300 votes to Murray, and 18 votes to Moise. The Murray votes had been thrown out by the local boards as

below the legal size, but Murray proved that all the ballots conformed to every legal requirement, but that they were cut shorter by election managers after they had been voted.

In the unexpired term of the LIId Congress, to succeed Mr. Stackhouse, deceased, E. J. Sawyer, Rep., had 934 votes. John L. McLaurin, Dem., 8,572.

As to 1892 Legislature, questions are pending in the courts, involving the title of 8 members. If decided in favor of the Reps., they will have 11 Senators and 16 Representatives—27 in all; the Democrats 5 Senators and 12 Representatives—17 in all, and the People's Party 5 Representatives. If decided against the Reps., the Republicans will have 11 Senators and 13 Representatives—24 in all; the Dems. 5 Senators and 15 Representatives—20 in all; the People's Party 5 Representatives. On joint ballot 25 are a majority. In the Legislature of 1890, the Reps. had 12 Senators and 25 Representatives—37 in all; the Dems., 3 Senators and 7 Representatives—10 in all.

NEW-YORK.

REPRESENTATIVES IN CONGRESS.

NOTE.—The reapportionment of Congress Districts, in April, 1892, prevents exact comparison with previous elections by Congress districts. Counties are, however, compared wherever possible, although now forming parts of different districts. In New-York City, where the legislative reapportionment changed the Assembly districts subsequently to the reapportionment of Congress districts, the new Congress districts follow the lines of the old Assembly districts.

VOTE OF NEW YORK CITY BY ASSEMBLY DISTRICTS.

Note.—The new apportionment of April, 1892, changed the boundaries of Assembly districts and increased the number from 24 to 30. In the subjoined table, therefore, the comparison holds only as to totals for the entire city and not for any single district.

POLITICAL MISCELLANY, 1892.

ALABAMA.—Reuben F. Kolb, a candidate for Governor at the August election, and defeated on the face of the returns counted by the Legislature, addressed an open letter to the Legislature, November 15, charging that a real majority of between 45,000 and 50,000 for himself had been changed into a factitious majority of about 10,000 for the ticket headed by Thomas G. Jones for Governor, and asking that an investigation be ordered. A bill looking to the disfranchisement of colored voters was introduced in the Legislature. Constitutional Amendments are to be submitted to authorize towns, counties or communities to levy special taxes for schools and road improvements. A Constitutional Convention, it is thought, will be called by this Legislature.

CONNECTICUT.—The Assembly, by vote of 112 (Reps.) to 90 (Dems.), rejected a proposed Constitutional amendment to substitute the plurality rule instead of the present majority rule in the election of State officers by the people.

DELAWARE.—Governor Reynolds approved Pilling-Huston constitutional amendment passed by Legislature of 1891. The amendment makes it lawful to take the sense of the voters on calling a Constitutional Convention on a regular election day, instead of on the third Tuesday in May, as the Constitution now provides. To become operative, the amendment must be ratified by a three-fourths vote of the next General Assembly.

GEORGIA.—A convention of 300 representative colored men memorialized the Legislature of that State on the wrongs of their race, protesting against their military companies being excluded from the benefits of the State encampment; demanding first-class accommodation on railroads when first-class fares are charged, and protesting against lynch law. The last resolution, while admitting that many negroes have committed heinous crimes, urges that they be legally, not illegally, punished. The Legislature passed resolutions calling on the LIIId Congress to pass a bill to repeal the existing 10 per cent tax on State bank circulation.

INDIANA.—The Supreme Court decided the registration feature of the election law to be unconstitutional, as "class legislation" prohibited by the Constitution. The registration was made to apply chiefly to commercial travellers and to residents of the State absent on U. S. Government service. The Supreme Court also declared unconstitutional the legislative apportionment act of 1891. In the 2,989 election precincts of the State, the average of imperfect ballots under the new system was nearly four to a precinct. Nearly 10,000 votes were thus lost, and the result in probably four Congressional districts was changed. Republicans are said to have been the heaviest sufferers.

IOWA.—A Local County Option bill was passed by the Senate, 27 to 22. The bill gives county option, each community to have the right to settle the liquor question for itself, by elections to take place not oftener than every five years. The matter can be brought up on the petition of one-fifth of the legal voters. Three Republican Senators voted with a

number of Democrats in passing the bill. It failed in the House. An Australian Ballot act was passed.

KENTUCKY.—Dealing in lottery tickets has been made a felony.

MASSACHUSETTS.—An accurate count of the vote for Governor in all the counties, except Suffolk, shows that 19,186 votes cast for Governor in the November election were worthless, under the Australian system. One-third bore no mark whatever against a name for Governor, while the other two-thirds were rendered inoperative by the voters' placing a cross against the names of William H. Haile, the Republican candidate, and Wolcott Hamlin, the Prohibition candidate. The Republican candidate for Lieutenant-Governor, Roger Wolcott, was, in reality, eight names lower down on the ballot under the appropriate head, "Lieutenant-Governor." An estimate based on the assumption of this error gives Mr. Haile a plurality over Russell (Dem.), in those counties of 10,000 votes.

MICHIGAN.—The Supreme Court, June 17, unanimously upheld the constitutionality of the Miner Electoral law, by which Presidential electors were to be chosen by Congressional districts, instead of by general ticket, as in all the other States. The court consists of three Reps. and two Dems. The court says: "The injustice of any other than a uniform system of electing the President of the United States is manifest. In legislating upon this subject it should not be regarded from a party standpoint, but neither the fact that this important consideration has been overlooked, nor that this legislation may result in serious injustice, can extend our jurisdiction or justify us in usurping functions which, under the Constitution, pertain to the Legislature." The U. S. Supreme Court subsequently affirmed this judgment. The Local Option law passed two years ago has been decided to be constitutional. Four or five years ago about one-third of the counties in the State had declared for local option, when the law was pronounced unconstitutional by the Supreme Court, and the work was all undone.

MISSISSIPPI.—A bill passed providing that indigent Confederate soldiers, sailors and servants, or their indigent widows, shall be entitled to $50 a month, unless the number at this rate exceeds the appropriation, in which event the amount shall be pro rata between them. The indigent clause, it is estimated, will put at least 5,000 on the rolls in a few years, instead of the present 1,280. If this happens, each person will receive only about $12. The bill makes the Auditor the Pension Commissioner.

NEW-YORK.—The State census taken in 1892 showed 6,510,162 inhabitants—5,787,773 citizens and 722,389 aliens. The Assembly, April 15, passed, by a vote of 70 to 34, the bill giving women the right of suffrage in all State elections. In the Senate, April 26, during the pendency of the Apportionment bill, the Republican Senators did not vote, whereupon Lieut.-Gov. Sheehan said: "Bowing to the decision of the Supreme Court, the Chair directs the clerk to count as present and not voting the Republican Senators." This was done and the bill declared passed by a vote of 17 to 1 (Senator Edwards). The Court of Appeals sustained the constitutionality of the Senatorial and Assembly Apportionment act of 1892.

RHODE ISLAND.—A proposed constitutional amendment to provide for biennial elections passed the last Legislature by a party vote, the Reps. favoring, but failed of the necessary number of votes at the November election.

SOUTH CAROLINA.—A prohibitory measure passed one branch of the last Legislature and failed by one vote in the other. A majority of the counties are "no license" counties. At the late election a vote for prohibition was carried by 10,000 majority. Governor Tillman's message is rather adverse to the total overthrow of the license system. The House of Representatives defeated (34 to 73), a bill to allow divorce for marital infidelity. It passed (59 to 57) a bill to repeal the free pass act.

UTAH.—On electing a Mayor in Salt Lake City, Feb. 2, the Liberals cast 4,560 votes, the Dems., 2,766, Reps., 852.

VERMONT.—The Woman Suffrage bill, having passed the House, was defeated in the Senate. Yeas, 12; nays, 18.

VIRGINIA.—The debt question has been settled by the Legislature's agreement to the terms recommended by the Advisory Board of Creditors, consisting of Grover Cleveland, Thomas F. Bayard, Edward J. Phelps, George S. Coe and George G. Williams. The foreign creditors met in Dec., 1891, several motions to change the terms having been rejected, and the meeting having regarded "the New-York proposals as undoubtedly more favorable to the bondholders than is the Riddleberger bill; and this is due to the long and persistent litigation maintained by the counsel in the Federal courts, but for which the bonds would long ago have sunk to a point at which it would have paid to fund them under the Riddleberger bill." The basis of settlement proposed is the issue by the State of Virginia of $19,000,000 bonds to run 100 years, and to draw interest at the rate of 2 per cent for ten years from July 1, 1891, and 3 per cent for the rest of the period. The new bonds will displace $28,000,000 of existing debt.

WISCONSIN.—The Supreme Court declared unconstitutional the act of the last Legislature in districting the State for legislative purposes.

LATE OFFICIAL APPOINTMENTS.

On Dec. 22 President Harrison made the following nominations: Minister to Bolivia, Frederick J. Grant, of Washington; Consuls, Nicholas Smith, of New-York, Liege: Ferd. C. Gottschalk, of California, Stutt-

gart; Charles W. Dow, of Massachusetts, Zanzibar; Thos. Herran, of Colombia, Medelin; Commissary-General, U. S. Army, Colonel John P. Hawkins.

Total vote.... —12,081,816—

All over Cleveland, 975,082.

In the Harrison vote in Texas are included 3,969 votes cast for a Republican electoral ticket known as the "Lily White." In Alabama there were some Republican fusions with the People's party, and in Colorado, Idaho, Kansas, Nevada, North Dakota, South Dakota and Wyoming there were Democratic fusions with the People's party. In each case the total "fusion" vote is counted for Weaver. In Minnesota, the Weaver electors who had Democratic indorsement received 107,077 votes. In Oregon the one Weaver elector who had Democratic indorsement was elected.

FIFTH AVENUE HOTEL,

Madison Square, New-York.

THE LARGEST, BEST APPOINTED AND MOST LIBERALLY MANAGED HOTEL IN THE CITY, WITH THE MOST CENTRAL AND DELIGHTFUL LOCATION.

A. B. Darling. Charles N. Vilas. **HITCHCOCK, DARLING & CO.** E. A. Darling. Hiram Hitchcock.

This noble pile of white marble, Corinthian architecthre, covering eighteen full city lots and accommodating one thousand guests, marks a place in the heart of the great City of New-York, and an era in the history of the Nation's wealth and advancement. It is located in the centre of the City, upon the charming Madison Square and at the intersection of the twc great streets, Broadway and Fifth Avenue, and convenient to the most important points of interest in the Metropolis.

Its patrons include the names of the most prominent men and women in America—The Presidents, hundreds of Government Officials, Senators, Congressmen, Judges, Army and Navy Officers, Divines, Physicians, Authors, and in fact all who have attained prominence and celebrity in public and private life, both at home and abroad; and the most distinguished Europeans of rank and title who have visited this country,

It has been the centre of all the great public occasions which the City has witnessed for thirty years.

Years have come and gone, new hotels have multiplied with innovations and features introduced to affect and influence patronage, but the Fifth Avenue is as new and fresh as the most recent hotel construction, with more liberal accommodations than any of them, and its well-earned reputation as the leading hotel of the world is more and more assured.

—King's Handbook of the United States.

The Metropolitan Telephone and Telegraph Company,

New York,

has established public telephone stations throughout the city. They are distinguished by the sign of the "Blue Bell." From them connection may be had with any one of 20,000 exchange line telephones in New York, Brooklyn and the suburbs. Communication may also be had with all long distance points.

Arrangements have been made with The American Telephone & Telegraph Company, which operates the "Long Distance" Lines, affording direct connection with all long distance points to such subscribers whose stations are equipped with METALLIC CIRCUIT Lines. METALLIC CIRCUIT Subscribers thus have facilities for easy conversation DIRECTLY FROM THEIR OWN OFFICES to the offices of METALLIC CIRCUIT Subscribers in other cities.

All important towns and cities from Portland, Me., to Chicago, Ill., and Milwaukee, Wis., may be reached by telephone. Lines to Cincinnati and Indianapolis will be opened in the near future.

TRIBUNE ALMANAC

FOR 1894.

ECLIPSES, 1894.

Astronomical calculations made expressly for The Tribune Almanac by Berlin H. Wright, Penn Yan, N. Y.

There will be four eclipses this year—two of the sun and two of the moon; and a transit of the planet Mercury across the sun's disk, as follows:

CORRECTIONS FOR RECENT CHANGES.

The following changes have been made since the early pages were put in type:

Robert Adams, jr. (Rep.), elected to succeed the late Charles O'Neill, in the LIIId Congress, from Philadelphia. (See page 85.)

Thomas S. Martin (Dem.), elected U. S. Senator from Virginia, to succeed Eppa Hunton, whose term expires in 1895.

Victor C. Barrington and Ernest R. Crosby, of International Tribunal of Egypt (see page 94), have resigned, to take effect February 1.

Charles Parlange, of New-Orleans, succeeds the late Edward C. Billings as U. S. District Judge for the Eastern District of Louisiana. (See page 95.)

William H. Braley has been appointed to succeed Charles H. Simonton as U. S. District Judge for South Carolina. (See page 95.)

Charles H. Simonton appointed U. S. Circuit Judge of Fourth District. (See page 94.)

Wayne MacVeagh succeeds William Porter as Ambassador to Italy. (See page 96.)

Charles D. Fuller and James H. Forney succeed Lewis Miles and Fremont Wood as U. S. District Attorneys for the Southern District of Iowa and for Idaho, respectively. (See page 96.)

Charles W. Dabney, jr., of Tennessee, succeeds Edwin Willits as Assistant Secretary of Department of Agriculture. (See page 93.)

Alfred D. Jones, Consul-General at Shanghai, died at sea December 9, and H. G. Knowles succeeds John M. Wiley as Consul at Bordeaux. (See page 121.)

On December 27, the New-York State Board of Canvassers reconvened, and declared the Democratic candidates for delegates to the Constitutional Convention elected to represent the Sixth Senate District.

ECLIPSES, 1894.

Astronomical calculations made expressly for The Tribune Almanac by Berlin H. Wright, Penn Yan, N. Y.

There will be four eclipses this year—two of the sun and two of the moon; and a transit of the planet Mercury across the sun's disk, as follows:

I. A partial eclipse of the moon of about three digits and on the southern limb, March 21; visible in the United States west of the 100th meridian, where the moon will set more or less eclipsed. On the coast from San Francisco northward the middle or greatest eclipse occurs at setting of the moon, at sunrise.

Lunar eclipse, March 21.	Pac. Time.	Appearance at middle of eclipse.
Beginning of eclipse	5:25 a. m.	Middle of eclipse	6:21 a. m.	
End of eclipse (not visible)	7:16 a. m.	

This eclipse returns April 1, 1912, when it will be only one-half the size of this one, and will be visible in Europe. It will go off in a mere appulse April 12, 1930.

II. An annular eclipse of the sun April 6; invisible in America, except in Alaska. Visible in the regions each side of the Red Sea, and throughout Asia. The central and annular path of the eclipse passes across India and through western China to Alaska, where it leaves the earth at sunrise in lat. 32 deg., 47 min., 30 sec. N., and long. 157 deg., 30 min., 42 sec. W. of Greenwich at 6:53 p. m.

This eclipse returns April 17, 1912, when it will be total, and visible in Europe.

III. A partial eclipse of the moon on the evening of September 14 and morning of the 15th. Visible throughout North America; size when greatest, 2.77 digits upon the northern limb, as shown in the figure. This eclipse will return on September 26, 1912, when it will be smaller, and partially visible in the United States.

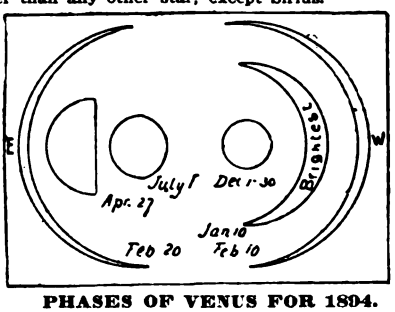
PLANETS BRIGHTEST OR BEST SEEN.

MERCURY,* February 21 and October 15, setting after the sun as evening star.
MERCURY, April 13 and August 19, rising before the sun as morning star.
VENUS, January 10, setting after the sun as evening star.
VENUS, March 22, rising before the sun as morning star.
MARS, October 20, rising at sunset as evening star.
JUPITER, December 22, rising at sunset as evening star.
SATURN, April 11, rising at sunset as evening star.
URANUS, May 3, rising at sunset as evening star.
NEPTUNE, December 6, rising at sunset as evening star.

*NOTE.—Mercury will be theoretically brightest at several other times, but the dates here given are the only favorable ones for observation. Look for him just above the sunrise or sunset point when dark enough to see the stars; he appears quite red and brighter than any other star, except Sirius.



PHASES OF VENUS FOR 1894.

Venus passes through all the phases of the moon. From her greatest eastern elongation to inferior conjunction she will appear as a crescent, with cusps pointing eastward. Her apparent diameter will be largest when at or near inferior conjunction, being at that time much nearer to the earth than at any other. She will appear brightest at a point between greatest eastern elongation and inferior conjunction when only one-fifth of her illuminated hemisphere is visible to us, and, as will be seen by the figure, she is also smaller; but the proportion between her apparent size and area of visible illuminated surface is such as to give the greatest amount of light, or is brightest. On February 16 she will be at inferior conjunction, or between the earth and sun, and will have the largest apparent diameter, but the overpowering light of the sun will prevent seeing her for a very few

days before and after that date. When last seen she will show but a silvery crescent of light, and when she reappears as a morning star on the other side of the sun she will pass through the same phase, only the sharp cusps will point westward. Her distance from us will gradually increase, and at the same time her angular distance from the sun will increase until, when she reaches her point of greatest distance west of the sun, on April 27, she will be greatly reduced in apparent size, and exactly one-half of her illuminated hemisphere will be visible to us and will present a half-moon phase. After April 27 she will continue to decrease in apparent size and present a gibbous phase until about the first of October, when she will become quite stationary in size, and nearly round, being in that portion of her orbit where her distance from us varies but slightly for nearly two months. She also is close to superior conjunction November 30, when she becomes invisible; in fact, she is lost sight of long before that date, being so dim and near the sun. She will just begin to be seen again on the east of the sun as a dim evening star at the close of the year.

MORNING STARS.

MERCURY, see "Planets Brightest."
VENUS, from February 16 to November 30.
MARS, until June 27.
JUPITER, from June 4 to September 1.
SATURN, until January 19, and after October 21.

EVENING STARS.

MERCURY, see "Planets Brightest."
VENUS, until February 16 and after November 30.
MARS, after June 27.
JUPITER, until June 4, and after September 1.
SATURN, from January 19 to October 21.

NOTE.—Uranus is only barely visible to the naked eye when brightest and in the absence of the moon, and the outermost member of our solar system. Neptune can only be seen with the largest telescopes, and under the favorable circumstances just mentioned. Hence both are omitted here. (See "Planets Brightest.")

TIMES OF UPPER MERIDIAN PASSAGE OF POLARIS, 1894.

(Computed by S. Hart Wright, Ph. D., Penn Yan, N. Y.)

Surveyors and civil engineers may obtain the variation of the magnetic needle for any place in the United States by directing their compass to the North Star (Polaris) when it is upon the meridian, as given in the table below, for the upper culmination; or 11 hours 58 minutes before or after, when the star is on the lower meridian. Exact local time is used in the table, and the timepiece used must be correct, and the bearing of the star taken promptly on time, and that bearing will be the true variation of the needle. An error of only a few seconds in the timepiece will vitiate the bearing found; therefore, it will be much better to take the bearing when the star is furthest east or west, or at its greatest elongation, as observations made upon it then are not affected materially by small errors of timepieces. To use this table for places west of the Washington mean, subtract 10 seconds for each hour of longitude west of Washington. When the upper culmination occurs in the daytime from February 1 to August 1, use the lower culmination.

AZIMUTH TABLE OF POLARIS, 1894.

(Computed by S. Hart Wright, Ph. D., Penn Yan, N. Y.)

The azimuths in the annexed table, applied properly to the magnetic bearing of Polaris at the time of its greatest elongation east or west, will give the true variation of the magnetic needle from a true north direction, and will be of great use to all surveyors and engineers. When the elongation is east the azimuth will be east, and vice versa. At the present time, the line of "No Variation" of the needle runs southeasterly from near Toledo, Ohio, to a point on the Atlantic coast about 50 miles southwest of Cape Fear, N. C. East of that line the north end of the needle points west of a true north, and west of that line east of a true north. The country may therefore be divided into eastern and western magnetic regions. In the "Eastern Region" the bearing of Polaris at its western elongation, if eastward added to the azimuth, gives the desired variation west; but if westward, the bearing taken from the azimuth gives the variation west. The bearing of Polaris at its eastern elongation will be eastward, and the azimuth subtracted gives the variation west. In the "Western Region" the bearing of Polaris at its eastern elongation, if westward, added to the azimuth, gives the variation east, but if eastward the bearing taken from the azimuth gives the variation east. The bearing of Polaris at its western elongation will be westward, and diminished by the azimuth gives the variation east. The azimuths in the table, given for two-degree zones, are practically sufficient for all the United States except Alaska. For intermediate latitudes, or dates, the azimuths may be found by proportion sufficiently correct, or exactly by the formula, log-sine azimuth—log-sine Polar distance of Polaris—log-cosine latitude. The surveyor or engineer is on the line of "No Variation" when the bearing of Polaris at greatest elongation is the same as the azimuth.

THE SEASONS. 75TH MERIDIAN TIME.

Winter begins, 1893, December 22, 8:53 a. m., and lasts 89 days, 1 hour, 6 minutes.

Spring begins, 1894, March 20, 9:59 a. m., and lasts 92 days, 20 hours, 5 minutes.

Summer begins, 1894, June 21, 6:04 a. m., and lasts 93 days, 14 hours, 24 minutes.

Autumn begins, 1894, September 22, 8:28 p. m., and lasts 89 days, 18 hours, 41 minutes.

Winter begins, 1894, December 21, 3:09 p. m. Trop'l year, 365 days, 6 hours, 16 minutes.

TO FIND THE TIME OF GREATEST ELONGATION OF POLARIS.

By adding the numbers in the annexed table for any given latitude to the time of meridian passage of Polaris (the Pole Star), given in another table, the time of its great western elongation is found. If the same number be subtracted instead of added, we get the time of greatest eastern elongation. At the time of either elongation the magnetic bearing may be taken with the compass, using that elongation which occurs at night. The eastern elongations occur at night from April 1 to October 11, and the western elongations occur at night all the rest of the year. Correct local time is to be used, and bearings taken on the star promptly on time; but an error of half a minute or even a minute in the timepiece will not invalidate the bearing, as Polaris then moves nearly vertically.

CHRONOLOGICAL CYCLES.

(1) Dominical or Sunday Letter	G.	(5) Roman Indiction	7
(2) Epact—(Moon's Age, Jan. 1)	23	(6) Julian Period	6607
(3) Lunar Cycle or Golden Number	14	(7) Dionysian Period	223
(4) Solar Cycle	27	(8) Jewish Lunar Cycle	11

Explanatory Note.—The Dominical Letter indicates the day of the year on which the first Sunday occurs; G is the 7th letter, and the 7th of January will be Sunday. The Golden Number is the number in a cycle of 19 years, which shows how many years have passed since New Moon fell on January 1. This and (1) are chiefly used in fixing the date of Easter. No. (4) indicates the number of years that have elapsed since the current cycle of 28 years began. The first cycle began with the year 10 and is used to find (1.) Roman Indiction is a cycle of 15 years, and is of no utility except to chronologers. Julian Period is a cycle of 7980 years, and is the product of (3), (4) and (5), and when completed (3), (4) and (5) will coincide or begin at the same time. Dionysian Period is a cycle of 532 years, and is called the Great Paschal Cycle, being the product of the Solar and Lunar Cycles. This and (6) are chiefly used in chronology. The Jewish Lunar Cycle is always three less that (3); used only by the Jews in fixing the time of their festivals.

THE NATIONAL ENSIGN.

On November 13, 1890, Secretary Tracy issued an order that until July 4, 1891, the union of the National ensign and the union jack used in the naval service should be composed of five rows of seven stars and one row of eight stars, to provide for the addition of the five new States of North and South Dakota, Montana, Washington and Idaho. In the arrangement space was left for the addition of another star to represent Wyoming, which was added on July 4, 1891. June 14, the anniversary of the adoption of the stars and stripes as the National flag, is now celebrated by the Sons of the American Revolution as Flag Day, by a display of the flag, and the society invites the people of the whole country to follow its example. The official National ensigns of to-day are of five sizes, the following being the dimensions: 36 feet long, 19 feet wide; 27.2 feet long, 14 1-8 feet wide; 23.1 feet long, 12 1-5 feet wide; 16.9 feet long, 8.9 feet wide; 9 3-4 feet long, 5 1-7 feet wide.

PERPETUAL CALENDAR.

SHOWING THE DAY OF THE WEEK OF ANY DATE, OLD STYLE OR NEW

BEFORE OR AFTER CHRIST.

EXPLANATION.—Under or over each month will be found the names or abbreviations for the days of the week, arranged in seven different orders or sequences, reading from left to right.

These are marked as sequence A, sequence B, and so on. At the right or left of each sequence is given the centurial year of the century for which that sequence may be used—old style dates, old reckonings under the Julian Calendar marked at the left; new style dates, according to the Gregorian Calendar, at the right; thus 16 at left of sequence D shows that this sequence is to be used for all old style dates from 1600 to 1699, as the cat

of landing of Pilgrims, Dec. 11, O. S., 1620. At the right of sequence F, 16 shows that this is the sequence for all new style dates in the same period, as the landing of Pilgrims, Dec. 21, 1620. The 18 at right of sequence D indicates this as the one to use for the present century, 1800 to 1899.

Above or beneath those sequences are given, for each month, the odd years of the century, from 00 to 99, reading from left to right and so arranged that all the years of a century in which the first of the month falls on a certain day of the week are in the same column. Thus, take the table for January and the sequence for the present century, D, all the years in the first column, 4, 9, 15, 26, etc., are over Sunday in the sequence named; so the 1st of January in all these years is Sunday. In the second column are all the years in which the 1st falls on Monday, and so on. If we bear in mind that the 8th, 15th, 22d and 29th of any month will come on the same day of the week as the 1st, this arrangement gives at once the day of the week of five dates in any month, and from these the day of any other date in that month can easily be found.

Now with a given date to find the day of the week, as Aug. 23, 1841. In the table for August find the given year 41; take the sequence in line with the centurial year 18, D, and in this sequence above 41 we find Sunday. The August 1 in that year was Sunday, and the 8th, 15th and 22d must have fallen on Sunday also; and if the 22d was Sunday, the 23d was Monday. What day of the week was Dec. 11, O. S., 1620? Use sequence D for 1600s O. S. and in this above 20 in December find Friday. Then the 1st and the 8th came on Friday, and the 11th must have been Monday.

Take the same date as given, new style, Dec. 21, 1620. Use sequence F for the 1600s N. S. and above 20 find Tuesday, which was the 1st and the 22d, and the 21st was Monday. Then the Pilgrims landed on Monday.

If the last Thursday in November, 1885, be Thanksgiving Day, what will be the date? We find that in 1885 the 1st, and therefore the 29th, of November comes on Sunday; then the preceding Thursday, or Nov. 26th, is the last Thursday, or Thanksgiving Day.

This arrangement involves no comparison or distinction further than this: For the months of January and February of centesimal leap years only, as 1600, 2000, etc., by the Gregorian Calendar, the heavy-faced 00s in the first column are to be used, but for centesimal years not leap years the 00s in the second column are required. By the Julian Calendar every centesimal year was leap year; by the Gregorian Calendar only every fourth centesimal year is a leap year. 1700 O. S. then should be regarded as a leap year, while 1700 N. S. is not.

As to the intervals between the times when a given day of the month falls on a certain week day, as Jan. 1st on Saturday, this occurred in 1803-14-20-25-31, and so on at intervals of 11, 6, 5 and 6 years, which intervals are repeated and would continue without interruption but for the omission of leap year in 1900, which will cause an irregularity of 12 years, either in one period, or in two intervals of 6 years each, or in one of 7 and another of 5 years, after which the regular intervals will be successively repeated again. But notice the difference in the grouping of the years under January and February, and that of the other ten months. Take the years in the column in which we find 3 under any other month, and the calendar for those months repeats as follows: 3, 8, 14, 25, 31, showing that the order for an entire year recurs less frequently, as in 3, 14, 25, 31. The order for any leap year is repeated at intervals of 28 years; thus the calendar for 1856 corresponds with that for 1884, and this order would obtain again in 1912 but for the omission of leap year in 1900, by which the interval is extended 12 years, and the 29th of February will not fall on Friday again until 1924. The order for any year next succeeding a leap year will be repeated in 6 years, while the orders for the second and third years following a leap year will be repeated in 11 years. Then the calendar for '81 will be repeated in '87; the order that obtained in '82 will occur again in '93, but that for '83 corresponds with '94.

What has been shown as to leap year dates, as Feb. 29th, recurring on the same day of the week, is of course true of Inauguration Day, March 4th, of every fourth year. This came on Sunday in 1821, 1849 and 1877, and if 1900 were a leap year it would occur again in 1905, but owing to that omission it will not recur until 1917. The irregular interval caused by the omission of leap year is sometimes 40 and sometimes 12 days. Under the Julian Calendar, established 40 B. C. by Julius Caesar, the calendar for an entire century was repeated every 700 years, and therefore the sequence of days given here for 1700 O. S., G., answers also for the time 700 years earlier, i. e., the century 1000 to 1099; also for the years 300 to 399. In this way the sequences given may cover the time back to the beginning of the Christian Era. Under the Gregorian Calendar the orders are repeated every 400 years, and only four of the sequences are required, viz., C, D, E and F; F serving alike for 1600 and 2000, E for 1700 and 2100, etc.

Pope Gregory XIII in 1582 undertook to reform the Julian Calendar. To correct the errors that had accumulated and to guard against future inaccuracies, he suppressed ten days and provided for the omission of leap year every centesimal year, excepting every fourth centesimal year. Under the Gregorian Calendar 1700, 1800 and 1900 are not counted as leap years, but 1600 and 2000 are. This calendar was adopted by Germany in 1700 and by England not until 1752, by which time, as 1700 had passed as leap year, the difference amounted to 11 days, and Parliament rectified the error by suppressing 11 days in September of that year. The Julian Calendar still prevails in Russia, and 1800 has passed with them as leap year, the difference between their reckoning and ours is 12 days, so that August 7 in Russia is the same as August 19 with us.

ARMY, NAVY AND MARINE CORPS.

MUSTER AND PAY OF ENLISTED MEN.

The act of February 19, 1893, provides that the provisions of an act to provide for the muster and pay of certain officers and enlisted men of the volunteer forces, approved June 3, 1884, as amended by an act approved February 3, 1887, be, and the same are hereby, revived and extended for a period of three years from the third day of June, 1892.

PURCHASE OF DISCHARGE FROM NAVY OR MARINE CORPS.

The Naval Appropriation act of March 3, 1893, provides that in time of peace the President may, in his discretion, or under

such rules and upon such conditions as he may prescribe, permit any enlisted man to purchase his discharge from the Navy or the Marine Corps, the amounts received therefrom to be turned into the Treasury.

MILITARY POST TRADERSHIPS.

The act of January 28, 1893, provides that where a vacancy now exists or hereafter occurs in the position of post trader at any military post it shall not be filled, and the authority to make such appointment is hereby determined: Provided, That in the event of the death of a post trader his personal representative shall be allowed by the Secretary of War a reasonable time in which to close the business.

THE ENGINEER CORPS OF THE NAVY.

The act of December 16, 1892, provides that the reduction in the numbers of the Engineer Corps of the Navy provided for in the act approved August 5, 1882, shall be considered as having ceased on the 30th day of June, 1891.

(This bill passed the House, December 8, 1892; yeas, 126; nays, 92.)

PAY OF ENLISTED MEN OF THE ARMY.

The Army Appropriation act of February 27, 1893, fixed the pay per month, after July 1, 1893, of first sergeants at $25, sergeants at $18, and in both classes the increase of pay for length of service was provided by law. The same act authorizes the Secretary of War to arrange for the payment of the enlisted men serving at posts or places where no paymaster is on duty, by check or by currency, to be sent to them by mail or express, at the expense and risk of the United States.

PAY DEPARTMENT OF THE ARMY.

The same act requires that hereafter no appointments shall be made to the grade of major in the Pay Department of the Army until the number of majors in that department is reduced below twenty-five, and thereafter the number of officers of that grade in the Pay Department shall be fixed at twenty-five.

WEST POINT CADETS.

The Military Academy Appropriation act of March 1, 1893, enacts that hereafter no cadet shall receive more than at the rate of $540 a year. It also provides for the appointment at the Military Academy, in addition to the professors authorized by the existing laws, an associate professor of mathematics, who shall receive the pay and allowances of a captain mounted, and when his service as associate professor of mathematics at the Academy exceeds ten years, he shall receive the pay and allowances of major; and hereafter there shall be allowed and paid to the said associate professor of mathematics 10 per centum of his current yearly pay for each and every term of five years' service in the Army and at the Academy: Provided, That such addition shall in no case exceed 40 per centum of said yearly pay; and said associate professor of mathematics is hereby placed upon the same footing as regards restrictions upon pay and retirement from active service as officers of the Army.

INCREASE OF THE NAVY.

The Naval Appropriation act of March 3, 1893, provides that, for the purpose of further increasing the Naval Establishment of the United States, the President is hereby authorized to have constructed, by contract, three light-draught protected gunboats of about 1,200 tons displacement each, to cost, exclusive of armament, not more than $400,000 each, excluding any premium that may be paid for increased speed and the cost of armament. The contract for the construction of either of said gunboats shall contain such provisions as to speed and premiums and penalties affected by speed as may in the judgment of the Secretary of the Navy be deemed proper and fitting. In the construction of said vessels all the provisions of the act of August 3, 1886, entitled "An act to increase the Naval Establishment," as to material for said vessels, their engines, boilers and machinery, the contract under which they are built, the notice of and proposals for the same, the plans, drawings, specifications therefor, and the method of executing said contracts, shall be observed and followed, and said vessels shall be built in compliance with the terms of said act, save that in all their parts said vessels shall be of domestic manufacture: Provided, however, That the Secretary of the Navy shall not receive or consider bids from any party or parties not provided with a plant suitable to do the work: And, provided further, That in awarding the contract for any one of these ships, the Secretary of the Navy shall award the contract at the price of the lowest bid to that one of the parties bidding on any such ship which in his judgment it is in the interest of the Government to have to do the work. If the Secretary of the Navy shall be unable to contract at reasonable prices for the building of said vessels, then he may build such vessels in such Navy Yard as he may designate.

The same act provides that no contract for the purchase of gun steel or armor for the Navy shall hereafter be made until the subject matter of the same shall have been submitted to public competition by the Department by advertisement.

CENSUS.

CENSUS VOLUMES TO BE PRINTED.

The act of February 28, 1893, provides that the reports of the Eleventh Census of the United States be printed and bound at the Government Printing Office, to consist of the following: A digest of the leading statistics, not to exceed 200 octavo pages; a compendium; a report on population; a report on manufactures; a report on agriculture; a report on wealth, debt and taxation; a report on farms, homes and mortgages; a report on mineral resources; a report on transportation; a report on insurance; a report on vital statistics; a report on statistics of special classes; a report on fish and fisheries; a report on educational and church statistics; a report on pauperism and crime; a report on social statistics; a report on Alaska, a report on Indians, and a statistical atlas, together with such special reports and monographs as may be found necessary. That any or all of the above-

named reports may, for convenience of publication, be divided into parts and each part published separately, in the discretion of the Superintendent of Census, with the approval of the Secretary of the Interior: Provided, That the edition of such separate parts shall not exceed in number the whole number hereby authorized for the publication of each thereof as a whole. The additional copies herein authorized to be printed shall be distributed by the Secretary of the Interior in the same manner and under the same regulations and restrictions as provided in the act entitled "An act to provide for the publication of the Tenth Census," approved August 7, 1882.

And on and after July 1, 1893, the same and no other shall be used in determining duties and taxes levied by the United States of America..on sheet and plate iron and steel. But this act shall not be construed to increase duties upon any articles which may be imported.

That in the practical use and application of the standard gauge hereby established a variation of two and one-half per cent either way may be allowed.

ON FLAX.

The act of March 3, 1893, provides that paragraph numbered 371 of an act entitled "An act to reduce the revenue and equalize duties on imports, and for other purposes," approved October 1, 1890, be, and the same is hereby, amended by striking out the words "ninety-four" and inserting "ninety-five," so that the proviso embraced in said paragraph shall read as follows: Provided, That until January 1, 1895, such manufactures of flax containing more than 100 threads to the square inch, counting both warp and filling, shall be subject to a duty of 35 per centum ad valorem in lieu of the duty herein provided."

COMMERCE.

TESTIMONY BEFORE THE INTERSTATE COMMERCE COMMISSION.

The act of February 11, 1893, provides that no person shall be excu ed from attending and testifying or from producing books, papers, tariffs, contracts, agreements and documents before the Interstate Commerce Commission, or in obedience to the subpoena of the Commission, whether such subpoena be signed or issued by one or more Commissioners, or in any cause or proceeding, criminal or otherwise, based upon or growing out of any alleged violation of the act of Congress, entitled "An act to regulate commerce," approved February 4, 1887, or of any amendment thereof on the ground or for the reason that the testimony or evidence, documentary or otherwise, required of him, may tend to criminate him or subject him to a penalty or forfeiture. But no person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter or thing, concerning which he may testify, or produce evidence, documentary or otherwise, before said Commission, or in obedience to its subpoena, or the subpoena of either of them, or in any such case or proceeding: Provided, That no person so testifying shall be exempt from prosecution and punishment for perjury committed in so testifying. Any person who shall neglect or refuse to attend and testify, or to answer any lawful inquiry, or to produce books, papers, tariffs, contracts, agreements and documents, if in his power to do so, in obedience to the subpoena or lawful requirement of the Commission, shall be guilty of an offence and upon conviction thereof by a court of competent jurisdiction shall be punished by fine not less than $100, nor more than $5,000, or by imprisonment for not more than one year or by both such fine and imprisonment.

FUR SEALS, PROTECTION OF.

The act of February 21, 1893, provides that whenever the Government of the United States shall conclude an effective international arrangement for the protection of fur seals in the North Pacific Ocean, by agreement with any power, or as a result of the decision of the tribunal of arbitration under the convention concluded between the United States and Great Britain February 29, 1892, and so long as such arrangement shall continue, the provisions of section 1,956 of the Revised Statutes, and all other provisions of the statutes of the United States, so far as the same may be applicable, relative to the protection of fur seals and other fur-bearing animals within the limits of Alaska or in the waters thereof, shall be extended to and over all that portion of the Pacific Ocean included in such international arrangement. Whenever an effective international arrangement is concluded as aforesaid, it shall be the duty of the President to declare that fact by proclamation, and to designate the portion of the Pacific Ocean to which it is applicable, and that this act has become operative; and likewise, when such arrangement ceases, to declare that fact, and that this act has become inoperative, and his proclamation with respect thereto shall be conclusive. During the extension as aforesaid of said laws for the protection of fur seals and other fur-bearing animals all violations thereof in said designated portion of the Pacific Ocean shall be held to be the same as if committed within the limits of Alaska or in the waters thereof, but they may be prosecuted either in the district court of Alaska or in any district court of the United States in California, Oregon or Washington.

IMMIGRATION AND CONTRACT LABOR.

Complete as follows:

The act of March 3, 1893, Sec. 1. That in addition to conforming to all present requirements of law upon the arrival of any alien immigrants by water at any port within the United States, it shall be the duty of the master or commanding officer of the steamer or sailing vessel having said immigrants on board to deliver to the proper inspector of immigration at the port lists or manifests made at the time and place of embarkation of such alien immigrants on board such steamer or vessel, which shall, in answer to questions at the top of said lists, state as to each immigrant the full name, age and sex, whether married or single; the calling or occupation; whether able to read or write; the nationality; the last residence; the seaport for landing in the United States; the final destination, if any, beyond the seaport of landing; whether having a ticket through to such final destination; whether the immigrant has paid his own passage or whether it has been paid by other persons or by any corporation, society, municipality or government; whether in possession of money, and if so, whether upward of $30 and how much if $30 or less; whether going to join a relative, and if so, what relative and his name and address; whether ever before in the United States, and if so, when and where; whether ever in prison or almshouse or supported by charity; whether a polygamist; whether under contract, express or implied, to perform labor in the United States; and what is the immigrant's condition of health mentally and physically, and whether deformed or crippled, and if so, from what cause.

Sec. 2. That the immigrants shall be listed in convenient groups and no one list or manifest shall contain more than thirty names. To each immi-

grant or head of a family shall be given a ticket on which shall be written his name, a number or letter designating the list, and his number on the list, for convenience of identification on arrival. Each list or manifest shall be verified by the signature and the oath or affirmation of the master or commanding officer or of the officer first or second below him in command, taken before the United States consul or consular agent at the port of departure, before the sailing of said vessel, to the effect that he has made a personal examination of each and all of the passengers named therein, and that he has caused the surgeon of said vessel sailing therewith to make a physical examination of each of said passengers, and that from his personal inspection and the report of said surgeon he believes that no one of said passengers is an idiot or insane person, or a pauper or likely to become a public charge, or suffering from a loathsome or dangerous contagious disease, or a person who has been convicted of a felony or other infamous crime or misdemeanor involving moral turpitude, or a polygamist, or under contract or agreement, express or implied, to perform labor in the United States, and that also, according to the best of his knowledge and belief, the information in said list or manifest concerning each of said passengers named therein is correct and true.

Sec. 3. That the surgeon of said vessel sailing therewith shall also sign each of said lists or manifests before the departure of said vessel, and make oath or affirmation in like manner before said consul or consular agent, stating his professional experience and qualifications as a physician and surgeon, and that he has made a personal examination of each of the passengers named therein and that said list or manifest, according to the best of his knowledge or belief, is full, correct and true in all particulars relative to the mental and physical condition of said passengers. If no surgeon sails with any vessel bringing alien immigrants, the mental and physical examinations and the verifications of the lists or manifests may be made by some competent surgeon employed by the owners of the vessel.

Sec. 4. That in the case of the failure of said master or commanding officer of said vessel to deliver to the said inspector of immigration lists or manifests, verified as aforesaid, containing the information above required as to all alien immigrants on board, there shall be paid to the collector of customs at the port of arrival the sum of $10 for each immigrant qualified to enter the United States concerning whom the above information is not contained in any lists as aforesaid, or said immigrant shall not be permitted so to enter the United States, but shall be returned like other excluded persons.

Sec. 5. That it shall be the duty of every inspector of arriving alien immigrants to detain for a special inquiry, under section 1 of the Immigration act of March 3, 1891, every person who may not appear to him to be clearly and beyond doubt entitled to admission, and all special inquiries shall be conducted by not less that four officials acting as inspectors, to be designated in writing by the Secretary of the Treasury or the superintendent of immigration, for conducting special inquiries; and no immigrant shall be admitted upon special inquiry except after a favorable decision made by at least three of said inspectors; and any decision to admit shall be subject to appeal by any dissenting inspector to the superintendent of immigration, whose action shall be subject to review by the Secretary of the Treasury, as provided in section 8 of said Immigration act of March 3, 1891.

Sec. 6. That section 5 of the act of March 3, 1893, "in amendment of the various acts relative to immigration and the importation of aliens under contract or agreement to perform labor," is hereby amended by striking out the words "second proviso" where they first occur in said section and inserting the words "first proviso" in their place; and section 8 of said act is hereby so amended that the medical examinations of arriving immigrants to be made by surgeons of the Marine-Hospital Service may be made by any regular medical officers of such Marine-Hospital Service detailed therefor by the Secretary of the Treasury; and civil surgeons shall only be employed temporarily from time to time for specific emergencies.

Sec. 7. That no bond or guaranty, written or oral, that an alien immigrant shall not become a public charge shall be received from any person, company, corporation, charitable or benevolent society or association, unless authority to receive the same shall in each special case be given by the Superintendent of Immigration, with the written approval of the Secretary of the Treasury.

Sec. 8. That all steamship or transportation companies, and other owners of vessels, regularly engaged in transporting alien immigrants to the United States, shall twice a year file a certificate with the Secretary of the Treasury that they have furnished, to be kept conspicuously exposed to view in the office of each of their agents in foreign countries authorized to sell immigrant tickets, a copy of the law of March 3, 1891, and of all subsequent laws of this country relative to immigration, printed in large letters, in the language of the country where the copy of the laws is to be exposed to view, and that they have instructed their agents to call the attention thereto of persons contemplating emigration before selling tickets to them; and in case of the failure for sixty days of any such company or any such owners to file such a certificate, or in case they file a false certificate, they shall pay a fine of not exceeding $500, to be recovered in the proper United States court, and said fine shall also be a lien upon any vessel of said company or owners found within the United States.

Sec. 9. That after the 1st day of January, 1893, all exclusive privileges of exchanging money, transporting passengers or baggage, or keeping eating-houses, and all other like privileges in connection with the Ellis Island immigrant station, shall be disposed of after public competition, subject to such conditions and limitations as the Secretary of the Treasury may prescribe.

Sec. 10. That this act shall not apply to Chinese persons; and shall take effect

as to vessels departing from foreign ports for ports within the United States after sixty days from the passage of this act.

LAND LEGISLATION.

The act of February 13, 1893, extends to New-Mexico and Arizona the provisions of section 8 of the act of March 3, 1891, to repeal timber-culture laws and for other purposes.

PENSION LEGISLATION.

MEXICAN WAR SOLDIERS.

The act of January 5, 1893, provides that the Secretary of the Interior be, and he is hereby, authorized to increase the pension of every pensioner who is now on the rolls at $8 per month on account of services in the Mexican War and who is wholly disabled for manual labor, and is in such destitute circumstances that $8 per month are insufficient to provide him the necessaries of life, to $12 per month. (This bill passed the Senate without division, and the House—yeas 172 (Rep. 47, Dem. 117, Pop. 8), nays 8 (all Democrats), not voting 149.

INDIAN WAR PENSIONS.

The act of February 3, 1893, provides that the Commissioner of Pensions be, and he is hereby, authorized and directed to accept as sufficient proof of the citizenship of an applicant for pension under said act of July 27, 1892, the fact that such applicant at the date of the application was an actual and bona fide resident of the United States.

The Pension Appropriation act of March 1, 1893, provides that from and after July 1, 1893, no pension shall be paid to a non-resident, who is not a citizen of the United States, except for actual disabilities incurred in the service.

QUARANTINE ACT.

The act of February 15, 1893, repeals the National Board of Health act of March 3, 1879, grants additional quarantine powers and imposes additional duties upon the Marine Hospital service. It provides that it shall be unlawful for any merchant ship or other vessel from any foreign port or place to enter any port of the United States except in accordance with the provisions of this act and with such rules and regulations of State and municipal health authorities as may be made in pursuance of, or consistent with, this act.

It provides that any vessel at any foreign port clearing for any port or place in the United States shall be required to obtain from the Consul, Vice-Consul or other Consular officer of the United States at the port of departure, or from the medical officer where such officer has been detailed by the President for that purpose, a bill of health, in duplicate, in the form prescribed by the Secretary of the Treasury, setting forth the sanitary history and condition of said vessel, and that it has in all respects complied with the rules and regulations in such cases prescribed for securing the best sanitary condition of the said vessel, its cargo, passengers and crew; and said Consular or medical officer is required, before granting such duplicate bill of health, to be satisfied that the matters and things therein stated are true.

It is made the duty of the Supervising Surgeon-General of the Marine Hospital Service that he immediately after this act takes effect, examine the quarantine regulations of all State and municipal boards of health, and shall, under the direction of the Secretary of the Treasury, co-operate with and aid State and municipal boards of health in the execution and enforcement of the rules and regulations of such boards, and in the execution and enforcement of the rules and regulations made by the Secretary of the Treasury to prevent the introduction of contagious or infectious diseases into the United States from foreign countries, and into one State or Territory or the District of Columbia from another State or Territory or the District of Columbia; and all rules and regulations made by the Secretary of the Treasury shall operate uniformly and in no manner discriminate against any port or place; and at such ports and places within the United States as have no quarantine regulations under State or municipal authority, where such regulations are, in the opinion of the Secretary of the Treasury, necessary to prevent the introduction of contagious or infectious diseases into the United States from foreign countries, or into one State or Territory or the District of Columbia from another State or Territory or the District of Columbia, and at such ports and places within the United States where quarantine regulations exist under the authority of the State or municipality which, in the opinion of the Secretary of the Treasury, are not sufficient to prevent the introduction of such diseases into the United States, or into one State or Territory or the District of Columbia from another State or Territory or the District of Columbia, the Secretary of the Treasury shall, if in his judgment it is necessary and proper, make such additional rules and regulations as are necessary to prevent the introduction of such diseases into the United States from foreign countries, or into one State or Territory or the District of Columbia from another State or Territory or the District of Columbia, and when said rules and regulations have been made they shall be promulgated by the Secretary of the Treasury and enforced by the sanitary authorities of the States and municipalities, where the State or municipal health authorities will undertake to execute and enforce them; but if the State or municipal authorities shall fail or refuse to enforce said rules and regulations the President shall execute and enforce the same and adopt such measures as in his judgment shall be necessary to prevent the introduction or spread of such diseases, and may detail or appoint officers for that purpose. The Secretary of the Treasury shall make such rules and regulations as are necessary to be observed by vessels at the port of departure and on the voyage, where such vessels sail from any foreign port or place to any port or place in the United States, to secure the best sanitary condition of such vessel, her cargo, passengers and crew; which shall be published and communicated to and enforced by the Consular officers of the United States.

Various other provisions are enacted, and he following are the closing sections:

Sec. 7. That whenever it shall be shown o the satisfaction of the President that y reason of the existence of cholera or ther infectious or contagious diseases in foreign country there is serious danger f the introduction of the same into the Jnited States, and that notwithstanding he quarantine defence this danger is so ncreased by the introduction of persons r property from such country that a sus-ension of the right to introduce the same s demanded in the interest of the public ealth, the President shall have power o prohibit, in whole or in part, the introduction of persons and property from uch countries or places as he shall designate and for such period of time as he ay deem necessary.

Sec. 8. That whenever the proper authorities of a State shall surrender to the Jnited States the use of the buildings nd disinfecting apparatus at a State uarantine station, the Secretary of the reasury shall be authorized to receive hem and to pay a reasonable compensa-ion to the State for their use, if, in his pinion, they are necessary to the United tates.

(This bill passed both houses finally ithout division, though difference of iew as to the extent of the interference ith State quarantine by the United tates previously found expression in de-ate and in votes.)

RAILROAD COUPLERS AND BRAKES.

The act of March 2, 1893, provides that rom and after the 1st day of January, 898, it shall be unlawful for any com-on carrier engaged in interstate com-erce by railroad to use on its line ny locomotive engine in moving inter-tate traffic not equipped with a power riving-wheel brake and appliances for perating the train-brake system, or to un any train in such traffic after said ate that has not a sufficient number of ars in it so equipped with power or rain brakes that the engineer on the lo-omotive drawing such train can control s speed without requiring brakemen to se the common hand brake for that pur-ose.

That on and after the first day of Jan-ary, 1898, it shall be unlawful for any uch common carrier to haul or permit o be hauled or used on its line any car sed in moving interstate traffic not quipped with couplers coupling auto-natically by impact, and which can be ncoupled without the necessity of men oing between the ends of the car.

That when any person, firm, company r corporation engaged in interstate com-erce by railroad shall have equipped a ufficient number of its cars so as to omply with the provisions of Section 1 f this act, it may lawfully refuse to re-eive from connecting lines of road r shippers any cars not equipped suffi-iently, in accordance with the first sec-ion of this act, with such power or train rakes as will work and readily inter-hange with the brakes in use on its own ars, as required by this act.

That from and after the first day of uly, 1895, until otherwise ordered by the nterstate Commerce Commission, it shall be unlawful for any railroad company to use any car in interstate commerce that is not provided with secure grab irons or handholds in the ends and sides of each car for greater security to men in coupling and uncoupling cars.

That within ninety days from the passage of this act the American Railway Association is authorized hereby to designate to the Interstate Commerce Commission the standard height of drawbars for freight cars, measured perpendicular from the level of the tops of the rails to the centres of the drawbars, for each of the several gauges of railroads in use in the United States, and shall fix a maximum variation from such standard height to be allowed between the drawbars of empty and loaded cars. Upon their determination being certified to the Interstate Commerce Commission, said Commission shall at once give notice of the standard fixed upon to all common carriers, owners, or lessees engaged in interstate commerce in the United States by such means as the Commission may deem proper. But should said association fail to determine a standard as above provided, it shall be the duty of the Interstate Commerce Commission to do so, before July 1, 1894, and immediately to give notice thereof as aforesaid. And after July 1, 1895, no cars, either loaded or unloaded, shall be used in interstate traffic which do not comply with the standard above provided for.

That any such common carrier using any locomotive engine, running any train, or hauling or permitting to be hauled or used on its line any car in violation of any of the provisions of this act, shall be liable to a penalty of $100 for each and every such violation, to be recovered in a suit or suits to be brought by the United States District-Attorney in the District Court of the United States having jurisdiction in the locality where such violation shall have been committed, and it shall be the duty of such District-Attorney to bring such suits upon duly verified information being lodged with him of such violation having occurred. And it shall also be the duty of the Interstate Commerce Commission to lodge with the proper District-Attorneys information of any such violations as may come to its knowledge: Provided, That nothing in this act contained shall apply to trains composed of four-wheel cars or to locomotives used in hauling such trains.

That the Interstate Commerce Commission may from time to time, upon full hearing and for good cause, extend the period within which any common carrier shall comply with the provisions of this act.

That any employe of any such common carrier who may be injured by any locomotive, car or train in use contrary to the provision of this act shall not be deemed thereby to have assumed the risk thereby occasioned, although continuing in the employment of such carrier after the unlawful use of such locomotive, car or train had been brought to his knowledge.

This bill passed the Senate—Yeas 39 (Republicans 23, Democrats 14, Independents 2); nays 10 (Republicans 2, Democrats 8). It passed the House—Yeas 185 (Republicans 60, Democrats 118, People's 7); nays 84 (Republicans 7, Democrats 77).

NATIONAL CONVENTIONS AND PLATFORMS OF 1892.

THE REPUBLICAN NATIONAL CONVENTION.

The tenth Republican National Convention met at Minneapolis on June 7, 1892. J. Sloat Fassett, of New-York, was elected temporary chairman, and Wm. McKinley, jr., of Ohio, permanent chairman. The following platform was unanimously reported on June 10 from the Committee on Resolutions, Joseph B. Foraker, of Ohio, chairman, and was unanimously adopted by the convention at the evening session:

REPUBLICAN PLATFORM, Adopted at Minneapolis, June 10, 1892.

"The representatives of the Republicans of the United States, assembled in general convention on the shores of the Mississippi River, the everlasting bond of an indestructible Republic, whose most glorious chapter of history is the record of the Republican party, congratulate their countrymen on the majestic march of the Nation under the banners inscribed with the principles of our platform of 1888, vindicated by victory at the polls and prosperity in our fields, workshops and mines, and make the following declaration of principles:

PROTECTION.—"We reaffirm the American doctrine of protection. We call attention to its growth abroad. We maintain that the prosperous condition of our country is largely due to the wise revenue legislation of the Republican Congress. We believe that all articles which cannot be produced in the United States, except luxuries, should be admitted free of duty, and that on all imports coming into competition with the products of American labor there should be levied duties equal to the difference between wages abroad and at home. We assert that the prices of manufactured articles of general consumption have been reduced under the operations of the tariff act of 1890. We denounce the efforts of the Democratic majority of the House of Representatives to destroy our tariff laws piecemeal, as is manifested by their attacks upon wool, lead and lead ores, the chief products of a number of States, and we ask the people for their judgment thereon.

RECIPROCITY.—"We point to the success of the Republican policy of reciprocity, under which our export trade has vastly increased, and new and enlarged markets have been opened for the products of our farms and workshops. We remind the people of the bitter opposition of the Democratic party to this practical business measure, and claim that, executed by a Republican Administration, our present laws will eventually give us control of the trade of the world.

SILVER.—"The American people, from tradition and interest, favor bimetallism, and the Republican party demands the use of both gold and silver as standard money, with such restrictions and under such provisions, to be determined by legislation, as will secure the maintenance of the parity of values of the two metals, so that the purchasing and debt-paying power of the dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workingmen, demand that every dollar, paper or coin, issued by the Government shall be as good as any other. We commend the wise and patriotic steps already taken by our Government to secure an international conference to adopt such measures as will insure a parity of value between gold and silver for use as money throughout the world.

FREE BALLOT AND FAIR COUNT.—"We demand that every citizen of the United States shall be allowed to cast one free and unrestricted ballot in all public elections, and that such ballot shall be counted and returned as cast; that such laws shall be enacted and enforced as will secure to every citizen, be he rich or poor, native or foreign born, white or black, this sovereign right guaranteed by the Constitution. The free and honest popular ballot, the just and equal representation of all the people, as well as their just and equal protection under the laws, are the foundation of our republican institutions, and the party will never relax its efforts until the integrity of the ballot and the purity of elections shall be fully guaranteed and protected in every State.

SOUTHERN OUTRAGES.—"We denounce the continued inhuman outrages perpetrated upon American citizens for political reasons in certain Southern States of the Union.

FOREIGN RELATIONS.—"We favor the extension of our foreign commerce, the restoration of our mercantile marine by home-built ships and the creation of a Navy for the protection of our National interests and the honor of our flag; the maintenance of the most friendly relations with all foreign Powers, entangling alliances with none; and the protection of the rights of our fishermen. We reaffirm our approval of the Monroe Doctrine, and believe in the achievement of the manifest destiny of the Republic in its broadest sense. We favor the enactment of more stringent laws and regulations for the restriction of criminal, pauper and contract immigration.

MISCELLANEOUS.—"We favor efficient legislation by Congress to protect the life and limbs of employes of transportation companies engaged in carrying on interstate commerce, and recommend legislation by the respective States that will protect employes engaged in State commerce, and in mining and manufacturing.

"The Republican party has always been the champion of the oppressed, and recognizes the dignity of manhood, irrespective of faith, color or nationality; it sympathizes with the cause of Home Rule in Ireland, and protests against the persecution of the Jews in Russia.

"The ultimate reliance of free popular government is the intelligence of the people and the maintenance of freedom among men. We therefore declare anew our devotion to liberty of thought and conscience, of speech and press, and approve all agencies and instrumentalities which contribute to the education of the children of the land; but, while insisting upon the fullest measure of religious liberty, we are opposed to any union of Church and State.

TRUSTS.—"We reaffirm our opposition, declared in the Republican platform of 1888, to all combinations of capital organized in trust or otherwise, to control arbitrarily the condition of trade among our citizens. We heartily indorse the action already taken upon this subject, and ask for such further legislation as may be required to remedy any defects in existing laws and to render their enforcement more complete and effective.

POSTOFFICE REFORM.—"We approve the policy of extending to towns, villages and rural communities the advantages of the free delivery service now enjoyed by the larger cities of the country, and reaffirm the declaration contained in the Republican platform of 1888, pledging the reduction of letter postage to one cent at the earliest possible moment consistent with the maintenance of the Postoffice Department and the highest class of postal service.

CIVIL SERVICE.—"We commend the spirit and evidence of reform in the Civil Service, and the wise and consistent enforcement by the Republican party of the laws regulating the same.

NICARAGUA CANAL.—"The construction of the Nicaragua Canal is of the highest importance to the American people, both as a measure of National defence and to build up and maintain American commerce, and it should be controlled by the United States Government.

TERRITORIES.—"We favor the admission of the remaining Territories at the earliest practicable date, having due regard to the interests of the people of the Territories and of the United States. All the Federal officers appointed for the Territories should be selected from bona fide residents thereof, and the right of self-government should be accorded as far as practicable.

ARID LANDS.—"We favor cession, subject to the Homestead laws, of the arid public lands to the States and Territories in which they lie, under such Congressional restrictions as to disposition, reclamation and occupancy by settlers as will secure the maximum benefits to the people.

COLUMBIAN EXPOSITION. — "The World's Columbian Exposition is a great National undertaking, and Congress should promptly enact such reasonable legislation in aid thereof as will insure a discharge of the expenses and obligations incident thereto, and the attainment of results commensurate with the dignity and progress of the Nation.

INTEMPERANCE. — "We sympathize with all wise and legitimate efforts to lessen and prevent the evils of intemperance and promote morality.

PENSIONS.—"Ever mindful of the services and sacrifices of the men who saved the life of the Nation, we pledge anew to the veteran soldiers of the Republic a watchful care and recognition of their just claims upon a grateful people.

HARRISON'S ADMINISTRATION. — "We commend the able, patriotic and thoroughly American Administration of President Harrison. Under it the country has enjoyed remarkable prosperity, and the dignity and honor of the Nation at home and abroad have been faithfully maintained, and we offer the record of pledges kept as a guarantee of faithful performance in the future."

THE REPUBLICAN NOMINATIONS.

On June 11 Senator E. O. Wolcott, of Colorado, nominated for President James G. Blaine. R. W. Thompson, of Indiana, ex-Secretary of the Navy, nominated Benjamin Harrison. On the first ballot President Harrison was chosen for re-election. The vote by States was as follows:

At the evening session State Senator Edmund O'Connor, of New-York, nominated Whitelaw Reid, of New-York, for Vice-President. The nomination was made unanimous.

THE DEMOCRATIC NATIONAL CONVENTION.

This body met in Chicago on June 21, 1892. William C. Owens, of Kentucky, was made temporary chairman, and William L. Wilson, of West Virginia, permanent chairman.

DEMOCRATIC PLATFORM, Adopted at Chicago, June 22, 1892.

"The representatives of the Democratic party of the United States, in National convention assembled, do reaffirm their allegiance to the principles of the party as formulated by Jefferson and exemplified by the long and illustrious line of his successors in Democratic leadership from Madison to Cleveland; we believe the public welfare demands that these principles be applied to the conduct of the Federal Government through the accession to power of the party that advocates them, and we solemnly declare that the need of a return to these fundamental principles of a free popular government based on home rule and individual liberty was never more urgent than now, when the tendency to centralize all power at the Federal Capital has become a menace to the reserved rights of the States that strikes at the very roots of our Government under the Constitution as framed by the fathers of the Republic.

ELECTIONS BILL.—"We warn the people of our common country, jealous for the preservation of their free institutions, that the policy of Federal control of elections, to which the Republican party has commended itself, is fraught with the gravest dangers, scarcely less momentous than would result from a revolution practically establishing monarchy on the ruins of the Republic. It strikes at the North as well as the South, and injures the colored citizens even more than the white; it means a horde of deputy marshals at every polling place armed with Federal power, returning boards appointed and controlled by Federal authority, the outrage of the electoral rights of the people in the several States, subjugation of the colored people to the control of the party in power, and the reviving of race antagonisms now happily abated, of the utmost peril to the safety and happiness of all, a measure deliberately and justly described by a leading Republican Senator as 'the most infamous bill that ever crossed the threshold of the Senate.' Such a policy, if sanctioned by law, would mean the dominance of a self-perpetuating oligarchy of office-holders, and the party first intrusted with its machinery could be dislodged from power only by an appeal to the reserved rights of the people to resist oppression which is inherent in all self-governing communities. Two years ago this revolutionary policy was emphatically condemned by the people at the polls, but in contempt of that verdict the Republican party has defiantly declared in its latest authoritative utterance that its success in the coming elections will mean the enactment of the Force bill, and the usurpation of despotic control over elections in all the States. Believing that the preservation of republican government in the United States is dependent upon the defeat of this policy of legalized force and fraud, we invite the support of all citizens who desire to see the Constitution maintained in its integrity with the laws pursuant thereto which have given our country a hundred years of unexampled prosperity; and we pledge the Democratic party, if it be intrusted with power, not only to the defeat of the Force bill, but also to relentless opposition to the Republican policy of prodigate expenditure which, in the short space of two years, has squandered an enormous surplus, emptied an overflowing Treasury, after piling new burdens of taxation upon the already overtaxed labor of the country.

TARIFF.—"We denounce Republican protection as a fraud, a robbery of the great majority of the American people for the benefit of the few. We declare it to be a fundamental principle of the Democratic party that the Federal Government has no constitutional power to impose and collect tariff duties, except for the purpose of revenue only, and we demand that the collection of such taxes shall be limited to the necessities of the Government when honestly and economically administered. We denounce the McKinley Tariff law enacted by the 51st Congress as the culminating atrocity of class legislation; we indorse the efforts made by the Democrats of the present Congress to modify its most oppressive feature in the direction of free raw materials and cheaper manufactured goods that enter into general consumption, and we promise its repeal as one of the beneficent results that will follow the action of the people in intrusting power to the Democratic party. Since the McKinley tariff went into operation there have been ten reductions of the wages of the laboring man to one increase. We deny that there has been any increase of prosperity to the country since the tariff went into operation, and we point to the dulness and distress, the wage reductions and strikes in the iron trade as the best possible evidence that no such prosperity has resulted from the McKinley act. We call the attention of thoughtful Americans to the fact that after thirty years of restrictive taxes against the importation of foreign wealth, in exchange for our agricultural surplus, the homes and farms of the country have become burdened with a real estate mortgage debt of over $2,500,000, exclusive of all other forms of indebtedness; that in one of the chief agricultural States of the West there appears a real estate mortgage debt averaging $165 per capita of the total population, and that similar conditions and tendencies are shown to exist in other agricultural exporting States. We denounce a policy which fosters no industry so much as it does that of the sheriff.

RECIPROCITY.—"Trade interchange on the basis of reciprocal advantages to the countries participating is a time-honored

doctrine of the Democratic faith, but we denounce the sham reciprocity which juggles with the people's desire for enlarged foreign markets and freer exchanges by pretending to establish closer trade relations for a country whose articles of export are almost exclusively agricultural products with other countries that are also agricultural, while erecting a custom-house barrier of prohibitive tariff taxes against the rich and the countries of the world that stand ready to take our entire surplus of products and to exchange therefor commodities which are necessaries and comforts of life among our people.

TRUSTS.—"We recognize in the trusts and combinations which are designed to enable capital to secure more than its just share of the joint product of capital and labor a natural consequence of the prohibitive taxes which prevent the free competition which is the life of honest trade, but we believe their worst evils can be abated by law, and we demand the rigid enforcement of the laws made to prevent and control them, together with such further legislation in restraint of their abuses as experience may show to be necessary.

PUBLIC LANDS.—"The Republican party, while professing a policy of reserving the public land for small holdings by actual settlers, has given away the people's heritage, till now a few railroads and non-resident aliens, individual and corporate, possess a larger area than that of all our farms between the two seas. The last Democratic Administration reversed the improvident and unwise policy of the Republican party touching the public domain, and reclaimed from corporations and syndicates, abroad and domestic, and restored to the people nearly one hundred million acres of valuable land to be sacredly held as homesteads for our citizens, and we pledge ourselves to continue this policy until every acre of land so unlawfully held shall be reclaimed and restored to the people.

SILVER.—"We denounce the Republican legislation known as the Sherman act of 1890 as a cowardly makeshift, fraught with possibilities of danger in the future, which should make all of its supporters, as well as its author, anxious for its speedy repeal. We hold to the use of both gold and silver as the standard money of the country, and to the coinage of both gold and silver, without discriminating against either metal or charge for mintage, but the dollar unit of coinage of both metals must be of equal intrinsic and exchangeable value or be adjusted through international agreement, or by such safeguards of legislation as shall insure the maintenance of the parity of the two metals and the equal power of every dollar at all times in the markets and in payments of debts and we demand that all paper currency shall be kept at par with and redeemable in such coin. We insist upon this policy as especially necessary for the protection of the farmers and laboring classes, the first and most defenceless victims of unstable money and a fluctuating currency.

BANKING.—"We recommend that the prohibitory 10 per cent tax on State bank issues be repealed.

CIVIL SERVICE.—"Public office is a public trust. We reaffirm the declaration of the Democratic National Convention of 1876 for the reform of the civil service, and we call for the honest enforcement of all laws regulating the same. The nomination of a President, as in the recent Republican Convention, by delegations composed largely of his appointees, holding office at his pleasure, is a scandalous satire upon free popular institutions and a startling illustration of the methods by which a President may gratify his ambition. We denounce a policy under which Federal office-holders usurp control of party conventions in the States, and we pledge the Democratic party to the reform of these and all other abuses which threaten individual liberty and local self-government.

FOREIGN POLICY.—"The Democratic party is the only party that has ever given the country a foreign policy consistent and vigorous, compelling respect abroad and inspiring confidence at home. While avoiding entangling alliances, it has aimed to cultivate friendly relations with other nations, and especially with our neighbors on the American continent, whose destiny is closely linked with our own, and we view with alarm the tendency to a policy of irritation and bluster which is liable at any time to confront us with the alternative of humiliation or war. We favor the maintenance of a navy strong enough for all purposes of National defence, and to properly maintain the honor and dignity of the country abroad.

FOREIGN OPPRESSION.—"This country has always been the refuge of oppressed from every land—exiles for conscience sake—and in the spirit of the founders of our Government we condemn the oppression practised by the Russian Government upon its Lutheran and Jewish subjects, and we call upon our National Government, in the interests of justice and humanity, by all just and proper means to use its prompt and best effort to bring about a cessation of these cruel persecutions in the dominions of the Czar, and to secure to the oppressed equal rights. We tender our profound and earnest sympathy to those lovers of freedom who are struggling for home rule and the great cause of local self-government in Ireland.

IMMIGRATION.—"We heartily approve all legitimate efforts to prevent the United States from being used as a dumping ground for the known criminals and professional paupers of Europe, and we demand the rigid enforcement of the laws against Chinese immigration or the importation of foreign workmen under contract to degrade American labor and lessen its wages, but we condemn and denounce any and all attempts to restrict the immigration of the industrious and worthy of foreign lands.

PENSIONS.—"This convention hereby renews the expression of appreciation of the patriotism of the soldiers and sailors of the Union in the war for its preservation, and we favor just and liberal pensions for all disabled Union soldiers, their widows and dependents, but we demand that the work of the Pension Office shall be done industriously, impartially and honestly. We denounce the present ad-

ministration of that office as incompetent, corrupt, disgraceful and dishonest.

WATERWAYS.—"The Federal Government should care for and improve the Mississippi River and other great waterways of the Republic so as to secure for the interior States easy and cheap transportation to the tidewater. When any waterway of the public is of sufficient importance to demand the aid of the Government—that such aid should be extended, a definite plan of continuous work, until permanent improvement is secured.

NICARAGUA CANAL.—"For purposes of National defence, the promotion of commerce between the States, we recognize the early construction of the Nicaragua Canal and its protectfon against foreign control as of great importance to the United States.

WORLD'S FAIR. — "Recognizing the World's Columbian Exposition as a National undertaking of vast importance, in which the General Government has invited the co-operation of all the powers of the world, and appreciating the acceptance by many of such powers of the invitation so extended, and the broadest liberal efforts being made by them to contribute to the grandeur of the undertaking, we are of the opinion that Congress should make such necessary financial provisions as shall be requisite to the maintenance of the National honor and public faith.

PUBLIC SCHOOLS.—"Popular education being the only safe basis of popular suffrage, we recommend to the several States most liberal appropriations for the public schools. Free common schools are the nursery of good government, and they have always received the fostering care of the Democratic party, which favors every means of increasing intelligence. Freedom of education, being an essential of civil and religious liberty as well as a necessity for the development of intelligence, must not be interfered with under any pretext whatever. We are opposed to State interference with parental rights and rights of conscience in the education of children as an infringement of a fundamental Democratic doctrine that the largest individual liberty consistent with the rights of others insures the highest type of American citizenship and the best government.

TERRITORIES.—"We approve the action of the present House of Representatives in passing bills for the admission into the Union as States of the Territories of New-Mexico and Arizona, and we favor the early admission of all the Territories having necessary population and resources to admit them to Statehood, and while they remain Territories we hold that the officials appointed to administer the Government of any Territory, together with the District of Columbia and Alaska, should be bona fide residents of the Territory or district in which their duties are to be performed. The Democratic party believe in home rule and the control of their own affairs by the people of the vicinage.

LABOR.—"We favor legislation by Congress and State Legislatures to protect the lives and limbs of railway employes and those of other hazardous transportation companies, and denounce the inactivity of the Republican party, particularly the Republican Senate, for causing the defeat of measures beneficial and protective to this class of wage-workers. We are in favor of the enactment by the States of laws for abolishing the notorious sweating system, for abolishing contract convict labor and for prohibiting the employment in factories of children under fifteen years of age.

MISCELLANEOUS.—"We are opposed to all sumptuary law as an interference with the individual rights of the citizen. Upon this statement of principles and policies the Democratic party asks the intelligent judgment of the American people. It asks a change of administration and a change of party, in order that there might be a change of system and a change of methods, thus assuring the maintenance unimpaired of institutions under which the Republic has grown great and powerful."

The Platform, as reported from the Committee on Resolutions, contained this declaration, as the first paragraph of Section 3, with the heading "Revenue Tariffs":

"We reiterate the oft-repeated doctrines of the Democratic party that the necessity of the Government is the only justification for taxation, and whenever a tax is unnecessary it is unjustifiable; that when custom-house taxation is levied upon articles of any kind produced in this country, the difference between the cost of labor here and labor abroad, when such a difference exists, fully measures any possible benefits to labor, and the enormous additional impositions of the existing tariff fall with crushing force upon our farmers and workingmen, and for the mere advantage of the few whom it enriches, exact from labor a grossly unjust share of the expenses of the Government, and we demand such a revision of the tariff laws as will remove their iniquitous inequalities, lighten their oppressions and put them on a constitutional and equitable basis. But in making reduction in taxes it is not proposed to injure any domestic industries, but rather to promote their healthy growth. From the foundation of this Government taxes collected at the Custom House have been the chief source of Federal revenue. Such they must continue to be. Moreover, many industries have come to rely upon legislation for successful continuance, so that any change of law must be at every step regardful of the labor and capital thus involved. The process of reform must be subject in the execution of this plain dictate of justice."

On motion of Lawrence T. Neal, of Ohio, the above paragraph was struck from the Platform and the following substituted:

"We denounce Republican Protection as a fraud, a robbery of the great majority of the American people for the benefit of the few. We declare it to be a fundamental principle of the Democratic party that the Federal Government has no constitutional power to impose and to collect tariff duties, except for the purpose of revenue only, and we demand that the collection of such taxes shall be limited to the necessities of the Government when honestly and economically administered."

THE PEOPLE'S PARTY CONVENTION.

This body met at Omaha, July 2, 1892. C. H. Ellington, of Georgia, was chosen temporary chairman, and H. L. Loucks, of South Dakota, permanent chairman.

THE PLATFORM.

"Assembled upon the one hundred and sixteenth anniversary of the Declaration of Independence, the People's Party of America, in their first National Convention, invoking upon their action the blessing of Almighty God, puts forth, in the name and on behalf of the people of this country, the following preamble and declaration of principles:

"The conditions which surround us best justify our co-operation. We meet in the midst of a nation brought to the verge of moral, political and material ruin. Corruption dominates the ballot-box, the Legislatures, the Congress, and touches even the ermine of the Bench. The people are demoralized; most of the States have been compelled to isolate the voters at the polling places to prevent universal intimidation or bribery. The newspapers are largely subsidized or muzzled, public opinion silenced, business prostrated, our homes covered with mortgages, labor impoverished, and the land concentrating in the hands of capitalists. The urban workmen are denied the right of organization for self-protection; imported pauperized labor beats down their wages; a hireling standing army, unrecognized by our laws, is established to shoot them down, and they are rapidly degenerating into European conditions. The fruits of the toil of millions are boldly stolen to build up colossal fortunes for a few, unprecedented in the history of mankind, and the possessors of these in turn despise the Republic and endanger liberty. From the same prolific womb of governmental injustice we breed the two great classes—tramps and millionaires.

"The national power to create money is appropriated to enrich bondholders; a vast public debt, payable in legal tender currency, has been funded into gold-bearing bonds, thereby adding millions to the burdens of the people. Silver, which has been accepted as coin since the dawn of history, has been demonetized to add to the purchasing power of gold by decreasing the value of all forms of property as well as human labor, and the supply of currency is purposely abridged to fatten usurers, bankrupt enterprise and enslave industry.

"A vast conspiracy against mankind has been organized on two continents, and it is rapidly taking possession of the world. If not met and overthrown at once, it forebodes terrible social convulsions, the destruction of civilization, or the establishment of an absolute despotism. We have witnessed, for more than a quarter of a century, the struggles of the two great political parties for power and plunder, while grievous wrongs have been inflicted upon the suffering people. We charge that the controlling influences dominating both these parties have permitted the existing dreadful conditions to develop without serious

effort to prevent or restrain them. Neither do they now promise us any substantial reform. They have agreed together to ignore, in the coming campaign, every issue but one. They propose to drown the outcries of a plundered people with the uproar of a sham battle over the tariff, so that capitalists, corporations, National banks, rings, trusts, watered stock, the demonetization of silver, and the oppressions of the usurers may all be lost sight of. They propose to sacrifice our homes, lives and children on the altar of Mammon; to destroy the multitude in order to secure corruption funds from the millionaires.

"Assembled on the anniversary of the birthday of the Nation, and filled with the spirit of the grand general and chieftain who established our independence, we seek to restore the Government of the Republic to the hands of the 'plain people' with whose class it originated. We assert our purposes to be identical with the purposes of the National Constitution, to form a more perfect union, and establish justice, insure domestic tranquility, provide for the common defence, promote the general welfare, and secure the blessings of liberty for ourselves and our posterity. We declare that this Republic can only endure as a free government while built upon the love of the whole people for each other and for the Nation; that it cannot be pinned together by bayonets; that the Civil War is over, and that every passion and resentment which grew out of it must die with it, and that we must be in fact, as we are in name, one united brotherhood of freedom.

"Our country finds itself confronted by conditions for which there is no precedent in the history of the world; our annual agricultural productions amount to billions of dollars in value, which must within a few weeks or months be exchanged for billions of dollars' worth of commodities consumed in their production; the existing currency supply is wholly inadequate to make this exchange; the results are falling prices, the formation of combines and rings, the impoverishment of the producing class. We pledge ourselves that, if given power, we will labor to correct these evils by wise and reasonable legislation, in accordance with the terms of our platform. We believe that the powers of Government—in other words, of the people—should be expanded (as in the case of the postal service) as rapidly and as far as the good sense of an intelligent people and the teachings of experience shall justify, to the end that oppression, injustice and poverty, shall eventually cease in the land.

"While our sympathies as a party of reform are naturally upon the side of every proposition which will tend to make men intelligent, virtuous and temperate, we nevertheless regard these questions—important as they are—as secondary to the great issues now pressing for solution, and upon which not only our individual prosperity, but the very existence of free institutions depends; and we ask all men to first help us to determine whether we are to have a Republic to administer, before we differ as to the conditions upon which it is to be administered; believing that the forces of reform this day organized will never cease to move forward until every wrong is righted, and equal rights and equal privileges securely established for all the men and women of this country. We declare, therefore,

"1. That the union of the labor forces of the United States this day consummated shall be permanent and perpetual; may its spirit enter into all hearts for the salvation of the Republic and the uplifting of mankind.

"2. Wealth belongs to him who creates it, and every dollar taken from industry without an equivalent is robbery. 'If any will not work, neither shall he eat.' The interests of rural and civic labor are the same; their enemies are identical.

"3. We believe that the time has come when the railroad corporations will either own the people or the people must own the railroads; and should the Government enter upon the work of owning and managing all railroads, we should favor an amendment to the Constitution by which all persons engaged in the Government service shall be placed under a civil service regulation of the most rigid character, so as to prevent the increase of the power of the National Administration by the use of such additional Government employes.

MONEY.—"1. We demand a National currency, safe, sound and flexible, issued by the General Government only, a full legal tender for all debts public and private, and that without the use of banking corporations; a just, equitable and efficient means of distribution direct to the people at a tax not to exceed 2 per cent per annum, to be provided as set forth in the Sub-Treasury plan of the Farmers' Alliance, or a better system; also by payments in discharge of its obligations for public improvements.

"(A) We demand free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1.

"(B) We demand that the amount of circulating medium be speedily increased to not less than $50 per capita.

"(C) We demand a graduated income tax.

"(D) We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand that all State and National revenues shall be limited to the necessary expenses of the Government, economically and honestly administered.

"(E) We demand that Postal Savings Banks be established by the Government for the safe deposit of the earnings of the people and to facilitate exchange.

TRANSPORTATION.—"2. Transportation being a means of exchange and a public necessity, the Government should own and operate the railroads in the interest of the people. The telegraph and telephone, like the postoffice system, being a necessity for the transmission of news, should be owned and operated by the Government in the interests of the people.

LAND.—"3. The land, including all the natural sources of wealth, is the heritage of the people and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs, and all lands now owned by

aliens, should be reclaimed by the Government and held for actual settlers only."

The following supplementary resolutions, not to be incorporated in the platform, came from the Committee on Resolutions and were adopted, as follows:

"Whereas, Other questions having been presented for our consideration, we hereby submit the following, not as a part of the Platform of the People's party, but as resolutions expressive of the sentiment of this convention:

ELECTIONS.—"1. Resolved, That we demand a free ballot and fair count at all elections, and pledge ourselves to secure it to every legal voter without Federal intervention, through the adoption by the States of the unperverted Australian or secret ballot system.

TAXATION.—"2. That the revenue derived from a graduated income tax should be applied to the reduction of the burden of taxation now resting upon the domestic industries of this country.

PENSIONS.—"3. That we pledge our support to fair and liberal pensions to ex-Union soldiers and sailors.

IMMIGRATION.—"4. That we condemn the fallacy of protecting American labor under the present system, which opens our ports to the pauper and criminal classes of the world, and crowds out our wage-earners; and we denounce the present ineffective laws against contract labor, and demand the further restriction of undesirable immigration.

EIGHT-HOUR LAW.—"5. That we cordially sympathize with the efforts of organized workingmen to shorten the hours of labor and demand a rigid enforcement of the existing Eight-Hour law on Government work, and ask that a penalty clause be added to the said law.

PINKERTON MEN.—"6. That we regard the maintenance of a large standing army of mercenaries, known as the Pinkerton system, as a menace to our liberties, and we demand its abolition; and we condemn the recent invasion of the Territory of Wyoming by the hired assassins of plutocracy, assisted by Federal officials.

MISCELLANEOUS.—"7. That we commend to the favorable consideration of the people and to the reform press the legislative system known as the initiative and referendum.

"8. That we favor a constitutional provision limiting the office of President and Vice-President to one term, and providing for the election of Senators of the United States by a direct vote of the people.

"9. That we oppose any subsidy or national aid to any private corporation for any purpose.

"10. That this convention sympathizes with the Knights of Labor and their righteous contest with the tyrannical combine of clothing manufacturers of Rochester, and declares it to be the duty of all who hate tyranny and oppression to refuse to purchase the goods made by the said manufacturers, or to patronize any merchants who sell such goods."

THE NOMINATIONS.

The following were placed in nomination for President: James B. Weaver, of Iowa; James H. Kyle, South Dakota; James G. Field, Virginia, and Mann Page, Virginia. The vote on the morning of July 5 resulted as follows: James B. Weaver, 995; James H. Kyle, 265.

For Vice-President, James G. Field, of Virginia, was chosen by a vote of 733 to 554 for Ben Terrell, of Texas.

THE PROHIBITION CONVENTION.

This body met at Cincinnati, June 29, 1892. John P. St. John, of Kansas, was chosen temporary chairman, and Eli Ritter, of Indiana, permanent president.

THE PLATFORM.

"The Prohibition party, in National Convention assembled, acknowledging Almighty God as the source of all true government, and His law as the standard to which human enactments must conform to secure the blessings of peace and prosperity, presents the following declaration of principles:

LIQUOR.—"1. The liquor traffic is a foe to civilization, the arch-enemy of popular government, and a public nuisance. It is the citadel of the forces that corrupt politics, promote poverty and crime, degrade the Nation's home life, thwart the will of the people, and deliver our country into the hands of rapacious class interests. All laws that, under the guise of regulation, legalize and protect this traffic or make the Government share in its ill-gotten gains, are 'vicious in principle and powerless as a remedy.' We declare anew for the entire suppression of the manufacture, sale, importation, exportation and transportation of alcoholic liquors as a beverage by Federal and State legislation, and the full powers of Government should be exerted to secure this result. No party that fails to recognize the dominant nature of this issue in American politics is deserving of the support of the people.

WOMAN SUFFRAGE.—"2. No citizen should be denied the right to vote on account of sex, and equal labor should receive equal wages, without regard to sex.

MONEY.—"3. The money of the country should consist of gold, silver and paper, and be issued by the General Government only, and in sufficient quantity to meet the demands of business and give full opportunity for the employment of labor. To this end an increase in the volume of money is demanded. No individual or corporation should be allowed to make any profit through its issue. It should be made a legal tender for the payment of all debts, public and private. Its volume should be fixed at a definite sum per capita, and made to increase with our increase in population.

SILVER.—"4. We favor the free and unlimited coinage of gold and silver. (This plank was stricken out by the convention by a vote of 535 for to 596 against it.)

TARIFF.—"5. Tariff should be levied only as a defence against foreign Governments which levy tariff upon or bar out our products from their markets, revenues being incidental. The residue of means necessary to an economical administra-

tion of the Government should be raised by levying a burden on what the people possess, instead of upon what they consume.

CORPORATIONS.—"6. Railroad, telegraph and other public corporations should be controlled by the Government in the interest of the people, and no higher charges allowed than necessary to give fair interest on the capital actually invested.

IMMIGRATION AND NATURALIZATION.—"7. Foreign immigration has become a burden upon industry, one of the factors in depressing wages and causing discontent; therefore our immigration laws should be revised and strictly enforced. The time of residence for naturalization should be extended, and no naturalized person should be allowed to vote until one year after he becomes a citizen.

LAND.—"8. Non-resident aliens should not be allowed to acquire land in this country, and we favor the limitation of individual and corporate ownership of land. All unearned grants of lands to railroad companies or other corporations should be reclaimed.

MOB LAW.—"9. Years of inaction and treachery on the part of the Republican and Democratic parties have resulted in the present reign of mob law, and we demand that every citizen be protected in the right of trial by constitutional tribunals.

MISCELLANEOUS.—"10. All men should be protected by law in their right to one day of rest in seven.

"11. Arbitration is the wisest and most economical and humane method of settling National differences.

"12. Speculations in margins, the cornering of grain, money and products, and the formation of pools, trusts and combinations for the arbitrary advancement of prices should be suppressed.

"13. We pledge that the Prohibition party if elected to power will ever grant just pensions to disabled veterans of the Union Army and Navy, their widows and orphans.

"14. We stand unequivocally for the American public school, and opposed to any appropriation of public moneys for sectarian schools. We declare that only by united support of such common schools, taught in the English language, can we hope to become and remain a homogeneous and harmonious people.

REPUBLICANS AND DEMOCRATS.—"15. We arraign the Republican and Democratic parties as false to the standards reared by their founders; as faithless to the principles of the illustrious leaders of the past to whom they do homage with the lips; as recreant to the 'higher law,' which is as inflexible in political affairs as in personal life, and as no longer embodying the aspirations of the American people, or inviting the confidence of enlightened, progressive patriotism. Their protest against the admission of 'moral issues' into politics is a confession of their own moral degeneracy. The declaration of an eminent authority that municipal misrule is 'the one conspicuous failure of American politics' follows as a natural consequence of such degeneracy, and it is true alike of cities under Republican and Democratic control. Each accuses the other of extravagance in Congressional appropriations, and both are alike guilty; each protests when out of power against infraction of the civil service laws, and each when in power violates those laws in letter and in spirit; each professes fealty to the interests of the toiling masses, but both covertly truckle to the money power in their administration of public affairs. Even the tariff issue, as represented in the Democratic Mills bill and the Republican McKinley bill, is no longer treated by them as an issue between great and divergent principles of government, but is a mere catering to different sectional and class interests. The attempt in many States to wrest the Australian ballot system from its true purpose, and to so deform it as to render it extremely difficult for new parties to exercise the rights of suffrage, is an outrage upon popular government. The competition of both these parties for the vote of the slums, and their assiduous courting of the liquor power and subserviency to the money power, have resulted in placing those powers in the position of practical arbiters of the destinies of the Nation. We renew our protest against these perilous tendencies, and invite all citizens to join us in the upbuilding of a party that has shown in five National campaigns that it prefers temporary defeat to an abandonment of the claims of justice, sobriety, personal rights and the protection of American homes.

PROHIBITION.—"16. Recognizing and declaring that prohibition of the liquor traffic has become the dominant issue in National politics, we invite to full party fellowship all those who on this one dominant issue are with us agreed in the full belief that this party can and will remove sectional differences, promote National unity, and insure the best welfare of our entire land."

For the third resolution a minority report favored "the issue of legal-tender Treasury notes, exchangeable in gold or silver bullion, on a plan similar to that which now floats $340,000,000 of greenbacks on $100,000,000 of gold reserve and make them more acceptable and convenient than either gold or silver coin." This was defeated on a rising vote—yeas 316, nays 337.

For the fifth resolution, the minority reported a substitute declaring that the tariff should be so levied as to furnish revenue for the needs of the Government economically administered, relieving necessities used by the mass of the people, and for the benefit of labor, protecting American productions and manufactures against the competition of foreign nations, and suggesting the appointment of a tariff commission to recommend to Congress duties to meet the wants of the Government so graduated as to protect American skill and labor against the competition of the world. This was defeated by a large vote.

The sixteenth resolution was reported by a minority of the Committee on Resolutions. After animated debate it was defeated, its friends being unable to rally the 200 votes necessary to order a vote by States. Subsequently it was taken from the table, and by a rising vote added to the platform; which, with the

fourth paragraph out, was then adopted, as reported by James Black, chairman of the committee.

During the proceedings, on motion of a delegate from Virginia, speakers were requested to refrain from unnecessary references or illustrations which "could be considered as a reflection on participants in the war of the Rebellion."

THE NOMINATIONS.

John Bidwell, of California, was nominated for President on the first ballot. He received 583 votes; Gideon T. Stewart, of Illinois, 184; W. Jennings Demorest, of New-York, 142; H. C. Bascom, 8. The Rev. Dr. J. B. Cranfell, of Texas, was nominated for Vice-President on the second ballot. At the close of the first roll call he had received 845 votes, Mr. Levering 416, W. W. Satterlee 29, T. R. Carskadon, of West Virginia, 22.

SOCIALISTIC LABOR CONVENTION.

This body met in New-York on August 28, 1892, and nominated for President Simon Wing, of Massachusetts; for Vice-President, Charles H. Matchett, of Brooklyn, N. Y.

INAUGURAL ADDRESS OF PRESIDENT CLEVELAND.

MARCH 4, 1893.

My Fellow-Citizens: In obedience to the mandate of my countrymen, I am about to dedicate myself to their service under the sanction of a solemn oath. Deeply moved by the expression of confidence and personal attachment which has called me to this service, I am sure my gratitude can make no better return than the pledge I now give before God and these witnesses of unreserved and complete devotion to the interests and welfare of those who have honored me.

I deem it fitting on this occasion, while indicating the opinions I hold concerning public questions of present importance, to also briefly refer to the existence of certain conditions and tendencies among our people which seem to menace the integrity and usefulness of their Government.

While every American citizen must contemplate with the utmost pride and enthusiasm the growth and expansion of our country, the sufficiency of our institutions to stand against the rudest shocks of violence, the wonderful thrift and enterprise of our people, and the demonstrated superiority of our free government, it behooves us to constantly watch for every symptom of insiduous infirmity that threatens our National vigor.

The strong man who, in the confidence of sturdy health, courts the sternest activities of life and rejoices in the hardihood of constant labor, may still have lurking near his vitals the unheeded disease that dooms him to sudden collapse.

It cannot be doubted that our stupendous achievements as a people, and our country's robust strength, have given rise to a heedlessness of those laws governing our National health which we can no more evade than human life can escape the laws of God and nature.

Manifestly nothing is more vital to our supremacy as a Nation and to the beneficent purposes of our Government than a sound and stable currency. Its exposure to degradation should at once arouse to activity the most enlightened statesmanship; and the danger of depreciation in the purchasing power of the wages paid to toil should furnish the strongest incentive to prompt and conservative precaution.

In dealing with our present embarrassing situation as related to this subject we will be wise if we temper our confidence and faith in our National strength and resources with the frank concession that even these will not permit us to defy with impunity the inexorable laws of finance and trade. At the same time, in our efforts to adjust differences of opinion we should be free from intolerance or passion, and our judgments should be unmoved by alluring phrases and unvexed by selfish interests.

I am confident that such an aproach to the subject will result in prudent and effective remedial legislation. In the mean time, so far as the Executive branch of the Government can intervene, none of the powers with which it is invested will be withheld when their exercise is deemed necessary to maintain our National credit or avert financial disaster.

Closely related to the exaggerated confidence in our country's greatness which tends to a disregard of the rules of national safety, another danger confronts us not less serious. I refer to the prevalence of a popular disposition to expect from the operation of the Government especial and direct individual advantages.

The verdict of our voters, which condemned the injustice of maintaining protection for protection's sake, enjoins upon the people's servants the duty of exposing and destroying the brood of kindred evils which are the unwholesome progeny of paternalism. This is the bane of republican institutions and the constant peril of our Government by the people. It degrades to the purposes of wily craft the plan of rule our fathers established and bequeathed to us as an object of our love and veneration. It perverts the patriotic sentiment of our countrymen, and tempts them to pitiful calculation of the sordid gain to be derived from their Government's maintenance. It undermines the self-reliance of our people, and substitutes in its place dependence upon governmental favoritism. It stifles the spirit of

true Americanism and stupefies every ennobling trait of American citizenship.

The lessons of paternalism ought to be unlearned and the better lesson taught that, while the people should patriotically and cheerfully support their Government, its functions do not include the support of the people.

The acceptance of this principle leads to a refusal of bounties and subsidies, which burden the labor and thrift of a portion of our citizens, to aid ill-advised or languishing enterprises in which they have no concern. It leads also to a challenge of wild and reckless pension expenditure, which overleaps the bounds of grateful recognition of patriotic service and prostitutes to vicious uses the people's prompt and generous impulse to aid those disabled in their country's defence.

Every thoughtful American must realize the importance of checking at its beginning any tendency in public or private station to regard frugality and economy as virtues which we may safely outgrow. The toleration of this idea results in the waste of the people's money by their chosen servants, and encourages prodigality and extravagance in the home life of our countrymen.

Under our scheme of government the waste of public money is a crime against the citizen; and the contempt of our people for economy and frugality in their personal affairs deplorably saps the strength and sturdiness of our National character.

It is a plain dictate of honesty and good government that public expenditures should be limited by public necessity, and that this should be measured by the rules of strict economy; and it is equally clear that frugality among the people is the best guarantee of a contented and strong support of free institutions.

One mode of the misappropriation of public funds is avoided when appointments to office, instead of being the rewards of partisan activity, are awarded to those whose efficiency promises a fair return of work for the compensation paid to them. To secure the fitness and competency of appointees to office, and to remove from political action the demoralizing madness for spoils, civil service reform has found a place in our public policy and laws. The benefits already gained through this instrumentality and the further usefulness it promises entitle it to the hearty support and encouragement of all who desire to see our public service well performed or who hope for the elevation of political sentiment and the purification of political methods.

The existence of immense aggregations of kindred enterprises and combinations of business interests, formed for the purpose of limiting production and fixing prices, is inconsistent with the fair field which ought to be open to every independent activity. Legitimate strife in business should not be superseded by an enforced concession to the demands of combinations that have the power to destroy; nor should the people to be served lose the benefit of cheapness which usually results from wholesome competition. These aggregations and combinations frequently constitute conspiracies against the interests of the people, and in all their phases they are unnatural and opposed to our American sense of fairness. To the extent that they can be reached and restrained by Federal power, the General Government should relieve our citizens from their interference and exactions.

Loyalty to the principles upon which our Government rests positively demands that the equality before the law which it guarantees to every citizen should be justly and in good faith conceded in all parts of the land. The enjoyment of this right follows the badge of citizenship wherever found, and, unimpaired by race or color, it appeals for recognition to American manliness and fairness.

Our relations with the Indians located within our borders impose upon us responsibilities we cannot escape. Humanity and consistency require us to treat them with forbearance, and in our dealings with them to honestly and considerately regard their rights and interests. Every effort should be made to lead them, through the paths of civilization and education, to self-supporting and independent citizenship. In the mean time, as the Nation's wards, they should be promptly defended against the cupidity of designing men and shielded from every influence or temptation that retards their advancement.

The people of the United States have decreed that on this day the control of their Government in its legislative and executive branches shall be given to a political party pledged in the most positive terms to the accomplishment of tariff reform. They have thus determined in favor of a more just and equitable system of Federal taxation. The agents they have chosen to carry out their purposes are bound by their promises, not less than by the command of their masters, to devote themselves unremittingly to this service.

While there should be no surrender of principle, our task must be undertaken wisely and without heedless vindictiveness. Our mission is not punishment, but the rectification of wrongs. If, in lifting burdens from the daily life of our people, we reduce inordinate and unequal advantages too long enjoyed, this is but a necessary incident of our return to right and justice. If we exact from unwilling minds acquiescence in the theory of an honest distribution of the fund of the governmental beneficence treasured up for all, we but insist upon a principle which underlies our free institutions. When we tear aside the delusions and misconceptions which have blinded our countrymen to their condition under vicious tariff laws, we but show them how far they have been led away from the paths of contentment and prosperity. When we proclaim that the necessity for revenue to support the Government furnishes the only justification for taxing the people, we announce a truth so plain that its denial would seem to indicate the extent to which judgment may be influenced by familiarity with perversions of the taxing power; and when we seek to reinstate the self-confidence and business enterprise of our citizens, by discrediting an abject dependence upon governmental favor, we strive to stimulate those elements of

American character which support the hope of American achievement.

Anxiety for the redemption of the pledges which my party has made, and solicitude for the complete justification of the trust the people have reposed in us, constrain me to remind those with whom I am to co-operate that we can succeed in doing the work which has been especially set before us only by the most sincere, harmonious and disinterested effort. Even if insuperable obstacles and opposition prevent the consummation of our task, we shall hardly be excused; and if failure can be traced to our fault or neglect, we may be sure the people will hold us to a swift and exacting accountability.

The oath I now take to preserve, protect and defend the Constitution of the United States not only impressively defines the great responsibility I assume, but suggests obedience to constitutional commands as the rule by which my official conduct must be guided. I shall to the best of my ability, and within my sphere of duty, preserve the Constitution by loyally protecting every grant of Federal power it contains, by defending all its restraints when attacked by impatience and restlessness, and by enforcing its limitations and reservations in favor of the States and the people.

Fully impressed with the gravity of the duties that confront me and mindful of my weakness, I should be appalled if it were my lot to bear unaided the responsibilities which await me. I am, however, saved from discouragement when I remember that I shall have the support and the counsel and co-operation of wise and patriotic men who will stand at my side in Cabinet places or will represent the people in their legislative halls.

I find also much comfort in remembering that my countrymen are just and generous, and in the assurance that they will not condemn those who by sincere devotion to their service deserve their forbearance and approval.

Above all, I know there is a Supreme Being who rules the affairs of men and whose goodness and mercy have always followed the American people; and I know He will not turn from us now if we humbly and reverently seek His powerful aid.

STATE PLATFORMS OF 1892 AND 1893.

ALABAMA REPUBLICAN, April 28, 1892.

Indorses Harrison Administration, favors protection, sound currency and increase of the volume of money, and a free and honest ballot; opposes trusts and State convict lease system.

ALABAMA DEMOCRATIC, June 10, 1892.

Denounces "Force bill"; favors collection of revenue for necessary expenses of government only; denounces subsidies and bounties; demands repeal of McKinley act, a sound and elastic currency and repeal of Federal taxes on State bank circulation; also that money for the payment of pensions be raised by a graduated income tax.

ALABAMA PEOPLE'S, September 16, 1892.

ELECTIONS.—Demands "a free ballot vote and a fair count."

SILVER.—Demands free and unlimited coinage of silver at earliest date possible.

CURRENCY.—Demands that amount of circulation shall be increased to not less than $50 per capita, each dollar to be the equal of every other dollar.

INCOME TAX.—Demands a graduated income tax at earliest date possible.

OWNERSHIP OF LAND.—Declares that alien ownership should be "gradually extirpated."

TARIFF.—Demands "that the tariff should be reduced to the lowest possible amount consistent with an economical administration of the government, with such incidental protection as can be accorded to our industries by a wise levy of the same."

NATIONAL BANKS.—Demands "that the charters of the National banks shall be repealed, and a means be provided by which money shall be issued direct to the people with safety in the security and full indemnity to the Government."

MISCELLANEOUS.—Demands that the rights of the citizen shall receive more consideration and be as fully protected as the rights of capital, and that transportation facilities shall be controlled in the interest of the people.

ALABAMA INDEPENDENT, June 9, 1892.

Demands more money, an income tax, that National revenues be limited to the necessary expenses of the Government, and repeal of National bank charter; arraigns State Democracy as antagonistic to people's rights, and operated in the interest of class.

ARKANSAS REPUBLICAN, April, 1892.

TARIFF AND SILVER.—Commends the existing laws on tariff and silver, enacted by Republican Congress, as wise and beneficent, and declares interference with them inexpedient.

FAIR ELECTIONS.—Calls on the National Republican Convention to pledge the party to seek the enactment of such legislation as will secure to every citizen full recognition of all civil and political rights.

STATE ISSUES.—Notes that Henry Page, Republican State Treasurer, 1868-74, was the only State Treasurer since the war and prior to the present Administration who retired from office without charge of embezzlement or suspicion of peculation.

ARKANSAS DEMOCRATIC, June 14, 1892.

Denounces Republican Administration, McKinley act, Elections bill and Sherman act; favors a safe and sufficient currency, composed of gold and silver and legal-tender paper; fair and free elections, and abolishment of convict lease system.

CALIFORNIA REPUBLICAN May 4, 1892.

SILVER.—"We believe silver, equally with gold, to be the money of the people, and in behalf of the farmers, laborers, and mechanics of the Nation, for whom the Republican party has always labored, we demand the passage of such laws as will provide for the free and unlimited coinage of the silver product of the mines of the United States as soon as the same can be done without injury to the business interests of the Nation."

MISCELLANEOUS.—Indorses the Eight-hour law, demands an amendment to the Federal Constitution providing for the election of United States Senators by direct vote, and praises Administration's foreign policy.

CALIFORNIA REPUBLICAN, June 27, 1892.

Indorses National platform and nominees of Republican Convention, approves organization of the National Republican League and Republican College Leagues, demands early completion, under Government control, of Nicaragua Canal, liberal expenditure of money for improvement of harbors and internal waterways, and invites capital to build into the State competing transcontinental lines of railway.

CALIFORNIA DEMOCRATIC, May 18, 1892.

Favored tariff reform and opposed demonetization of silver.

COLORADO REPUBLICAN, April 27, 1892.

SILVER.—"Whereas, The great crime of the demonetization of silver in 1873 was conceived in deception and born in fraud, and since that time has been nurtured by wilful and deliberate misrepresentation on the part of the combined influence of the money lenders and bondholders of this country and Europe; and

"Whereas, That crime has cheapened the products of the mine, of the farm, and the workshop, and has resulted in unequivocal injury to all the great industries of our country, and has benefited only the money kings at the expense of the people; and

"Whereas, We believe that the question of the free coinage of silver is the principal issue now before the American people, and steps should be immediately taken for its full restoration as a money metal; now, therefore,

"The Republican party of Colorado, in convention assembled, hereby demand the enactment by Congress of a law providing for the free and unlimited coinage of silver on an equal basis with gold."

MISCELLANEOUS.—Reaffirm allegiance to Republican doctrines and principles and oppose any cession of arid lands to the State or otherwise, except on terms that will fully protect the rights of home-seekers on the public domain

COLORADO REPUBLICAN, September 9, 1892.

SILVER.—"We interpret that portion of the Republican platform relative to silver coinage, where it says 'the Republican party demands the use of gold and silver as standard money, so to be determined by legislation,' to mean that such wise legislation, if passed by the legislative branches of the Government, which represents the people, would be sanctioned by the Executive. By his assertion in his letter of acceptance that he is thoroughly convinced that the free coinage of silver at such a ratio to gold will maintain their equality in commercial usage of the two coined dollars, and would conduce to the prosperity of all the great nations of the world, President Harrison has placed himself equally upon record as favorable to the white metal, and has effectually disposed of the statements upon which are based the campaign of his enemies in the State."

TARIFF.—"We condemn the action of the Democratic party in attempting to take the duties off lead ore and wool, and we denounce the action of the Democratic House of Representatives in the attempt to remove the duty on lead ores as a move that would oblige the miners of Colorado to compete direct with the felon labor of Mexico."

COLORADO DEMOCRATIC, May 25, 1892.

Denounced the policy of the Harrison Administration concerning the removal of the Ute Indians to their reservation in Utah, urged modification of the existing tariff laws, and demanded as a right the free and unlimited coinage of silver. It was resolved that the delegates to the National Convention use every endeavor to secure a free silver plank, demanding free and unlimited coinage, and it was declared as the sense of the Democrats of the State that they could have little hope of the election of the Chicago nominee unless such declaration was made.

COLORADO DEMOCRATIC, September 13, 1892.

SILVER.—"We renew our pledges of allegiance to the principles of the Democratic party, and indorse the platform of the Chicago convention with the exception of that part of it relating to silver and coinage, and in lieu thereof we declare in favor of the full remonetization of silver and that free and unlimited coinage should be restored to the ratio of 16 to 1, as it existed before the great crime of 1873, which deprived it of free coinage and its full legal-tender quality."

PINKERTONS. — Emphatically opposes employment of Pinkerton or other private armed force in Colorado.

LABOR.—Urges enactment of Eight-hour law, prohibition of employment of children under fifteen in manufactories and mines, and new mechanics' lien law.

MISCELLANEOUS.—Denounces Railroad Commission act as an utter failure; de-

mands enactment of law to prevent excessive freight and passenger charges and discriminations, and recommends legislation to prevent combinations unduly raising the price of coal or any other article of prime necessity.

COLORADO PEOPLE'S, July 28, 1892.

Realizes in Omaha platform "a declaration of war by the production classes against all forms of legislation which enable any man to exploit the labor to another."

SILVER.—"We pledge the People's party of this State to a loyal, cordial and unfaltering support of the declaration of the Omaha convention as a whole, and designate as of primary importance at this time to the people of Colorado that portion which declares for the free and unlimited coinage of silver and gold on a ratio of 16 to 1. It is the sense of this convention that our Senators and Representatives in Congress are not in accord with the best interests of Colorado and her people in advocating the election of an enemy of silver to the office of Chief Magistrate of the United States."

PINKERTONS.—Condemns attempted assassination of Mr. Frick, denounces punishment inflicted on Private Iams at Homestead, and emphatically opposes employment of "private armies" by individuals or corporations.

MISCELLANEOUS.—Declares all persons holding office of trust under Federal, State or municipal government ineligible to sit or vote in any convention of the party.

CONNECTICUT REPUBLICAN, May 4, 1892.

TARIFF.—Praises protection, which has given to the country a greater prosperity than is known to any other nation; heartily indorses the McKinley law, discerns in reciprocity an adequate opening of foreign markets to American products without in any degree infringing upon the policy of protection to American labor, and denounces proposed Democratic tariff legislation as a covert attack upon the American system.

IMMIGRATION.—Favors legislation prohibiting immigration of paupers and criminals.

CURRENCY.—"We commend the policy of the Republican party in maintaining an honest and sufficient currency and assert that to this party alone must the people look for the preservation of the good faith of the Nation in all matters of finance."

MISCELLANEOUS.—Reasserts the undying gratitude of the Republican party to American volunteers and claims for the men they freed equal rights and equal protection in those rights.

CONNECTICUT REPUBLICAN, September 7, 1892.

TARIFF.—Indorses principle of protection, asserts that State industries are not over protected, and that any material reduction in protection afforded would result disastrously to manufacturers; protests against any disturbance of the established rate to which all business relations have adjusted themselves, warns against threatened Democratic policy, which would revolutionize industrial activities, reduce wages, unsettle values, destroy credit and paralyze enterprises for years to come; hints that tobacco-growers will refuse to encourage repeal of law which has brought to their labor a measure of prosperity never before equalled, invites their earnest attention to Democratic platform which denounces that law and declares the protection enjoyed under it by the tobacco-growers to be unconstitutional and a fraud, and asserts that "the general prosperity of the whole land is essential to the prosperity of every part, and that a fatal blow struck at the tobacco, cutlery, hatmaking or any one established industry must react upon every other established industry."

IMMIGRATION.—Declares that if necessary existing immigration laws should be amended further to protect American wage-earners against degrading foreign competition.

MISCELLANEOUS.—Denounces attempt of Connecticut Democrats to secure partisan gain through disfranchisement of over 1,200 legal voters in election of 1890, and determination of Democratic Senate to block all public business, and so force compliance with its schemes; commends Republican executive officers, Senators and Representatives who resisted this revolutionary attempt, and upholds plan of town representation.

CONNECTICUT DEMOCRATIC, May 10, 1892.

TARIFF.—Declares allegiance to Democratic principles, demands a revision of tariff along the line of the Democratic Federal platform of 1888 and the State platform of 1890, especially removal of duties on raw materials, charges prevailing industrial stagnation to McKinleyism, and calls on farmers, manufacturers and workmen alike to intrust the revision of the tariff on sound principles to the Democratic party in the interest of all classes instead of the few.

CURRENCY.—"We declare for a stable currency, of gold, silver and paper, founded upon coined money of the least obtainable fluctuations in value, and we regard the unlimited coinage of silver dollars worth but 67 cents each, with the legal-tender attribute attached, as a financial heresy, certain to result in a proportionate reduction in wages, the unsettling of contracts and widespread distress. We charge the continued agitation of this question upon the last Republican Congress and the present Administration in passing the Sherman act of 1890, which involves most of the possible follies in currency legislation, and has thus far forced upon the Government the purchase of silver bullion, upon which the Treasury has already lost more than $11,000,000."

THE ADMINISTRATION. — Accuses President Harrison of bestowing Cabinet appointments on little statesmen, rewarding political work with judicial and other appointments, turning to partisan uses the Pension Bureau and the Census Bureau, sacrificing the country in the

Behring Sea dispute, throwing the influence of his Administration in favor of the iniquities of the Force bill, for approving the McKinley bill, the Silver bill, and the extravagant appropriations of the last Republican Congress and for his hasty threats toward the weak but friendly republic of Chili.

STATE ISSUES.—Demands return to the fundamental law of the early Commonwealth by which the man receiving the larger number of votes became Governor of the State. The convention condemned the public acts of Morgan G. Bulkeley since January 7, 1891, in not promptly surrendering the office of Governor of Connecticut to Luzon B. Morris as the choice of 67,658 electors of this State as against 63,975 for his chief competitor, Samuel E. Merwin, and none for himself, and condemned the Republican members of the House of Representatives for attempting to repeat in Connecticut the injustices of an electoral commission, for their delay to declare the election of officers whose election they themselves admitted, and for refusing to make the investigation of the election which they themselves held to be needful, in order that no result might be reached.

MISCELLANEOUS.—Praises Mr. Cleveland and Democratic Representatives in Congress.

CONNECTICUT DEMOCRATIC, September 13, 1892.

GOVERNMENT EXPENDITURES.—Declares that while taxes for the necessary support of the Government, State and National, should be cheerfully paid, the people have good reason for requiring the strictest economy in every department of government.

TARIFF.—Declares that custom-house duties should be the chief source of supply for Government revenues, and demands removals of all tariff taxes on the raw materials out of which manufactured goods are made.

LABOR AND CAPITAL.—Declares that in its conflicts labor, the parent of wealth, is entitled to generous consideration by impartial arbitrators, and that commercial and agricultural interests should be favorably considered when necessary legislation is adopted.

CURRENCY.—"We demand a safe currency, redeemable in gold, the standard money of the world, and protest against an issue of bank bills for circulation unless they are as safely secured as are the National bank bills."

BALLOT LAW.—Upholds secret ballot law as a protection to dependent voters, and a bar against corruption.

REPUBLICAN PARTY.—Asserts that Republican party has violated the pledge of 1884 to correct inequalities of tariff and relieve the taxpayer; has added burdens to the taxpayer and industrial interests, encouraged combinations and trusts, sent out of the country more than $100,000,000 in gold, violated the essential principle of Civil Service reform, encouraged waste in public expenditure, attempted to pass a law under which free ballots will be menaced by the bayonet, confined reciprocity to the smallest nations, and withholds it from those with whom our commerce might be greatly enlarged, and embarrasses commerce by protection.

MISCELLANEOUS.—Accuses Republican House of Representatives of violating the mandate of the Constitution to secure in office for two years their party adherents who had been overwhelmingly defeated at the polls or had not been voted for at all. Advocates election of County Commissioners by popular vote, and minority representation in each board; election of State officers by a plurality of votes, and enactment of stringent laws to protect dairy interests against impure food products.

DELAWARE REPUBLICAN, May 5, 1892.

Indorses President Harrison's Administration, Mr. Blaine's foreign policy, the McKinley bill and its results; favors free coinage only after the establishment by international agreement of the parity of gold and silver; opposes admission of foreign-built ships to American registry; favors just and liberal pension laws; opposes the Democratic administration of State affairs, and favors the calling of a convention to revise the State Constitution.

DELAWARE DEMOCRATIC, May 18, 1892.

Declares that the principles of the McKinley tariff and its customs laws are fatal to commercial welfare and freedom and the interests of labor, and praises Cleveland's Administration as a blessing to the whole country, which diffused a spirit of restored brotherhood throughout a union of coequal States, and maintained peace with honor, without large and costly outlays.

FLORIDA REPUBLICAN, April 14, 1892.

TARIFF AND ELECTIONS.—"We indorse the McKinley bill and the Reed rules, and sadly deplore the failure of the LIst Congress to enact the Lodge bill or some other equally salient election law that would secure to the people their rights under the Constitution, and maintain the integrity and dignity of the Nation."

FORCE AND FRAUD.—"We denounce the Democratic rule in Florida as dishonest and tyrannical, bred in prejudice and hatred; nurtured in cowardice and crime, it is an enormity in its construction, with unlimited power for oppression and coercion; it is weak and imbecile in its ability to protect life or punish offenders. The Florida election laws are damnable in their conception and fiendish in their operation. They are the result of a long studied plan to rob the majority of its liberties, aided and abetted by an apathy on the part of the Government to maintain the dignity of its Constitution and protect the rights of its people, and enforce the provision of its constitution which guarantees to each State a Republican form of government; and how well they serve the end for which they were designated can be best understood if we quote from the official election returns. We give below the vote of Leon,

Duval, Marion, Putnam and Escambia counties in 1884 as against the vote of the same counties in 1890:

	1884		1890	
	Dem.	Rep.	Dem.	Rep.
Leon	834	2,198	1,206	60
Duval	1,889	3,387	1,805	284
Marion	1,494	2,007	1,416	232
Putnam	1,094	1,158	1,126	265
Escambia	1,896	1,861	1,451	102

"In Orange County the Republican vote in 1888 was 1,515, and in 1890, 420. The total vote of the State in 1884 was 31,769 Dem. and 28,081 Rep.; in 1890 it was 29,176 Dem. and 4,687 Rep. What has become of the Republican vote? Robbery, murder, arson, assassination are evidences of the patriotism and of the crimes committed in the interest of Democracy. A Democrat was appointed by a Democratic Governor as clerk of the Circuit Court of Osceola County, as a reward for services tendered the Democratic party in destroying the election returns of Brevard County in 1876. Another was rewarded for services rendered in robbing 2,000 Republicans of their votes in Leon County by making him president of the Senate in 1889. Deputy U. S. Marshal Saunders went to Gadsden County in March, 1890, for the purpose of serving papers upon Democrats under indictment for election frauds, and was brutally murdered in broad daylight, while in a buggy with a prominent Democratic leader—the fatal shots being fired at such a close range that his body was badly powder burned, and no arrests were made or rewards offered. The Republican vote of Gadsden County in 1884 was 881; in the election of 1890, six months after this murder, there was not a single Republican vote cast in the county. Deputy United States Marshal L'Estrange was assassinated in Sumter County the same year, while in the discharge of his duties, and again no arrests were made nor rewards offered. The Republican vote of Sumter County in 1884 was 524; in 1890 it was 51."

STATE ELECTION LAWS.—"We denounce the Florida election laws as tyrannical in substance, and the methods and manner of carrying them into effect as infamous and equivalent to a total disfranchisement of the entire Republican party of the State, and in the interest of good government and American manhood we demand the repeal of the present election laws entirely, and that just and equal rights be secured to all political parties in all elections."

CONVICT LABOR.—"We denounce the present system of leasing the State convicts to the highest bidder, and demand that a more humane treatment be secured for them."

FLORIDA DEMOCRATIC, June 3, 1892.

Advocates liberal policy in regard to public improvements; denounces McKinley act and Elections bill; urges legislation to prevent dealing in futures, demands unlimited coinage of silver, abolition of National banks and substitution of legal-tender Treasury notes for National bank notes, and that all money issued by the Government shall be a legal tender for all debts, public and private. Demands graduated income tax, repeal of State bank tax; that the circulating medium be increased to not less than $50 per capita, and that National and State revenue shall be limited to necessary expenses of Government. Favors Government control of railroads.

GEORGIA REPUBLICAN, April 15, 1892.

CURRENCY.—"Believing gold and silver should form the basis of our circulating medium, we indorse the Sherman amended coinage act of the last Republican Congress."

CONVICT LABOR.—"Resolved, That it is the duty of the State to abolish the chain gangs as inhuman and barbarous, and as being abhorrent to enlightened civilization, the detriment of honest labor and repugnant to the principles and purposes of human punishment; that the Penal Code of this State is, in many of its provisions, merciless and cruel, and that the same should be so amended as to conform its punishment to the spirit of this enlightened age."

GEORGIA DEMOCRATIC, May 18, 1892.

SILVER AND CURRENCY.—"We demand the free and unlimited coinage of both silver and gold on a parity with each other, to the end that the money of the people shall be of such quantity and quality as was originally contemplated by the Constitution. We desire that a uniform system of banking be provided for by the legislature of Georgia, with a flexible, expansive State bank currency. We further demand that the prohibition in the National bank law against accepting real estate as security for loans shall be stricken therefrom. We demand that the amount of circulating medium be speedily increased on a sound basis sufficient to meet the needs of the country."

FUTURES.—Demands that Congress shall pass laws to prevent dealing in futures.

MISCELLANEOUS.—Demands that National legislation shall be so framed in the future as not to build up one industry at the expense of the other; denounces the present tariff, and demands a removal of the existing heavy tariff tax from the necessities of life that the poor must have; demands a just and equitable system of graduated tax on income; that the money of the country be kept as much as possible in the hands of the people, and that all State revenue be limited to the necessary expense of the Government economically and honestly administered.

Demands also retrenchment and reform in the expenditure of National revenue, "and especially a correction of the present pension system, which rests like a mammoth war tax on our section of the Union."

GEORGIA DEMOCRATIC, August 10, 1892.

Pledges anew loyalty and devotion to the time-honored principles of democracy as promulgated and practised by the fathers and sages of the party; indorses

National platform and nominees, and commends administration of Governor W. J. Northen, and the State House officers "whose most honest an economical management of the affairs of the State has conduced so largely to the progress and prosperity of the people."

IDAHO REPUBLICAN, May 6, 1892.

SILVER.—"The Republican party today is confronted with the alternative of restoring silver to free and unlimited coinage or losing the results of protection. The anti-silver policy of the Government is lowering the prices of all products and wages and they must eventually be involved in a disastrous decline, notwithstanding the protective system."

IDAHO REPUBLICAN, August, 1892.

SILVER.—Reiterates position on silver announced at Republican convention at Pocatello, and while favoring pending international conference, unalterably opposes any final settlement of the question on any other basis than that of free and unlimited coinage of silver, either upon the present or some other satisfactory ratio that will give that metal a fixed value at United States mints, and prevent its constant depreciation by the stock gamblers of Wall Street; also favors law of Congress creating a department of mines and mining, so that the leading industry in the United States may be properly represented and fostered in the councils of the Government.

FAIR ELECTIONS.—Declares that the essence of Republicanism lies in the maintenance of law and order, free and candid discussion of all public questions on their merits, and peaceful appeal to the ballot-box for the redress of grievances, and condemns all acts of lawlessness, by whomsoever committed, and pledges to every person in the State prompt and equal protection of the laws.

LABOR.—Opposes any monopoly of the right of labor, favors organized labor, but suggests that all labor organizations should be conducted in the spirit of American institutions, and administered in subordination to the laws of the land; declares that every person has the right to earn an honest living, free from interference or wrong from any person or organization whatsoever, and that such right should be amply protected by law; that all labor, whether organized or not, should be protected against the unjust exactions of capital; condemns that system which compels an employe to patronize store or other business of employer or his managing agent, and pledges the Republican party to the passage of a law establishing Boards of Arbitration.

TARIFF.—Strongly favors protection, and especially commends the plank in the National platform for establishing a certain and definite guide in tariff legislation.

WORLD'S FAIR.—Pledges support of the Republican members of the next Legislature of Idaho for a liberal appropriation toward the Idaho display at the World's Fair.

IMMIGRATION AND SUFFRAGE.—Demands the immediate amendment of immigration and naturalization laws, and the adoption of an amendment to the Federal Constitution limiting the suffrage of all elections to citizens of the United States able to read the Constitution and to write their own names.

MORMONS.—"We congratulate the Mormon Church on the recent declaration abandoning polygamy and on the divorce of Church and State in all political concerns; and accepting their declaration as sincere, we pledge the party that with the continuance of the evidence of this sincerity we will at the next session of the Legislature restore to its members the full political privileges of citizenship secured to all others."

MISCELLANEOUS.—Calls attention of National administration to unnecessary delay in allotting the lands of the Nez Perce Indian reservation; favors the immediate passage of a law by Congress by which the postoffices can be used as savings banks of deposit and exchange, and indorses timely and energetic action of Governor Willey in promptly enforcing the State laws.

IDAHO DEMOCRATIC, August 25, 1892.

Favors free and unlimited coinage of silver, and denounces the proposed international monetary conference as a scheme of the gold-bugs; also pronounces against trusts, denounces the McKinley bill; favors liberal pensions to veterans of the civil war, and a generous appropriation for the State exhibit at the World's Fair.

ILLINOIS REPUBLICAN, May 5, 1892.

Avows devotion to the principles of the Government under Republican auspices, which have achieved such signal triumphs in the public welfare; declares the unexampled prosperity of the Nation to be the most forcible demonstration of the wisdom of Protection as expressed in the McKinley law; pledges unfaltering support to reciprocity; heartily indorses the "wise, patriotic and thoroughly American Administration of President Harrison; instructs the delegation to the National Convention to support him for renomination; recognizes the prudent and brilliant conduct of the State Department by Secretary Blaine, and the vigor and wisdom which characterize the Navy and other departments of the Government; arraigns the Democratic party for treachery to the cause of honest money; indorses the Republican defence against spoliation and degradation of the National currency in the threatened free coinage of silver at a false value; favors an international conference looking to restoration of silver in the monetary system of the world; condemns the suppresion of the colored vote of the South; favors legislation, National and State, against trusts and other forms of industrial tyranny; commends the anti-trust legislation of the last Congress; favors Governmental supervision to subordinate all corporations to the public welfare, and to this end urges the proper amendment and rigorous enforcement of the Interstate Commerce act and the establishment of the Government postal telegraph and telephone systems; urges

the establishment of a department of labor for promoting the dignity and interests of the American workingmen; demands further legislation to exclude paupers, criminals and contract labor; favors further proper pension legislation; indorses the administration of Governor Fifer, and the faithful services of Senator Cullom and the Republican representatives of Illinois in Congress; and pledges the Republican party to the repeal of the present Compulsory School act, and the enactment of a new law which shall not interfere with parochial or private schools.

ILLINOIS DEMOCRATIC,
April 27, 1892.

TARIFF.—"We demand an immediate revision of the tariff, free raw material, a reduction in the duties on the necessaries of life, and such changes in the shipping and navigation law as shall restore the American merchant marine and the supremacy of the American flag upon the high seas."

MONEY.—Favors the gold and silver coinage provided by the Constitution of the United States, and a currency convertible into such coinage without loss to the holder, and recommends an invitation by our Government to the commercial powers of the world for an international conference to fix a ratio between the values of gold and silver so that parity may be maintained between the two metals and all mints thrown open to free coinage.

EDUCATION. — Denounces Republican party for enacting a law which tends to bring the cause of popular education into disrepute; demands its unconditional repeal, and pledges party candidates for the Legislature to vote and work to that end.

TRUSTS.—Denounces trusts, and demands from Legislature stringent laws to aid the judicial branch of the State in stamping out such iniquitous devices of monopolists to defraud the people.

LABOR.—Favors the prohibition of child labor, boards of arbitration to adjudicate all controversies between capital and labor; demands the protection of life and property of American citizens at home and abroad, regardless of race, color or previous condition, and favors all laws that can be enacted under the present Constitution that will prohibit the truck system, enforce weekly payment of wages in cash, fair weights and measures wherever used in fixing compensation, or an amendment to the Constitution under which laws can be enacted.

MISCELLANEOUS.—Denounces reckless extravagance of billion-dollar Congresses; insists that the autonomy of the States and the rights of local self-government and home rule should be zealously guarded; that no money should be taken from the people under any pretext for other than public purposes; that the strictest economy should be exercised in all governmental expenditures, and that the legislation should be confined to the legitimate objects of Government; and favors election of United States Senators by direct vote.

INDIANA REPUBLICAN,
March 10, 1892.

FAIR ELECTIONS.—Insists on a pure ballot and fair count.

PROTECTION AND RECIPROCITY.—Demands that manufacturing and labor interests should be protected by duties on imports, and by excluding the criminal and vicious classes of other countries, and indorses reciprocity.

MONEY.—"We are in favor of honest money—of a dollar that, whether it be of gold or silver or paper, shall be of like value in the payment of debts."

LIST CONGRESS.—"We indorse the acts of the LIst Congress, which, in the main, fixed in the laws of the land the principles advocated by the Republican party in the campaign of 1888, thus fulfilling its promises to the people."

INDIANA DEMOCRATIC,
April 20, 1892.

Declares that the powers delegated by the people should be strictly construed; that the autonomy of States and the rights of local self-government and home rule should be zealously guarded; that no money should be taken from the people under any pretext for other than public purposes; that the strictest economy should be exercised in all Government expenditures, whether local, State or National; that legislation should be confined to the legitimate objects of government; that public office is a solemn public trust. It is uncompromisingly opposed to the enlargement and concentration of Federal powers, to the usurpation by the General Government of the functions of the States, to bounties and subsidies in every form, to every species of class legislation and Government partnership with private enterprise, to the whole theory of paternalism. "We believe that in a free country the curtailment of absolute rights of the individual should only be such as is essential to the peace and good order of the community, and we regard all legislation looking to the infringement of liberty of person or conscience, not absolutely necessary to the maintenance of public order, as vicious in principle and demoralizing in practice."

THE ADMINISTRATION. — Arraigns Harrison Administration for its subserviency to the interests of the money power, and indifference to the welfare of the people; its violation of Civil Service pledges, prostitution of public patronage to partisan purposes, contemptuous repudiation of promises to veteran soldiers, its attempt to fasten on the country the un-American Force bill, and its weak and demagogical foreign policy.

TARIFF AND RECIPROCITY.—"We favor such a radical and comprehensive measure of tariff reform as shall relieve the necessities of the people and crude material of our manufactures from Federal taxation. We condemn the so-called reciprocity policy as a transparent attempt to impose upon the American people the shadow of commercial freedom for its substance, in order to perpetuate the existing system of licensed spoliation for the benefit of trusts and monopolies, which are the chief support of the Republican party."

MONEY.—"We believe that there should be kept in constant circulation a full and sufficient volume of money, consisting of gold, silver and legal-tender paper currency at par with each other."

MISCELLANEOUS.—Approves passage of school-book law; denounces the "book trust"; praises Australian ballot law; demands liberal pensions; Commissioner Raum's removal; indorses the new tax law; condemns Governor Hovey for recommending an increased tax levy; denounces the conspiracy to create prejudice against the new tax law by local increases of taxation; demands the passage of a law taxing greenbacks like other money, and interstate commerce the same as domestic commerce; approves law for paying State officials by salary instead of fees; eulogizes the public school system, and favors election of United States Senators by direct vote.

IOWA REPUBLICAN.

August 23, 1893.

SILVER AND CURRENCY.—Declares that "the campaign of the Democratic party in the election of 1892 has proved false and the claims made by the Republican party have proved true. Not an allegation made by the Democratic party as to the McKinley law or reciprocity, not a claim of the vaunted good results of Democratic success, has come true. When President Cleveland said in his recent message to Congress that our unfortunate financial plight, 'with the evil conditions,' he depicted as 'principally chargeable to Congressional legislation touching the purchase and coinage of silver by the general government,' he omitted the largest producing cause. This is the sinister effects of threatened Democratic attempt to overthrow protection and a protective tariff as embraced in the McKinley measure. For the relief of the people, to get stability to business and security to debtors and creditors alike, the law should provide that the payment of debt shall be the return of equivalent purchasing power, estimated by land, rent, interest and the wages of labor. We are in favor of maintaining both gold and silver money as unlimited legal-tender for the payment of debts, and in doing this Congress shall provide that every dollar, whether gold, silver or paper, shall be kept of equal value."

PENSIONS.—Declares that "the assaults made upon the system of pension by this Administration, because in a few cases pensions were alleged to be fraudulently obtained, is a pretext to attack and destroy the while system; and is a menace to the honor of our brave and deserving National defenders."

LIQUOR LAW.—Relative to the prohibition law, the platform declares it to be "as strong as any that has ever been enacted by any country. Like any other criminal statute, its retention, modification or repeal must be determined by the General Assembly, elected by and in sympathy with the people, and to them is relegated the subject to take such action as they may deem just and best in the matter, maintaining the present law in those portions of the State where it is now or can be made efficient and give to other localities such methods of controlling and regulating the liquor traffic as will best serve the cause of temperance and morality."

IOWA DEMOCRATIC.

August 23, 1893.

SILVER.—Reaffirms this plank of 1892: "The Democratic party, recognizing the Nation's obligation to maintain a sound and honest currency of equal value in all its forms, and of sufficient volume to preserve a just proportion between its purchasing power and the cost of the products of labor at liberal wages, reaffirms its adherence to the financial system of the fathers of the Republic based on equally free bimetallic coinage, and hereby declares its unqualified opposition to all legislation calculated to reduce either of the precious metals to the position of a commodity alone by establishing the other as a single standard for the measurement of values."

TARIFF.—"Taxation of the whole people for the benefit of the few is wrong in principle and dishonest in application. We denounce this policy and reiterate our devotion to the cause of tariff reform set forth in the platform adopted by the Democratic National Convention at Chicago in 1892. And we urge Congress to give the country early relief, having in view a permanent, stable, honest and equitable revenue system."

TRUSTS AND LABOR.—"We reiterate our unflinching opposition to monopolies and trusts, and call for enactments which will abolish combines by which excessive telephone, telegraph and insurance charges and other like extortions are maintained.

"We favor such legislation as will secure to the coal miners of this State full compensation for their labor and bi-weekly payment of their earnings.

"We favor the establishment, by law, of a free public employment office in connection with the bureau of labor statistics."

LIQUOR TRAFFIC.—Reiterates principles enunciated in the platforms of the Iowa Democracy since 1889 touching regulation of liquor traffic; and promises the enactment of laws which shall give the people in their respective localities management and control of the liquor traffic. The platform also condemns the protective tariff law, and raises several new State issues, such as non-partisan control of State institutions.

IOWA POPULIST.

September 5, 1893.

THE SILVER QUESTION.—"For twenty years the people of the United States have demanded in thousands of conventions and in all political platforms the repeal of the law of 18/3 demonetizing silver, which law was surreptitiously stolen upon our statute books by political sneak thieves. Both old parties have pledged themselves to do this time without number, only to betray that pledge, until now the wreckers of Lombard and Wall streets, having secured the election of their agents, through false issues, have filled the land with panic-wrecked industries, demoralization, tramps and starvation, for the purpose of striking down silver and doubling every debt. The President, instead of standing with us, uses public offices to bribe Congressmen

to betray their constituents. The leaders of both old parties are hand in glove in this capitalistic conspiracy to steal the mortgaged farms, railroads and other property and bankrupt the Nation. . . . We call upon the voters of Iowa to repudiate all party connection with the gold men, to draw the line before they are forced to revolution to protect their children from tenant slavery."

TRUSTS.—"We demand that all trusts and all unlawful combinations in trade be abolished."

PENSIONS.—"The one hundred and sixty million dollars paid as pension money to the defenders of our flag in the wars for the preservation of our government is an honest remuneration for honorable service and a great benefit to the entire people, and we denounce the unscrupulous attacks made upon the crippled patriots as a part and parcel of the moneyed conspiracy wnich demands that no money shall pass from the Government to the people without first passing through the tollgates of the banks."

THE LIQUOR QUESTION.—"We demand that the present law shall remain until such time as it can be replaced by what is known as State and National control with all profits eliminated—which we believe to be the true method of dealing with the question."

WOMAN SUFFRAGE AND ELECTION OF PRESIDENT.—"We demand equal political rights for all adult citizens without regard to sex. Resolved, That we favor the election of President, Vice-President and United States Senators by a direct vote of the people."

STATE TAXATION.—"We denounce the present method of assessment whereby the debtor is made to pay the full tax on mortgaged property as an unjust discrimination against the debtor class; and we demand a revision of the tax laws whereby the mortgagee shall bear his equitable amount of taxation of mortgaged property."

IOWA PROHIBITION, September 5, 1893.

THE LIQUOR QUESTION.—"That it is not the design or purpose of this convention to organize a new political party or to abandon any political views or sentiments we have heretofore individually maintained, but it is our purpose to repudiate in the most emphatic manner the doctrine of local option or license or any other device by which the saloon may gain a legalized existence in Iowa. That the question of maintaining and enforcing the prohibitory law of the State we regard as the paramount and practical issue involved in the approaching November election, and that we will not be deceived or misled by those who shall attempt to divert the attention of the people from this question by the discussion of those questions over which the Governor and members of the General Assembly to be elected can exercise no direct control. That the establishment of places of resort for the sale of intoxicating liquors as beverages is a crime, and as such should be prohibited and punished; that we will favor no compromise with the crime, and repudiate the idea that the people of Iowa will accept of any share in the profits of such a business as a compensation for the wrong and ruin it will bring to their families and their homes. That we recommend to the Prohibitionists of all parties in every county in the State that they secure by every proper means the election to the next General Assembly of such candidates as may without question be relied upon to maintain and enforce the present prohibitory law, or who will favor such legislation as will make prohibition more effective. That whilst we recognize with regret that the enemies of prohibition in Iowa have by questionable means and methods nominally captured the party organization in which many of us have heretofore placed our confidence and trust, yet we have faith to believe that the manhood and conscience of the individual Iowa elector cannot be intimidated or debauched, and we appeal with confidence to them that in the coming election the verdict at the ballot box may not be construed as an abandonment of their heretofore cherished principles, and the cause of the home and the best interests of humanity shall triumph still throughout this, our beloved Iowa. That the people of Iowa have heretofore led in the advance column of those who have endeavored to promote the highest and best interests of humanity, and that any 'backward step' on the part of the people of the State on the question of prohibition at this time would be hailed with delight throughout the State by the enemies of law and order and would be a most humiliating and discouraging retrogression, to be deplored by all men who believe in the final triumph of the right."

KANSAS REPUBLICAN, May 5, 1892.

Demands an amendment to Interstate Commerce law to prohibit discrimination in freight rates; urges more stringent legislation against immigration of pauper foreigners, and reaffirms adherence to the platform of 1888 in favor of Protection.

SILVER.—"We urge the passage of such laws as will increase the coinage of silver, looking to the coinage of the production of our own mines as soon as it can be done without injury to the business interests of the country, and we approve the efforts of the present Administration in seeking the co-operation of the principal commercial nations of the world in bringing silver to parity with gold as the currency of the world."

KANSAS REPUBLICAN, June 30, 1892.

Opposes gambling in futures, favors free delivery of mail in country districts; demands preservation of purity of ballot, and favors woman suffrage.

KANSAS DEMOCRATIC, April 20, 1892.

TARIFF.—Favors tariff reform, and declares for a tariff for revenue only, raw materials to be admitted free of duty.

SILVER.—"We believe the gold basis of currency insufficient, and that free and

unlimited interchange of gold and silver is demanded by the necessities of the people as money, and not as articles of commerce, and we invite all nations to unite in securing this end."

MISCELLANEOUS.—Urges election of United States Senators by popular vote, favors liberal pensions and denounces present administration of the Pension Bureau.

KENTUCKY DEMOCRATIC, May 25, 1892.

Condemns Republican party for McKinley act, Elections bill, extravagant pension laws, and waste of public funds; demands sound and stable currency composed of or redeemable in gold and silver coin, and free coinage of silver without detriment to any business interest. Declares that intelligent and patriotic legislation upon this subject can be expected only from the Democratic party.

LOUISIANA REPUBLICAN, January 19, 1892.

Pledges unswerving devotion to Republican principles; favors an honest ballot and a fair count; declares it essential to the continuance of the Government that the XVth Amendment should be enforced; denounces the Democratic party, which has maintained itself by violence and fraud; protests against political intimidation and the murders which have so long disgraced the State; favors liberal appropriations for free public schools; indorses the present levee system and the sugar bounty; commends the wise and statesmanlike Administration of Benjamin Harrison; recommends the delegates from this State to support the renomination of Harrison; denounces trusts and monopolies and opposes the Louisiana Lottery and the revenue amendment, and any scheme that proposes to legalize gambling.

MAINE REPUBLICAN, April 27, 1892.

"The Republicans of Maine, assembled in State Convention, look with gratification upon the many evidences seen in all parts of the country of the popular strength of the party, and aproach the impending campaign with hope and confidence. They pledge anew their faith in the great principle to which the party is committed—the protection of American labor, joined with its ally and handmaiden, reciprocity, and a sound currency for the people; the political rights of all citizens; the purity of the ballot, and a wise and prudent administration of the General Government."

MAINE REPUBLICAN, June 21, 1892.

Approves the unexampled growth and prosperity of the country under Republican auspices; favors protection to American labor and reciprocity; a sound currency in which the aim shall be to keep gold and silver at a parity; advocates immigration restriction, to exclude convict and pauper labor and criminal classes; anticipates the return of the Republican party to power in the National House of Representatives and the rescue of that branch of the Government from the control of the Democratic party; and recognizes "the remarkable success of President Harrison's Administration, which, in every department, has been conducted with wisdom and prudence, and which has been characterized by a series of triumphs in all its policies, both at home and abroad."

MAINE DEMOCRATIC, June 8, 1892.

Favors the making of election days, both State and National, legal holidays; the repeal of such portion of the prohibitory law as provides for the appointment of State constables in each county, deeming them useless and expensive, and that portion of the law which places hotels and drug stores where liquors are sold in the same category as common nuisances, with houses of ill-fame; opposes the McKinley Tariff law; declares for free raw material; opposes the adoption of the proposed Constitutional Amendment regarding the qualification of electors, and calls for the resubmission to the people of the Constitutional Prohibitory Amendment.

MARYLAND REPUBLICAN, September 6, 1892.

NATIONAL PLATFORM AND HARRISON ADMINISTRATION. — "We unwaveringly reaffirm our adhesion to the platform of principles adopted by the National Republican Convention of 1892, and solemnly pledge our support to these principles. We commend the Administration of Benjamin Harrison while President of the United States as pre-eminently patriotic, pure, wise and just, and worthy of imitation, and we indorse his Administration, and assure him of our esteem and confidence."

PROTECTION.—"We favor the full and adequate policy of protection to American labor and the great industries of the country, and we aver that the best exemplification of the principles of protection and reciprocity that has anywhere found expression in the statutes is embodied in the McKinley Tariff law of 1890."

PENSIONS.—"That the attitude of the present Democratic Administration toward the soldiers of the Union meets our disapproval, and should be condemned by every patriotic citizen."

MISCELLANEOUS.—"That we denounce the action of the Democratic Legislature of Maryland in extending the terms of office of County Commissioners beyond the period for which they had been elected by the people as unrepublican and in violation of the Constitution of our State."

MARYLAND DEMOCRATIC, September 27, 1893.

THE NATIONAL PLATFORM.—Declares adherence to the principles set forth by the National Convention of the Democratic party in June, 1892.

THE CLEVELAND ADMINISTRATION.—Commends the Administration of President Cleveland, and confidently believes that his Administration, acting upon the principles which have controlled the policy of the National Democratic party

since its origin, will greatly increase the prosperity of the whole people.

THE "SHERMAN BILL."—Sustains the President in his determination to secure the repeal of the Silver Purchase act of 1890, and declares "it was at best a temporary expedient. It has signally failed to accomplish any good purpose. It deranges our National finances. It compels the Government to purchase bullion which it cannot use. It lowers the value of silver coin in the hands of all who hold it. It forces all wage-earners to accept payment for work done in a depreciated and depreciating money."

FEDERAL ELECTION LAWS. — Advises the "repeal of all Federal Election laws which vest in judges of the circuit courts of the United States the power to appoint supervisors of elections, and which vest in the marshals for the respective districts of the United States the power to appoint special deputy marshals to assist such supervisors and to attend upon the registration of voters, and upon days of election for representatives in Congress. Although the intolerable abuses practised by the Republican party under color of such appointments will not occur and would not be tolerated under a Democratic Administration, the laws which made such abuses possible ought to be repealed."

THE TARIFF.—"The existing tariff ought to be thoroughly revised. It hinders the development of agriculture, because it so limits the interchange of our products with foreign countries as to prevent our farmers from marketing their surplus abroad. It obstructs the enterprise of our merchants by hampering their intercourse with foreign ports. By its excessive imposition of duties upon materials, it prevents the profitable building of American ships, and compels American products to be exported in foreign vessels. By its excessive tax on raw materials it impedes progress in all mechanical employments."

MISCELLANEOUS. — "We recommend that provision shall be made at the next session of our General Assembly for a new valuation and assessment of property in such manner that every person in this State, or person holding property therein, shall contribute his proportion of public taxes for the support of the Government, according to his actual worth in real or personal property; but that no person or interest shall be unduly burdened by the weight of taxation."

MASSACHUSETTS REPUBLICAN,

October 7, 1893.

"It needs no declaration or boast from our partisan opponents to spread abroad the information that they are again in control of the National Government. The change has, indeed, come—'We are confronted with a condition, not a theory.' Unemployed labor, closed mills, suspended banks, countless failures, and the utter prostration of business are the melancholy monuments which mark the destruction wrought in the few brief months since they regained control. In convention assembled, we appeal to the intelligent, thinking people of the Commonwealth, of each and every condition and occupation in life, to condemn in no uncertain terms the acts, the policy, the threats of the party in power that so surely bring general distrust and want."

SILVER.—"We favor the unconditional repeal of the purchasing clauses of the Silver act. We believe that experience has shown that the United States cannot alone support silver without danger of coming to a single silver standard; that the proper use of silver may be secured only by international agreement, and that by such agreement it must be obtained if the business of the world is to have any lasting stability and security. At the same time we earnestly recommend that the gold reserves be strengthened, so that the parity of every dollar in our currency shall be surely maintained. We heartily commend the patriotic course taken by the Republicans in both branches of Congress who have laid aside party feeling, have done all in their power to hasten action, and, in strict consistency with the history and work of the party to which they belong, have been the unflinching defenders of sound finance and honest money."

TARIFF.—"While we realize the evils of the Silver act of 1890, and recognize the advantage to come to business interests upon its repeal, we do not for one moment admit that it is the only, or even the principal, cause of the present distressed condition of the country. Democratic leaders and the Democratic press have persistently misstated the facts and the cause, but the truth is, the boasted victory of last November created widespread alarm and paralyzed the great functions and powers that had so blessed the people in prosperity. It sufficed to close factories, to diminish employment and to lower wages. We stand out squarely, without prevarication or subterfuge, for the beneficent principle of protection to the labor and industries of our country; and we count the man or the party hostile to the general welfare that espouses free trade in the United States, under whatever guise or name, whether secretly or openly. We do not advocate protection without revenue, nor do we regard any given set of rates or schedules beyond criticism or amendment, but we do say that true patriotism demands the application of the protective principle to the methods for levying customs duties, to the end that American industries be encouraged and American labor have better wages. We do not forget the latest declaration of the National Democratic party that protection is a fraud and a robbery, and we appreciate the fidelity of the members of that party in this Commonwealth in that they have nominated an active and outspoken supporter of that heresy for the highest executive office in Massachusetts."

HONEST ELECTIONS.—"We will never abandon the support of National protection to National elections, not merely in the South, but in the great cities of the North, and in every place where an American citizen seeks to cast his lawful ballot and to have all rightful ballots honestly counted. We condemn murderous acts of violence committed in any part of our country upon men and women who are denied the right of an orderly trial in a court of justice and are put to death under the rule of the mob. We depre-

te the wanton partisanship of the domi-
nt party in Congress. Hopes of cur-
ncy legislation for the relief of the
untry are imperilled, if not destroyed.
aws in the interest of honest elections
e clamorously marked for destruction.
ie great industrial interests of the coun-
y are put in jeopardy, and the laborer
es a great party ruthlessly bent on re-
icing his wages to the degrading scale
the labor of Europe and of the Ori-
tal nations."

CURRENCY.—"We believe in the Na-
onal bank system, one of the great re-
lts of the war, and in its extension and
nendment. We are utterly opposed to
e restoration of the State bank currency
manded by the Democratic party."

PENSIONS.—"We have been assailed in
e past by our party opponents on the
ound that we were too liberal to the
ldiers of the Union. We count such a
arge from that source an unexampled
nor. Surely, no such accusation will
er be made against them. Too cowardly
attempt the repeal of the pension laws,
hich they have denounced, they seek to
complish by administration what they
re not do by legislation. They are strik-
g hundreds of individual cases from the
lls. They take away the pensions of
idows under the pretence that they will
ok into them afterward to see if they
ere honestly granted. They execute the
nsioner first and try him afterward."

STATE MATTERS.—"The free school is
e great bulwark of freedom. We will
and by it, no matter who shall assail it.
ree public libraries, relief to the honest
or, succor to the unfortunate and helpless, the rescue of the wayward, the
melioration of the conditions of living
nong the toiling masses, all these shall
ive our constant support. We favor
ery practical measure that shall dimin-
h intemperance, disorder and crime. The
epublican party will have no common
terest with the saloon or the groggery.
will not recognize their right to dictate
minations or policies. We call for
gorous laws that shall bring severe
nalties upon every offender against pur-
and honesty in elections."

ASSACHUSETTS DEMOCRATIC, 1893.

THE NATIONAL PLATFORM AND
LEVELAND ADMINISTRATION.—
The Democratic party of Massachusetts,
convention assembled, reaffirms its
pport of the National Democratic plat-
m of 1892, and congratulates the coun-
upon the restoration of the National
vernment in all its branches to Demo-
atic control. The people have full con-
ence in President Cleveland and his
iministration. Republican control of
e Government has left behind it vicious
ws and practices which the Democratic
rty has already attacked and is pledged
remedy."

THE "SHERMAN BILL."—"We heart-
support President Cleveland and Sec-
ary Carlisle in their firm attitude in
vor of the immediate and unconditional
peal of the purchase clause of the Sher-
n law, which was essentially a pro-
tion measure, which has brought finan-
l and industrial disaster upon the coun-
. We congratulate the House of Rep-
resentatives upon its speedy and emphatic action in response to the President's message, and we call upon the Senate to follow the action of the House without undue delay or obstruction of the popular will."

A NEW BANKING SYSTEM.—"The experience of the last few months has demonstrated with great force the lack of elasticity in our present banking system and its incapacity under existing laws to adjust itself to the demands of trade. We demand, as the surest protection against the issue of fiat money by the Government, that either through the reorganization of the National bank system or the re-establishment of State banks of issue, under such Federal restrictions as will make their notes as good as those of the National banks, the people of all sections of the country be enabled to supply themselves with the banking facilities enjoyed by other civilized nations."

THE TARIFF.—"We congratulate the people upon the complete overthrow of the doctrine of McKinleyism and the election of a government pledged in all its branches to inaugurate a genuine reform of the tariff for the benefit of all classes of American citizens, and we look forward with confidence to the early passage of a well-considered bill in which we shall reduce the tariff to a revenue basis."

PENSIONS.—"We renew the declarations of former platforms in favor of a just and liberal pension system, including within its scope all needy and deserving veterans, but we recognize that Congress, and not the Pension Bureau, must define the conditions under which pensions are to be granted, and we commend the efforts of the present Administration to make the operation of the pension system conform to the plain terms of Congressional enactments and to purge the pension roll of fraud."

ELECTION OF UNITED STATES SENATORS AND CIVIL SERVICE.—"We demand the election of United States Senators by direct popular vote. We favor the strict enforcement of the National Civil Service law and its further application to the public service."

MICHIGAN REPUBLICAN, April 14, 1892.

Indorses Republican principles and achievements, and continues: "We most heartily indorse the glorious work of the Republican majority in the LIst Congress of the United States, and will do all in our power to upbuild and sustain the victories already won for the grand triple policy of protection, reciprocity and honest money. In the language of the Republican National platform of 1888, we demand effective legislation by Congress to secure the integrity and purity of National elections, and that our Representatives in the United States Congress do all in their power to secure a law which will give to every elector a free ballot and to every voter a fair count."

MICHIGAN REPUBLICAN, July 21, 1892.

Indorses Minneapolis platform and nominees; condemns the present State Democratic Administration for its subserviency

to the exactions of political demagogues who have forced upon Michigan the nefarious Miner law, a measure which every fair-minded citizen condemns, and which Democratic leaders favor only in a State where there is a Republican majority; calls attention to Democratic theft of the Senate during its last session by unlawfully and corruptly seating two usurpers in that body by the action of less than a constitutional quorum, thus making it possible to enact the Miner law; to the unscrupulous gerrymander of Congressional, Senatorial and Representative districts, and much other legislation which is a disgrace to any civilized people.

MICHIGAN DEMOCRATIC, May 4, 1892.

TARIFF.—"We call upon all friends of good government to unite in a National campaign upon the supreme and overshadowing issue of tariff reform. We believe that the siege begun four years ago must be continued on the same stronghold of the enemy, fortified by the spoils of an oppressive tariff, and upon the same lines of battle until victory shall crown our assaults. We think it not wise or safe to change materially the plan under which that campaign was fought. We are confident we were right then, and the right is always the same. We have full faith in the mind that conceived and the hands that executed the details of that contest. We believe most implicitly in the wisdom, the honesty and the heroic courage of him who led us in that assault; and now refreshed, revived, united and fearless in our faith, we demand to be led against the enemy again under the leadership of the same great captain. We therefore instruct our delegates to the National Convention, this date chosen, to vote in that convention as one man for the nomination of Grover Cleveland to the Presidency of the United States."

FREE WATERWAYS.—"The commerce of the great lakes for the season of navigation of but 225 days exceeds that entering and leaving the ports of London and Liverpool combined for the entire year, and the saving by our lake navigation to consumers and producers in terminal charges and overrates by railroad transportation is over $180,000,000 per annum. Terminal charges and the cost of changing bulk in the carrying of products of our farms and manufactures to the markets are a tax upon production. The cost of a ship canal from the lakes to the tidewater can be saved to the Northwest in less than two seasons of navigation, and we therefore demand in behalf of our people at the hands of the National Government a free waterway to the ocean."

MICHIGAN DEMOCRATIC, August 17, 1892.

Declares that the civil authorities of the State are the constitutional conservators of the peace, and that the military should only be called into requisition in cases of great emergency, and then only as aids and subordinates of the civil authorities; denounces Pinkertonism and demands laws for its suppression; denounces the McKinley tariff as the culminating atrocity of class legislation; condemns the Republican party for demonetizing silver; commends to Congress the fact that a large majority of the people of the State are in favor of restoring silver to its rightful place as the coin of the Nation, equal with gold; declares that it is the duty of the State Legislature to establish a proper tribunal with power to summon defendants before it, adjust all disputes and enforce its judgments by proper process; pledges the Michigan Democracy to the establishment of a labor tribunal; favors election of mine inspectors by direct vote of the people; recommends a commission to devise means for the improvement of country roads; denounces convict labor, and recommends laws to change the present system under which prisoners are employed in constructing the State highways.

MICHIGAN PROHIBITION, March 18, 1892.

Asks that the sale and manufacture of liquor be made a public crime; demands equal suffrage regardless of sex; that gold, silver and paper all be made full legal tender, and that none but the Government issue money; that trusts and combinations be prohibited by law; that farmers and industrial parties be invited to co-operate for the overthrow of class legislation; that the tariff be revised on business principles by experts, on a revenue basis only; that railroads, telegraph, telephone and express companies be owned by the Government; that pauper and criminal immigrants be excluded and foreigners not permitted to vote until one year after taking out papers; avers that Prohibition party cannot entertain any proposition to co-operate with a reform party which does not antagonize the liquor traffic as earnestly as it does any other monopoly and vicious legislation; urges that individual and corporate ownership of land be limited; and favors a per diem pension law.

MINNESOTA REPUBLICAN, May 5, 1892.

Renews declaration of belief in the principles of the Republican party and heartily indorses the wise and statesmanlike Administration of Benjamin Harrison, which has courageously upheld the Nation's honor and dignity at home and abroad, and promoted peace and prosperity in every section of the Union, maintained our credit, and widened the influence of our ideas and institutions.

MINNESOTA REPUBLICAN, July 28, 1892.

TRUSTS.—Opposes trusts, favors legislation to eradicate and repress the evil, and refers with pride to the establishment at the State Prison at Stillwater of the manufacture of binding twine, thus protecting and defending farmers against one of the great monopolies.

LABOR.—Favors suitable laws to protect the health, life and limb of all employes of transportation, mining and manufacturing companies while engaged in the service of such companies; boards or tribunals of conciliation and arbitration for the peaceful settlement of all disputes between capital and labor touching wages, hours of labor and questions pertaining to the safety and physical and

ral well-being of the laborer; the ex-sion of all foreign paupers, criminals, ntract labor and other dangerous classes; d the preservation of the public do-ain for actual and bona fide settlers der the Homestead law.

OPEN MARKETS.—Favors such laws will give farmers cheap, safe and sily obtainable elevator and warehouse ilities, and furnish them promptly and hout discrimination, at fair and reason-le rates, proper transportation facilities all accessible markets.

CORPORATIONS. — Favors laws com-lling railroad, telegraph and telephone mpanies and all corporations or indi-uals charged with and performing any blic service or employment to render best and most approved service at a r and reasonable rate without discrimi-tion.

MISCELLANEOUS. — Recommends the rk and the object of the State League Republican Clubs and advises a con-uance of the same, favors systematic provement and maintenance of public ghways, praises administration of Gov-ior William R. Merriam, insists on free lot and fair count, presents to Legis-ure of 1893 name of Cushman K. Davis United States Senator, urges passage Washburn-Hatch anti-option bill, and ors liberal pension policy.

MINNESOTA DEMOCRATIC, March 31, 1892.

SILVER.—"We hold, in acordance with traditional policy of our party, to the of both gold and silver, and that the e coinage function of the Government is examine the relative values of the tals of coinage as established by the nmercial world, and if there has been sufficient fluctuation in the value of ier to make the existing ratios unequal, n to readjust the ratios so that the mber of grains of either metal in the it of coinage, the dollar, shall be uivalent in value, and then to permit free, unrestricted coinage of both tals. We join the Democracy of New-rk in demanding the repeal of the erman silver coinage act. We condemn it act as an attempt to distract the ends of honest bimetallism and de-ince it as calculated to debase our cur-cy, contract the circulating medium, d wreck the confidence and safety of business world."

MISSISSIPPI DEMOCRATIC, June 8, 1892.

Condemns the McKinley bill and the utrageous Force bill," indorses the Ad-inistration of Grover Cleveland, and ls on all good men, irrespective of past ferences, to remember the records of Republican party in its control of South, asserting that its dominance is perpetual menace to domestic tran-llity.

MISSOURI REPUBLICAN, April 28, 1892.

TARIFF.—Indorses tariff legislation of it Congress and declares that the pro-tive policy of the Republican party, bodied in the McKinley bill, has, after rial of nearly two years, fully vindi-cated the wisdom and statesmanship of its framers.

CURRENCY.—"We commend the policy of the Republican party in maintaining an honest currency; we not only favor legislation that will maintain our gold, silver and paper money on a parity in value, but also favor an international monetary system as the only safe solution of the silver question."

TRUSTS.—"Monopolies and trusts, op-pressing the people or unfairly discrimi-nating against local interests, are wrong in principle, and should be prohibited by law, rigidly enforced, by the authorities of the State and Nation."

FAIR ELECTIONS.—Favors free ballot and fair count and condemns that feature of the election laws of Missouri whereby the Recorder of Voters is empowered to appoint not only the judges and clerks of election for the Democratic party, but for the Republican party also, and insists that the executive committee of each party should have the right to name for judges and clerks of election those who are known to be strictly party men, sin-cere and honest in their convictions and alone anxious for the success of their party nominees and not those of its op-ponents; demands immediate steps to purge the registration books now in use of the hundreds and thousands of names of dead men and non-resident voters that are carried thereon purposely year after year and voted under the protection of the party in power in larger cities and towns; requests the State Legislature to take necessary action and dencunces the Democratic Legislature for having so framed the Australian ballot law as prac-tically to disfranchise independent voters not identified with either the Democratic or Republican party.

MISCELLANEOUS. — Demands equal taxation, reaching corporations as well as individuals, the valuation of the prop-erty of corporations on the same ratio as the property of individuals; denounces the Democratic Legislature for its gerry-mander of the Congressional districts so as to disfranchise 236,000 Republican voters, and of the judicial circuits, there-by identifying the judiciary with party politics; favors liberal pension policy, and rigid enforcement of contract labor law.

MISSOURI DEMOCRATIC, May 11, 1892.

Denounces the McKinley bill, the "Force bill," the "Billion Congress" and arraigns Benjamin Harrison, President of the United States, as instigator and defender of all these crimes against the public welfare.

SILVER.—"We demand the repeal of the Sherman bullion-storage act, which makes of silver a commodity, and the National Treasury a partner in Wall Street speculation; that demoralizes trade, deranges values and debases the currency. We hold to the use of both gold and sil-ver as the money of the country, and maintain that the sole function of the Federal Government is to ascertain the relative value of the money metals, and, in case there has been a sufficient fluc-tuation in the relative value of the two metals to make the existing coinage ratio unequal, we hold that it is the duty

of the Government to readjust the coinage ratio and keep its mints open for the free coinage of both metals instead of discontinuing the coinage of either, to the derangement of commodity values and the contraction of the currency below the natural basis of supply."

MONTANA REPUBLICAN,

May 9, 1892.

PROTECTION AND RECIPROCITY.—Reiterates advocacy of Republican doctrine of protection, recognizes in the McKinley bill the most consistent and beneficent embodiment of that great principle that has ever graced the statute books of the United States; indorses reciprocity; denounces vicious attempts of Democrats in Congress to undermine protection by the insidious and dishonest method of attacking the system through those industries that are not numerically strong at the polls, or in Congress, and, in particular, denounces the Free Wool bill; condemns the action of Representative W. W. Dixon in voting in favor of that repeal; also denounces efforts of Democrats in Congress to admit free of duty the lead ores of Mexico, a measure that would expose the labor of Montana to competition with that of a country where wages scarcely exceed 50 cents a day, and bring ruin and disaster upon the great mining industry which is so large a factor in affording employment to workingmen, in the creation of wealth and in promoting the prosperity of the State.

CURRENCY AND SILVER.—"We view with pleasure the demand from all sections of the country and all classes of our people in behalf of the free coinage of silver in the ratio existing previous to the act of 1873, and that it be made a legal tender in all sums and for all debts, public and private, except when otherwise expressly provided; we believe it to be in an essential degree obligatory upon the Republicans of the silver producing sections of the country to raise their voice in unison with those who are moving forward in the Congress of the United States and in the conventions of the party to promote this just and most beneficent policy; and our delegates to the Republican National Convention are accordingly instructed to strive diligently to secure recognition for the cause of free and unlimited coinage in the platform and candidates of the party."

FRAUD.—"The Democratic party, by its complicity in frauds upon the ballot-box, by its continued suppression of one-half of the lawful vote in the Southern States, by its scandalous gerrymandering in the creation of Congressional districts and by the impudent felonies with which it secured a majority of the Legislature of New-York, stands arraigned before the bar of public opinion as an organized conspiracy against a fair and pure ballot and all of the vital principles of a representative form of government."

MISCELLANEOUS.—Demands vigorous measures for permanent exclusion of Chinese, favors revision of immigration and naturalization laws and liberal pensions.

NEBRASKA REPUBLICAN,

October 4, 1893.

"The representatives of the Republican party in the State of Nebraska in convention assembled hereby pledge anew our faith in and devotion to the principles of the National Republican party, which for more than a quarter of a century have achieved such signal triumph in the promotion of the public welfare and prosperity of the people. We look back with pride upon the unexampled industrial and commercial prosperity under National Republican administrations as a forcible demonstration of the wisdom and policy of our party and place it as a striking comparison to the stagnation and depression which has swept over the entire country since the election of Grover Cleveland. We look with sympathy and sorrow upon the financial distress and poverty which are resting like a dark cloud upon the industries of the people and the homes of the laborer as an argument against the fitness and ability of the Democratic party to control our public affairs. The Republican party has at all times undertaken to so legislate that the farmers of the country shall receive the highest possible prices for their products and the laboring men the highest wages for their toil; and we extend to them our heartfelt sympathy for the losses and sufferings which they are already compelled to endure under the anticipation of unwise Democratic legislation that has unsettled trade, disturbed finances and paralyzed industries."

FAIR ELECTIONS.—"We demand that every citizen of the United States, white or black, native or foreign born, shall be allowed to cast one free and unrestricted ballot in all public elections, and that such ballot shall be returned and counted as cast, and that such rights shall be protected and enforced by proper legislation as a sovereign right guaranteed under the Constitution of the United States, and that the party shall never relax its efforts in this direction until the integrity of the ballot shall be fully guaranteed and protected in every State of the Union, North or South. We denounce the Democratic majority in the Lower House of Congress in the attempt it has just begun to repeal all Federal election laws as a step in the direction of suppressing and destroying the sacred privileges of five million Republicans in the Southern States. The Republican party has always been the champion of the oppressed and recognizes the dignity of manhood irrespective of faith, color or nationality, and we denounce every attempt of the Democratic and Independent party to curtail the means of labor, the reduction of prices, the closing of manufacturing industries, and reaffirm our faith in the great principles of the Republican party for so many years advocated by such of our great leaders as Abraham Lincoln, James G. Blaine, Benjamin Harrison and William McKinley. In this severe political struggle which has agitated the whole country and is drawing the attention of all thinking men we are ready to uphold

the gallant Governor of Ohio in the battle which he is making in his own State for the principles of true Republicanism, and will be prepared to exult with him over the victory soon to be achieved."

PENSIONS.—"The Republican party will never forget the bravery displayed and hardships endured by the brave boys in blue in fighting the battles which preserved our common country, and we denounce the arbitrary and unpatriotic action of Grover Cleveland and Hoke Smith in cutting off pensions of disabled soldiers without cause and without a hearing."

THE TARIFF.—"We charge the Democratic party and Independent party as responsible for the financial depression of the country and that they mean further to destroy public confidence and to further paralyze industries by their threatened attack upon the tariff system and the revenues of the Nation, and we look upon threatened free trade legislation as little less hurtful than the fact and a challenge to the manufacturing industries to a fight of extermination; and we appeal to all fair-minded people to join with the Republican party in restoring confidence and in the protection of public revenues and the protective policy of the country which has heretofore created and maintained unexampled prosperity to the people and made the United States the greatest producing, commercial and manufacturing Nation in the world."

GOLD AND SILVER.—"The American people from tradition and interest favor bimetallism and the Republican party demand the use of both gold and silver as standard money with such restrictions and under such provisions to be determined by legislation as will secure the maintenance of the parity of values of the two metals so that the purchasing and debt-paying power of the dollar whether of silver or gold shall be at all times equal. The interests of the producers of the country, the farmers and the workingmen, demand that every dollar, paper or coin, issued by the Government shall be as good as any other."

UNIONISM AGAINST SECTIONALISM.—"We denounce the Independent party in its effort to array the West and the South against the North and the East as a sentiment of sectionalism as bad as that advocated by Vallandigham in the days of the Rebellion, as unpatriotic and dangerous to the public welfare. The Republican party is distinctively a party of safe progression and development that had its crowning victory in its brave and honorable struggle for the preservation of the whole Union against sectionalism and has always responded with patriotism and wisdom to each new condition demanding a remedy."

NEBRASKA DEMOCRATIC,

October 4, 1893,

"We, the representatives of the Democratic party in Nebraska, in State Convention assembled, send hearty greeting to our President, Grover Cleveland, and renew the expression of our confidence and pride in his patriotism, courage and wisdom."

SILVER PURCHASE ACT.—"We heartily indorse the Administration of President Cleveland. We reaffirm the truths so forcibly set forth by the President in his message to the special session of Congress. We favor his recommendation to Congress therein made for the repeal of the silver purchase clause of the Sherman act, and we call upon the United States Senators to speedily pass the pending bill for the prompt and unconditional repeal of that vicious law."

NATIONAL ISSUES.—"We declare our devotion to the fundamental principles of the Democratic party, as set forth and embodied in the platform of our party adopted by its National Convention in Chicago in 1892. We believe that as soon as the Sherman act is repealed Congress should carry out the various other pledges made in that platform; and so believing we commend the promptness with which the Democratic Congress is preparing to revise our tariff laws so that, in harmony with the doctrines of our party, they will take no more money from the people than is needed in the economical administration of our Government; and we commend the action of Congress in the endeavor to promptly repeal the Federal election laws."

ANTI-SECTIONALISM.—"We denounce the seditious and inflammatory language used by public speakers of recent days, and their efforts to stir up strife and dissension and create jealousy and distrust in the different parts of our common country as un-American and unpatriotic, and fraught with danger to our institutions. The Democracy of Nebraska declares that it recognizes in commercial and financial affairs no North, no South, no East, no West; that the inter-independence of the States as one people obtains the closest identity of interests without regard to section or locality, and that all teachings to the contrary, by whomsoever disseminated, are false and pernicious."

PENSIONS.—"While we favor liberal pensions to the deserving veterans, we also commend the worthy efforts of Commissioner Lochren in his endeavor to purge the list of those not entitled to pensions, and to make it what it should be, a roll of honor."

SCHOOL ISSUES.—"We reaffirm the time-honored doctrine of the Democratic party, enunciated in the first Democratic platform on which Thomas Jefferson was elected President, that we are opposed to the union of Church and State in any form or under any pretext whatever; that the freedom of speech and of the press and the enjoyment of religious liberty shall ever be maintained; that there shall be no religious test in office; and we declare our opposition to all secret or open political organizations in the country based on religious prejudices as contrary to the spirit and genius of our institutions, thoroughly un-American and calculated to breed discord, contention and unseemly strife in our American polity. We commend our public school system as a means of popular education, and we are opposed to any division of the public school funds

of the State for sectarian purposes; but we recognize the right of parental control and the right of conscience in the education of children as in accord with the fundamental doctrine of the Democratic party that the largest liberty consistent with the rights of others insures the best government."

REPUBLICAN CORRUPTION. — "We declare the corruption of the Republican party of this State as disclosed by recent legislative investigation and the evidence as given in the impeachment trial calls loudly for a change of party control in State affairs."

RAILROAD COMMISSIONERS. — "We favor the adoption of an amendment to our State Constitution providing for the election of three railroad commissioners by a direct vote of the people, and in the mean time we demand the strict enforcement of the late law fixing railroad transportation rates in this State."

(The above was the report of the majority of the Committee on Resolutions. The minority of the committee offered this as a substitute for the first resolution:

"We are opposed to the unconditional repeal of the Sherman law, and demand that the repealing act shall carry out the remainder of the plank in the National Democratic platform of 1892 and provide for 'the coinage of both gold and silver without discrimination against either metal or charge for mintage.' "

The minority report was rejected, 114 to 408, and the majority report was then agreed to without a division.)

NEVADA REPUBLICAN,

April 30, 1892.

Condemns the Republican party of the Eastern States and Harrison Administration in so far as they have failed to accomplish the complete remonetization of silver and to enact laws providing for the free and unrestricted coinage of that metal; declares that the restoration of silver is essential to the prosperity of the country and paramount to all other political considerations; instructs the Minneapolis delegate to contend for a plank favoring free coinage and to oppose nominations for President or Vice-President of men not pledged to it.

NEVADA REPUBLICAN,

September 1, 1892.

Indorses fully action of Harrison Administration, except as to finance; favors free coinage of gold and silver; looks with hope and encouragement to the approaching International Monetary Conference, though affirming confidence in power of American Republic to restore and maintain the parity of the two metals at the ratio of 16 to 1; advocates an increase of the currency; indorses the construction of the Nicaragua Canal; favors the amendment of immigration and naturalization laws and declares that the cause of silver can only win by calm discussion and not by association with "Free Tradeism, Greenbackism and communism."

NEVADA DEMOCRATIC, 1892.

Declares unalterable devotion to bimetallism and the free and unlimited coinage of silver. The State delegates to Chicago were instructed to vote for no man for President or Vice-President who is not in favor of the free coinage of silver. The convention declared itself absolved from all obligation to support the nominees of the National Democratic party unless they favor the free coinage of silver and stand on a free silver platform.

NEVADA SILVER CONVENTION,

September 1, 1892.

Adopts the Republican State Platform of April; favors unequivocally free coinage of silver, and declares that this question is paramount to all others.

NEW-HAMPSHIRE REPUBLICAN,

April 27, 1892.

Indorses Administration of President Harrison, approves the bold, well-directed and successful efforts of the Republican majority of the House of Representatives in the LIst Congress to redeem the pledges upon which the Presidency and control of that Congress was won in 1888; invites intelligent voters to compare the achievements of that Republican House, since justified by results and upheld by the Supreme Court, with the grotesque performances of its successor; demands nomination by the convention at Minneapolis of candidates whose character and record are such that they will be recognized without platform or pledges as representatives of the party that stands for tariff protection of home industry and enterprise upon the lines of the McKinley law, including the raising of necessary revenues by compelling foreigners to pay for the privilege of exchanging their merchandise for our money, rather than by taxing our own citizens; free trade in articles which we cannot produce and upon which the tariff is a tax, and reciprocal arrangements which will open foreign markets to our products without destroying the domestic demand. Advocates an honest currency which cannot be used to rob wageworkers, pensioners or other private or public creditors of their just dues, and which will be accepted for what it purports to be at all times and under all circumstances without compulsion; a free ballot and an honest count and the rule of the majority; the assertion of the Nation's rights and the defence of the Nation's honor in all countries and upon all seas; the completion of a powerful Navy and adequate coast and harbor defence; substantial support of the merchant marine; liberal appropriation for internal improvements; a prompt and generous settlement of the just claims of the Union veterans and a sturdy defence of all else that goes to constitute aggressive and uncompromising Republicanism.

NEW-HAMPSHIRE DEMOCRATIC

May 11, 1892.

TARIFF.—Approves of "a system of taxation so adjusted as to produce the necessary revenues for the legitimate requirements of an honest government eco-

nomically administered, with the least possible burden upon the people, and affording such incidental protection as meets every reasonable demand of American labor," and denounces the protective system embodied in the McKinley bill as "antagonistic in spirit and purpose to every principle of honest government; as strengthening monopoly rather than encouraging labor, and fostering trusts and combinations, which gather in the substance of the people and in return for the privileges pay a liberal tribute into campaign funds of the party through whose instrumentality that system has been established and maintained."

CURRENCY.—Favors a currency sufficient in volume for the proper demands of business, but presenting no device which can be manipulated to the advantage of any individual or class at the expense of any other currency whose every dollar is equal in value to every other.

NEW-HAMPSHIRE DEMOCRATIC

September 8, 1892.

TARIFF.—Reaffirms the Chicago platform and declares that the present Republican Administration came into power pledged to advance the interests of the overprotected monopolists by turning over to them the taxing powers of the Government in exchange for the corruption fund with which it purchased its elections; that the legislation it has imposed upon the country, especially the McKinley bill, has been enacted by resorting to absolutely revolutionary methods; declares that "our tariff laws should be adjusted with reference to the interests of the manufacturer and laborer, and the consumer alike," and "condemns the specious and false pretences of the Republican party that our manufacturing and industrial prosperity has been, or is, the result of tariff laws which were dictated and passed for the special purpose of building up the enormous private fortunes of the few at the expense of the toiling masses."

ELECTIONS AND CURRENCY.—Denounces the "Force" bill, LIst Congress, and the Harrison Administration, through which every insidious scheme for debasing the currency has become imminent.

MISCELLANEOUS.—"We call upon the people of this State at the coming election to aid us in righting the flagrant wrong committed at the assembling of the last Legislature, when a subservient clerk nullified the election of Representatives throughout the State, and an armed mob at the command of a revolutionary Governor filled the Capitol and insulted the people's representatives while the larceny of the State Government was accomplished." The resolutions insist that all corporations be held by law to a strict performance of their obligations to the people; assert that the rights of labor must be guarded and fostered; favor the principle of arbitration and conciliation in the settlement of disputes between labor and capital, and demand better liquor laws.

NEW-JERSEY REPUBLICAN,

April 27, 1892.

Approves McKinley bill and uncompromisingly opposes all attempts to debase the National currency, upholding President Harrison and the Republican party in firm and unyielding opposition to the free coinage of a 70-cent silver dollar, and demanding no silver dollar that is not equal here and everywhere to any other dollar.

NEW-JERSEY REPUBLICAN,

September 13, 1892.

NATIONAL PLATFORM.—"We approve and indorse the declaration of principles as set forth in the platform adopted by the Republican National Convention at Minneapolis on June 9, 1892."

TARIFF.—Reaffirms belief in protection, opposes pernicious doctrine of free trade, whether presented in its own true name or disguised as tariff reform, and repudiates Democratic doctrine as enunciated in the platform of that party that "the Federal Government has no constitutional power to impose and collect tariff duties, except for the purpose of revenue only."

TRUSTS.—"We denounce as utterly vicious, scandalous and contrary to public policy the passage by the last Democratic Legislature, under the direction of the Democratic Executive, with the co-operation of the members of the Democratic State Executive Committee, of a bill to legalize an unconstitutional and pernicious ocmbination of corporations engaged in the production and carrying of coal, as the result of which the prices of this necessary commodity have been increased and the burdens of consumers have been vastly augmented. We remind the people that this legislation affects not only men of wealth and the great industries of the State, but increases the cost of living to that more numerous class who are compelled to meet the increased burden out of the proceeds of their daily toil."

STATE DEMOCRACY. — "We arraign the Democratic party of the State for the atrocious crimes against the rights and liberties of the people. We pledge ourselves to the thorough reform of these evils, and we appeal to all patriotic voters in the State to aid us in the re-establishment of a government of which Jerseymen need not be ashamed. We are opposed to an administration of the State government for personal uses, the subserviency of the Legislature and the courts to executive dictation; to the abolition by the Legislature under executive orders of local home government; to the multiplication of public offices and the increase of salaries for the furtherance of personal and political ends; to the appointment of public officers for a stated consideration to be paid to the party campaign fund; to the pardon of convicts in the State Prison; to the unheard of extravagance of the present State administration in the expenditure of public money; to clothing the Governor with dictatorial powers by acts of a Legislature obsequiously subject to executive control; to the creation of unnecessary boards and commissions for partisan purposes, investing them with arbitrary powers, and placing them beyond the control of the people, making their terms of office subject to the will of the Government; to evasions and misconstructions of the Constitution by the chief

executive to secure political and personal support; to the countenance and support by State officials and party leaders of racetrack gambling, with all its attendant evils; to the destruction of the right of suffrage by false registry, ballot-box stuffing and fraudulent count of votes, and to the general maladministration of public affairs, which during the present current administration have brought shame and disgrace upon the State."

MISCELLANEOUS.—Indorses principles set forth in the communication from the colored voters of New-Jersey, at Trenton, on September 12, 1892; demands that Charles M. Robinson, of Camden, be added to the Republican State Committee; favors an act restoring the proceeds of a sale of riparian lands to the State School Fund; indorses Harrison Administration; favors arbitration between capital and labor, profit-sharing, reduction of hours of labor, tenement and factory inspection, and home rule, especially in New-Jersey local governments.

NEW-JERSEY DEMOCRATIC, May 25, 1892.

SILVER.—"We condemn the policy of free coinage of depreciated legal-tender silver and also further purchases of silver bullion under the Republican legislation of 1890, and we believe that the whole matter of the use of silver as a money metal should be relegated to the further concerted action of the commercial nations."

NEW-JERSEY DEMOCRATIC, September 14, 1892.

NATIONAL PLATFORM.—Indorses National platform and candidates.

FRAUDS.—"We denounce all frauds perpetrated upon the elective franchise, and we call the attention of the people to the fact that prosecution and punishment of those crimes have been the work of a Democratic court and prosecutor and Democratic jurors. We ask from fair-minded citizens a comparison of this fact with the action of a Republican Senate, which voted to seat a Senator from Hudson, a man who every one knows was not entitled to the office. The action of that Senate was protected by a constitutional privilege, but it was none the less a crime."

NEW-YORK REPUBLICAN, October 6, 1893.

"We reaffirm our devotion to the principles embodied in the Minneapolis platform; we commend Republican Senators and Representatives in Congress for their sturdy adherence to the cause of sound money, a stable currency, protection to American industries, and the welfare of the American wage-earners, a fair ballot, and the just recognition of the services of the Union veteran. We believe that the declaration made in the National platform of 1892 in favor of a protective tariff has been brought home to numerous industrial communities and myriad families of wage-workers by the present uncertainty existing in all branches of industry, and which is undoubtedly due to a large extent to the fear of an indiscriminate reduction of protective duties now in course of progress at Washington."

STATE ISSUES.—"Five men constit the Democratic machine and seek mastery of the Commonwealth. Th conspiracy took shape in the theft of t State Senate two years ago. A conspic ous part of the machinery of that the was the defiance of the mandates of t courts of this State, and the actual la ceny of public records by a tool of thi machine, subsequently rewarded with seat on the bench of the highest court this State, for which a stainless recor has hitherto been and always ought to b the most essential qualification. The peo ple owe a lasting debt of gratitude to th members of the New-York Bar Associa tion, who, regardless of party affiliations denounced Isaac H. Maynard's connectio with the conspiracy to steal the Senate which conspiracy constituted one of th 'gravest offences known to the law,' an recommended his removal by the Legis lature. This condemnation of Maynard' crime flatingly expresses the outrage sentiment of a defrauded people. We in vite careful attention to the record mad by this stolen Legislature, and of th State government which this machine has inflicted upon the people; the infamous gerrymander of the Senate and Assembly districts; the destruction of home rule in our municipalities; its profligacy and extravagance; its distribution as gratuities among its favored few of numerous valuable franchises; its secret attempts to override and set aside local license regulations, and its persistent efforts to obtain control of the police, excise and election boards in all our cities and villages, and to discriminate against the welfare of the rural counties. Declaring taxes too high, they made them 50 per cent higher; complaining that salaries were too large, they straightway increased them and increased the number of public employes; professing opposition to monopolies, they have granted valuable franchises without compensation, and while denouncing 'force bills,' they have taken from cities and villages the charters framed in accordance with the votes of their inhabitants. Taxpayers have only to look at their tax bills to find the proof of the extravagance of Democratic legislation. The Appropriation bill passed by the last Legislature was larger than that of the preceding year; the annual Supply bill last winter was about a million dollars larger than that of 1892; the tax rate, which two years ago, owing to the Republican branch of the Legislature, was 1.38 mills, has risen this year to the extraordinary figure of 2.58 mills. This increasing tax-rate is in the face of increasing income to the State through laws enacted by Republican legislators, known as the Corporation Tax law, the Vedder Inheritance Tax law and the Organization Tax law. These laws were enacted in order that the burden of the direct taxation might be lessened. With an increase to the State from these sources of only $2,250,000 in 1891, the Republican State Senate kept the tax-rate of that year at 1.38 mills, but this iniquitous machine absolutely controlling the Legislature of 1892, with $5,400,000 pouring into the State Treasury as the result of Republican legislation, has expanded the tax-rate for 1893 to 2.58 mills. The surplus of $5,000,000 in the Treasury in 1891,

ult of Republican economies and the
n by the Federal Government of
in war taxes, was hastily expended,
the Treasury brought so near to
ruptcy that the Controller was com-
l to send an appeal to the Legislature
g retrenchment. Every pledge made
ie people by the Democratic party
been broken at the hand of this ma-
. Promising ballot reform, this was
ed, and in its stead it was sought by
ulsory legislation to disfranchise the
voters. The election boards in the
of New-York were rendered wholly
san in order that the power which
d so audaciously wielded might be
d in the grasp of this machine. Pre-
ng Civil Service reform, every de-
nent of the State has been prosti-
to partisanship. The several State
rs who act as State Canvassers were
elled to become active agents in the
of the Legislature, and the heads of
several departments have bowed so
in worship of this machine, have so
letely surrendered the State govern-
to its domination, that charges have
made against the State Controller
inefficiency and neglect of duty,
ist the Canal Department for inca-
y and extravagance, against the
ing Department for gross negligence,
ist the State Treasurer for scandalous
ection with a bankrupt bank, and
ist the Secretary of State for fraudu-
y changing the census returns and
enting public inspection thereof. So
cious was this machine in its opera-
that even the Democratic news-
rs of unquestioned loyalty to that po-
l party have publicly denounced its
ations in sneaking disreputable legis-
n through the Assembly and Senate,
ampering with bills while on their
age, and with materially altering duly
led legislation while in transit to
Executive Chamber. The work of re-
so imperatively demanded must be-
with the public departments at Al-
and extend to the Legislature."

e platform pledges that a Republican
slature, if elected, will restore to
icipalities robbed of their charters the
of local self-government; pledges
trictest economy consistent with the
s of the public service, and such re-
of the tax laws as shall reduce and
equitably distribute the burdens of
tion now pressing so heavily upon
the remotest parts of the State;
ges reforms in the election laws so as

sted to it in the correction of existing
es in every department.

NSTITUTIONAL CONVENTION. — ges for the Republican members of body a sturdy advocacy of such pro- ns of the Constitution as shall es- sh home rule in every city and vil- of the State; as shall maintain the sentative integrity of the several ties of the State and the several ial districts; as shall secure in every rtionment of the State a just recog- n of the minority; the establishment of proper safeguards against extravagance and corruption in the State departments; needed reforms in the administration of justice; abolition of needless and expensive offices; proper restriction upon the granting of public franchises for private uses, and, in general, such constitutional provisions as shall pertain to the preservation of the public peace, the security of the public treasury, the dignity and prosperity of our Commonwealth.

NEW-YORK DEMOCRATIC,

October 6, 1893.

"We submit that this record of faithful discharge of official obligation and responsibility justifies a continuance of the trust reposed in the Democratic party, to the end that the public welfare may be conserved and faithful public servants may receive the due reward of merit. We pledge for the future the same conscientious regard for the interests of the people. We reaffirm the principles contained in our State platforms of 1891 and preceding years.

"New-York State Platform, 1891.—We now, as then, steadfastly adhere to the principles of a sound finance. We are against the coinage of any silver dollar which is not of the intrinsic value of every other dollar of the United States. We therefore denounce the new Sherman Silver law, under which one-tenth of our gold stock has been exported and all our silver output is dammed up at home, as a false pretence, but actual hindrance of return to free bimetallic coinage, and as tending only to produce a change from one kind of monometallism to another. We therefore unite with the friends of honest money everywhere in stigmatizing the Sherman progressive silver basis law as no solution of the gold and silver question, and as a fit appendix to the subsidy and bounty swindle, the McKinley worse than war tariff, the Blaine reciprocity humbug, the squandered surplus, the advancing deficit, the defective census and falsified representation, and the revolutionary procedures of the Billion Congress—all justly condemned by the people's great uprising last November (1890)—a verdict which, renewed next year (1892), will empower Democratic statesmen to guide the people's councils and to execute the people's will. The Democrats of New-York recall with proud memory the inflexibly sound finance of Governor Tilden, who not only administered the State Government with frugality, but who also, with unequalled ability and unflagging resolution, demanded a thorough reform of tariff taxation, and likewise, with a statesman's energy and foresight, assailed the shameless degradation of our greenback currency, and led the Democratic party in pushing on the compulsory Republican advance to a current coin redemption, if not also to that coin payment of the same, whereto, as well, 'the faith of the United States is solemnly pledged.' The Democrats of New-York refer with grateful pride to the inflexibly sound finance of Governor Hill, who by efficient economy throughout his long administrative career has accomplished the practi-

cal extinction of our State debt, has faithfully urged with a powerful and practised advocacy the Nation's release from the bondage of unequal, unnecessary and unjust taxation imposed by the tariff of 1883, and the repeal of the superadded impositions of the two McKinley laws; and likewise, with a statesman's energy and true foresight of the seventy-cent dollar, pushing for birth in the body of the Sherman Silver law, has taken up the people's cause, assailed the Republican degradation of the people's silver money, and led the advance of the Democratic party of New-York with unfaltering steps to that solid ground of high justice and equity upon which they stand to-day absolutely without discord or division, in this behalf 'demanding,' with him, 'that every dollar coined in these United States shall be the equal of every other dollar so coined, and demanding the redress of their present shameless inequality.' The Democrats of New-York, with proud hope, yet with perfect deference to their brethren of other States, and cordial estimation of their renowned leaders, as worthy standard-bearers of a people's cause, point to the nomination of David B. Hill to the office of President as a fit expression of the whole Democratic faith and tradition, and of our settled purpose to rescue this perverted Government from the clutch of autocrats and plutocrats, from spendthrift administration, odious taxes and debased money. In obedience to the mandate of the Democratic voters of New-York, the delegates selected by this convention are instructed to present to the National Democratic convention the name of David B. Hill as the candidate for President of the United States, a Democrat who has led his party from victory to victory for seven successive years, and who has never known defeat. The said delegates are further instructed to act as a unit in all matters intrusted to their charge, said action to be determined by the vote of a majority of the delegates. Resolved, That we congratulate the people of the State upon the auspicious opening of Governor Flower's Administration, and extend to him the assurance of our cordial support in his earnest effort to give the people a frugal, honest and efficient government of State affairs.

"We believe in simple, honest and frugal government, individual liberty, genuine home rule for municipalities, elevation of standards in the civil service, a revision of the tax laws, a secret ballot and a fair count, the development of agriculture, the proper fostering of labor interests, the spread of education, all necessary public improvements, the suppression of monopolies in the manufacture and sale of necessary articles of life, and the strictest accountability from every public officer. We resolutely oppose all sumptuary legislation that needlessly interferes with the personal liberty or reasonable customs of the people, all attempts to limit the free exercise and enjoyment of religion, all unnecessary or extravagant expenditures of public money. As to Federal issues and policies we reaffirm the principles of the last State and National Democratic platforms, so emphatically indorsed by the vote of the people last November."

NEW-YORK PROHIBITION.

August 29, 1893.

After quoting a decision of the United States Supreme Court which says that "no Legislature can barter away the public health or the public morals; the people themselves cannot do it, much less their servants," the platform declares that "in legalizing the traffic in intoxicating beverages the State is bargaining away the public health and the public morals and making itself a partner in the debauchery of its citizens, the devastation of their homes and the destruction of human life. The traffic in intoxicating liquor as a beverage must be entirely suppressed, and its sale for medicinal and other legitimate purposes should be regulated, as the sale of other poisons is regulated, in the interests of public welfare. The full powers of the State and Nation should, if necessary, be exerted to this end. No party that fails to recognize this as the dominant issue in American politics is worthy the support of American patriots."

MONEY.—"The issuing of a National currency belongs to the sovereign power alone, and should not be delegated to private individuals or corporations. We favor the issue of legal-tender treasury notes exchangeable in gold and silver bullion or coin, and the maintenance of a metal reserve sufficient for that purpose."

PARTY RIGHTS.—"We demand in the name of justice and equity that the election laws of this State shall be so amended that the party casting the third highest vote shall be entitled to representation on the election board of every election precinct in the State."

WOMAN SUFFRAGE.—"We favor the submission to a vote of the people of an amendment to the Constitution striking out the word 'male' in the section prescribing the qualification of voters, and we urge the Constitutional Convention which is to meet next year to provide for such an amendment, pledging ourselves to labor for its adoption when submitted.

TARIFF.—"A non-partisan commission of experts should be empowered to revise the tariff schedule in accordance with the principle of protection to American labor. To this end such protection should not exceed the ascertained difference between the scale of wages actually paid by protected American manufacturers and that paid by their foreign rivals, and it should vary as this difference may vary from year to year."

POSTAL SAVINGS BANKS.—"The Government should establish postal savings banks so that small deposits can be made without risk to depositors."

CONSTITUTIONAL CONVENTION.—"We denounce and condemn the Democratic majority of the last Legislature for passing, and Governor Flower for signing, the Constitutional Convention Act, by which all but the Democratic and Republican parties are absolutely prevented from representation in said convention; and we maintain that the members of the Prohibition party, casting nearly or quite one-thirtieth of the votes of our State and containing within its

ranks at least as large a proportion of the intelligence and wealth and character of her citizens, are, in company with other minor parties, unjustly deprived of their constitutional prerogatives."

NORTH CAROLINA REPUBLICAN, September 7, 1892.

ELECTIONS.—"We denounce the election laws now in force in North Carolina enacted to prevent fair elections, and so framed as to allow the minority to rule by fraud and trickery and oppress the people, rather than to obtain a full and free expression of the will of the voters."

LABOR.—"We denounce the Democrats for placing convict labor in competition with free labor. We favor such legislation as will remedy the evil of excessive hours of labor in our factories and workshops."

CURRENCY.—"We favor an increase of the National circulating medium in this country, and the establishment of a postal savings bank for the purpose of securing a better distribution of money."

MISCELLANEOUS. — Denounces arbitrary system of county government; favors education of the people; denounces fraudulent Democratic claim of economical administration of State finances, while increased and fictitious property valuation has nearly doubled people's burdens; denounces present method of letting out public printing; indorses Harrison Administration and Minneapolis platform and candidates, and pledges them earnest support.

NORTH CAROLINA DEMOCRATIC, May 18, 1892.

Repeats platform of 1890, with three planks from the Ocala platform, and one new plank for graduated income tax.

NORTH DAKOTA REPUBLICAN, May 4, 1892.

Indorses Harrison Administration; favors sound money, and opposes gerrymandering.

OHIO REPUBLICAN, June 8, 1893.

FEDERAL GOVERNMENT. — Indorses and reaffirms the platform of the National Republican Convention of 1892; indorses and commends the Administration of President Harrison as eminently patriotic, wise, pure and just.

STATE.—Indorses the administration of Governor McKinley, and assures him of the great esteem and confidence of the people; indorses the action of the Legislature in providing better protection to railroad employes by compelling the use of automatic couplers; for the arbitration of labor controversies and the taxation of franchises and collateral inheritances and other measures.

TARIFF.—Favors the policy of full and adequate protection to American labor and industries, as provided in the McKinley act; declares adhesion to the doctrines of that measure and favors such amendments thereto for protection as time and experience may show to be advisable; condemns the bill passed by the Democrats in the House of Representatives of the LIId Congress, and the avowed policy of the Democratic party to place wool on the free list, and insisting on such full and adequate protection for the wool industry as will enable American farmers to supply the wool required for consumption in the United States, and indorsing the policy of the National Grange, "that all tariff laws shall protect the products of the farm as well as the products of the factory."

ELECTIONS.—Demands a free ballot and a fair count, and favors such legislation as will secure these results to every voter in the United States.

MISCELLANEOUS. — Favors honest money—gold, silver and paper—maintained at equal value and under National and not State regulation; condemns the avowed purpose of the Democratic party to repeal the prohibitory 10 per cent tax on State bank issues; demands the rigid enforcement of the immigration laws, and condemns the unfriendly and unjust policy manifested against the veterans of the Civil War by the Democratic Administration.

MISCELLANEOUS. — "The people of Ohio have a just pride in the administration of the affairs of this State by Governor William McKinley, jr. He brought to the discharge of his duties as Governor ripe experience, great learning, ability, statesmanship and an honest and patriotic purpose; and he has always shown himself capable, faithful and wise. We heartily indorse his administration and assure him of our great esteem and confidence. We indorse the action of the last General Assembly in providing by law for the protection of railroad employes by compelling the use of automatic couplers, for the arbitration of labor controversies, for the taxation of franchises. We favor biennial sessions of the General Assembly in obedience to the original purpose of the present Constitution."

OHIO DEMOCRATIC, August 10, 1893.

TARIFF AND CURRENCY. — "We hereby approve the platform of the Democratic party adopted by the National Convention at Chicago, and especially those portions of it referring to the tariff and to currency legislation. We congratulate the country upon the early prospect of measures of relief, as outlined by the President's late message to Congress, and we have confidence that the Democratic Congress will devise laws to furnish such relief.

FINANCIAL SITUATION.—"The financial situation is the unfortunate legacy of Republican administration. It is the natural result of the McKinley tariff, the Sherman Silver law, extravagance of the party lately in power, and the creation and fostering of trusts and corrupt combinations by that party, all combining to shake credit, to create distrust in the money of the country and to paralyze its business."

NATIONAL BANKS.—"We recommend that National banks may be permitted to issue their currency to an amount equal to the par value of the United States bonds which they may deposit with the Treasurer of the United States, to the end that the volume of currency may be immediately increased."

PENSIONS.—Suggests "a just and liberal recognition of the claims of the veterans, and favors granting them all that patriotism could ask, all that National gratitude would demand. Fraudulent claims for partisan purposes, or department decisions in contravention of law, as practised under the last Administration, need to be investigated and corrected, so that the unselfish valor of the American soldier may remain untarnished. The Democratic party pledges itself that the rightful claim of no Union soldier to a pension shall be denied, and the allowance of any worthy pensioner shall not be disturbed."

CLEVELAND ADMINISTRATION. — "The country has abiding faith in the integrity, patriotism and exalted courage of President Cleveland. True to the people and watchful of their interests, he will enforce honest and economical methods in the conduct of public affairs and secure to every section of the country the blessing of good government."

MISCELLANEOUS.—"We condemn the unbusinesslike administration of State affairs, under Governor McKinley, deplore the official scandals and defalcations under it, and denounce the condoning official crimes which have brought humiliation upon our people. We denounce the reckless extravagance of the large majority in the Seventieth General Assembly, which appropriated for current expenses about $600,000 in excess of the current revenues, and added almost $30,000,000 to the local bonded indebtedness of the State by laws in the main unconstitutional. We demand that an end be put to such robbery of the taxpayers. The Democratic party expresses its confidence in the ability of the Hon. Calvin S. Brice, of the United States Senate, to materially assist the Democratic majority in the Congress of the United States to extricate the great commercial interests of this country from their present distressed condition."

OREGON REPUBLICAN.

April 6, 1892.

TARIFF.—Reaffirms devotion to protection, McKinley bill and reciprocity; denounces the Democratic doctrine of free trade in so-called "raw materials," coupled with a high protective tariff on goods manufactured therefrom, and demands protection for the wool industry equal to that accorded the most favored manufacturers of wool denouncing the Springer Free Wool bill as unjust and unpatriotic.

SILVER.—"We indorse the amended coinage act of the last Republican Congress by which the entire production of the silver mines of the United States is added to the currency of the people."

MISCELLANEOUS.—Demands exclusion of Chinese, favors amendment to the Constitution providing for election of United States Senators by direct vote, commends the work of the last Republican Congress and Administration of President Harrison, and favors prompt construction of ample coast defences, building of an efficient navy, and maintenance of Monroe Doctrine.

OREGON DEMOCRATIC,

April 19, 1892.

TARIFF.—"We declare our unfaltering adherence to the cause of tariff reform, holding that the policy of favoritism pursued by the Republican party in general legislation is subversive of the principles that underlie equality and true democracy, and deny the right of the Government to levy a protective tariff except as incidental to the raising of revenue to defray the expenses of the Government economically administered, or for any consideration save that of the public welfare. We demand such a revision of the tariff laws as will entirely eliminate personal, class or special interests, with a view of securing the greatest possible revenue with the least possible burden to the people."

SILVER.—"We believe in honest money, the gold or silver coinage of the Constitution, and in a currency convertible into such coinage without loss, and of sufficient volume to meet all demands of the people. We demand that all the money coined or issued by us should be of equal monetary value and of equal purchasing power for the rich and the poor, and that all paper currency issued by the Government should be redeemable in either gold or silver coin at the option of the holder, and not at the discretion of the Secretary of the Treasury."

MISCELLANEOUS.—Favors election of United States Senators by direct vote; opposes Chinese immigration; condemns McKinley bill and Republican Congress, and praises Cleveland Administration.

PENNSYLVANIA REPUBLICAN.

August 30, 1893.

SILVER.—Demands the immediate and unconditional repeal of the purchasing clause in the act of July 14, 1890. Favors the expansion of the circulating medium to a ratio of $40 per capita, and the proposition to issue to National banks notes to the par value of the bonds deposited to secure their circulation. Repeats the following declaration of the Republican National Convention: "The American people from tradition and interest favor bimetallism, and the Republican party demands the use of both gold and silver as standard money with such restrictions and under such provisions, to be determined by legislation, as will secure the maintenance of the parity of values of the two metals so that the purchasing and debt-paying power of a dollar, whether of silver, gold or paper, shall be at all times equal. The interests of the producers of the country, its farmers and its workingmen, demand that every dollar, paper or coin, issued by the Government shall be as good as any other.

"Further, we declare that the obligations of the Government should be discharged in money approved and current in all civilized nations, and to that end that a largely increased reserve of gold should be gradually accumulated and maintained."

TARIFF.—"Swiftly upon the heels of Democratic success in 1892 has followed unprecedented National distress. A ruin-

ous fall in the price of farm and other products and manufactures, the closing of workshops, factories and mills; the reduction of wages of labor, the discharge of workingmen from employment, the cessation of railroad extension and diminution in traffic, bankruptcy and the suspension of banks, are to-day the only monuments of their triumph. The present condition of the country is mainly due to the conviction that a vital attack will be made upon the American system of protection. We reiterate the belief we have often expressed that the maintenance of an adequate and stable system of protective duties is essential to the well-being of the Nation and the prosperity of labor and capital, and protest against any amendments to the McKinley bill until it shall have been fairly tested and judged by its practical operation."

PENSIONS.—"The heroic sacrifices and unfaltering patriotism of the Union soldiers and sailors of the great War of the Rebellion created a debt of gratitude that the Nation can never pay, and the Republican party, ever mindful of their loyal services and grateful for their heroism, renews its declaration of friendship for the surviving veterans and its advocacy of liberal pensions, and so far as possible will not only contribute to their comfort in their declining years, but will hold in sacred memory their priceless and distinguished services on the field of battle. The National Democratic Administration, in the appointment of officers in charge of the Interior Department at Washington who are hostile to surviving veterans, deserves the condemnation of every loyal citizen of the Nation, and the Republican party of Pennsylvania emphatically denounces the acts by which the heroes of the Republic are being arbitrarily deprived of their pensions as unworthy of the patriotic American people and as reflecting discredit upon the great Republic made perpetual by the loyal services of the Union soldiers and sailors."

IMMIGRATION.—"We demand the enactment and enforcement of immigration laws which shall effectually prohibit the importation of ignorant and undesirable immigrants. Our intelligent workingmen should not be obliged to compete with such labor."

MISCELLANEOUS. — "We recommend that the representation in the Republican National Convention for 1896 be based upon the Republican vote at the Presidential election of 1892, and that the Republican National Committee issue its call accordingly. We commend the action of the last Legislature in this State in setting apart from the revenues of the commonwealth an additional $1,000,000 to defray the cost of public schools, thus increasing the appropriation for that purpose to $5,500,000 per annum, and relieving the burden of local taxation to that extent. The act again forcibly illustrates the integrity of the Republican party in redeeming its pledges for the reduction of taxation."

PENNSYLVANIA DEMOCRATIC, September 19, 1893.

SILVER.—Favors repeal of the silver purchase clause in the act of July 14, 1890; favors "a currency of gold and silver coin, Treasury and bank notes sufficient for the business needs of the country," which currency "shall at all times be kept at a parity of value."

MISCELLANEOUS.—Indorses President Cleveland's Administration; approves the revision of the pension rolls; charges the Republican party with being solely responsible for the disturbed financial condition of the country; praises Governor Pattison's Administration, arraigns the last Republican Legislature for various acts, declares for a non-partisan judiciary, and eulogizes William F. Harrity.

PENNSYLVANIA POPULIST, June 14, 1893.

The platform reaffirms allegiance to the National organization and demands the referendum system of submitting important legislation to a vote of the people. Demands that the President, Vice-President and United States Senators shall be elected by a direct vote; favors a graduated income and inheritance tax for raising State, county and municipal revenue. Declares the State school-book law to be in the interest of a school-book syndicate and recommends that it be amended so that the State shall publish a uniform system of school-books, and publish them free. Demands the passage of an act making a mine boss a State officer, to be selected through civil service rule, the salary to be paid by a levy made on the output of the mine, and favors State ownership and operation of all mines. Demands that the actual homesteads, owned and paid for, shall be exempt from levy and sale for debt, that all property be assessed at its cash value; that service pensions be paid to all men who contributed to the restoration of the Union; demands the repeal of the conspiracy laws and the adoption of a law making it a grave offence for an employer to interfere with an employe's right to join or affiliate with any organization; the enactment of laws compelling corporations and firms to pay their employes weekly in lawful money, the abolishment of company stores, and giving mechanics and laborers a first lien upon the product of their labor. The resolutions also oppose the issue of State bonds for road purposes or any other purpose, and demand that the Baker ballot law be amended so as to permit all parties to be represented on the official ballot without reference to percentage.

PENNSYLVANIA PROHIBITION, June 7, 1893.

LIQUOR QUESTION.—"We reaffirm the principles as contained in our National and State platforms of years past, thereby declaring that the outlawing and suppression of the traffic in intoxicating liquors has become the dominant issue in National and State politics, because it is the foe to human progress and civilisa-

tion, the arch enemy of all our institutions, corrupting our whole political system, burdening the people with undue and unremunerative taxation in the support of great numbers of paupers, insane and criminals, the direct product of the legalized drink traffic, and we renew our declarations for the entire suppression of the traffic in intoxicating liquors as a beverage in any of its forms, by National and State enactments duly enforced.

"After more than a century of experimenting with all kinds of laws by whatever name called that tend to legalize, permit, tolerate or recognize the right of the traffic in intoxicating liquors as a beverage to exist have proved delusions and snares, are inconsistent with the policy of our Government by which all laws are intended for the securing of the greatest good to the greatest number, and should be repealed."

WOMAN SUFFRAGE.—No person otherwise qualified should by reason of sex be denied the right of suffrage or equal pay for equal labor.

PUBLIC SCHOOL SYSTEM.—The public school system of this commonwealth must be preserved and improved. No appropriation of public funds should be made for the support of sectarian schools.

MISCELLANEOUS.—We affirm the principles as enunciated in our National platform on the questions of money, railroads and telegraph, foreign immigration, against speculations and margins, the cornering of grain, etc., the granting of just pensions to disabled veterans, and on all other political questions that may arise the Prohibition party will always advocate that side of the same which will insure the greatest good to the greatest number.

The Sabbath must be preserved and protected as a day of rest by the due enforcement of present laws and the enactment of such other laws as may be necessary for the preservation of the same inviolate.

RHODE ISLAND REPUBLICAN, March 21, 1893.

TARIFF.—Approves the policy inaugurated by the availment of the "reciprocity section of the Tariff act of 1890, by which foreign markets for our agricultural and manufactured products have been secured without lessening the extent or impairing the value of the home market for these and other American products, and the thanks of the country are due to the President and Secretary Blaine for the successful manner in which they conducted the negotiations and secured arrangements to carry this wise legislation into effect. The maintenance of a tariff system for the protection of labor is the cardinal principle of the Republican party. The comfort and prosperity of the great mass of the people of the United States is directly dependent upon the continuance of the present high level of wages in all American industries, and the result can only be obtained by levying such protective duties upon competing articles imported from foreign countries as shall give to American workmen an equal chance to secure American markets."

FEDERAL GOVERNMENT.—Indorses the Administration of President Harrison, and arraigns the Democratic Congress for its incompetency.

MISCELLANEOUS.—Indorses the Administration of Governor Brown, and pledges support to the reform principles outlined in his annual message; favors revising the Constitution by amendments, and opposes a constitutional convention; favors a plurality system of election, free text books for the public schools, and such changes in the liquor laws as public sentiment demands; sympathizes with the effort to reduce the hours of labor, and challenges the closest scrutiny of the administration of the finance departments and institutions.

RHODE ISLAND DEMOCRATIC, March 21, 1893.

The platform was principally devoted to urging a revision of the Constitution by a constitutional convention. A nine-hour day was declared for.

SOUTH CAROLINA REPUBLICAN, April 20, 1892.

Indorses protection and reciprocity.

SOUTH CAROLINA DEMOCRATIC, May 18, 1892.

THE PRESIDENCY.—"We assert that Grover Cleveland does not represent the principles of Democracy as taught our forefathers and as we understand them. We therefore enter our solemn protest against the nomination of Grover Cleveland or any other candidate known or believed to be selected in the interest and at the dictation of Wall Street, but we demand as our standard-bearer a man for the people and with the people, and who will serve the people and not any class or faction. We shall look upon the nomination of ex-President Cleveland, if forced upon the party at the Chicago Convention, as a prostitution of the principles of Jeffersonian Democracy, as a repudiation of the demands of the Farmers' Alliance, which embody the true principles of Democracy, and a surrender of the rights of the people to the financial kings of the country."

MISCELLANEOUS. — Embodies entire Ocala Alliance platform, demanding abolition of National banks, establishment of Sub-Treasuries for lending money at 2 per cent on farm products and real estate, increase of circulating medium to not less than $50 per capita, passage by Congress of laws against dealings in futures, free and unlimited coinage of silver, laws prohibiting alien ownership of land and the reclamation by the Government of all lands now held by railroads and other corporations and in excess of such as are actually used, and removal of existing heavy tariff upon the necessaries of life.

SOUTH CAROLINA DEMOCRATIC. September 21, 1892.

Denounces as unpatriotic and infamous attempts to injure the credit and honor of the State, declares that every just obligation of the State should be promptly discharged, the receipts from phosphate

royalty alone in two months having been nearly sufficient to meet the interest on the debt and eventually to pay the debt itself, and recommends the Legislature to set apart by law any excess of phosphate royalty, after paying annual interest on the State debt, as a sinking fund, to be placed at interest and used for paying the principal.

SOUTH DAKOTA REPUBLICAN, July 22, 1892.

MONEY.—"We favor the use of both gold and silver as standard money under such legislative regulations as will secure the parity of values of the two metals, and we commend the steps already taken by our Government to secure this important object by an international monetary conference."

LABOR.—Deplores conflicts between labor and capital, denounces agitation of demagogues designed to foment and intensify these conflicts, earnestly disapproves the use of private armed forces in any attempt to settle them, and recommends their reference to legally created or amicably chosen boards of arbitration.

TARIFF.—Approves protection, denounces Omaha platform declarations as seditious and scandalous, and declares that reciprocity has already very largely augmented the exportation of manufactured wares and agricultural products.

LAND QUESTION.—Urges legislation for reclaiming arid land and Government aid for the establishment of a system of irrigation by artesian wells, and commends the present General Land Office for securing to the settlers on the public lands titles to their homes.

OPTIONS AND TRUSTS.—"We demand such legislation by our general and State Government as will prevent dealing in options of agricultural products by speculators and the forming of combinations and trusts."

BALLOT.—"As a fitting supplement to our Australian system of voting, we demand the enactment of a law requiring the registration of voters in all cities having a population of 1,000 and upward."

MISCELLANEOUS.—Indorses State government; demands revision of revenue and tax laws; invites attention to road improvement; favors postal telegraph and postal savings bank system, rural free delivery; demands laws regulating the rates charged by express companies; favors election of railroad commissioners by the people; demands that the commissioners have power to fix local passenger and freight rates; favors laws for the regulation of railroads, and indorses action of Congress as to pensions.

SOUTH DAKOTA DEMOCRATIC, September 1, 1892.

Demands resubmission of prohibition question to voters; denounces Pinkertonism; strongly indorses tariff reform, and touches on various other questions of State interest.

TENNESSEE REPUBLICAN, May 4, 1892.

CURRENCY.—"We commend the 51st Congress for increasing the currency by enacting a law authorizing the purchase of 4,500,000 ounces of silver monthly, and the issuance of an equivalent in paper currency. We believe that 'every dollar of American money should have the same intrinsic value as every other dollar,' and 'believing that the full use of silver as a coin metal upon an agreed ratio by the great commercial nations of the world would highly promote the prosperity of all their people, no favorable opportunity should be permitted to pass for the promotion of that most desirable result; or if international silver coinage is not presently attainable, then legislation should secure the largest practicable use for that metal.'"

LABOR.—"We denounce the incompetency of the Democratic State government of Tennessee, which has, by tampering with the convict lease system, disgraced the State, so that, as a culmination of the outrageous management, to-day the public work of the capital city of the State is performed by penitentiary convicts, and that convicts are now employed on the public streets of the capital city, in full view of the capitol, to the great detriment and injury of honest laborers, who, with their families, are dependent on such work, and are forced to seek employment elsewhere. And to the end that convict labor shall no longer be brought into competition with free labor anywhere in the State we demand the abolition of the convict lease system."

ELECTIONS.—"We denounce the infamous, unconstitutional and partisan legislation by which large numbers of honest voters are deprived of the right of suffrage; and we demand the repeal of the poll tax provision in the election laws and an amendment of the laws by which illiterate voters may be rendered assistance so as to enable them to cast their votes in elections, as under the Constitution of the State they are entitled to do. We are in favor of an honest ballot and a fair count, and we denounce all intimidation, schemes and fraudulent or oppressive practices by which legal voters are either prevented from voting or their votes not counted in the result. Each legal vote should be counted and none other, and every legal voter should be allowed to vote and his vote counted as cast."

TENNESSEE DEMOCRATIC, May 26, 1892.

CURRENCY.—"We favor a currency of gold, silver and of paper, convertible into coin at the option of the holder, and in such amount as will meet the business necessities of internal trade and commerce among the people; and we further favor a parity of the two metals as a commercial unit of value and as a legal-tender for the payment of all debts, public and private, as existed under the laws of the United States down to the infamous and surreptitious demonetization of silver in 1873 by the Republican party; and we further favor the continued coinage of the silver and gold bullion in such manner as that every dollar so coined shall be equal to every other dollar."

MISCELLANEOUS.—Declares the National bank system a monopoly.

TENNESSEE DEMOCRATIC, August 9, 1892.

Indorses Chicago platform and nominees; favors abolition of convict lease system; demands that taxation be reduced to meet the actual needs of the Government, and declares against the elections bill and monopoly.

TEXAS REPUBLICAN, September 14, 1892.

Favors regulation of railway corporations under such restrictions as will insure equal justice to the railways as well as people, condemns revolutionary methods and violence; legislation calculated to drive capital out of the State or turn immigration away; favors low rate of interest; demands that the Legislature shall provide for the collection from the Federal Government of the bounty on sugar produced on the State farms; demands State laws to protect the ballot of every citizen in accordance with the National Republican platform; the passage of laws to further the building and keeping in repair of a system of intercounty public roads by penitentiary convicts, thus procuring for them profitable employment without bringing them in competition with free labor; condemns the law which discriminates against colored teachers on the county school Board of Examiners; and demands that the Legislature comply with the constitutional requirements, and establish a branch for the colored youth at the State University.

TEXAS DEMOCRATIC, August 18, 1892.

TARIFF.—"We oppose all taxation and tariffs of every kind for purposes other than revenue consistent with the necessities of the Government economically administered."

SCHOOLS.—"We oppose the proposed collection and distribution by the Federal Government of money in aid of the educational system of the various States."

GOVERNMENT LOANS.—"We denounce all acts and efforts by the Federal Government whereby it in fact does or proposes to advance or lend money to any citizen, corporation or class upon any sort of security, and we oppose Governmental ownership of railroads, telephone and telegraph lines."

BOUNTIES.—"We denounce all bounties and subsidies given by the Federal Government in aid of private enterprises as class favors repugnant to the democratic people and unwarranted by a correct construction of the constitutional powers of Congress. We denounce all species of class legislation as iniquitous, unconstitutional and subversive of the aims and the ends of government."

ELECTIONS BILL.—"We cite the so-called Force bill as the extreme evidence of the enmity of the Republican party to local self-government, and denounce it as a violation of the Constitution, corrupt in conception, vicious in sentiment, criminal in detail, the only mission of which is to foment race prejudice, to produce sectional strife and ill feeling, so fatal to the tranquillity of the people of the several States."

SILVER.—"While we yield to the wisdom of a majority of the National Democracy in making the reduction of revenue taxation to the necessities of the Government economically administered, the paramount leading issues of this campaign, upon the policy that it is safest to make the struggle to secure one reform at a time, we nevertheless proclaim our adherence to the principle, justice and necessity of a free and unlimited coinage of silver at the ratio heretofore provided by law, and shall continue to contend for it. We therefore commend our Senators and Representatives for their faithful efforts to promote the success of this measure, and pledge that they shall so continue."

BANKS.—"We oppose the National banking system, we demand the repeal of the Federal tax on State banks, and favor an amendment to our State Constitution permitting the incorporation of State banks, under proper restrictions and control, for the protection of depositors and the people. We favor a graduated income tax for Federal purposes."

RAILROADS. — Indorses Texas Railroad Commission law; favors an appointive commission, unless the Constitution be so changed as to permit of the election of one of the Commissioners every two years, making their tenure of office six years, and demands a law to prevent stock watering.

LANDS.—Commends public officials seeking to recover land unlawfully obtained by railroad companies from the State for sidings and switches; promises that innocent purchasers for value and actual settlers shall have their titles validated, and demands law to define perpetuities, prohibit the further operation of land corporations in the State, and require those now in possession of lands for agricultural, horticultural, grazing and speculative purposes, excepting overflowed and irrigated lands, to dispose of these within such reasonable time as may not impair vested rights.

MISCELLANEOUS.—Denounces reports that Texas Democrats are hostile to immigration or the legitimate investment of foreign capital; favors State provision for Confederate soldiers; demands execution of public free school law and endowment of university; opposes convict lease system; promises enactment of mechanics' lien law; favors time limit for Federal officeholders and demands restriction of municipal bond issues.

VERMONT REPUBLICAN, April 13, 1892.

"The Republicans of Vermont regard protection for American industries, an honest dollar and an honest ballot the leading considerations, deserving continued and earnest National indorsement. We indorse the Administration of President Harrison as pure and progressive, and in the treatment of foreign questions broadly and courageously American."

VERMONT REPUBLICAN, June 22, 1892.

Indorses protection, demanding that tariff laws should be from time to time readjusted to secure full industrial de

velopment; approves of reciprocity; demands that American ports be closed, "not only against foreign criminals and paupers, but also, so far as can be, against those classes who, with no knowledge of our language and no respect for our institutions, seek here a temporary abode"; asserts that the confessed and continued suppression of the negro vote at the South is a menace of free institutions and a disgrace to our civilization; favors such general Federal laws as will give to every American citizen who is qualified to vote in Federal elections the right to cast that vote and have it counted; indorses Administration of President Harrison; approves Minneapolis platform and candidates; demands continuance of Prohibitory liquor law; asserts that the attitude of Republicans in the State leaves Vermont Prohibitionists without an occupation.

VERMONT DEMOCRATIC, May 5, 1892.

Expresses renewed devotion to tariff reform; insists that no more money shall be taken from the people by taxation than the necessities of the Government require; that while the Government must furnish a currency ample and sufficient for the transaction of business, nothing can justify the conversion into money of more silver than is required for circulation, as free coinage is forcing the people to buy what they do not want at a fixed price, much above its market value; that while the Government should grant liberal pensions, a more efficient management should direct the Pension Department to disallow unjust claims; that the economy of the Cleveland Administration, as compared with the Harrison Administration, should encourage all honest citizens to renewed efforts for Democratic success at the coming election.

VIRGINIA DEMOCRATIC, August 18, 1893.

CONFEDERATE PENSIONS. — "The Democratic party of Virginia, remembering the unselfish services of her patriotic defenders during the Civil War, and recognizing her sacred obligations to care for her surviving sons who were disabled during that great struggle and the widows of those who sacrificed their lives, will continue to favor such liberal appropriations within the resources of the State as will tend to the accomplishment of that end."

FEDERAL ELECTION LAWS. — Denounces the policy of Federal control of elections and demands the repeal of "all Congressional legislation that countenances interference with the freedom of elections by the appointment of Federal supervisors to revise the registration lists and scrutinize the ballots, and Federal marshals to overawe the people by their presence at the polls."

CURRENCY AND STATE BANK ISSUES. — Reiterates the principles announced in the National Convention at Chicago, and urges the speedy enactment of such laws as will "carry out the provisions of that platform and relieve the country from the disastrous financial condition to which the unwise and reckless legislation of the Republican party has brought it"; insists upon such legislation as will provide for an expansion of the currency of the country sufficient to meet the business needs of the country without delay; indorses "the principles announced by the Chicago Convention upon the subject of tariff taxation, and urges upon Congress the imperative duty of carrying into effect by appropriate legislation the declarations of that platform as soon as the more pressing needs of the currency problem have received attention"; recommends that the prohibitory 10 per cent tax on State bank issues be repealed.

MISCELLANEOUS. Indorses and pledges support to the Cleveland Administration and commends the calling of an extra session of Congress; pledges a loyal and generous support to the extension of the public school system; pledges the enactment of such legislation as will encourage desirable immigration and promote and advance the agricultural interests of the State; favors the enactment of such laws as will equalize taxation, insure rigid economy, and regulate the criminal expenses of the State; demands protection to the oyster industry and opposes the transfer or surrender of public rights to individuals or corporations; demands legislation for the development of public highways, and congratulates the people that the State debt question has been satisfactorily settled.

VIRGINIA POPULIST, August 3, 1893.

DEMOCRATIC PARTY.—"We have had promise of government economically administered until hope has given place to despair. The party now in power claim that they 'never had a chance,' while, in fact, they have many times had a large majority in the lower house of Congress and have recently proved to the country that they had 'chance' enough to increase their own salaries. They might at least have outlined a policy which would have inspired the people with confidence. . . . We cannot here enumerate in detail the long list of unfulfilled pledges made to the people by the Democratic party. . . . Have we fared any better in our State administration, which has been under exclusive Democratic control for nearly eight years?"

BALLOT LAW.—"In the mean time the despotic power given to the Democratic party under the Anderson-McCormick law has been fully developed, and under cover of that legislative abomination crimes are instigated, committed and countenanced by the party rulers that would in the ordinary transactions of life between man and man send the perpetrators and their abettors to the penitentiary to wear striped suits, with shaven heads. Under a free government a man's liberty is bound up with his ballot. The only safeguard for his freedom is his ability to cast his vote as he pleases, with the assurance that it will be honestly counted by the guardians appointed by law to protect this sacred right. Invade this right and you imperil the liberty of every citizen of the land. No nation has ever survived whose civilization tolerated and condoned perjury and fraud. What hope can there be that relief will ever be afforded by a party contaminated with

such corruption? What confidence can the people place in a party which only makes promises to break them? Will the people of Virginia forever tamely submit to have their political creed dictated by the Mugwumps of the North? In good faith the great West is holding out the right hand of fellowship to the people of the South, that united they may rebuke the canting hypocrisy and sectional greed of the money-grabbers of New-England. Let the people, then, arise in their majesty and might, and by their votes demand 'equal rights to all and special privileges to none,' as herein set forth. We demand the repeal of the Anderson-McCormick election law and the enactment in its place of a non-partisan law which shall guarantee to every citizen legally entitled to vote the right to cast his ballot without interference and with the absolute certainty that such ballot will be counted as cast."

"FINANCE.—"We favor the free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1; a National currency, safe, sound and flexible; a full legal tender for all debts, public and private, issued by the general Government only, based on its credit and not on its indebtedness, in volume sufficient to maintain a healthy condition of business, and distributed directly among the people, when demanded on the security of their property, at a reasonable rate of interest, under such system as the wisdom of Congress may devise. We are unalterably opposed to State banks, or any other than National currency, because of its undesirableness and because the Constitution of the United States conferred the power to issue money on the general Government only, and this power cannot be delegated."

TAXATION.—"In view of the notorious fact that the wealth of the country continues to aggregate in the hands of the comparatively few individuals, who manage to escape payment of their just share of taxation, placing the burdens on those least able to bear it, we demand a rigid listing of all stocks, bonds and evidences of debt property, subject to taxation at their true market value, and the imposition, both by National and State governments, of a graduated income tax, with severe penalties for the evasion of the law. Non-resident corporations doing business in the State should be taxed according to the value of the business done. National and State legislation should be so framed as not to build up the few at the expense of the many, whether under a tariff law, an internal revenue law or an oyster law."

PUBLIC SCHOOLS.—"The public school system should be placed on a footing of increasing usefulness, and to this end we demand that the money raised for its support shall not be used as rewards for party services."

MISCELLANEOUS.—"The preservation of our homes, the peace and fraternity of our country, the contentment and happiness of our people and the development and prosperity of all honest industries are the aims of our party. Pledging our party to an honest and faithful observance of the foregoing propositions, we cordially invite all citizens, without regard to former party affiliations, to unite with us in the effort to make our government once more 'of the people, for the people and by the people.'"

VIRGINIA PROHIBITIONIST,

September 6, 1893.

It declares that both the Democrats and Populists have intentionally avoided the declarations upon the subject of morals and temperance. "The Populists," this paper says, "have fused with the Democrats wherever they considered it politic to do so, and believing that the Democratic party in Virginia, which is now and has been for years the dominant party, has fallen largely into the hands of professional politicians, whose first aim is self-aggrandizement through division of the spoils, and that the better elements of the party no longer control its actions, we view with alarm the continued indifference and studied avoidance of all moral and reform measures. Corrupting methods, enforced by the liberty-destroying Anderson-McCormick election law, constitute in a majority of instances their sole claim to political advancement." The other planks advocate the abolishment of unnecessary offices; ballot reform, that honest elections may be assured by removing the opportunity given to political wireworkers to tamper with ballots; declaring that a railroad commission is necessary as a guardian of the interests of all shippers, farmers and others; economy in public affairs, and in favor of encouraging immigration from other States. The last plank in the platform declares in favor of "a graduated income tax, supported by effective laws, that the poor man may not alone bear the burden of taxation, while the rich man, declining ownership of real estate because it can be listed and estimating his own wealth, possesses a pocket bulging with bonds upon which he defiantly pays no taxes." This is understood to mean a State income tax, though this is not made clear by the language of the text.

WASHINGTON REPUBLICAN,

April, 1892.

TARIFF.—"We unqualifiedly advocate and assert our adherence to the principles of a protective tariff as heretofore announced by the Republican party in the National platform and as now practised under the provisions of the act of Congress known as the McKinley Tariff bill."

NICARAGUA CANAL.—"We believe the interests of that great and important part of our country known as the Pacific Coast States require that the Nicaragua Canal should be built as soon as practicable, and favor such friendly legislation by Congress as may speedily effect that result."

WASHINGTON DEMOCRATIC,

August 26, 1892.

Urges imposition of taxes on luxuries rather than on necessities; free silver; establishment of a Government Assay Office in Washington, and favors Nicaragua Canal.

WEST VIRGINIA REPUBLICAN, May 5, 1892.

Reaffirms Republican platform of 1888, condemns the Gubernatorial steal four years ago, indorses protection as a principle, and commends the McKinley Tariff law and reciprocity; asserts belief in American ability to make all the tinplate consumed in the country, and exhorts all Americans to purchase American products in preference to imported goods; condemns Free Wool bill as an unjust and hurtful attack on the agricultural interests of the country; demands better immigration legislation; regards as of highest importance that every dollar issued by the United States shall have a purchasing power of 100 cents, so that our gold, silver and paper issues may be kept on an equal footing; favors liberal pensions and denounces as partisan the Democratic attacks on the present administration of the Pension Office.

WEST VIRGINIA REPUBLICAN, August 3, 1892.

Indorses Minneapolis nominations and platform; policy of Protection as necessary to the development of the country; favors anti-Pinkerton law, and denounces Democratic State administration for creation of a State debt, legislative gerrymander and steal of the Governorship in 1889.

WISCONSIN REPUBLICAN, May 5, 1892.

MONEY.—"While we favor the use of both gold and silver as money metals, under conditions which shall guarantee their circulation at a continuing and substantial parity with each other, under existing circumstances and conditions, we are unalterably opposed to the free and unlimited coinage of silver."

MISCELLANEOUS.—Indorses Harrison Administration; commends movement for an international silver conference; recommends a modification of the Silver act of 1890 to enable the President to regulate silver purchases; declares the educational issue of 1890 permanently settled; denounces the "Dodge" law as the most objectionable form of paternal legislation, and expresses satisfaction at the "gerrymander" decision.

WISCONSIN REPUBLICAN, August 17, 1892.

STATE BANKS.—Asserts unqualified opposition to proposition in Democratic National platform to repeal the tax levied by the Federal law on the circulation of State banks, a policy which would again flood the country with wildcat money and subject the people to annoyance and losses consequent upon a fluctuating, uncertain and depreciated currency.

EDUCATION.—Reaffirms and unqualifiedly indorses the declaration of the May Republican convention, and denounces further agitation of the subject or any attempt by any one or any party for any purpose to create or foster division lines of religion, education or nativity.

APPORTIONMENT LAW.—Denounces outrageous partisanship of Democratic majority in the late extra session of the Legislature in forcing enactment of so-called apportionment law, in defiance of the plain provisions of the constitution as expounded by the Supreme Court, and in disregard of the rights of the people.

MISCELLANEOUS.—Denounces Democratic statement that Republican success involves a surrender or compromise of rights upon the bond of ex-State Treasurers; favors amendment of law regulating balances in State banks; denounces parsimony of Democrats in refusal to make appropriation for a representation at World's Fair; denounces cruel and barbarous treatment of American citizens in some of the Southern States as tending to corrupt good government, and contrary to the spirit of the Constitution of the United States, and indorses Harrison Administration and Minneapolis platform.

WISCONSIN DEMOCRATIC, May 4, 1892.

TARIFF.—"Unnecessary taxation is unjust taxation, and therefore we reaffirm the oft-asserted doctrine that there should be no tariff except for revenue."

SILVER.—"We maintain that the true interests of the people demand sound, honest and stable money composed of, or based on and redeemable in gold and silver coin of equal intrinsic value. We therefore oppose the project of unlimited coinage of silver dollars of less commercial value than gold dollars as un-Democratic, dishonest and specially hurtful to the farmers and laboring classes, the first and most defenceless victims of unstable money and fluctuating currency. We denounce the Republican legislation on this subject, more particularly the Sherman act of 1890, as a cowardly makeshift and an inexcusable waste of the National resources in the purchase and storage of tons of bullion per day, and as a menace to the maintenance of a sound and stable currency; and we demand the repeal of this act. We heartily commend the action of those Democratic representatives in Congress from this State who have opposed all measures for silver coinage on a false basis."

EDUCATION.—Opposes State interference with parental rights and rights of conscience in the education of children as an infringement of the fundamental Democratic doctrine that the largest individual liberty consistent with the rights of others insures the highest type of American citizens and the best government.

MISCELLANEOUS.—Praises Mr. Cleveland and instructs Chicago delegates to act as a unit; opposes sumptuary laws and praises Democratic State government.

WISCONSIN DEMOCRATIC, August 31, 1892.

EDUCATION.—"The Bennett law has been repealed and the Democrats of Wisconsin have shown their loyalty to the cause of popular education in practical form by adding over $100,000 to the school-fund income and by increasing the appropriations to the State University over $65,000 a year for the next six years."

MISCELLANEOUS.—Opposes sumptuary laws and pledges the Democratic party anew to continued honesty and economy; indorses Chicago platform and candidates.

WISCONSIN PEOPLE'S PARTY, March 30, 1892.

Indorses resolutions adopted at the St. Louis conference, demanding free and unlimited coinage of silver, graduated income tax, postal savings banks and Government ownership of railroads and telegraph and telephone lines, and demands that evidence of indebtedness shall be taxed and shall not draw interest unless shown to be duly assessed; that board of trade gambling be suppressed and laws enacted to prohibit combinations to control the markets; asks Wisconsin Representatives in Congress to support the passage of an anti-option bill at the present session, and favors woman suffrage.

WYOMING REPUBLICAN, May 4, 1892.

Reiterates devotion to Protection; opposes strenuously importation of servile labor; favors liberal pensions; declares that "the money of the country should be founded on both gold and silver, and this result may be achieved by wise and timely legislation and international conference, tending to the restoration of silver, not only as money of the Nation, but as current coin of the civilized world"; demands the enforcement of the law among all, of whatever rank or condition in life; pledges the party to every means and influence in its power to protect life and property in every section of the State; hails with pleasure the presence of ladies in the convention as accredited delegates; invites the women of the State to participate in the party conventions, and praises Harrison's Administration.

WYOMING REPUBLICAN, September 14, 1892.

TARIFF.—"We indorse the McKinley bill, which has given a new impetus to American industries; the Blaine reciprocity measures, which have opened to the United States the markets of the world and brought our exports up to more than $1,000,000,000 per annum; we are opposed to the Democratic schemes of forcing American workingmen to compete with the cheap labor of Europe and Asia by admitting the products of such labor free; of repealing our reciprocity treaties, and closing the markets of the world to our produce for the benefit of other nations."

STATE BANKS.—"We oppose restoring the old wildcat banking system of antebellum days and again flooding our country with worthless money."

LAND.—Favors cession of the arid lands to the State, subject to the homestead laws, with such legislation as will secure maximum benefits to the people and prevent accumulation of land in large tracts in the hands of single individuals or corporations, and with power to lease the same in small tracts to actual settlers; and denounces Democratic proposition to maintain such lands forever as an open common, as making their use and occupancy a constant cause of conflict and contention between our citizens.

MISCELLANEOUS.—Opposes class legislation, favors equal and exact enforcement of laws, establishment of Bureau of Labor and Arbitration, and approves Harrison Administration and Minneapolis platform.

WYOMING DEMOCRATIC, April 15, 1892.

"We arraign the National Republican party for its pursuance of a ruinous public policy, detrimental to the general welfare of the great laboring and producing masses of the people of the United States, and we especially charge that it has degenerated into a vast commercial combine, using the lawmaking and executive branches of the Government to create and foster favored classes and monopolists, thereby enriching these classes until their enormous wealth threatens the purity and stability of republican institutions. And on the other hand, by its grinding exactions and discriminations it is impoverishing the masses of the common people of the Nation. We denounce the appropriations of the LIst Congress as a reckless and extravagant expenditure of public money and we demand strict economy in the management of Governmental affairs."

1899	(Vacancy) (e).	

(a) Appointed by the Governor to fill the vacancy caused by the death, June 20, 1893, of Senator Leland Stanford.

(b) In place of Senator Bishop W. Perkins, appointed to succeed the late Hon. Preston B. Plumb.

(c) In place of Senator John G. Carlisle, resigned February 4, 1893.

(d) In place of Senator John E. Kenna (Dem)., died January 11, 1893.

(e) The Senate refused to seat these Senators, claiming under Executive appointment, the Legislatures having at their late sessions failed to elect Senators. On the right of Hon. Lee Mantle to a seat in the Senate under Executive appointment of the Governor of Montana, the last Legislature having failed to make an election, Mr. Hoar, from the Committee on Privileges and Elections, reported at the executive session of the Senate, March 27, 1893, a resolution declaring him entitled to a seat. Mr. Vance, from the minority of the committee, reported a resolution declaring Mr. Mantle not entitled to a seat. The subject was debated during the executive session, and resumed at the extra session in August. August 23 the substitute offered by Mr. Vance was agreed to—Yeas 35, nays 30:

YEAS—Messrs. *Berry, Blackburn, Caffery, Coke,* Cullom, Dixon, *Faulkner,* Gallinger, *George, Gibson, Gray, Harris,* KYLE, *Lindsay,* McMillan, *McPherson,* Manderson, *Mills,* Mitchell of Ore., *Mitchell* of Wis., *Murphy, Palmer, Pasco,* PEFFER, Platt, Proctor, *Ransom, Smith,* Stockbridge, *Vance, Vest, Vilas,* Washburn, *White* of Cal., *White* of La.—35.

Mr. Manderson entered a motion to reconsider, and Mr. Vance moved to lay it on the table.

August 28—Mr. Vance's motion was agreed to—yeas, 31; nays, 28:

YEAS—Messrs. *Berry, Caffery, Call, Camden, Coke,* Cullom, Dixon, *Faulkner,* Gallinger, *George, Gray, Lindsay,* McMillan, *McPherson, Mills, Mitchell* of Wis., *Murphy, Palmer, Pasco,* Platt, Proctor, *Ransom, Smith,* Stockbridge, *Vance, Vest, Vilas, Voorhees,* Washburn, *White* of Cal., *White* of La.—31.

NAYS—Messrs. *Bate, Butler,* Cameron, Davis, Dubois, Frye, Hansbrough, Hawley, *Hill, Hunton, Irby, Jones* of Ark., Jones of Nev., *Martin, Morgan,* PEFFER, Perkins of Cal., Pettigrew, Power, *Pugh, Roach,* Sherman, Shoup, Squire, Stewart, Teller, *Walthall,* Wolcott—28.

The resolution reported by Mr. Hoar, amended by the Senate so as to declare Mr. Mantle not entitled to a seat, was then agreed to—yeas, 32; nays, 29:

YEAS—Messrs. Aldrich, *Berry, Caffery, Call, Camden, Coke,* Cullom, Dixon, *Faulkner,* Gallinger, *George, Gray, Lindsay,* McMillan, *McPherson, Mills, Mitchell* of Wis., *Murphy, Palmer, Pasco,* Platt, Proctor, *Ransom, Smith,* Stockbridge, *Vance, Vest, Vilas, Voorhees,* Washburn, *White* of Cal., *White* of La.—32.

NAYS—Messrs. *Bate, Butler,* Cameron, Davis, Dubois, Frye, Hansbrough, Hawley, Higgins, *Hill, Hunton, Irby, Jones* of Ark., Jones of Nev., *Martin, Morgan,* PEFFER, Perkins of Cal., Pettigrew, Power, *Pugh, Roach,* Sherman, Shoup, Squire, Stewart, Teller, *Walthall,* Wolcott—29.

By the same vote, on the same day, Hon. John B. Allen, appointed by the Governor of Washington under like circumstances, was declared not entitled to a seat in the Senate.

The former appointee of the Governor of Wyoming, whose credentials were presented at the executive session of the Senate, A. C. Beckwith, announced in a letter to the President of the Senate dated July 11, 1893, that "owing to a combination of circumstances over which I had no control I have been obliged to hand in my resignation to Governor Osborne of my appointment as United States Senator from Wyoming." Gov. Osborne failed to make another appointment prior to the taking of the above votes in the Senate.

January 30.—New 10, Clark 1, Okie 16, Holliday 2, Beck 2, Kabis 2, Hurt 4, Taylor 5, Corn 1, Tidball 4, Brown 1.

February 7.—A. L. New 9, J. D. Woodruff 21, C. W. Baxter 2, J. E. Osborne 5, William Brown 5, Major Wolcott 1, S. T. Corn 2, W. H. Holliday 1, George T. Beck 1.

February 10.—The vote was: New 7, Van Venter (Rep.) 22, J. C. Miller 10, G. W. Baxter 2, William Brown 4, George T. Beck 1, S. T. Corn 1, John C. Thompson 1. In casting his vote Speaker Tidball said that he had worked for the election of a Populist until satisfied that such a result was impossible, and that he would now vote for a Democrat. He voted for Thompson. Before the result of the ballot was announced three Populists and seven Democrats changed their votes to Thompson; two Republicans and five Democrats changed to Beck, and one Republican changed to Baxter, leaving the ballot: New 3, Van Venter 10, Miller 2, Baxter 3, Brown 1, Beck 6, Corn 1, Thompson 11.

February 15.—The 24th ballot stood: John C. Thompson (Dem.) 24, William Brown (Pop.) 1, George T. Beck (Dem.) 14, F. E. Warren (Rep.) 7, C. D. Clark (Rep.) 2. Thirteen Republicans voted for Beck (Dem.). All Democrats, except Baker, of Converse County, and all the Populists, except Taylor, of Albany County, voted for Thompson.

February 16.—Three ballots stood: Warren (Rep.) 13, Brown (Pop.) 11, Clark (Rep.) 4, Horner (Dem.) 3, Baxter (Dem.) 5, Richard (Rep.) 4, Thompson (Dem.) 5. The second and third ballots did not differ materially, except that Thompson on the last ballot fell to 1.

INTERNATIONAL TRIBUNAL OF EGYPT.

In 1876, as the result of negotiations between the Ottoman and Egyptian governments and the various Christian powers having representatives at Cairo, certain courts were created in Egypt for the trial of mixed civil causes arising between persons of different foreign nationalities, and suits of foreigners against natives, the Egyptian Government and members of the Khedival family. These mixed tribunals, in civil matters within their exclusive jurisdiction, superseded the consular courts. A mixed tribunal consists of three judges, three of whom are foreigners and two natives. The foreign judges are appointed by the Khedive on the recommendation of the great Powers, each of which is represented by from one to three judges. There are several tribunals of original jurisdiction (first instance) and a court of appeals at Alexandria. The United States is represented in these courts by the following judges:

Court of Appeals at Alexandria—Victor C. Barringer, of North Carolina (appointed in 1874).

Court of First Instance at Alexandria—Ernest H. Crosby, of New-York (appointed in 1889).

NOTES.—Under Sec. 1,261, Revised Statutes, an Aide-de-Camp to a Major-General is allowed $200 a year in addition to the pay of his rank, not to be included in computing the service increase; an Aide-de-Camp to a Brigadier-General, $150 a year, and an Acting Commissary of Subsistence $100 a year. Assistant Surgeons are entitled to pay of Captain after five years' service, service to be reckoned from date of acceptance of appointment or commission. Retired officers receive 75 per cent of pay (salary and increase) of their rank, and retired Chaplains 75 per cent of pay of rank (Captain not mounted). The officer in charge of the public buildings and grounds (Washington) has, while so serving, the rank, pay and emoluments of a Colonel. For additional pay as mounted officers, see par. 1,449, Regulations of the Army, 1889. The principal assistant in the Ordnance Bureau of the War Department receives a compensation, including pay and emoluments, not exceeding that of a Major of Ordnance. An Acting Judge-Advocate, detailed by the Secretary of War, is entitled to the pay and allowances of Captain of Cavalry.

UNITED STATES MILITARY ACADEMY.

METHOD OF APPOINTMENT.—Each Congressional District and Territory and the District of Columbia is entitled to have one cadet at the academy. Ten are also appointed at large. The appointments (except those at large) are made by the Secretary of War at the request of the Representative or Delegate in Congress from the district or territory of which the appointee must be an actual resident. The appointments at large are specially conferred by the President of the United States.

MANNER OF APPLICATION.—Applications can be made at any time, by letter, to the Secretary of War, to have the applicant's name registered for submission to the proper representative when a vacancy occurs. The application must exhibit the full name, date of birth and permanent abode of applicant, with the numoer of the Congressional district in which his residence is situated.

DATE OF APPOINTMENT.—Appointments must be made one year in advance of date of admission, except in cases where, by death or otherwise, a vacancy occurs which cannot be provided for by such appointment in advance. These vacancies are filled in time for the next annual examination.

ALTERNATES.—The Representative or Delegate in Congress may nominate a legally qualified second candidate, to be designated the alternate. The alternate will receive from the War Department a letter of appointment, and will be examined with the regular appointee, and if duly qualified will be admitted to the academy if the principal fails to pass the prescribed preliminary examinations. The alternate may not defer reporting at West Point until the result of the examination of the regular appointee is known, but must report at the time designated in his letter of appointment. The alternate, like the nominee, should be designated as nearly one year in advance of the date of admission as possible.

ADMISSION OF CADETS.—The candidate, upon receiving his conditional appointment, is ordered to report at West Point to the Superintendent of the Military Academy in time to appear before the Academic Board for examination at its meeting early in June, unless there be good reasons for designating another time. The candidate, soon after arrival at West Point, is subjected to a rigid physical examination by a board of Army surgeons. If he passes successfully, he is then examined by the Academic Board. These examinations are made as soon as practicable after the candidate reports to the Superintendent. The candidate who passes successfully both examinations is admitted, at once, to the Academy without returning to his home. Immediately after his admission, and before receiving his warrant of appointment, he must sign the following engagement for service, in the presence of the Superintendent, or some officer deputed by him:

I, ——, of the State (or Territory) of ——, aged —— years —— months, do hereby engage (with the consent of my parent or guardian) that, from the date of my admission as a Cadet of the U. S. Military Academy, I will serve in the Army of the U. S. for eight years, unless sooner discharged by competent authority.

In the presence ——. —— ——.

The candidate must then take the following oath or affirmation:

I, —— ——, do solemnly swear that I will support the Constitution of the U. S., and bear true allegiance to the National Government; that I will maintain and defend the sovereignty of the U. S. paramount to any and all allegiance, sovereignty or fealty I may owe to any State or country whatsoever; and that I will at all times obey the legal orders of my superior officers, and the rules and articles governing the armies of the U. S.

Sworn and subscribed, at ——, this —— day of ——, eighteen hundred and ——, before me. —— ——.

QUALIFICATIONS.—The age for the admission of cadets to the Academy is between 17 and 22 years. Candidates must be unmarried, at least 5 feet in height, free from any infectious or immoral disorder, and generally, from any deformity, disease, or infirmity which may render them unfit for military service. They must be well versed in reading, in writing, including orthography, in arithmetic, and have a knowledge of the elements of English grammar, of descriptive geography (particularly of our own country), and of the history of the U. S.

The Military Academy was established on March 16, 1802; its present superintendent is Colonel O. H. Ernst, and the number of instructors (officers of the Army) is 56. The number of cadet students is now 318, and 3,562 have been graduated since the organization.

UNITED STATES NAVAL ACADEMY.

STUDENTS AND COURSE.—The students of the United States Naval Academy at Annapolis, Md., are styled Naval Cadets. One cadet is allowed for every member or delegate of the House of Representatives, one for the District of Columbia, and ten at large. No more than ten appointed at large are allowed in the Academy at any one time. The course of study is six years, four years at the Academy and two at sea, at the end of which time the cadet returns to the Academy for final graduation, and the district then becomes vacant.

NOMINATIONS.—The Secretary of the Navy, as soon after March 5 in each year as possible, notifies in writing each member or delegate of the House of Representatives of any vacancy in his district. The nomination of a candidate to fill the vacancy is made on the recommendation of the member or delegate, if such recommendation is made by July 1 of that year; but if not the Secretary of the Navy fills the vacancy. The candidate allowed for the District of Columbia and all the candidates appointed at large are selected by the President. Candidates allowed for Congressional districts, for Territories and for the District of Columbia must be actual residents of the districts or Territories from which they are nominated. And all candidates must, at the time of their examination for admission, be between the ages of fifteen and twenty, physically sound, well formed, and of robust constitution.

ENTRANCE EXAMINATION.—Candidates nominated in time to enable them to reach the Academy by May 15 receive permission to present themselves on that date to the Superintendent for examination for admission. Those not nominated in time to present themselves at the May examination are examined on the 1st of September following. When either of the above dates falls on Sunday the candidates present themselves on the Monday following. Candidates are required to enter the Academy immediately after passing the prescribed examinations. No leave of absence is granted to cadets of the fourth class.

GRADUATE APPOINTMENTS. — Appointments to fill all vacancies that may occur during a year in the lower grades of the Line and Engineer Corps of the Navy and of the Marine Corps are made from the Naval Cadets, graduates of the year, at the conclusion of their six years' course, in the order of merit as determined by the Academic Board. At least fifteen appointments from such graduates will be made each year. To surplus graduates who do not receive such appointments will be given a certificate of graduation, an honorable discharge, and one year's sea pay, as provided for Naval Cadets.

UNITED STATES NAVAL INSTITUTE.

The United States Naval Institute, having for its object the advancement of professional, literary and scientific knowledge among the officers of the Navy, was founded in 1873; it now has a total membership of 875. The annual meeting is held on the second Friday in October. Its headquarters is at Annapolis, Md., and its officers are as follows: President, Rear-Admiral S. B. Luce, U. S. Navy; vice-president, Commander C. M. Chester, U. S. Navy; secretary and treasurer, Lieutenant H. S. Knapp, U. S. Navy. Board of Control—Lieutenant-Commander B. F. Tilley, U. S. Navy; Lieutenant-Commander Royal R. Ingersoll, U. S. Navy; Lieutenant George L. Dyer, U. S. Navy; Lieutenant Hugo Osterhaus, U. S. Navy; Passed Assistant Engineer W. F. Worthington, U. S. Navy; Professor N. M. Terry, A. M., Ph. D., and the secretary and treasurer.

The "grog" ration was abolished in the Navy several years ago, and in lieu of the regular Navy ration officers on the active list are allowed 30 cents a day in addition to their annual pay. The law provides that no officer on the retired list shall be employed on active duty except in time of war. Officers retired after forty years of service, or on attaining the age of sixty-two years, or those retired from incapacity resulting from long and faithful service, from wounds or injuries received in the line of duty, or from sickness or exposure therein, receive 75 per cent of the sea-pay of their grade at the time of retirement. Officers retired from causes not incident to the service receive 50 per cent of the sea-pay of their grade, or one-half of waiting order pay, as the President may direct.

(a) After leaving Academy, at sea, in other than practice-ships, $950 per annum. (b) Pay increased $200 per annum four years from date of commission. (c) Pay increased $200 per annum, five years from date of commission. (d) Pay increased $300 per annum, five years from date of commission.

EXTRADITION WITH NORWAY.

Secretary Gresham and Minister Grip on November 8 exchanged ratifications of the Norwegian Extradition treaty. This treaty, which was concluded on June 7, is a duplicate of the extradition treaty negotiated between the United States and Sweden and ratified on March 18, with two exceptions. These occur in the third article, and consist of the omission from the list of extraditable crimes of "housebreaking or shopbreaking" and "obtaining money, valuable securities, or other property by false pretences, or receiving money, valuable securities, or other property, knowing the same to have been embezzled, stolen or fraudulently obtained, when such act is made criminal by the laws of both countries and the amount of money or the value of the property fraudulently obtained or received is not less than $200, or kroner 740." There appears, however, still to remain ample provision for the extradition of embezzlers, for the sixth and seventh sections of Article II of the treaty read as follows: "(6) Embezzlement by public officers; embezzlement by persons hired or salaried, to the detriment of their employers; larceny. (7) Fraud or breach of trust by a bailee, banker, agent, factor, trustee or other person acting in a fiduciary capacity, or director or member or officer of any company, when such act is made criminal by the laws of both countries, and the amount of money or the value of the property misappropriated is not less than $200, or kroner 740." It may be also that housebreaking can be held under the third section of the same article, which reads: "(3) Robbery, defined to be the act of feloniously and forcibly taking from the person of another money or goods by violence or putting him in fear; burglary." The new treaty is otherwise similar, in the list of offences covered, to all the conventions relating to extradition recently negotiated by the United States. It went into effect on December 8.

SEA WATER'S SATURATION.

German scientists, who claim to have made most careful computations, declare that if all the salt in the sea waters of the globe was extracted the amount would be greater than the land, so far as the latter appears above the surface. The statement is that the seas cover 73 per cent of the earth's surface, estimated at 9,260,000 (German) square miles. The percentage of chlornatrium in the sea is the same at all depths. Assuming that the average depth of the sea is a half (German) mile, there are then 3,400,000 cubic miles of sea water. A cubic mile of sea water contains, on the average, about twenty-five kilograms of salt. The 3,400,000 cubic miles of sea water would therefore contain 85,000 cubic miles of distilled pure salt.

THE LIIId CONGRESS—EXTRA SESSION.

AUGUST 7, 1893—NOVEMBER 3, 1893.

The pressure brought to bear upon the President from all quarters to call Congress together immediately, to take such action as might be necessary to relieve the country of impending business disasters, bore fruit on June 30, when he issued the following proclamation:

"Executive Mansion, Washington, D. C.,

"June 30, 1893.

"Whereas, The distrust and apprehension concerning the financial situation which pervade all business circles have already caused great loss and damage to our people and threaten to cripple our merchants, stop the wheels of our manufacturers, bring distress and privation to our farmers and withhold from our workingmen the wage of labor;

"And, Whereas, the present perilous condition is largely the result of a financial policy which the Executive branch of the Government finds embodied in unwise laws which must be executed until repealed by Congress:

"Now, Therefore, I, Grover Cleveland, President of the United States, in performance of a constitutional duty, do by this proclamation declare that an extraordinary occasion requires the convening of both Houses of the Congress of the United States at the Capitol in the city of Washington, on the seventh day of August next at 12 o'clock noon, to the end that the people may be relieved through legislation from present and impending danger and distress.

"All those entitled to act as members of the LIIId Congress are required to take notice of this proclamation and attend at the time and place above stated.

"Given under my hand and seal of the United States at the city of Washington on the thirtieth day of June, in the year of our Lord 1893, and of the Independence of the United States the 107th.

"GROVER CLEVELAND."

REPEAL OF THE SILVER PURCHASE CLAUSE OF THE ACT OF JULY 14, 1890.

President Cleveland called the LIIId Congress in extra session August 7, 1893, in view, as expressed in his message, "of the existence of an alarming and extraordinary business situation, involving the welfare and prosperity of all our people." He described the situation thus:

"Our unfortunate financial plight is not the result of untoward events nor of conditions related to our natural resources; nor is it traceable to any of the afflictions which frequently check national growth and prosperity. With plenteous crops, with abundant promise of remunerative production and manufacture, with unusual invitation to safe investment, and with satisfactory assurance to business enterprise, suddenly financial distrust and fear have sprung up on every side. Numerous moneyed institutions have suspended because abundant assets were not immediately available to meet the demands of frightened depositors. Surviving corporations and individuals are content to keep in hand the money they are usually anxious to loan, and those engaged in legitimate business are surprised to find that the securities they offer for loans, though heretofore satisfactory, are no longer accepted. Values supposed to be fixed are fast becoming conjectural, and loss and failure have invaded every branch of business.

"I believe these things are principally chargeable to Congressional legislation touching the purchase and coinage of silver by the General Government.

"This legislation is embodied in a statute passed on the 14th day of July, 1890, which was the culmination of much agitation on the subject involved, and which may be considered a truce, after a long struggle, between the advocates of free silver coinage and those intending to be more conservative."

He earnestly recommended the prompt repeal of the provisions of the act passed July 14, 1890, authorizing the purchase of silver bullion, and that "other legislative action may put beyond all doubt or mistake the intention and the ability of the Government to fulfil its pecuniary obligations in money universally recognized by all civilized countries."

On the 11th of August Mr. Wilson, of West Virginia, introduced into the House of Representatives a bill to repeal the clause referred to, with this clause added: "But this repeal shall not impair or in any manner affect the legal-tender quality of the standard silver dollar heretofore coined; and the faith and credit of the United States are hereby pledged to maintain the parity of the standard gold and silver coins of the United States at the present legal ratio, or such other ratio as may be established by law." This bill was debated till the 28th of Au-

gust, when it was brought to a vote in the House. Mr. Bland moved to add to the bill a provision to authorize the free coinage of silver at the ratio of 16 to 1, which was rejected—yeas 125, nays 226, not voting 2. (Affirmative—Republicans 13, Democrats and Populists 112; negative—Republicans 110, Democrats 116.)

Votes were then cast on other amendments for coinage with a different ratio:

	Yeas.	Nays.	Not voting.
17 to 1.....	101	241	11
18 to 1.....	103	240	10
19 to 1.....	104	238	11
20 to 1.....	122	222	9

A motion to add to the bill a clause to revive the Bland-Allison act of 1878, so as to require the purchase monthly of not less than $2,000,000 and not more than $4,000,000 worth of silver bullion, and the coining of the same as fast as purchased into standard silver dollars, was rejected—yeas 136, nays 218, not voting 4. (On this vote the affirmative was made up of Republicans 15, Democrats and Populists 121; the negative—Republicans 110, Democrats 108.) The bill as introduced by Mr. Wilson then passed the House—yeas 239, nays 109, not voting 5. (Affirmative—Republicans 101, Democrats 138; negative—Republicans 24, Democrats 85.)

On the 29th of August, in the Senate, Mr. Voorhees reported the bill from the Finance Committee, with this amendment in the nature of a substitute, viz.:

"Be it enacted, etc., That so much of the act approved July 14, 1890, entitled 'An act directing the purchase of silver bullion and issue of Treasury notes thereon, and for other purposes,' as directs the Secretary of the Treasury to purchase from time to time silver bullion to the aggregate amount of 4,500,000 ounces, or so much thereof as may be offered in each month at the market price thereof, not exceeding $1 for 371.25 grains of pure silver, and to issue in payment for such purchases Treasury notes of the United States, be and the same is hereby, repealed. And it is hereby declared to be the policy of the United States to continue the use of both gold and silver as standard money, and to coin both gold and silver into money of equal intrinsic and exchangeable value, such equality to be secured through international agreement or by such safeguards of legislation as will insure the maintenance of the parity in value of coins of the two metals and the equal power of every dollar at all times in the markets and in the payment of debts. And it is hereby further declared that the efforts of the Government should be steadily directed to the establishment of such a safe system of bimetallism as will maintain at all times the equal power of every dollar coined or issued by the United States in the markets and in the payment of debts."

Question was debated till October 27, when the bill reported from the Finance Committee pending a motion to add a provision for free coinage of silver was rejected—yeas 28, nays 39, not voting 18. The yeas were Messrs. ALLEN, *Bate*, *Berry*, *Blackburn*, *Butler*, *Call*, *Coke*, *Daniel*, Dubois, *George*, *Harris*, *Irby*, *Jones* of Ark., Jones of Nev., KYLE, *Martin*, *Pasco*, PEFFER, Powers, *Pugh*, *Roach*, Stroup, STEWART, Teller, *Vance*, *Vest*, *Walthall*, Wolcott—28. The nays were Messrs. Aldrich, *Caffery*, *Camden*, Carey, Cullom, Davis, Dixon, Dolph, *Faulkner*, Frye, Gallinger, *Gibson*, *Gorman*, *Gray*, Hall, Higgins, *Hill*, Hoar, *Lindsay*, Lodge, McMillan, *McPherson*, Manderson, *Mitchell* of Wis., Morrill, *Murphy*, *Palmer*, Perkins, Proctor, Quay, *Ransom*, Sherman, *Smith*, Stockbridge, *Turpie*, *Vilas*, *Voorhees*, Washburn, *White* of La.—39. The pairs were:

Affirmative.	Negative.
Pettigrew.	*Gordon*.
Mitchell of Ore.	Squire.
Cameron.	*Brice*.
Hansbrough.	Mills.
White of Cal.	Chandler.
Colquitt.	Wilson.
Cockrell.	Allison.
Morgan.	Hawley.
Hunton.	Platt.

[Republicans in Roman, Democrats in *Italics*, Populists in SMALL CAPS.]

Some minor amendments were voted upon and the bill reported by the Committee on Finance was, on October 30, passed by the Senate—Yeas 43, nays 32, not voting 10.

Yeas—Messrs. Aldrich, *Brice*, *Caffery*, *Camden*, Carey, Cullom, Davis, Dixon, Dolph, *Faulkner*, Frye, Gallinger, *Gibson*, *Gorman*, *Gray*, Hale, Hawley, Higgins, *Hill*, Hoar, *Hunton*, *Lindsay*, Lodge, McMillan, *McPherson*, Manderson, *Mills*, *Mitchell* of Wis., Morrill, *Murphy*, Platt, Proctor, Quay, *Ransom*, Sherman, *Smith*, Squire, Stockbridge, *Turpie*, *Vilas*, *Voorhees*, Washburn, *White* of La.—43.

Nays—Messrs. ALLEN, *Bate*, *Berry*, *Blackburn*, *Butler*, *Call*, Cameron, *Cockrell*, *Coke*, *Daniel*, Dubois, *George*, *Harris*, *Irby*, *Jones* of Ark., Jones of Nev., KYLE, *Martin*, *Pasco*, PEFFER, Perkins, Pettigrew, Power, *Pugh*, *Roach*, Shoup, STEWART, Teller, *Vance*, *Vest*, *Walthall*, Wolcott—32.

The pairs announced were as follows: For repeal—Messrs. Allison, Chandler, Wilson, *Gordon* and *Palmer*. Against repeal—Messrs. Mitchell of Ore., *White* of Cal., *Colquitt*, *Morgan*, and Hansbrough.

An analysis of the vote shows that of the forty-three Senators actually voting for unconditional repeal twenty-three were Republicans and twenty Democrats. Three of the five Senators paired in favor of repeal were Republicans and two Democrats. To the total strength of repeal in the Senate, therefore, the Democratic majority contributed twenty-two votes, while the Republican minority contributed twenty-six. The votes actually cast against the Voorhees bill—thirty-two in all—were given by nineteen Democrats, nine Republicans and four Populists. Three Democrats and two Republicans were paired against repeal, so that the total anti-repeal strength in the Senate—thirty-seven—was made up of twenty-two Democrats, four Populists and eleven Republicans. The final division on the President's programme of silver legislation found the Democratic party in the Senate split into two exactly equal parts, twenty-two votes being cast for the Voorhees bill and twenty-two against it.

In the House of Representatives, November 1, pending concurrence in the

Senate substitute, a motion to recommit the bill or to add to the substitute a clause to revive so much of the act of January 18, 1837, as provides for the coinage of the standard silver dollar of 412½ grains of standard silver was rejected—yeas 109, nays 176, not voting 68.

The House then concurred in the Senate amendment to the House bill—yeas 194, nays 94, not voting 66:

CENSUS WORK.

The act of October 3, 1893, extends the time for closing the work of the Eleventh Census from December 31, 1893, to June 30, 1894; and provides that the President may, in his discretion, authorize and direct the Commissioner of Labor to perform the duties of Superintendent of Census under the direction of the Secretary of the Interior until the work of closing the Eleventh Census is completed, at such additional compensation, payable from the appropriations for compiling the results of the Eleventh Census, as the Secretary of the Interior may determine not exceeding one-half of the compensation now fixed by law for the Superintendent of Census.

CHINESE ACT AMENDED.

The act of November 3, 1893, provides that Section 6 of an act entitled "An act to prohibit the coming of Chinese persons into the United States," approved May 5, 1892, is hereby amended so as to read as follows: "Section 6. And it shall be the duty of all Chinese laborers within the limits of the United States who were entitled to remain in the United States before the passage of the act to which this is an amendment to apply to the collector of internal revenue of their respective districts within six months after the passage of this act for a certificate of residence; and any Chinese laborer within the limits of the United States who shall neglect, fail or refuse to comply with the provisions of this act and the act to which this is an amendment, or who, after the expiration of said six months, shall be found within the jurisdiction of the United States, without such certificate of residence, shall be deemed and adjudged to be unlawfully within the United States, and may be arrested by any United States customs official, collector of internal revenue or his deputies, United States Marshal or his deputies, and taken before a United States Judge, whose duty it shall be to order that he be deported from the United States, as provided in this act and in the act to which this is an amendment, unless he shall establish clearly to the satisfaction of said Judge that by reason of accident, sickness or other unavoidable cause he has been unable to procure his certificate, and to the satisfaction of said United States Judge, and by at least one credible witness other than Chinese, that he was a resident of the United States on the 5th of May, 1892; and if, upon the hearing, it shall appear that he is so entitled to a certificate, it shall be granted upon his paying the cost. Should it appear that said Chinaman had procured a certificate which has been lost or destroyed, he shall be detained and judgment suspended a reasonable time to enable him to procure a duplicate from the officer granting it, and in such cases the cost of said arrest and trial shall be in the discretion of the Court; and any Chinese person, other than a Chinese laborer, having a right to be and remain in the United States, desiring such certificate as evidence of such right, may apply for and receive the same without charge; and that no proceedings for a violation of the provisions of said Section 6 of said act of May 5, 1892, as originally enacted, shall hereafter be instituted, and that all proceedings for said violation now pending are hereby discontinued": Provided, That no Chinese person heretofore convicted in any court of the States or Territories or of the United States of a felony shall be permitted to register under the provisons of this act; but all such persons who are now subject to deportation for failure or refusal to comply with the act to which this is an amendment shall be deported from the United States as in said act and in this act provided, upon any appropriate proceedings now pending or which may be hereafter instituted.

Sec. 2. The words "laborer" or "laborers," wherever used in this act, or in the act to which this is an amendment, shall be construed to mean both skilled and

unskilled manual laborers, including Chinese employed in mining, fishing, huckstering, peddling, laundrymen, or those engaged in taking, drying or otherwise preserving shell or other fish for home consumption or exportation.

The term "merchant," as employed herein and in the acts of which this is amendatory, shall have the following meaning and none other: A merchant is a person engaged in buying and selling merchandise, at a fixed place of business, which business is conducted in his name, and who during the time he claims to be engaged as a merchant does not engage in the performance of any manual labor, except such as is necessary in the conduct of his business as such merchant.

Where an application is made by a Chinaman for entrance into the United States on the ground that he was formerly engaged in this country as a merchant, he shall establish by the testimony of two credible witnesses other than Chinese the fact that he conducted such business as hereinbefore defined for at least one year before his departure from the United States, and that during such year he was not engaged in the performance of any manual labor, except such as was necessary in the conduct of his business as such merchant, and in default of such proof shall be refused landing.

Such order of deportation shall be executed by the United States Marshal of the district within which such order is made, and he shall execute the same with all convenient dispatch; and pending the execution of such order such Chinese person shall remain in the custody of the United States Marshal and shall not be admitted to bail.

The certificate herein provided for shall contain the photograph of the applicant, together with his name, local residence and occupation, and a copy of such certificate, with a duplicate of such photograph attached, shall be filed in the office of the United States Collector of Internal Revenue of the district in which such Chinaman makes application.

Such photographs in duplicate shall be furnished by each applicant in such form as may be prescribed by the Secretary of the Treasury.

(The above bill passed the House October 16, on a division—yeas, 178, nays 1—and the Senate November 2, without a division.)

a Trade with Bermuda, included with British West Indies in 1892 for six months ending June 30. b Includes imports from Bermuda, $441,936. c Includes exports to Bermuda, $401,986.

NOTE.—The Bureau of Statistics in a paper issued August 15, 1893, criticises the figures of imports in 1892 so far as they apply to countries having a depreciated currency, or inflated to a large degree. The returns of 1892 covered by this table are regarded by the Bureau as inflated to the extent of about thirty million of dollars. The same criticism lies against the figures of 1891, though to a less extent.—(Editor.

POSTAL INFORMATION.

CLASSES OF MAIL MATTER.

Domestic mail matter is divided into four classes:

First Class—Letters, postal cards, and matter wholly or partly in writing, whether sealed or unsealed (except manuscript copy accompanying proof-sheets or corrected proof-sheets of the same), and all matter sealed or otherwise closed against inspection. Rates of postage—Two cents per ounce or fraction thereof. Postal cards, one cent each. On "drop" letters two cents per ounce or fraction thereof, when mailed at letter-carrier's office; and one cent per ounce or fraction thereof at other offices.

Second Class—Newspapers and publications issued at stated intervals as often as four times a year, bearing a date of issue and numbered consecutively, issued from a known office of publication, and formed of printed sheets, without board, cloth, leather or other substantial binding. Such publications must be originated and published for the dissemination of information of a public character, or devoted to literature, the sciences, art, or some special industry. They must have a legitimate list of subscribers, and must not be designed primarily for advertising purposes, or for circulation free, or at nominal rates. Rate of postage—For publishers and news agents, one cent a pound or fraction thereof. For others than publishers and news agents, one cent for each four ounces or fraction thereof.

Third Class — Books, periodicals and matter wholly in print (not included in second class), proof-sheets, corrected proof-sheets and manuscript copy accompanying the same. Rate of postage—One cent for each two ounces or fraction thereof.

Fourth Class —Merchandise—namely, all matter not embraced in the other three classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service, and not above the weight provided by law. Rate of postage—One cent per ounce or fraction thereof, but on seeds, cuttings, roots, scions and plants, one cent for each two ounces or fraction thereof.

LIMIT OF WEIGHT.

A package must not exceed four pounds in weight, unless it be a single book. Second-class matter is not subject to the four-pound limitation.

PAYMENT OF POSTAGE.

On first-class matter the postage should be fully prepaid, but if two cents in stamps be affixed the matter will be forwarded and remainder due collected of addressee before delivery.

On second-class matter the postage must be fully prepaid when sent by others than publishers or news agents.

On third-class matter the postage must be fully prepaid.

On fourth-class matter the postage must be fully prepaid.

WHAT MAY BE WRITTEN OR PRINTED ON MAIL MATTER.

Second Class—Name and address of persons to whom the matter is to be sent; index-figures of subscription book printed or written; printed title of publication; printed or written name or address, without advertisement of publisher or sender; written or printed words or figures, or both, indicating date on which subscription ends; correction of typographical errors, a mark except by written or printed words to designate a word or passage to which it is desired to call attention; the words "sample copy"; publishers' or news agents' bills, receipts and orders for subscription, but the same shall convey no other information than the name, place of publication, subscription price, and amount of subscription due. The number of copies inclosed may be indicated on wrapper or face of package.

Third Class—Sender's name and address, with the word "from"; marks other than by written or printed words to call attention to word or passage; correction of typographical errors; on the blank leaves or cover of any book may be placed a simple manuscript dedication or inscription not in the nature of a personal correspondence; upon the address side of wrapper, envelope, tag or label must be left space sufficient for legible address and necessary stamps.

Fourth Class—With matter of this kind may be inclosed any mailable third-class matter. On wrapper, cover, tag or label may be written name and address of sender, with word "from"; marks, numbers, names or letters for purposes of description, or same may be printed; any printed matter not in nature of a personal correspondence. On address side must be left space sufficient for legible address and necessary stamps.

THE REGISTRY SYSTEM.

All mail matter, including drop letters, may be registered; but not matter addressed to fictitious names, initials or box numbers, or bearing vague and indefinite addresses.

The registry fee is eight cents in addition to postage. It must be prepaid by stamps affixed.

The rates of postage to all other countries and colonies (except Canada and Mexico) are as follows:

Letters, 15 grams (½ ounce).....	5 cents.
Postal cards, each.....	2 cents.
Newspapers and other printed matter, per 2 ounces.....	1 cent.
Commercial papers:	
Packets not in excess of 10 ounces	5 cents.
Packets in excess of 10 ounces, for each 2 ounces or fraction thereof	1 cent.
Samples of merchandise:	
Packets not in excess of 4 ounces	2 cents.
Packets in excess of 4 ounces, for each 2 ounces or fraction thereof	1 cent.
Registration fee on letters or other articles .....10 cents.	

Ordinary letters for countries of the Postal Union (except Canada and Mexico) must be forwarded whether any postage is prepaid on them or not. All other mailable matter must be prepaid, at least, partially.

CANADA AND MEXICO.

Matter mailed in the United States addressed to Canada or Mexico is subject to the same postage rates and conditions as it would be if it were addressed for delivery in the United States.

Over $70 and not exceeding $80.....80c.
Over $80 and not exceeding $90.....90c.
Over $90 and not exceeding $100..... $1

The maximum amount for which money-orders may be drawn is $50 on Great Britain and Ireland, the Cape Colony, British Guiana, and Bermuda, and $100 on the other countries mentioned above.

COPYRIGHT AND TRADEMARKS.

Under the International Copyright act (approved March 3, 1891; took effect July 1, 1891) any United States citizen, or citizen or subject of foreign nations granting copyright to United States citizens on substantially the same basis with their own citizens, or which become parties to an international agreement for reciprocity in copyright, who is "the author, inventor, designer or proprietor of any book, map, chart, dramatic or musical composition, engraving, cut, print or photograph or negative thereof, or of a painting, drawing, chromo, statue, statuary, and of models or designs intended to be perfected as works of the fine arts, and the executors, administrators, or assigns of any such person" may secure for 28 years the sole liberty of printing, reprinting, publishing, completing, copying, executing, finishing and vending the same; and, in case of a dramatic composition, of publicly performing or representing it or causing it to be performed or represented by others.

The applicant, on or before the day of publication in this or any foreign country, must deliver at the office of the Librarian of Congress, or edpsit in the mail within the United States, addressed to him at Washington, D. C., a printed copy of the title of the book, map, etc., or a description of the painting, etc., or a model or design for a work of the fine arts for which he desires a copyright. He must also, not later than the day of publication in this or any foreign country, deliver at the Librarian's office, or deposit in the mail within the United States, addressed to him at Washington, D. C., two copies of a book, photograph, chromo or lithograph printed from the type set within the United States, or from plates made therefrom, or from negatives or drawings on stone made within the United States, or from transfers made therefrom, or a photograph of a painting, drawing, statue, model or design. The Librarian's fees are: 1. For recording the title or description of any copyright book or other article, 50 cents. 2. For every copy under seal of such record actually given to the person claiming the copyright, or his assigns, 50 cents. 3. For recording and certifying any instrument of writing for the assignment of a copyright, $1. 4. For every copy of an assignment, $1. The charge for recording the title or description of any article entered for copyright, the production of a foreigner, is $1. The Secretary of the Treasury prints at short intervals catalogues of title entries for distribution at a small charge.

Proprietors of copyrights must send to the Librarian copies of all subsequent editions in which substantial changes are made. Authors have exclusive right to dramatise or translate their works copyrighted in the United States. An author, inventor or designer, or his widow or children, may secure an extension of the copyright for 14 years, by recording the title a second time within 6 months before the expiration of the first period. The penalty for unauthor-

ized use of a copyright notice is $100. Every person who shall "without the consent of the proprietor of the copyright first obtained in writing, signed in presence of two or more witnesses, print, publish, dramatize, translate or import, or knowing the same to be so printed, published, dramatized, translated or imported, shall sell, or expose to sell" any copy of a copyrighted book, must forfeit every copy to the proprietor and is liable for damages in a civil action. In the case of paintings or statuary, the infringer forfeits $10 for every copy he sells, possesses or exposes for sale. With other copyrighted articles, he forfeits the plates and $1 for every sheet he possesses or exposes for sale. Persons purchasing for use, and not for sale, may import, subject to duty, not more than two foreign copies of a copyrighted book.

Switzerland, France, Belgium, England, Germany, Denmark and Italy have been admitted to the benefits of the new law. For an American citizen to secure copyright in Great Britain, the title must be entered at Stationers' Hall, London, the fee for which is 5 shillings sterling; the work must be published in Great Britain simultaneously with its publication in the United States, and five copies of the publication are required.

A foreigner may secure copyright in France by depositing two copies of the publication at the Ministry of the Interior in Paris.

In Germany a foreigner must enter his work in the general registry book of copyrights at Leipzig, and have it published by a firm having its place of business within the German Empire.

Copyright in Canada is to be registered with the Minister of Agriculture, fee $1, the work to be published in Canada.

AMERICAN COPYRIGHT LEAGUE.—Secretary, R. U. Johnson, 33 East 17th-st., New-York.

TRADEMARKS.—These are registered at the Patent Office, Washington, D. C. The fee for registering trademarks is $25; labels, $6.

HOW TO DETECT COUNTERFEITS.

The principal defects of some of the counterfeits are given in the following notes from Dickerman's "United States Treasury Counterfeit Detector":

U. S. NOTES.—$1. A, B, C and D.: A poor counterfeit; portrait of Chase badly engraved; numbers of note poor and color bad; the small "ones" in border of note, on counterfeit, blurred and poorly engraved; lathework very bad. D—A poor counterfeit, and has the appearance of a woodcut; portrait of Washington and numbers exceedingly poor; back of note, many words are misspelled in panel. $2. B, C, D—Engraving very coarse; head of Hamilton poorly executed; imprint of bank note company imperfect. D, 1880—This counterfeit has the appearance of being printed from a wood-cut; is scratchy and coarsely engraved; many errors occur in spelling of words in border of note and elsewhere; Jefferson's name, under portrait (which has but one eye) is spelled Jeffrson. B, series of 1891—A poor counterfeit, printed from zinc etched plate; portrait of McPherson; plate and notes captured. $5. A, series 90—One of the convertible series; head of Hamilton and Statue of Liberty coarser than in the genuine; lines in lathework, upper right-hand corner, surrounding "5," cannot be traced; numbering poor. A D, series 70 and 77—A fair counterfeit; head of Hamilton well engraved; vignette of Statue of Liberty coarse; impossible to trace the lines in the lathework around the figure 5; another counterfeit of this plate bears "New Series." C, series of 1875—An excellent counterfeit, and liable to deceive; on genuine, upper left corner the series of 1875 is inclosed by flourishes 1875; on the counterfeit the flourishes are omitted; portrait of Jackson and vignette in centre coarser than on the genuine; imitation fibre paper. D, series of 1875—A fair counterfeit for the photographic process; this note is numbered B 8,058,-120; some of the notes are a trifle shorter than the genuine. $10. B C—A fair counterfeit, and calculated to deceive; the portrait of Lincoln has not that fine, clear, life-like expression that is seen on the genuine; the eagle is scratchy; the green ink used is a trifle darker than that used on the genuine; the lathework is defective, and the shading of the letters is coarsely executed. B C, series 19—A good counterfeit, closely resembling the genuine; the Treasury number is imperfect, the ink being a brick-red color, and the figures very uneven and imperfect; the portrait of Lincoln is very poor and does not resemble that of the genuine. B C D, series 52—A dangerous counterfeit and liable to deceive; it has had a very extensive circulation; on the top of the genuine there are 15 small X's on each side of the imprint of the American Bank Note Company; on the counterfeit there are 14 X's on the right and 16 on the left. A B C D, New Series 53—A dangerous counterfeit; the portrait of Lincoln is well engraved, closely resembling that of the genuine; the numbering is well done, the ink closely resembling that used by the Government; the lathework surrounding the 10's, in green medallion, is somewhat blurred and defective. C, Series of 1875—A good counterfeit; genuine notes of this series are printed on fibre paper; an attempt has been made to imitate the fibre by printing the lines in panel on back of note; portrait of Webster poorly engraved; lathework fair; numbering poor. $20. B C, Series 6—A good counterfeit; one of the convertible series; on the genuine, in large green figure 20, at the top and bottom of figures, can be seen small lines or dots, extending across the figures; on the counterfeit these dots are very indistinct; treasury numbers on counterfeit larger than in the genuine. A B C D, Series of 1875—A fine counterfeit at first sight, but will not bear close examination; portrait of Hamilton excellent, but the background lacks the fine lines to be found in the genuine, having been shaded with a brush; fibre paper imitated on back of note by pasting tissue paper over right panel. B, Series of 1875—An excellent counterfeit by the photographic and pen

and ink process; signed James Gilfillan, treasurer; no genuine notes of this denomination and series were signed by James Gilfillan as Treasurer. **$50.** C. Dated March 10, 1862—A poor counterfeit; numbers and lathework bad; engraving coarse, especially the portrait of Hamilton. A C D, dated March 10, 1863—A very dangerous counterfeit; engraving of portrait of Hamilton equal to the genuine; on genuine the white lines cross the lower portion of the figure 0 in large figures 50 in counters on each end of note; on counterfeit they do not; buttons on Hamilton's coat, in the counterfeit, very indistinct. A C D, dated March 10, 1863—This note is one of the most dangerous counterfeits ever issued; engraving excellent, numbering good, lathework fair; on genuine, back of note the small 50's in the border are surrounded by octagons; on the counterfeit they are circles; two of these circles on lower left end are run together, omitting the cipher, which makes the figures read 550. **$100,** B C, dated March 10, 1862—A fair counterfeit; vignette of eagle coarsely engraved, feathers of tail very indistinct; Treasury numbers larger than on the genuine; back of counterfeit, right of large circle, the figures 100 are reversed and read thus, 001; but few genuine notes of this denomination and issue are in circulation. **$500.** B C, Series of 1860—One of the most dangerous counterfeits in existence; the engraving and workmanship nearly equal to the genuine; the lathework is excellent, Treasury numbers fair and color of ink good; the star on the right of the Treasury number is somewhat blurred; the portrait of J. Q. Adams is excellent, but the lobe of the ear is very indistinct; in the counterfeit, the button upon the coat nearest the lapel is almost square; in the genuine it is round; the vignette of the figure Justice is finely engraved; the scale is held aloft in the left hand, the upright holding the beam is crooked, and is larger in the counterfeit than in the genuine; in the genuine the upright shows only to the lower part of the hand, while in the counterfeit it shows to the second finger from the base; the white curve in the arm is a perfect oval in the genuine, while in the counterfeit it is not; the left foot of the vignette, as it extends from the garment, presents a clubbed appearance in the counterfeit, while the toes are short and not one-half the length of the genuine; bankers and others should receive these notes with great care, as it is only by a comparison with the genuine that the majority of experts can positively decide as to the genuineness of a note of this class. **$1,000.** A B D, dated March 10, 1862, and March 10, 1863—A very dangerous counterfeit; engraving nearly equal to the genuine; a singular mistake was made in the genuine issue under this act, which the counterfeiters copied—that of dating the notes March 10, 1862, instead of 1863; this error was corrected in a subsequent issue of the genuine. The circles of 1,000 that surround the portrait of Morris are much more irregular on the counterfeit than on the genuine; on the counterfeit the face of Morris is more front view; on genuine the eyes cast more to the left.

SILVER CERTIFICATES.—**$1.**—No silk thread, **$2.** B—Lacks silk threads, large seal printed in different shades of color; a fourth issue bears the small carmine red seal. C—One-quarter inch too short; Hancock's head smaller and narrower than in genuine. **$5.** A—Silk thread imitated by line on back; Grant's portrait bad. D—Stud on Grant's shirt-front missing; in word "Pluribus" the "l" is missing. C, Series 1891—Grant's portrait poor, nose broad and flat; green on back has bluish tinge; geometric lines untrue and indistinct. **$10.** Series 1880—On back "all" in "and all public dues" omitted; or "Engraved and printed at the Bureau of Engraving and Printing" or small lettering on face omitted; lettering blotched, blurred and soiled. B, Series 1886—"This certifies that there have been deposited in the Treasury" omitted from top centre. **$10** and **$20**—Penwork counterfeits are numerous; Treasury number washes off **$10** D and **$20.** B, Series 1880—Color of seal disturbed by moisture. **$20.** C, Series 1880—A dangerous counterfeit; patent fibre paper imitated. C—In left panel R, T and F in word "certificate" upside down; on back, "taxes" and "engraved" spelled "tares" and "engravod."

GOLD CERTIFICATES.—**$20.** A, Series of 1892—A dangerous counterfeit, for, apart from the counter containing the figures 20 on the face and the portrait of Garfield, there is little of the gray of the photograph about it; the seal is small and scalloped, having a reddish tinge, apparently applied with brush; the numbering is very pronounced and heavier than the genuine; the surface of the note is one-half inch shorter and one-eighth of an inch narrower than the genuine. It has the two parallel silk threads running through it; the tint on back of note is light brown, while in genuine it is orange; persons handling gold notes must not forget that in this counterfeit they are left to determine its character by its tints rather than by the lines in the engraving, seeing it is a photograph of genuine work.

COMPOUND INTEREST NOTES.—**$50.** C, Series of 1864—A poor counterfeit; the shading of the letters "United States" very coarse and scratchy; the portrait and vignette poorly engraved; numbers on this counterfeit are poorly printed; genuine notes of this issue were all printed in large gilt letters; the notes were issued in 1864, and were to run three years at 6 per cent interest; the total amount issued of all denominations of these compound interest notes was $217,024,160; but few genuine notes of this series are now in circulation. **$100.** B, Series of 1865—A dangerous counterfeit; an impression of the back of the genuine plate was taken by a person in the employ of the Department, and electrotypes made from the same, and from these electrotypes the counterfeits were printed; the face of the note is exceedingly well executed; the words "Compound Interest Note" are printed in large gilt letters, in a parallel line lengthwise on the face of the note; the large "U" in "United" on the counterfeit touches, or nearly touches, the line surrounding the medallion in the upper left-hand corner of note; the final "s" in "States," on the genuine, is distant from the outside line surrounding medallion or counter about one-eighth of an inch, while on the counterfeit it is not one-sixteenth of an inch. The red ink

on the counterfeits is of a dark red color and does not resemble the carmine ink found on genuine notes; upward of $800,000 of these counterfeits were passed; nearly all the genuine notes of this issue have been retired.

U. S. BONDS.—**$1,000.** B 7.30—A remarkably dangerous counterfeit, so closely resembling the genuine that many were redeemed by the U. S. Treasury Department, and taken by leading banks and bankers throughout the country. Sixes of 1881—These counterfeit U. S. coupon bonds are exceedingly dangerous; observe closely the following description: In the 1,000 counter, composed of nine sections at each side of the portrait of Chase, it will be observed, in the section at the left of the lower half of the figure "1" in "1,000," the letter "S" in "Stat." is perfect in the counterfeit; in the original only the upper half of the "S" is seen. Also, to the right of the letter "s" in the word "registers" will be found a break in the hair-line surrounding the portrait of Chase, about one-sixteenth of an inch in length, which does not appear in the original. The counterfeit differs from the original in the mitering of the four corners of the green border. Near the extreme corner inside of the lathework border a uniform white figure in the shape of a heart, with the apex pointing toward the corners, will be observed, and this figure is the same on all four corners; in the original these figures are irregular, having no symmetrical form. In the words "are indebted unto," below the portrait of Chase, the heavy black line in the centre of the face of the first letter "a" is omitted in the counterfeit. In the title, "United States of America," the ruled shade on the left-hand side of the spur of the letter "U" at the bottom, on the counterfeit, is seven short lines, forming but a slight shade under that part of the letter, while in the genuine there are ten lines about one-sixteenth of an inch in length, forming a shade the same width as the shade at the bottom of the letter. On the right of the spur, at the bottom of the letter "U," in the counterfeit, in the ruled shade where it touches the bottom of the letter "n," four lines only touch the "n"; on the genuine seven lines touch the "n." On the counterfeit the shade on the right spur at the bottom of the letter "t" in "United," three lines touch the bottom of the letter "e"; on the genuine the shade does not touch the "e." The shading in the top loop of the first "s" in "States" fills the loop on the counterfeit, while on the genuine there is a slight blank space in the lower right-hand part of the loop. There is a blank space in the shading of the bottom loop of the same letter on the counterfeit, in the lower right-hand part; on the genuine the blank space is directly over the point in the bottom of the letter. On the lower loop of the second "s," in the counterfeit, the ruled shaded lines fill the whole loop, while in the genuine there is blank space free from ruling.

NATIONAL BANK NOTES.—**$1.** Nat'l Eagle Bank, Boston, red numbering inferior. **$2.** Nat'l Union, Kinderhook, N. Y., under check letter A at left are two flourishes instead of one; Linderpark, N. Y., no such bank; Market Nat'l, N. Y., only one flourish over AR in Market instead of three; Marine Nat'l, N. Y., "city of" omitted before New-York, black panel under title; Ninth Nat'l, N. Y., "the" after "of" omitted in title; St. Nicholas Nat'l, N. Y., "New-York" over date, July 1, 1865, in script instead of italics; Westchester Co. Nat'l, Peekskill, under left check letter A two flourishes instead of one; Nat'l of Rhode Island, imprint of Bank Note Company hardly legible. **$5.** C. Jewett City Nat'l, Norwalk Central Nat'l, series 1882; refuse all. First Nat'l, Aurora, Ill.; Central Nat'l, First Nat'l, German Nat'l, Chicago; First Nat'l, Paxton, Ill.; First Nat'l, Peru, Ill.; First Nat'l, Canton, Ill.; First Nat'l, Northampton, Mass.; refuse all signed S. B. Colby, Register of the Treasury; First Nat'l, Merchants' Nat'l, Traders' Nat'l, Chicago; Nat'l of Pontiac, Ill., vertical lines dividing vignette on back from coat of arms if continued down would pass between two 5s instead of cutting one. Union Nat'l, Chicago; Farmers' Nat'l, Virginia, Ill., refuse; May 10, 1865. Boylston Nat'l, Boston; Leicester Nat'l, First Nat'l St. Johnsbury, new process photograph. Globe Nat'l, Boston; Pocasset Nat'l, Fall River; People's Nat'l, Boston; Southbridge Nat'l, Montpelier Nat'l, Dedham Nat'l, green tint uneven and smeared; omitted in space at top where "National Currency" appears. First Nat'l of New-Bedford, Treasury and charter numbers and pink seal too bright. Merchants' Nat'l, New-Bedford; Hampden Nat'l, Westfield; Pacific Nat'l, Boston, vignette of Columbus imperfect; vertical lines at left of vignette on back would pass between figures instead of through one. First Nat'l, Cecil, Ill.; First Nat'l, Galena, Ill., no such banks. People's Nat'l, Jackson, Mich., coarse, defects numerous. Manufacturers' Nat'l, Amsterdam, N. Y., no shading inside first "a" in "Manufacturers'," face of man kneeling wild, not devout; in vignette on back line of horizon not distinct above head of Columbus. Nat'l of Pawling, N. Y., signatures of president and cashier printed, not written; Columbus's mustache straight instead of curved; "F" in word "Five" does not touch ornament in left upper corner. Fort Stanwix Nat'l, Rome, N. Y.; see Manufacturers' Nat'l, Amsterdam. Nat'l State, Troy, N. Y., signed "Jno. C. New, Treasurer of the United States," and bears at same time old pointed Treasury seal. First Nat'l, Hanover, Penn., "Act approved June 30, 1864," instead of "Act approved Feb. 25th, 1863." First Nat'l, Tamaqua, Penn., on back, "owing" spelled "ownig," and "thousand," "thousaud." First Nat'l, Milwaukee, Wis., poor counterfeit; color very bad. **$10.** NOTE. Most Indiana counterfeits are coarse, especially in vignette, lower left corner; in border, upper left end, "Currency" lettered in reverse and spelled backward. In most Pennsylvania, post in vignette, lower left corner, has no knothole or nick; no charter number.

In most of New-York, lathework irregular; in counters "10," right upper corner, face, small heart-shaped centres variable, work incomplete, title lines of banks irregular; in counters "TEN," left upper corner, heavy white line just above word

is continuous and touches top of E; no knothole quarter length of post from bottom. Lafayette Nat'l, of Ind., refuse any charter number except 2,213. Muncie Nat'l, of Ind., refuse any charter number except 793. Richmond Nat'l, of Ind., portion of eagle's wing covers bottom of "1873." First Nat'l, Atchison, Kan., refuse bank numbers 655 to 668 and Treasury numbers 679,929 to 679,942 inclusive. Germania Nat'l, New-Orleans, no silk threads, vignettes coarse and scratchy. Albany City Nat'l, City Nat'l, Poughkeepsie, Highland Nat'l, Newburg. Croton Nat'l, N. Y., see note. Auburn City Nat'l, in vignette, lower left corner; Franklin's kitestring not wholly visible. Merchants' Nat'l, Albany, refuse bank numbers 759 to 766 and Treasury numbers 45,195 to 45,202 inclusive. Farmers and Manuf'r's' Nat'l, Buffalo, no such bank. First Nat'l, Lockport, N. Y.; First Nat'l, Poughkeepsie, refuse all signed by S. B. Colby, Register of the Treasury. American Nat'l, Market Nat'l, Nat'l B'k of Commerce, N. Y.; Nat'l B'k of the State of N. Y., Union Nat'l, N. Y.; Flour City Nat'l, Rochester, N. Y., refuse all dated July 1, 1865. Croton Nat'l, N. Y., refuse all. Marine Nat'l, Mechanics' Nat'l., N. Y., refuse all whose title omits words "the city of." Mechanics' Nat'l, N. Y., signatures printed instead of written. Farmers and Man'f'rs' Nat'l, Poughkeepsie, "P" in title strikes "O" and extends below base of other letters. First Nat'l, Red Hook, N. Y., refuse all dated February 20, 1865. Central Nat'l, Rome, N. Y., refuse all dated May 12, 1865. Syracuse, N. Y., Nat'l, very dangerous; see note and compare back of bill with genuine. Mutual Nat'l, Troy, N. Y., eagle's wing covers bottom of "65." Saratoga County, N. B., Waterford, N. Y., refuse all bank number 1,048, Treasury number 810,516. Watkins Nat'l, Watkins, N. Y., refuse all dated Aug. 1, 1865. Third Nat'l, Cincinnati, no parallel silk threads, paper greasy and stiff, vignettes coarse and scratchy. First Nat'l, Philadelphia, refuse all dated Feb. 20, 1864. Third Nat'l, Philadelphia, see note; first "P" in "Philadelphia" extends below other letters. Nat'l B'k of Barre, Vt., refuse bank numbers 911 to 936, Treasury numbers 932,805 to 932,830 inclusive. $20. NOTE. —In most New-York counterfeits word "Loyalty" in vignette hardly legible. Liberty's toes missing, faces wild. In Conn., Ind. and Penn., foliage to right of "20," upper left end, bunchy and heavy; musket on ground in vignette seems to pierce leg of fallen man; eyes of kneeling woman mere dots. First Nat'l, Portland, Conn., First Nat'l, Indianapolis, see note. Atchison, Kan., refuse bank numbers 655 to 668, Treasury numbers 679,929 to 679,942. Merchants' Nat'l, Albany, refuse bank numbers 759 to 766, Treasury numbers 45,195 to 45,202 inclusive. First Nat'l, N. Y., refuse all dated July 19, 1865. Market Nat'l, Merchants' Nat'l, Nat'l B'k of Commerce, Nat'l Shoe and Leather, Tradesmen's Nat'l, N. Y., Oneida Nat'l, Utica, N. Y., refuse all signed "L. E. Chittenden, Register of the Treasury." City Nat'l, Utica, N. Y., no such bank; should be "Utica City Nat'l." Fourth Nat'l, Philadelphia, "a" in Philadelphia not crossed, "w" in "twenty," lower right end border face, shorter than other letters. Nat'l B'k of Barre, Vt., refuse bank numbers 911 to 936, Treasury numbers 932,805 to 932,830 inclusive. $50. NOTE.—In all these counterfeits, in upper right corner face, Victory's uplifted arm ends in stump without hand at bottom of shading of 5 in 50. On the back of New-York counterfeits, bandage crosses forehead instead of eyes of Justice in State coat-of-arms. Third Nat'l, Buffalo, none genuine bearing other charter number than 850, or signed "L. E. Chittenden, Register of the Treasury." Central Nat'l, N. Y., refuse al except charter number of 376; none genuine signed "L. E. Chittenden," etc., and having imprint of Bureau of Engraving and Printing in left upper corner. Mechanics' Nat'l, N. Y., refuse all except charter number 1,250. Metropolitan Nat'l, N. Y., refuse all except charter number 1,121. Nat'l B'k of Commerce, refuse all except charter number 733, all signed "J. L. Everett, Cashier," and "F. L. Palmer, President," all having other check letter than "a" and all dated January 10, 1865. Nat'l, Broadway, N. Y., see note; the genuine bill bears check letter "a." Tradesmen's National, N. Y., see note. Union Nat'l, N. Y., refuse all bearing other charter number than 1,278, all signed "L. E. Chittenden," etc., and all dated April 15, 1864. $100, First Nat'l, Boston, "Maintain," under Liberty's hand in sunburst, spelled "mainain," sailor's mouth closed instead of partly opened, on back comma omitted after "it," line 2 and "printed," line 4; under "Boston," large panel face, four flourishes omitted. Nat'l Revere, Boston, "N" of "National Currency" 1-16 of an inch from border scroll ornament, sailor's mouth wide open, space between edge of Liberty's wing and shading of "C," right under corner, 1-32 inch instead of 1-16. Merchants' Nat'l, New-Bedford, hair line under president's name, if extended, would strike middle of "r" in "Cashr."; see Nat'l Revere, Boston. Pittsfield Nat'l, Mass., lower loop of "s" in Colby's signature does not touch sail of frigate; see Nat'l Revere. Nat'l Exchange, Baltimore, small heart-shaped figure at left of panel "Baltimore," shows eight lines instead of seven; see Nat'l Revere, Central Nat'l, N. Y., four flourishes under panel "City of New-York" omitted; see First Nat'l, Boston. Ohio Nat'l, Cincinnati, white line around panel inclosing Cincinnati broader than those in body of panel; see First Nat'l, Boston. Nat'l B'k of Commerce, Pittsburg, cashier's name printed; see Nat'l Revere, Boston. Second Nat'l, Wilkesbarre, Penn., names of officers of bank printed; see Nat'l Revere, Boston.

NUMBER OF COLORED PEOPLE EMPLOYED IN EACH DEPARTMENT, AND THE SALARIES PAID.

From a statement of Hon. John M. Langston, in "The Public Service" of October 22, 1892:

I find much on which to congratulate the colored race when I consider the advances they have been making during the last several years. Some time ago I began the collection of data showing the number of colored people employed in the public service. I have been gratified by both the number and character of the places they occupy. The figures I have gotten are as follows:

Executive Mansion.—Five colored people, with an aggregate salary of $5,880.

Public Buildings and Grounds.—The Commissioner employs 53 colored people, whose salary amounts to $21,234.

Department of State.—Four Consuls, with salaries from $1,000 to $2,000 yearly, $5,500; five messengers, $660 to $840, $3,660; seven laborers at $660, $4,620.

Treasury Department.—Total employes, excluding Coast Survey and Bureau of Engraving and Printing, 168; Engraving and Printing, 146; Coast Survey, 17; total, 331. There are also three Collectors of Customs, who get a salary aggregating $9,048 22, making a total amount of $229,219 22 paid to colored employes in the Treasury Department.

Interior Department.—The number of persons therein (colored), 354; paid total of $284,208 11.

Hon. Blanche K. Bruce, the Recorder of Deeds of the District of Columbia, is paid in fees, estimated at $18,000 per annum.

Total, actual and estimated, $302,208 11.

War Department.—Number of persons (colored) employed therein, 173; paid per annum, $116,680. Total of 174; paid $116,340.

Navy Department.—The number of persons (colored) employed in this Department is 41, 38 of whom are paid per annum $25,828 50.

Department of Justice.—The number of persons (colored) employed in this Department is 8, and paid $6,040.

In the War and Navy Departments and the Department of Justice the employes referred to are solely in the Executive Department in Washington.

Postoffice Department.—The number of colored employes in this Department proper is 70, paid $49,540; number of such persons in mail-bag repair shops, 42; paid $18,480; total, $68,020.

Department of Agriculture.—Number of colored persons in this Department, 37; paid $19,760.

Smithsonian Institution—Employs 29 colored persons, paid $14,880.

Public Printing Office.—The Public Printer employs 204 colored persons, at $138,831 15 per annum.

United States Senate.—Employs 36 colored persons, paying them $27,175.

House of Representatives.—Capitol police and architect's office employ 27 colored men, and pay them $20,820 per annum.

The librarian of the House is a colored man, and receives $2,000 a year.

Library of Congress.—Employs 4 colored persons, and pays them $4,120 per annum.

Commissioners of the District.—As estimated by the secretary of the Board of Commissioners, colored persons are largely employed (about 1,000) in the District government, in its various branches of service, as laborers, clerks, teachers of schools, superintendents, assessors, etc., and in large numbers, to whom are paid for their services annually a total of $304,428.

Office of Recorder of Deeds, District of Columbia.—Upon his regular roll the Recorder of Deeds employs 14 colored clerks, and upon his temporary roll 5, making in all 19. These clerks are paid in fees, depending upon the volume of business done for the amount paid them, earning monthly from $40 to $100.

Washington City Postoffice.—Employs 68 colored persons, at salaries aggregating $40,900 per annum.

Diplomatic, Consular and Congressional Record.—Since 1869 16 colored persons have been appointed to diplomatic and consular positions by different Republican administrations.

When the Hon. John R. Lynch, of Mississippi, Fourth Auditor of the Treasury, was appointed to office in 1889, there was only 1 colored man in the bureau holding a position higher than that of laborer. But under Mr. Lynch's administration there have come into this office 5 colored clerks, getting salaries ranging all the way from $1,000 to $1,600 a year, and one colored chief of division, with a salary of $2,000 a year. Four of these clerks have been promoted in grade of work and salary since their connection with Mr. Lynch's bureau.

Previous to the present Administration there had never been a colored girl employed as a printer's assistant in the Bureau of Engraving and Printing. The first one was certified in February, 1890.

In the Executive Departments and other branches of the Government in Washington there were employed 2,393 colored people, who receive an annual salary aggregating $1,370,623 98.

In addition to the above, the Commission learns that in the Treasury Department there are 2 immigrant inspectors at $4 per diem, and 1 chief of division at $2,000; and in the Interior Department the Recorder of the General Land Office, at $2,000.

GROWTH OF THE SERVICE OF THE UNITED STATES.

In 1817 the whole number was 5,608, of whom 3,656 were in the postal service.

In 1850 there were 32,592 employes.

In 1867 there were over 60,000; in 1877 about 85,880; in 1879 about 96,140.

Of the total arrivals 159,386 were females, 80,577 were under fifteen years of age, 311,531 were between fifteen and forty, and 47,622 were forty and over. Of the occupations represented 114,295 were laborers, 34,070 were farmers, 209,767 had no occupation, and the balance, 80,598, represented forty-three trades and professions. There were 141,034 less immigrants arriving during the fiscal year ending June 30, 1893, than in the preceding fiscal year. This large decrease is attributable in great part to the prevalence of cholera in Europe. The greatest decrease was from Russia, Hungary, Poland and Bohemia.

The largest amount of gold, gross, ever held in the Treasury was in September, 1888, when the total was $332,551,305; at that time, however, there were $134,838,190 gold certificates in circulation, making the net gold owned by the Government $197,713,115. The largest amount of net gold in the Treasury at any time was $218,818,253, in March, 1888. Then the Government had $310,772,202 gold in the Treasury, but had issued against it $91,953,949 certificates. The largest amount of gold certificates in circulation at any time was $163,178,959, in January, 1892, which left the Government owner of only $119,574,904 gold, although having in its Treasury $282,753,863 gold gross. Between August, 1891, and January, 189 in spite of the fact that there was a increase of nearly $42,000,000 in th gross amount of gold in the Treasur there was a decrease of nearly $13,000,0 in the net gold, because there wer $55,000,000 of gold certificates issued. the last few months the Government ha succeeded in keeping most of its gold, b refusing to issue gold certificates. The are now $70,000,000 less certificates ou standing than in January, 1892, and $24 000,000 less than at the beginning of th current year. It will not be surprisin if Congress takes some step to prevei the draining of gold from the Treasur by the employment of gold certificates.

PENSION OFFICE PROCEDURE.

ENSION LEGISLATION—The present sion system has been built up between ? and 1890. In that time sixteen acts e been passed, fifteen of which may be sified as an extension of the original sion Law to fit the necessities of on Veterans. The sixteenth is the it Dependent Pension Law. Most of pensions range between $2 and $30 a th for privates, though $72 a month is nted to those who have lost both ds, both feet and both eyes.

ETHOD OF APPLICATION—The step toward securing a pension un- the law of June 27, 1890, generally wn as the Dependent Pension Law, is pply to the Commissioner of Pensions, ing forth the military or naval ser- of the applicant, and the nature and racter of his disabilities. The appli- t must be identified by two wit- ses. When the application is filed in Pension Office he is informed of the t, and is then ordered to go before a sion Board of Surgeons for physical mination. If a disability is found icient to entitle him to a pension, he one on the report of the Board, or the report of the Board his applica- is rejected. Widows are required to ke application in the same form. With application they must furnish proof marriage to the soldier or sailor by a verified transcript from a church or other public record, if one exists, or by affidavits of the clergyman or magistrate who performed the ceremony, or by affidavits of two witnesses of the marriage, or by the record of the baptism of children. There must be evidence of witnesses that the widow has not married since her husband's death and that she depends on her daily labor for support. If she or her husband had been previously married, the date of death or divorce of former husband or wife must be cited. The widow must also prove the death of the soldier, and, if enlisted under an assumed name, must prove his identity.

CHILDREN AND PARENTS—Children under sixteen and dependent parents are entitled to pensions under the law, but must show by the evidence of comrades or officers that the soldier's or sailor's death was due to his services.

RECONSIDERATION—On the evidence of two physicians that disability exists, an application rejected by a Board of Pension Surgeons may be reconsidered. In this case the applicant is ordered to go before another board of surgeons.

Procedure under the original Pension Law is similar to that outlined above, though the requirements for identification are more rigid.

THE TRIBUNE FRESH AIR FUND.

Organized in 1877, its object being to send children of the New-York poor into the country for a summer vacation of two weeks. Hospitable country people receive them, not as boarders, but give them food and lodging and freedom of the country grounds. More than 125,000 children have had the benefits of this fund, at an average cost of $2 50. The fund is dependent upon voluntary contributions. The following table shows a continued and steady growth of the work from the beginning:

INTEROCEANIC CANALS.

NICARAGUA.—The Maritime Canal Company of Nicaragua, capital $100,000,000 (which may be doubled), was incorporated under a charter granted by Congress in 1889. It had previously secured from the Nicaragua Government the exclusive right to construct and operate an interoceanic ship canal. On October 8, 1891, excavation was begun at San Juan del Norte, or Greytown. The total length of the proposed waterway is 169 2-3 miles, of which 28.89 miles represent canal in excavation. The minimum depth is 30 feet. From Greytown to Ochoa there will be 17.17 miles of excavated canal and 15 miles of free navigation in natural basins, with three locks; from Ochoa, 120.50 miles of free navigation in the San Juan River and Lake Nicaragua; from the lake to Brito, on the Pacific Coast, 5.28 miles of free navigation in a natural basin and 11.72 miles of excavated canal, with three locks. The great reservoirs of Lakes Nicaragua and Managua furnish an adequate high-level water supply. A considerable part of the canal has been opened, but the company suffered under the general depressed monetary conditions with others, and was obliged first to limit its expenditures, and finally to suspend all payments. This resulted in the appointment of a receiver, when measures were at once taken to reorganize the company upon a strong financial basis, providing for the liquidation of its debts and the active prosecution of work, under its contract, in the immediate future. These measures are now well under way, with every assurance of a successful issue. Ex-Senator Warner Miller resigned the presidency, and Vice-President Davis also resigned on November 15, Smith M. Weed being elected to succeed the latter.

PANAMA.—The Panama Canal Company was organized March 3, 1880, and under the concession obtained from the Colombian Government was to construct and open the canal by March 3, 1892. The face value of the shares issued was approximately $500,000,000, but after $266,000,000 had been sunk the company, in 1889, became bankrupt. The total length of the proposed waterway is 45½ miles, and the work actually done is variously estimated at one-third, one-fifth and one-tenth of the whole. Under the original contract the completed fraction with all permanent plant would have reverted to the Colombian Government on March 3, 1892. Lieutenant Wyse, however, obtained in 1891 an extension of the concession for ten years, provided a new company should be organized by February 28, 1893, with sufficient capital to resume work "in a serious and regular manner." Otherwise the Colombian Government will seize the property and receive bids for its completion, without reference to the claims of the first investors. The original plans for a tide-level canal have been altered so as to provide locks and cheapen the construction. The estimates of the cost of completion range between $100,000,000 and $200,000,000. In November, 1892, the French Procureur-General instituted criminal proceedings on behalf of the Government against the leading officials of the canal company. Henri Cottu was arrested on December 31, 1892, and then followed the arrest of several other men of prominence. Charles de Lesseps, son of Ferdinand de Lesseps, the constructing engineer, and others, at the preliminary hearing on January 7, attributed the failure of the canal to "blackmailers who had taken the company by the throat and compelled it to buy the support and aid of Ministers, Senators, Deputies, and private persons moving in high life"; also "persons in collusion in a nefarious squandering of the funds furnished by shareholders, which they divided

among themselves." The Advocate-General, in reviewing the history of the canal at the beginning of the trial on January 17, declared that the capital of the company was so laid open that 700,000,000 francs were squandered; that everybody was bribed who could be reached by bribery; that the press was induced by systematic purchase to give its support to the lottery scheme; that fraudulent contracts were made with Eiffel, builder of the Exposition tower in 1889, and others, and that thousands of thrifty workers had been reduced to poverty by the swindling operations. On January 27 indictments were found against F. de Lesseps, Senators Grevy, Beral, Deves and Renault; ex-Ministers Baihut and Rouvier; ex-Deputies Gobron and Sans Leroy; Deputies de la Fauconniere and Prevost; M. Blondin, Henri Cotta, C. de Lesseps and Marius Fontane. Some of these escaped punishment, but the following were convicted and sentenced: February 9, F. de Lesseps and Charles de Lesseps, each five years and 3,000 francs fine; MM. Fontane and Cotter, each two years and 3,000 francs; M. Eiffel, two years and 20,000 francs. March 21, M. Baihut, five years and 75,000 francs, and M. Blondin, two years. On February 15, M. Le Quay was sentenced to five years and 3,000 francs, and M. Prevost to three years and 100 francs. M. Reinach afterward committed suicide. Cornelius Herz, one of the most prominent in the scheme, was arrested in England on January 20, but the prosecutors have not been able to get him back to France.

BEHRING SEA SEAL FISHERIES.

The Commission of Arbitration on the Behring Sea controversy between the United States and Great Britain had its origin in a treaty negotiated between President Harrison, representing the United States, and Lord Salisbury, in the name of Great Britain, through Mr. Blaine, the American Secretary of State, and Sir Julian Pauncefote, the British Minister at Washington. This treaty, consisting of a preamble, and fifteen articles, was submitted to the Senate for ratification on March 9, 1892, and, with two slight amendments, was ratified on March 29, 1892. The treaty provided that the Tribunal (for names see page 93) should meet in Paris within twenty days after the deliverance of the countercase mentioned in Article 4), hence it convened on February 23, 1893, and adjourned to March 28, when it began and held daily sessions. The discussions and arguments of arbitrators and counsel were thorough and exhaustive, until on August 15 the Tribunal reached a decision and adopted regulations establishing a close season in Behring Sea and the North Pacific Ocean, to begin on May 31 and to end on July 31; establishing a protected zone, extending for sixty miles around the islands; permitting pelagic sealing outside this zone in Behring Sea after August 1, and forbidding the use of firearms, nets, explosives, and of steam vessels in sealing.

The treaty, as ratified by the United States Senate in March, 1892, was as follows:

Article 1 provided that the questions mentioned in the preamble should be submitted to a tribunal of arbitration to be composed of seven arbitrators—two to be named by the President of the United States, two by Her Britannic Majesty; the President of the French Republic was to be requested to name one, the King of Italy to name one, and the King of Sweden and Norway to name one. The seven arbitrators were to be jurists of distinguished reputation in their respective countries.

Article 2 provided that the arbitrators should meet in Paris within twenty days after the delivery of the countercase mentioned in Article 4; all questions, including the final decision, to be determined by a majority of the arbitrators. Each of the contracting parties was also to name one person to attend the tribunal as its agent.

Article 3 provided that the printed case of the two parties and all evidence should be delivered in duplicate to each of the arbitrators and agents within three months of the date of the exchange of ratification of the treaty.

Article 4 provided that within three months following each party might likewise deliver a countercase and additional evidence in reply to the other party.

Article 5 required the agents within one month after the delivery of countercases to deliver printed arguments to the arbitrators, and either party might support the same by oral argument by counsel.

Article 6 named five points which should be submitted to the arbitrators in order that the award might embrace a decision upon each of the points. The points were as follows:

1. What exclusive jurisdiction in the sea known as the Behring Sea and what exclusive rights in the seal fisheries therein did Russia assert and exercise prior and up to the time of the cession of Alaska to the United States?

2. How far were these claims of jurisdiction as to the seal fisheries recognized and conceded by Great Britain?

3. Was the body of water now known as the "Behring Sea included in the phrase "Pacific Ocean," as used in the treaty of 1825 between Great Britain and Russia; and what rights, if any, in the Behring Sea were held and exclusively exercised by Russia after said treaty?

4. Did not all the rights of Russia as to jurisdiction and as to the seal fisheries in Behring Sea east of the water boundary, in the treaty between the United States and Russia of the 30th of March, 1867, pass unimpaired to the United States under that treaty?

5. Has the United States any right, and if so, what right, of protection of property in the fur seals frequenting the islands of the United States in Behring Sea when such seals are found outside the ordinary three-mile limit?

Article 7 provided that if the determination of those questions should leave the

subject in such position that the concurrence of Great Britain was necessary to the establishment of regulations for the protection of the seal, the arbitrators should determine what concurrent regulations were necessary and over what waters they should extend. Both parties agreed to co-operate to secure the adhesion of the other powers to such regulations.

Article 8 recited that the parties had been unable to agree upon a reference of the question of liability for the injuries sustained in connection with the claims presented, and agreed that, in order not to delay arbitration, they might thereafter submit to the arbitrators any question of fact involved in such claims, and ask for the findings thereon, the question of liability to be the subject of further negotiation.

Article 9 recited the agreement by the parties to appoint two commissioners (who had already completed their work) to make the investigation contemplated in Article 7, and included the terms of the agreement on that point.

Article 10 provided that each Government should pay the expenses of its commissioners.

Article 11 stipulated that the decision of the tribunal should, if possible, be made within four months from the close of argument on both sides.

Article 12 provided that each Government should pay its own agent and expenses of counsel and the arbitrators appointed by it. Other expenses were to be divided equally between them.

Article 13 required the arbitrators to keep a record of their proceedings and employ necessary officers.

Article 14 bound the high contracting parties to consider the proceedings of the tribunal as a full, perfect and final settlement of all the questions referred.

Article 15 (the last) provided for the ratification of the treaty by the President, by and with the advice and consent of the Senate, and by the Queen, and the exchange of ratifications at Washington or London within six months from its date, or earlier if possible.

DECISION OF TRIBUNAL.

After a preamble stating the case submitted for decision, the full text of the award runs as follows:

"We decide and determine as to the five points mentioned in Article VI, as to which our award is to embrace a distinct decision upon each of them.

"As to the first of said five points, we, Baron de Courcel, John M. Harlan, Lord Hannen, Sir John S. D. Thompson, Marquis Emilio Visconti-Venosta and Gregers W. W. Gram, being a majority of said arbitrators, do decide as follows:

"By the ukase of 1821 Russia claimed jurisdiction in the sea now known as Behring Sea to the extent of 100 Italian miles from the coasts and islands belonging to her, but in the course of the negotiations which led to the conclusion of the treaty of 1824 with the United States and the treaty of 1825 with Great Britain Russia admitted that her jurisdiction in said sea should be restricted so as to reach a cannon-shot from shore. It appears that from that time up to the time of the cession of Alaska to the United States Russia never asserted in fact or exercised any exclusive jurisdiction in Behring Sea, or any exclusive rights to the seal fisheries therein, beyond the ordinary limit of territorial waters.

"As to the second of the five points, we, Baron de Courcel, John M. Harlan, Lord Hannen, Sir John S. D. Thompson, Marquis Emilio Visconti-Venosta and Gregers W. W. Gram, being a majority of said arbitrators, decide and determine that Great Britain did not recognize or concede any claim upon the part of Russia to exclusive jurisdiction as to the seal fisheries in Behring Sea outside the ordinary territorial waters.

"As to the third point, as to so much thereof as requires us to decide whether the body of water now known as Behring Sea was included in the phase 'Pacific Ocean,' as used in the treaty of 1825 between Great Britain and Russia, we unanimously decide and determine that the body of water now known as Behring Sea was included in the phrase 'Pacific Ocean' as used in said treaty.

"On the fourth point we decide and determine that all the rights of Russia to jurisdiction and to the seal fisheries passed to the United States limited by the cession."

On the fifth point the decision of the Tribunal, Justice Harlan and Senator Morgan dissenting, was as follows:

"On the fifth point, we, Baron de Courcel, Lord Hannen, Sir John S. D. Thompson, Marquis Emilio Visconti-Venosta, and Gregers W. W. Gram, being the majority of said arbitrators, decide and determine that the United States have no right to the protection of, or property in, the seals frequenting the islands of the United States in Behring Sea when the same are found outside the ordinary three-mile limit.

"And, whereas, the aforesaid determination of the foregoing questions as to the exclusive jurisdiction of the United States leaves the subject in such a position that the concurrence of Great Britain is necessary to the establishment of regulations for the proper protection and preservation of fur seals habitually resorting to Behring Sea, we, Baron de Courcel, Lord Hannen, Marquis Emilio Visconti-Venosta and Gregers W. W. Gram, being a majority of the arbitrators, assent to the whole of the nine articles of the following regulations as necessary outside of the jurisdiction limits of the respective Governments, and that they should extend over the waters hereinafter mentioned:

"Article I. The United States and Great Britain shall forbid their citizens and subjects respectively to kill, capture or pursue, at any time or in any manner whatever, the animals commonly called fur seals, within a zone of sixty miles around Pribyloff Islands, inclusive of the territorial water, the miles being geographical miles, sixty to a degree of latitude.

"Article II. The two Governments shall forbid their citizens or subjects to kill, capture or pursue in any manner whatever, during a season extending in each year from May 1 to July 31, inclusive, fur seals on the high sea in that part of the Pacific Ocean inclusive of Behring Sea, situated north of the 35th degree of north latitude, or eastward of the 180th degree of longitude from Greenwich until it strikes the water boundary described

in Article I of the treaty of 1867 between the United and Russia, following that line up to Behring Straits.

"Article III. During the period of time in the waters in which fur sealing is allowed only sailing vessels shall be permitted to carry on or take part in fur sealing operations. They will, however, be at liberty to avail themselves of the use of such canoes or undecked boats propelled by paddles, oars or sails as are in common use as fishing boats.

"Article IV. Each sailing vessel authorized to carry on fur sealing must be provided with a special license issued for the purpose by its Government. Each vessel so employed shall be required to carry a distinguishing flag prescribed by its Government.

"Article V. The masters of vessels engaged in fur sealing shall enter accurately in an official log-book the date and place of each operation, the number and the sex of the seals captured daily. These entries shall be communicated by each of the two Governments to each other at the end of each season.

"Article VI. The use of nets, firearms or explosives is forbidden in fur sealing. The restriction shall not apply to shotguns when such are used in fishing outside of Behring Sea during the season when such may lawfully be carried on.

"Article VII. The two Governments shall take measures to control the fitness of the men authorized to engage in sealing. These men shall have been proved fit to handle with sufficient skill the weapons by means of which seal fishing is carried on.

"Article VIII. The preceding regulations shall not apply to Indians dwelling on the coast of the territories of the United States or Great Britain carrying on fur sealing in canoes or undecked boats not transported by or used in connection with other vessels and propelled wholly by paddles, oars or sails, and manned by not more than five persons in the way hitherto practised by the Indians, provided that such Indians are not employed by other persons, and provided that when so hunting in canoes or undecked boats the Indians shall not hunt fur seals outside the territorial waters under contract to deliver skins to anybody. This exemption is not to be construed to effect the municipal law of either country, nor shall it extend to the waters of Behring Sea or the waters around the Aleutian Islands. Nothing herein contained is intended to interfere with the employment of Indians as hunters or otherwise in connection with sealing vessels as heretofore.

"Article IX. The concurrent regulations hereby determined with a view to the protection and preservation of the fur seals shall remain in force until they have been wholly or in part abolished or modified by a common agreement between the United States and Great Britain. Said concurrent regulations shall be submitted every five years to a new examination in order to enable both governments to consider whether in the light of past experience there is occasion to make any modification thereof."

The restrictions placed on sealers with reference to firearms, nets, explosives and steam vessels will have the effect, it is believed, of causing Canadian sealers to resort to desperate methods to secure good catches, and much poaching is feared. In the close season, during the months of May, June and July, both Great Britain and the United States will be obliged to maintain a fleet of naval vessels to keep poachers from the sealing waters, and it is believed at the Navy Department that this will result in the establishment of a permanent Behring Sea squadron for duty during the three months named. The United States will also be obliged to maintain a watch on the waters within the sixty-mile zone around the Pribyloff Islands during the entire mild season from the first of April to the first of September, and it is probable that this duty will be discharged by vessels of the Revenue Marine service.

As the United States had not published the official proceedings when the above was written, this may be noted as "unofficial," although it is taken from the reports of the Tribunal.

THE WORLD'S FAIR.

The World's Columbian Exposition was created by act of Congress, April 25, 1890, nearly five months after President Harrison's message to Congress, in which he said: "The proposition to observe the 400th anniversary of the discovery of America by the opening of the World's Fair or Exposition in some one of our great cities will be presented for the consideration of Congress. The value and interest of such an exposition may well claim the promotion of the General Government." In accordance with the provisions of the act the National Commission was composed of eight Commissioners-at-Large and corresponding alternates, one from the District of Columbia, and two from each State. In the mean while, on April 10, the Illinois Legislature incorporated the World's Columbian Exposition, which was composed of stockholders and who were represented by forty-five directors. Later the Board of Lady Managers and the World's Congress Auxiliary were appointed. These four boards had distinctive branches to control, and after the conference committees of the National Commission and of the Directory had decided upon the various departments, the final order was given, late in January, 1891, to the following designers to draw the plans for their work: F. L. Olmsted & Co., landscape architects; Richard M. Hunt, Administration Building; Peabody & Stearns, Machinery Hall; McKim, Mead & White, Agriculture Building; George B. Post, Manufactures and Liberal Arts Building; Van Brunt & Howe, Electricity Building; S. S. Beman, Mines and Mining Building; Adler & Saulding, Transporta-

tion Building; Henry Ives Cobb, Fisheries Building; Burling & Whitehouse, Venetian Village; W. L. B. Jenny, Horticultural Building. A month later Miss Sophia C. Hayden, of Boston, who had won the first prize in the competition among women architects for the Woman's Building plans, was selected as the architect, and made the designs and superintended the construction. The construction work of the buildings began on July 2, 1891, and on October 21, 1892, the Exposition grounds and buildings were formally presented by President Higinbotham, of the World's Columbian Exposition Directory, to President Palmer, of the National Commission, and were dedicated, with appropriate ceremonies, in the Liberal Arts Building, by Levi P. Morton, Vice-President of the United States, acting for President Harrison. The following is a description of the buildings:

Nearly every State in the Union made appropriations for State buildings or State exhibits, and there were no less than thirty-eight separate State buildings on the grounds. The subjoined table shows how the States and Territories responded by contributions:

Alabama	$35,000	Maryland	$60,000	Oregon	$60,000
Arizona	30,000	Massachusetts	175,000	Pennsylvania	360,000
Arkansas	55,000	Michigan	275,000	Rhode Island	57,500

In the fall of 1891 it became evident that the Exposition would cost more than was estimated, and that aid would be necessary to bring the plans into fruition; it was decided to ask Congress either for a loan similar to one made by Chicago, or an outright gift of $5,000,000. The latter was ultimately asked for, and on February 24, 1892, President Harrison laid the proposition before Congress. Then was developed the strength of the Sunday-closing advocates, and so powerful was it in Congress as to block all measures, and it was not until August 3 that the appropriation of $2,500,000 was agreed upon as a compromise, and two days later the bill was passed authorizing an outright gift of $2,500,000 in souvenir coins, to be made from the old subsidiary coin in the Treasury.

Next in importance came the dedication day, and following that the day of official opening, May 1, 1893. Amid unparalleled enthusiasm President Cleveland pressed an electric button at 12:04 p. m. on May 1, the mighty machinery leaped into action, hundreds of flags unfurled simultaneously, and 128,965 persons saw the World's Columbian Exposition opened to the world. The month of May was almost entirely devoted to installation and to bringing the grounds into perfection. It also brought to the surface any amount of discouragements. Those in charge found problems to encounter and to dispose of with the greatest of care and consideration, and the weeks of dreary drizzle following kept down the gate receipts and the spirit of the directors. Chaos reigned supreme in all the buildings, and those who were busy arranging their exhibits interfered with the visitors, who were equally annoying to the exhibitors. The Ferris Wheel was one of the features of the Exposition, it being 264 feet in diameter; and a fact which will go down in its history was the marriage in one of its cars, at the top, of James D. Hutchinson to Lottie Zickler, on October 24. This wheel made a profit to the owner of about $250,000, after deducting $300,000 for its cost, and 50 per cent of the admissions paid to the Commission. The total amount received from the sale of souvenir coins was $1,929,120. Among the expenses were: For construction, $17,944,742; fire protection, $231,468; Columbian Guards and secret service, $982,138.

One of the most complex subjects that the management had to contend with was the Sunday question. It had rung all the changes of Congress, the religious bodies and the press. The contest was a long and bitter one in the National Commission, the Directory and the courts. The first Sunday passed with the gates kept closed. On Friday, May 12, the Legislative Committee of the Directory reported in favor of Sunday opening, and to refund the appropriation conditionally made by Congress. The National Commission opposed the proposition and suggested to send for the Government troops to prevent the gates being opened. Then an application was made to the Superior Court to enjoin the Directory from closing the gates, which was granted. The Attorney-General of the United States then sought an injunction in the Federal courts restraining the Fair officials from opening the gates on Sunday, but, acting under the rules adopted by the Directory on May 16, the Fair was opened on May 28 for the first time on Sunday, the admissions being 69,268. On June 8 a temporary injunction was granted upon the application of the Attorney-General, which, however, was not sustained by Chief Justice Fuller, and Justices Bunn and Allen, by whom the final decision was made on June 15. The Sunday attendance dropped off, and it became a matter of grave importance whether the protests against Sunday opening should not be regarded. In other words, Sunday opening did not pay, consequently the Council of Administration on July 22 ordered the gates closed on the following Sunday, July 23. On the 24th Judge Stein summoned the Director-General and Directors Hutchinson, Gage, McNally, Kerfoot and Lawson before him for contempt of court in disregarding his injunction of May 14, and fined the Director-General $250 and others $1,000 each. This was appealed from to the United States Appellate Court, which postponed the hearing until after the close of the Fair. This made it impossible to close the gates on Sunday, and the Fair was open every day thereafter.

The closing day of the Exposition was to have been Columbus Day, with a blaze

of pyrotechnic glory by day and by night; with pageants on land and water, music and addresses. But the assassination of Mayor Carter Harrison changed the programme of October 30 to a scene of gloom and general public mourning. The festive exercises were abandoned and memorial services took the place of a grand celebration; from turret, dome, spire and staffs of the Exposition palaces hung the emblems of the various nations at half-mast, the second time since the Exposition was opened, the first time being in memory of those who perished at the burning of the Cold Storage Building. This disaster occurred on July 11, in which fifteen firemen and guards lost their lives.

The following table shows the number of admissions to the Chicago Exposition, as compared with those at the Centennial (at Philadelphia) and Paris Expositions:

Of the total in the Chicago column 6,051,988 were free admissions, leaving 21,477,412 who paid to pass through the gates. The "free admissions" do not imply that that number of people had passes, for the reason that workingmen, exhibitors and others would pass in and out, in some cases, several times in the day. It is practically impossible to make any comparison with the Paris Exposition on anything like an equitable basis, for the reason that at Paris the prices of admission varied with the days of the week and other conditions. At the Centennial Exposition seven Saturdays were set apart on which the price of admission was reduced from 50 to 25 cents. The only cut rate at Chicago was for the week ending October 21, when the public school children had a holiday week, and the price of admission for all children under eighteen was reduced from 25 to 10 cents. The total number of children who took advantage of this was 316,066. The World's Exposition was open 179 days; Centennial Exposition, 159 days, and the Paris Exposition 179 days. The following members of the Commission, including President Palmer, were appointed to compile, edit and publish a history of the Exposition: General J. W. St. Clair, West Virginia; O. V. Tousley, Minnesota; A. P. Butler, South Carolina; George V. Massey, Delaware; John B. Thacher, New-York; P. H. Lannan, Utah, and Euclid Martin, Nebraska.

The Exposition act also provided for a naval rendezvous at Hampton Roads and a naval review in New-York Harbor. The following naval Powers were represented in these ceremonies: United States, 18 vessels; Great Britain, 4 vessels; France, 3 vessels; Italy, 2 vessels; Russia, 3 vessels; Germany, 2 vessels; Spain, 3 vessels; Holland, 1 vessel; Brazil, 3 vessels; Argentine Republic, 1 vessel. In addition to the above there were in the review the Santa Maria, Nina and Pinta, prototypes of the caravels composing the fleet of Columbus when he sailed from the harbor of Palos on August 3, 1492, on his memorable quest, which resulted in the discovery of America. The fleet, after several days' stay at Hampton Roads, an interval of exuberant life and unwearying festivities for both visitors and citizens, sailed from there on April 24 and reached Sandy Hook on the next day. On the 26th the ships, in two unbroken columns, passed up to their anchorages in the North River in stately parade, and made ready for the review by President Cleveland, which took place on the following day. On the day after the review the marines and sailors, to the number of 4,000, from the American and foreign ships-of-war, had a land parade down Fifth-ave. and Broadway, and were reviewed by Governor Flower, Mayor Gilroy and the principal officers of the Navy and Army. Dinners, receptions and other festivities for the naval visitors continued in New-York for several days afterward, and one by one the vessels took their departure for cruising duties. A few weeks later the three caravels, replicas of Columbus's fleet, and the Viking ship from Norway took their departure for Chicago, the caravels reaching there on July 12 and the Viking ship on July 13.

The report of William K. Ackerman, auditor of the World's Columbian Exposition, on November 25, shows, by making an approximate estimate of the liabilities and receipts up to November 12, that the net assets over and above all liabilities amount to $1,862,488. The average daily receipts were $89,501, while the daily expenses were $22,405. The total expenditures were $25,540,537. The gate receipts were $10,626,880, and $3,699,581 was received from concessions. Adding to this the capital stock of $5,004,171 and the city of Chicago's $5,000,000 in bonds, the total receipts are given as $28,151,168. The balance as shown by the auditor is $2,610,630, but from this amount are deducted such obligations as are in sight, but not included as any part of the expenditures up to October 31. These obligations, which are for salaries, premiums, recoinage of souvenir coins, office expenses, etc., made a total of $748,147 82. This amount, being deducted from the $2,610,630, leaves the total net assets $1,862,482 18.

The largest attendance any one day was on October 9 (Chicago Day), when 716,881 people paid their way into the grounds. The largest attendance of any one day at the Paris Exposition, in 1889, was 397,150, and at the Philadelphia Centennial, in 1876, 257,169. The largest Sunday attendance was on October 29, of 153,286, and the smallest was 16,181, on August 6. The total Sunday attendance was 1,216,861, an average of 55,312. The average paid attendance for the 157 week-days was 127,712. The total number of complimentaries was 6,051,988. The number of people carried into Chicago by the twenty-one railway passenger lines during the days that the Exposition was officially open was about 3,500,000.

STRENGTH OF THE NAVIES OF THE WORLD.

REVISION OF THE PRESBYTERIAN CREED.—For several years the Presbyterian Church in the United States of

America (the Northern Church) has considered the advisability of revising its ancient Confession of Faith, promulgated by the Westminster Divines in 1646. The question came up in practical shape before the General Assembly of 1889, which, after discussion, asked the various Presbyteries whether they desired a revision. A majority replied in the affirmative, and the Assembly of 1890 appointed a Committee on Revision, made up of theological professors, college presidents, ministers and elders, chosen from both parties. This committee reported in 1891, recommending many changes and modifications in the Confession, but declaring according to the terms of its appointment that "no alterations or amendments should be proposed that would in any way impair the integrity of the Reformed or Calvinistic system of doctrine taught in the Confession." The Assembly referred this report back to the Presbyteries for further presentation in 1892. The Assembly in 1892 adopted the second report based on the answers of the Presbyteries. Two provisional chapters had been added to the Confession and changes recommended in about thirty sections. The Presbyteries, after discussing the revised recommendations, failed to approve them in sufficient number to make the changes constitutional, and the movement failed.

AMERICAN BOARD OF COMMISSIONERS FOR FOREIGN MISSIONS.

The "American Board," the oldest foreign missionary society in the United States, organized June 29, 1810, "to propagate the Gospel among unevangelized nations and communities," is an incorporated body with 250 members, mostly representatives of Congregational churches. It supports 534 missionaries and assistant missionaries, and 2,600 native workers in 20 missions in the Pacific Islands, Asia, Africa, Europe and America. It has 534 churches, with 40,000 members, and 1,123 schools, with 47,000 pupils. There are also three woman's boards. Its income for the last fiscal year was $679,285; deficit, August 31, $88,318. Among the items of expenses were: Cost of various missions, $709,510; cost of administration, $28,204. This is the first time since 1877 that a large debt has been reported at the end

of the year. Next annual meeting, Madison, Wis., second Wednesday in October, 1894.

NATURALIZATION LAWS OF THE UNITED STATES.

DECLARATION OF INTENTION.—An alien seeking naturalization as a citizen of the United States must declare on oath before a Circuit or District Court of the United States, or a District or Supreme Court of the Territories, or a court of record of any of the States having common law jurisdiction and a seal and a clerk, at least two years before his admission that it is, bona-fide, his intention to become a citizen of the United States, and to renounce forever all allegiance and fidelity to any foreign State or ruler, and particularly to the one of which he may be at the time a citizen or subject.

OATH ON APPLICATION FOR ADMISSION.—At the time of his application for admission he must also declare on oath, before some one of the courts above specified, "that he will support the Constitution of the United States, and that he absolutely and entirely renounces and abjures all allegiance and fidelity to every foreign prince, potentate, State or sovereignty, and particularly, by name, to the prince, potentate, State or sovereignty of which he was before a citizen or subject."

CONDITIONS OF CITIZENSHIP. — It must appear to the satisfaction of the court to which the alien has applied for final admission that he has resided continuously within the United States for at least five years, and in the State or Territory where the court is held at least one year, and that during that time "he has behaved as a man of good moral character, attached to the principles of the Constitution of the United States, and well disposed to the good order and happiness of the same."

TITLES OF NOBILITY.—If the applicant bears any hereditary title or belongs to any order of nobility, he must make an express renunciation at the time of his application.

SOLDIERS.—Any alien twenty-one years old and upward who has been honorably discharged from the armies of the United States may become a citizen on his petition, without any previous declaration of intention, provided he has resided in the United States at least one year previous to his application and is of good moral character.

MINORS.—Any alien under the age of twenty-one, who has resided in the United States three years next preceding his twenty-first birthday, and has continued to reside therein up to the time he makes application to be admitted a citizen, may, after he arrives at the age of twenty-one, and after he has resided five years within the United States, including the three years of his minority, be admitted a citizen; but he must make a declaration on oath and prove to the satisfaction of the court that for the two years next preceding it has been his bona-fide intention to become a citizen.

CHILDREN OF NATURALIZED CITIZENS.—The children of persons who have been duly naturalized, being under twenty-one at the time of the naturalization of their parents, shall, if dwelling in the United States, be considered as citizens.

CITIZENS' CHILDREN BORN ABROAD.—The children of persons who now are or have been citizens of the United States are considered as citizens, though they may be born out of the limits and jurisdiction of the United States.

CHINESE.—The naturalization of Chinamen is prohibited by Section 14, Chapter 126, Laws of 1882.

PROTECTION OF NATURALIZED CITIZENS.—Section 2,000 of the Revised Statutes of the United States expressly declares that "all naturalized citizens of the United States while in foreign countries are entitled to and shall receive from this Government the same protection of person and property which is accorded to native-born citizens."

THE RIGHT OF SUFFRAGE. — The right to vote is conferred by the State, naturalization by the United States. In several States aliens who have declared their intentions enjoy the right to vote equally with naturalized or native-born citizens. But the Federal Naturalization laws apply to the whole Union alike, and no alien may be naturalized until after five years' residence, except an honorably discharged soldier or a person whose parents have been naturalized while he was under twenty-one years of age, as above recited. Even after five years' residence and due naturalization, he is not entitled to vote unless the laws of the State confer the privilege upon him.

BALLOT REFORM.

The following States and Territories have passed ballot reform laws in a more or less complete and effective form:

1888—Kentucky (applying only to Louisville), Massachusetts.
1889—Connecticut, Idaho, Indiana, Michigan, Minnesota, Missouri, Montana, New-Mexico, Rhode Island, Tennessee, Wisconsin.
1890—New-Jersey, New-York, Oklahoma, Vermont, Washington, Wyoming.
1891—Arkansas, California, Colorado, Delaware, Illinois, Kentucky, Maine, Nebraska, New-Hampshire, North Dakota, Ohio, Oregon, Pennsylvania, South Dakota, Texas, West Virginia.
1893—Kansas.

The Australian rule of placing candidates' names on the ballot in alphabetical order under the titles of offices prevails in Arkansas, California, Connecticut, Idaho, Illinois, Maine, Massachusetts, Minnesota, Montana, Nebraska, New-Hampshire, North Dakota, Oregon, Rhode Island, South Dakota, Tennessee, Vermont, Washington, West Virginia, Wisconsin and Wyoming.

The Belgian system of grouping party tickets in a blanket ballot is followed in Colorado, Delaware, Indiana, Kansas, Maryland, Michigan, Missouri, Oklahoma, Pennsylvania.

All the States arranging names by party groups, excepting Connecticut, Maine, Missouri, Pennsylvania and West Virginia, provide for party emblems to distinguish the groups. In Mississippi, the order of arranging names on the ballot is not specified.

In all, 32 States and Territories have passed Ballot Reform laws, and all, except New-York, New-Jersey and Connecticut, have adopted the "blanket" ballot.

Three States, Mississippi, Kentucky and Texas, have adopted the new ballot system in their constitutions.

The first bill embodying the principles of the Australian system ever presented to a Legislature in America was introduced in the New-York Assembly in 1888, by Charles T. Saxton, of Clyde.

The Secretary of State of Florida says that its ballot reform law "is equivalent to an educational qualification, and it virtually trumps the ignorant darky."

1892.....	151,516,053	93,511,986
Total.....	$1,769,839,404	$1,018,018,202

The above figures are taken from "The Chronicle" Fire Tables.

In 1892 there were 29,332 noteworthy fires in the United States, or 6,019 more than in 1891, representing an average property loss of $5,166. The average loss in 1885 was $7,285; in 1886, $6,760; in 1887, $7,830; in 1888, $6,923; in 1889, $6,692; in 1890, $4,863; and in 1891, $6,167. Of the total fires in 1892, 26,978 were dwellings and tenements, 1,154 retail groceries, 1,274 country stores, 1,196 hotels, 1,171 liquor shops, 1,169 cottongin houses, 699 retail drygoods stores, 681 churches, 667 bakeries and confectioneries, 601 restaurants, 534 foundries and machine shops, 479 schoolhouses, 470 retail drug and chemical stores, 430 retail clothing stores, 396 furniture and undertaker shops, 324 printers and lithographers, 320 boot and shoe shops, 284 millineries, 257 grain elevators and storehouses, 253 carriage and wagon factories, 168 breweries, 139 general warehouses, 99 asylums, 96 theatres and opera-houses, and 72 public halls. Among the principal causes of these fires, 6,850 were incendiary, 3,802 from explosions (2,385 in the dwellings and tenement-houses), and 636 from spontaneous combustion. The fire loss in the United States passed the one-hundred million dollar point in 1883, and it has increased nearly every year.

DIVORCE STATISTICS.

The total number of divorces in the United States and Territories from 1867 to 1886, inclusive, was 328,716. From 9,937 in 1867 the number rose to 25,535 in 1886, an increase of nearly 157 per cent in twenty years. The population of the United States increased about 60 per cent in the same period. From 1870 to 1880 the population increased 30.1 per cent, and the divorces 79.4 per cent. The only States and Territories in which the percentage of increase in population between 1870 and 1880 was greater than the increase in divorces were Connecticut, New-York, Utah, Vermont and Wyoming. The number of absolute divorces in 1886 in Great Britain was 475; in France, 6,211; in Germany, 6,078.

The average duration of married life in the United States before divorce during the twenty years from 1887 to 1886 was 8.97 years for the husband and 9.27 for the wife, or considering both together, 9.17; 15,622 couples were divorced one year after marriage, 21,525 after two years, 27,270 after three years, 27,906 after four years, and 25,371 after twenty-one years or more.

WORLD'S FAIR SOUVENIR COINS.

The amount of Columbian Souvenir coins turned out at the United States Mint in 1893 was as follows: Half dollars, 5,002,105 pieces, valued at $2,501,052.50; quarter dollars, 40,023 pieces, valued at $10,005.75.

WOMAN SUFFRAGE.*

AMERICA—Twenty-eight States, a large majority of the Union, have given women some form of suffrage. The Judiciary Committee of the Federal House of Representatives reported in the spring of 1890 a constitutional amendment securing suffrage to the women of the whole country. In Canada women have municipal suffrage in every Province and Territory; in Ontario, for all elective offices but members of the Legislature and Parliament.

In Arizona, Colorado, Delaware, Idaho, Illinois, Kansas, Kentucky, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New-Hampshire, New-Jersey, New-York, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Vermont, Washington and Wisconsin women have various degrees of school suffrage.

In Arkansas and Missouri women vote, by signing or refusing to sign petitions, on liquor license in many cases. In Louisiana they vote on allowing railroads to run through their parishes. In Mississippi, in 1892, they were admitted to vote on fence questions by the stock law. In Delaware suffrage is exercised by women in several municipalities. In Kansas they have equal suffrage with men at all municipal elections. About 60,000 voted in 1891. In Montana they vote on local taxation. In New-York they vote at school elections; 3,000 voted at Binghamton in 1890. They vote also in various cities and villages on local improvements, such as gas and electric street lighting, paving, sewerage and municipal bonds. In Pennsylvania women vote, by signing or refusing to sign petitions, on paving and other local improvements. In Utah women voted from 1870, until disfranchised by Congress in the "Edmunds law." They are now actively demanding the repeal of this law. In 1884 the people formed a State constitution securing suffrage to women, but Congress did not admit the State. In Washington women voted generally for five years, and then were excluded by decision of the Territorial Supreme Court. They were mostly debarred from voting on the State Constitution, and the men, mostly newcomers, voted down a constitutional provision guaranteeing suffrage to women. The women assert that they were shut out unlawfully, and are at work to undue their disfranchisement; 14,000 women voted in the Territory in one year. In Wyoming women have had the same vote with men since 1869. They requested the Constitutional Convention to guarantee suffrage to them in 1889. This was done with practical unanimity in convention and at the polls. Congress declared that it "accepted, ratified and confirmed" this constitution, and admitted the State, July 10, 1890. The women have generally voted the Republican ticket, as that party was mainly instrumental in enfranchising them.

The New-York Assembly passed in April, 1891, by 71 votes to 34, the bill proposed in 1880 and since urged by Hamilton Wilcox, enabling all women citizens to vote at all elections. A majority of the Senate favored it; but no vote was taken. Both Houses, however, passed in 1891 a law enabling women outside of cities to vote for a School Commissioner in each Assembly district once in three years, at State elections. The Vermont Lower House passed in 1891 a bill securing municipal suffrage, by 149 to 83; but the bill failed in the Senate.

AFRICA—Cape Colony has municipal woman suffrage. The colony rules a million square miles.

ASIA—All Russian colonies in Siberia have municipal woman suffrage for heads of households. So have the women taxpayers of India in the rural districts of British Burmah and the municipalities in the presidencies of Bombay and Madras.

AUSTRALIA—Every province has municipal and school woman suffrage. The country is about as large as the United States, not including Alaska.

AUSTRALASIA—New-Zealand and Tasmania have municipal and school woman suffrage. Both Houses of the New-Zealand Legislature passed in 1891 a bill admitting women to vote for members of Parliament, but it failed to become a law owing to a disagreement as to details.

EUROPE—In England, Scotland and Wales women vote for all elective officers but members of Parliament. In France the women teachers elect women members of all boards of education. In Sweden women vote for all elective officers but Representatives; also, indirectly, for members of the House of Lords. In Norway they have school suffrage. In Ireland they vote for harbor boards, poor-law guardians, and in Belfast for municipal officers. In Russia women householders vote for all elective officers and on all local matters. In Finland for all elective officers. In Austria-Hungary they vote, by proxy, for all elective officers. In Croatia and Damatia they do so at local elections in person. In Italy widows vote for members of Parliament. In Prussia women vote, mainly by proxy, at local elections and for members of provincial Diets. In Belgium women taxpayers have municipal suffrage by proxy, and in Luxemburg for members of the Legislature also. In Switzerland women real estate owners have local suffrage in the canton of Berne. In Rumania women taxpayers have municipal suffrage by proxy.

ISLANDS—Iceland, the Isle of Man and Pitcairn Island have full woman suffrage. Nearly 2,000 islands have it in some degree. Guernsey, in the English Channel, enacted it in 1891.

The area of countries where women have some suffrage is about 20,000,000 square miles, larger than all Asia, and their population is about 385,000,000, more than that of all Europe.

a See Western Reserve University. b Reorganized 1890, with full collegiate forms. c Trustees number 36, of whom 22 must be Baptists; Board of Fellows number 12, of whom 8 must be Baptists. d Graduate school for research and the training of teachers. e Formerly Madison University. f Endowment. g Plant, $205,000; annual income, about $80,000. i Incorporated. j Opened. k Value of property, $500,000 at Lake Forest, and $600,000 at Chicago. l Matters so deranged by resignations of Rev. Dr. Henry Preserved Smith and Prof. McGiffert that the number of instructors, etc., could not be given. m Chartered. n Organized. o Opened. p Rechartered. q Aid fund of $75,000 distributed annually to deserving students. r Also about $90,000 a year from State, and $18,000 a year from Congress appropriation. s First class will graduate this year. t Includes also the academies at Bedford City and Front Royal, and Woman's College at Lynchburg. u Students since organization, 10,000; graduates unknown; books burned August, 1890. v Includes college proper, school maintained by it, and outside classes conducted by college instructors. w Exclusive of seminary buildings (nominal value, $10,000,000), and exclusive of library. x Not estimated, being a Government college dependent on annual appropriation. y Value of plant; same conditions as x. z Several branches in the State, statistics refer to college proper at Athens. *Unknown; records destroyed by fire. **Endowment of proceeds of lands given by U. S., $550,000.

THE PRINCIPAL TELESCOPES IN THE WORLD.

Astronomical telescopes are of two kinds, reflecting and refracting. The former is essentially a concave mirror or speculum, at the focus of which an eyepiece is fixed. Formerly the speculum was constructed of an alloy of copper and tin, ground to the required curvature and highly polished. In late years, however, the mirror is a glass disk, ground to the proper curvature, on the concave face of which silver is deposited by chemical processes. The refracting telescope consists of an achromatic lens or object-glass mounted in one end of a tube, at the other end of which, at focal distance, the eyepiece is attached. Most astronomical telescopes, and all refracting instruments, are equatorially mounted; that is, the motion on one axis is in the plane of a parallel, while that on the other is in the plane of a meridian. Most telescopes are mounted so as to be geared to clockwork that exactly neutralizes the rotation of the earth. A reflecting telescope is rather more powerful than a refractor of equal aperture, but it is more bulky and unwieldy. Reflectors are superior to refractors for purposes of celestial photography.

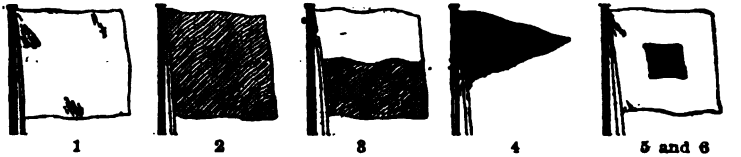
In addition to the foregoing, Yale University has a 28-inch refractor in construction and Harvard University has two telescopes of medium power at temporary observatories in peaks of the Andes. The telescope, the objective for which is being made by Alvan Clark & Sons, for the University of Chicago, to which institution Mr. Yerkes, of New-York, has presented it, will doubtless be completed early this year. This has an aperture of 40 inches, and will be the largest refracting telescope in the world. The mounting, by Warner & Swasey, was exhibited at the World's Fair. The Bruce photographic telescope, just finished by Alvan Clark & Sons, for Harvard University, in Peru, is 24 inches in diameter.

WEATHER SIGNALS BY FLAG AND WHISTLE.

FLAGS—Flag signals, communicating the forecasts telegraphed at 10 a. m. and 10 p. m. from the Government Weather Bureau in Washington, are now displayed at nearly 2,000 points in the U. S. The flags employed are represented herewith:



1 2 3 4 5 and 6

All but one of these flags are 6 feet square; No. 4 is 6 feet long and 4 feet wide at the base. Sometimes they are displayed singly, and sometimes two are used together.

No. 1, white flag, indicates clear or fair weather. No. 2, blue flag, indicates rain or snow. No. 3, white and blue flag (parallel bars of white and blue), indicates that local rains or showers will occur, and 4, black triangular flag, always refers to temperature; when placed above Nos. 1, 2 or 3 it indicates warmer weather; when placed below Nos. 1, 2 or 3 it indicates colder weather; when not displayed, the indications are that the temperature will remain stationary, or that the change in temperature will not vary more than four degrees from the temperatute of the same hour of the preceding day from March to October, inclusive, and not more than six degrees for the remaining months of the year. No. 5, white flag, with black square in centre, indicates the approach of a sudden and decided fall in temperature. This signal is not to be displayed unless it is expected that the temperature will fall to forty-two degrees or lower, and is usually ordered at least twenty-four hours in advance of the cold wave. When No. 5 is displayed No. 4 is always omitted.

The "Inland Storm Signal" (red flag with black centre) is used in the States of North Dakota, South Dakota, Minnesota (except at lake stations), Iowa, Nebraska and Wyoming, to indicate the approach of high winds accompanied by snow, with temperature below freezing. When displayed on poles the signals should be arranged to read downward; when displayed from horizontal supports a small streamer should be attached to indicate the point from which the signals are to be read.

These flags are to be obtained from dealers, whose addresses can be procured at almost any weather station. They cost $2 apiece. The necessary information is sent daily by telegraph, without charge, from the weather station to a single person in a town or village who will employ the signals. Other applicants will be furnished at their own expense. Many business men find it a good advertisement to buy one of these flag outfits and provide their community with daily forecasts. The Chief of the U. S. Weather Bureau, Washington, D. C., or the Chief of any of the State Weather Services may be consulted on the subject by letter. Tin or sheet-iron signal flags, painted to correspond with the foregoing schedule, have also been employed for weather forecasts. These latter are displayed from the baggage cars of railway trains, the baggagemaster being guided by telegraphic information.

Whistle Signals.—The warning signal is a long blast of from 15 to 20 seconds' duration; after this has been sounded long blasts (from 4 to 6 seconds' duration) refer to weather, and short blasts (from 1 to 3 seconds' duration) refer to temperature, those for weather to be sounded first. For instance: One long blast indicates fair weather; two long, rain or snow; three long, local rains; one short, lower temperature; two short, higher temperature; three short, cold wave; one long and one short, fair weather, lower temperature; two long and two short, rain or snow, higher temperature; one long and three short, fair weather, cold wave; three long and two short, local rains, higher temperature.

FOR MARINERS.—Storm, Cautionary and Information Signals are displayed at seaports and lakeports of the United States according to the following code:

(1) Cautionary Signal (displayed only at stations on the lakes): A red flag (8 feet square) with white centre (4 feet square) indicates that the winds expected will not be so severe that well-found, seaworthy vessels cannot meet them without danger.

(2) Storm Signal: A red flag (8 feet square) with black centre (3 feet square) indicates that the storm is expected to be dangerous.

(3) A Red Pennant (5 feet hoist and 12 feet fly) displayed with the flags, indicates easterly winds—that is, from northeast to south, inclusive, and that the storm centre is approaching.

(4) A White Pennant (5 feet hoist and 12 feet fly) displayed with the flags, indicates westerly winds—that is, from north to southwest, inclusive, and that the storm centre has passed.

(5) When Red Pennant is hoisted above Cautionary or Storm Signal, winds are expected from the Northeast Quadrant; when below, from the Southeast Quadrant.

(6) When White Pennant is hoisted above the Cautionary or Storm Signal, winds are expected from the Northwest Quadrant; when below, from the Southwest Quadrant.

(7) Night Signals—By night a red light indicates easterly winds; a white above a red light, westerly winds.

(8) The Information Signal consists of a red pennant and indicates that information is received of a storm covering a limited area, dangerous only to vessels about to sail to certain points. The signal warns shipmasters that important information will be given them by the displayman.

OCEAN RECORDS.

Since the Guion Line steamer Arizona captured the ocean pennant in 1880 with a North Atlantic voyage of 7d. 23h. 23m., records have been made only to be broken. The Lucania, of the Cunard Line, now flies the pennant of the westward trip, having crossed the Atlantic in 5d. 12h. 47m., from Queenstown to New-York, November, 1893. In the same month she made the eastbound record of 5d. 13h. 30m. The following table shows how the time across the Atlantic has been steadily reduced in the last forty years:

Length of day going west.....about 24h. 50m.
Length of day going east.....about 23h. 10m.

A westward day is thus about 7 per cent longer than an eastward one.

In October, 1893, the Lucania broke the eastward record, and for nearly a full day held the records for the eastward passage, the westward passage, the best three days' run, the best one day's run, and the maiden passage. Late on the night of the same day, however, her sister ship, the Campania, reached New-York, lowering the westward record twenty-two minutes. The Lucania and Campania were completed in 1893, and on their maiden trips broke all previous maiden records, the former making the run from Queenstown to New-York (Sandy Hook), in 5 days, 15 hours and 37 minutes, and the latter in 6 days, 8 hours and 24 minutes. They are each 625 feet in length, 65 feet beam, 41 feet depth of hold, 18,000 tons displacement, and 30,000 horse-power.

In the last fifty years the time of the transatlantic voyage has been cut down by half, the size of the ships has been multiplied by twelve, and their power and carrying capacity by more than fifty. The annexed table reveals at a glance the enormous strides made in shipbuilding and the increase in the size of ocean steamships:

Year built.	Name.	Length. ft. in.	Beam. ft. in.	Depth. ft. in.	Horse-power.	Tonnage.
1840	Acadia	228.0	34.4	22.6	425	1,150

1889	City of Paris	527.6	63.2	38.6	18,000	10,499
1893	Campania	625.0	65.0	41.0	25,000	13,000

The Great Eastern, built in 1858, 680 feet long by 83 feet broad, carried engines of only 7,650 horse-power.

In July, 1892, the City of Paris not only lowered the record, but beat the best previous day's run by runs of 519 and 520 miles, and the best previous three days' run by a record of 1,543 miles, and attained an average speed for the voyage of 20.48 knots, against the best previous average of 20.34 knots. In October, 1892, she surpassed herself, lowering the passage record by 1h. 34m., sailing 530 miles in one day, and attaining an average hourly speed of 20.70 knots. The Teutonic it is claimed on August 2, 1892, running west, steamed 528 miles in the nautical day of 25 hours from noon to noon.

In August, 1890, the Teutonic ran from Queenstown to Sandy Hook in what her owners claimed to be 5d. 19h. 5m., beating the record of the City of Paris by 13 minutes. The claim was not admitted. The victories in 1891 of the Majestic and Teutonic are, however, undisputed. The Teutonic's August, 1891, run, was remarkable for noting what was then the highest average hourly speed ever achieved, 20.349 miles, the best day's run, 517 miles, and the best three days' run, 1,532 miles. Her course measured only 2,778 miles, or three miles more than the exact distance between Roche's Point and Sandy Hook. On September 29 she beat the eastbound record of 5d. 22h. 50m., held by the City of Paris, by 1h. 28m., and on October 27 reduced her own record by 19m.

The Umbria in June, 1892, lowered the record for single-screw steamers between Queenstown and New-York to 5d. 22h. and 7m., the best previous voyage having been that of the Etruria, 6d. 1h. and 50m.

On December 11, 1866, the schooner yachts Henrietta, Fleetwing and Vesta sailed from Sandy Hook to the Needles, Isle of Wight, for a stake of $90,000. The Henrietta, owned by James Gordon Bennett, won in 13d. 21h. 55m.; average of 9½ knots for 3,100 miles.

Among the previous ocean runs were: H. M. S. Newcastle, N. Y. to Falmouth, 11 days; clipper ship Independence, N. Y. to Liverpool, 13d. 15h.

On July 4, 1870, the schooner yachts Dauntless and Cambria started from Old Kinsale Head, Ireland, for Sandy Hook Lightship for a £250 cup. Cambria won in 23d. 5h. 17m.; Dauntless's time, 23d. 7h.

On March 12, 1887, the schooner yachts Coronet and Dauntless started from Bay Ridge to Queenstown for stakes of $10,000 a side. Coronet's time, 14d. 23h. 30m.. 46s.; Dauntless, 16d. 1h. 43m. 13s. The Coronet's owner was the late Rufus T. Bush, of Brooklyn. The Dauntless was sailed by Captain Samuel Samuels, of the old clipper Dreadnought, and owned by Caldwell H. Colt, of Hartford.

Bush; assistant secretary and vice-treasurer, Lieutenant C. G. Treat. Headquarters, Governor's Island, N. Y. It has branches at West Point, Fort Leavenworth, Kan.; Vancouver Barracks, Washington, and Los Angeles, Cal.

The object of the society is the promotion of the military interests of the United States; the total membership being about 2,200, exclusive of subscribers, about 800 of the members being among the militia of the several States. The meetings are held on the second Fridays in January, March, May, July, September and November.

THE SOCIETY OF THE WAR OF 1812.

Instituted in the city of New-York, January 8, 1826, by ex-regular officers of that war, as a military society, and incorporated by the veterans of 1812 on January 8, 1892. President, Rev. Morgan Dix, S. T. D., D. C. L.; vice-president, Asa Bird Gardiner, LL. D.; secretary, Henry Chauncey, jr., 51 Wall-st., New-York City; treasurer, Gouverneur Mather Smith, M. D. The Board of Directors consists of Lieutenant Michael Moore, U. S. A., retired; Thomas Morgan Sturgevant, of the War of 1812; Colonel James M. Varnum, James Mortimer Montgomery, David Banks, and the president, vice-president, secretary and treasurer of the society. The annual meeting is held on January 8 in every year.

SOCIETY OF THE ARMY OF THE POTOMAC.

The Society of the Army of the Potomac is an organization formed soon after the close of the Civil War, on July 5, 1869, its object being social good fellowship. It has a membership of about 3,000, and its annual meeting is held in June or July of each year, the date being fixed by the local committee. Its officers are: President, Major-General Nelson A. Miles, U. S. Army; treasurer, Lieut.-Colonel Samuel Truesdell; recording secretary, General Horatio C. King; corresponding secretary, General George H. Sharpe.

SONS OF THE AMERICAN REVOLUTION.

A society of the male descendants of soldiers, sailors and conspicuous patriots of the Revolution, formed to encourage the celebration of Revolutionary anniversaries, the preservation of records and relics and perpetuation of the memory and spirit of the men who established popular government in America. There are 30 branch societies in all the New-England States, New-York, New-Jersey, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Minnesota, Wisconsin, Missouri, Arkansas, Nebraska, California, Washington, Oregon, Delaware, the District of Columbia, Virginia, West Virginia, Maryland, South Carolina, Georgia, Louisiana, Kentucky, Tennessee, Alabama and Kansas. Total membership, 4,100. The largest State society is Connecticut, with 712 members. Originally organized in California, July 4, 1876. The several State societies organized a National Society, April 30, 1889. Officers of National Society: President-general, General Horace Porter, New-York; vice-presidents-general, Chauncey M. Depew, General J. C. Breckinridge, Washington; Henry M. Shepard, Chicago; Colonel Thomas M. Anderson, U. S. A., Vancouver Barracks, Washington; Henry C. The objects of the society are: To perpetuate the memory and the spirit of the men and women who achieved American Independence, by the acquisition and protection of historical spots and the erection of monuments; by the encouragement of historical research in relation to the Revolution, and the publication of its results; by the preservation of documents and relics and of the records of the individual services of soldiers and patriots of the Revolution, and by the promotion of celebrations of all patriotic anniversaries. The membership numbers about 4,000. The annual meeting is held on February 22 of each year.

NAVAL MILITIA.

Secretary Tracy, in his first and second annual reports, called attention to the great importance of a trained militia for the Navy. On March 2, 1891, Congress, accordingly, appropriated $25,000 to purchase arms for the militia, to be expended under direction of the Secretary of the Navy. A second appropriation of like amount was made in 1892. This fund is not distributed directly to the States, but is used, under supervision of the Bureau of Ordnance, to fill requisitions from Governors for arms and equipment. California, on July 1, 1892, had received $8,094 43, New-York $7,461 71, Massachusetts $5,123 93, North Carolina $2,208 60, Rhode Island $1,178 16, and Texas $938 17. The various battalions formed had on June 30, 1893, the following strength: Massachusetts, 589, Captain J. C. Soley, commanding; New-York, 410, Commander J. W. Miller, commanding; California, 301, Lieutenant-Commander C. A. Douglass, commanding; North Carolina, 262; South Carolina, 204, Lieutenant-Commander R. H. Pinckney, commanding; Pennsylvania, 150, Lieutenant R. K. Wright, jr., commanding; Maryland, 130, Commander T. C. B. Howard, commanding; Rhode Island, 119, Lieutenant William Hodgkinson, commanding. On October 11 returns were received at the Navy Department from Illinois that its corps had been formed, composed of the following: First Division, First Battalion, Chicago, 40 officers and men; First, Second, Third and Fourth Divisions of Second Battalion, Moline, 171 officers and men; total, 211 officers and men. Michigan and Connecticut have recently passed laws for the organization of battalions of naval militia, and steps have been taken in that direction.

The First Naval Battalion of the State of New-York is regularly mustered in as a part of the State militia and has 410 members. The officers are: Commander, J. W. Miller; lieutenant-commander, George Edward Kent; lieutenant and navigator, H. L. Satterlee; paymaster, Lieutenant J. G. Agar; lieutenants (senior grade), S. Dana Greene, W. B. Duncan, jr., Robert P. Forshew, W. H. Stayton; lieutenants (junior grade), Washington Irving, E. C. Weeks and E. M. Henderson; ensigns, T. C. Zerega, E. W. Brown, George W. Blair, W. J. Henderson, W. DeW. Dimock, E. B. Renwick, J. MacFarlane, F. W. Meeker and Byron E. French. The battalion is divided into four divisions, and has been drilled each summer on board men-of-war assigned by the Government for the purpose. In winter the drills take place in the U. S. S. New-Hampshire, loaned as an armory. The men are instructed in all the duties of a navy sailor, including the construction and management of steam and electrical machinery, the preparation and use of high-power explosives and signalling. The Naval militia is intended primarily to furnish a force which in time of war can defend the State seaports. The headquarters of the New-York Naval Reserve are on board of the New-Hampshire, lying at the foot of East Twenty-eighth-st.

NATIONAL ASSOCIATION OF NAVAL VETERANS.

W. Meade, U. S. Navy; William H. Webb, New-York. Secretary and treasurer, Naval Constructor Washington L. Capps, U. S. Navy, Washington. There is also a council of twenty-two (naval officers and architects and builders in civil life), and an Executive Committee. The headquarters are temporarily in Washington, but will ultimately be in New-York City.

The society was organized on May 10, 1893, and it has a membership of 439. Its objects are: "The promotion of practical and scientific knowledge in the art of shipbuilding and marine engineering and the allied professions; and in furtherance of this object, to hold meetings for social intercourse among its members, and the reading and discussion of professional papers, and to inculcate by means of publication the knowledge thus obtained."

CONFEDERATE VETERAN ASSOCIATION.

This is an independent organization, but there are many sister organizations at the South and one in Chicago. The president of the latter is General John C. Underwood, who has erected in Chicago a handsome monument as a memorial to the prisoners-of-war who died there. The New-York association was organized as the Confederate Veteran Camp on April 11, 1890, and it now has a membership, including "The Sons of Confederate Veterans," of about 200. The headquarters are at No. 98 Fifth-ave., and the officers are: President, Dr. George T. Harrison; vice-president, Henry Harney; treasurer and secretary of the Executive Committee, Edward Owen; chaplain, the Rev. Dr. O. A. Glazebrook; medical director, Dr. J. H. CHAUTAUQUA.

Lewis Miller, President; W. A. Duncan, Secretary; E. A. Skinner, Treasurer; John H. Vincent, Chancellor; William R. Harper, Principal; George E. Vincent, Vice-Principal.

The Chautauqua plan of summer education was started in 1874. The institution was organized by Lewis Miller, of Akron, Ohio, and the Rev. Dr. John H. Vincent, now a Bishop of the Methodist Episcopal Church. In August, 1873, Mr. Miller and his associate selected a site for a summer Assembly at Fair Point, on the west side of Chautauqua Lake, in Chautauqua Co., N. Y., where the village of Chautauqua now stands. The first Assembly was called for the discussion of religious and secular topics and opened on the first Tuesday in August, 1874. It lasted three weeks. Since then an Assembly has been held regularly every year. That of 1893 opened on July 1 and closed on August 28. About 35,000 persons visited the Assembly between those dates.

Besides the platform lectures and entertainments, the Chautauqua managers employ several other methods for placing education within the reach of the people. These are described below in the order of their establishment:

CHAUTAUQUA LITERARY AND SCIENTIFIC CIRCLE—Dr. Jesse L. Hurlbut, Principal; Miss K. F. Kimball, Executive Secretary; A. H. Gillett, D. D., Field Secretary; A. M. Martin, General Secretary.

Counsellors—Lyman Abbott, D. D.; J. M. Gibson, D. D.; Edward Everett Hale, D. D.; Bishop H. W. Warren, D. D.; W. C. Wilkinson, D. D.; James H. Carlisle, LL. D.

The C. L. S. C. comprises a system of home reading circles, the members of which pursue courses of reading laid out by the officers in books and magazine articles approved by the Board of Counsellors. Anybody can join it, and at any time, by sending his name to Miss K. F. Kimball, Buffalo, N. Y., with a 50-cent fee. In return he will receive a membership book, telling him what books to read and how to read them, and containing examination papers, by which, at stated periods, his proficiency may be ascertained. Two or more members form a local circle. The course covers four years, requiring an average of forty minutes' reading a day during ten months of each year. All the classes, though in different periods of their course, study the same subjects simultaneously. No reader is pledged to continue the work for the four years. The course for 1893-4 includes Roman and Mediæval History, Economics, Latin Literature, Roman and Mediæval Art, and Mediæval Literature. Among those who have prepared books or articles are: James R. Joy, W. C. Wilkinson, W. H. Goodyear, Richard T. Ely, J. G. Schurman, E. E. Hale, J. P. Mahaffy, etc. Special courses are provided for graduates wishing to continue their readings. The Order of the White Seal, League of the Round Table and other associations are formed of those who have passed examinations in the special courses.

CHAUTAUQUA COLLEGE OF LIBERAL ARTS—John H. Daniels, Executive Secretary, Drawer 194, Buffalo, N. Y.

At Chautauqua there is a complete system of summer schools, at which instruction is furnished in classes or privately during the season. Classes in an arts course are conducted at the College of Liberal Arts. The faculty for 1893 included the following:

History—Prof. H. E. von Holst, University of Chicago.

Political Science—Prof. R. T. Ely, University of Wisconsin.

Greek—Prof. W. C. Waters, University of Cincinnati.

THE SALVATION ARMY.

This is a body of men and women organized in the form of a military force, its object being the evangelization of the unchurched masses. It has its international headquarters at No. 101 Queen Victoria-st., London, E. C., England, and the headquarters for the United States at 111 Reade-st., New-York City. Its officers are: General, Chief-of-Staff, Commissioner, Colonel, Brigadier, Major, Staff-Captain, Adjutant, Ensign, Captain and Lieutenant. At the present time there are 10,874 officers, 4,397 corps, or societies, operating in thirty-eight countries and colonies, in thirty-four languages. There are some 2,088,631 meetings held annually, out doors and in. The number of periodicals printed, or published, is 44, with a combined weekly circulation of over a million. The annual rental roll is over $1,000,000. The amount of property owned by this organization now exceeds $4,000,000, and the annual income is $3,645,000. The United States Division of the Salvation Army has to-day 1,695 officers, 536 corps, or societies, 11 slum posts, 5 rescue homes, 3 food and shelter depots. They publish the "War Cry," one edition in New-York City and another on the Pacific Coast, a Swedish and also German edition in New-York City, with a combined circulation of 90,000.

AMERICAN INSTITUTE OF CHRISTIAN PHILOSOPHY.

Organized in 1881, to cultivate the study of the relations between science and religion, but mainly to produce and circulate literature antagonizing agnosticism and materialism. President, ——————: treasurer, William Harman Brown, 45 Exchange Place, New-York; secretary, Charles M. Davis, 4 Winthrop Place, New-York; corresponding secretary, Rev. John B. Devins, Hope Chapel, 339 East Fourth-st., New-York. Its vice-presidents represent (49) States and Territories and countries in which members live. The total membership is 573, and to promote its objects the Institute has meetings every month during the winter, and also summer schools at which lectures are given and papers read.

UNITED BRETHREN IN CHRIST.

Organized June, 1800. Headquarters, Dayton, Ohio. Objects: Bible study, salvation of men and training for church work. The total membership is about 30,000, and the meetings are biennial, in June.

UNITED SOCIETY OF CHRISTIAN ENDEAVOR.

Headquarters, 646 Washington-st., Boston. President, the Rev. Francis E. Clark, D. D.; general secretary, John Willis Baer; treasurer, William Shaw.

The first Christian Endeavor Society was established by the Rev. F. E. Clark, at Williston Church, Portland, Maine, Feb. 2, 1881. To-day there are 28,925 societies in all parts of the world, with 1,600,000 members. At the international convention in New-York City in July, 1892, 35,000 delegates were present. The next convention will be held in Cleveland, Ohio, July 11-15, 1894. Nearly thirty denominations are represented in the society's membership. Its object is "to promote an earnest Christian life among its members, to increase their mutual acquaintance, and to make them more useful in the service of God." Motto, "For Christ and the Church."

The following was the number of societies in the various States and countries on July 1, 1893: Alabama, 86; Alaska Territory, 2; Arizona Territory, 8; Arkansas, 116; California, 635; Colorado, 220; Connecticut, 645; Delaware, 37; District of Columbia, 91; Florida, 121; Georgia, 123; Idaho Territory, 25; Illinois, 1,822; Indiana, 1,113; Indian Territory, 25; Iowa, 1,186; Kansas, 969; Kentucky, 178; Louisiana, 41; Maine, 540; Maryland, 277; Massachusetts, 1,152; Michigan, 709; Minnesota, 756; Mississippi, 26; Missouri, 702; Montana, 42; Nebraska, 511; Nevada, 2; New-Hampshire, 279; New-Jersey, 784; New-Mexico Territory, 18; New-York, 2,985; North Carolina, 69; North Dakota, 70; Ohio, 1,706; Oklahoma, 42; Oregon, 218; Pennsylvania, 2,628; Rhode Island, 144; South Carolina, 37; South Dakota, 197; Tennessee, 247; Texas, 221; Utah Territory, 66; Vermont, 352; Virginia, 98; Washington, 208; West Virginia, 113; Wisconsin, 622; Wyoming Territory, 13;

THE EPWORTH LEAGUE.

An organization of young people of the Methodist Episcopal Church, formed in May, 1889, by the union of five general societies, to train them in experimental religion, practical benevolence and church work, and to promote intelligent and vital piety in the young members and friends of the church, and formally recognized by the General Conference of 1892 as a department of the church. There are now 11,000 local leagues, and over 700,000 members. The subordinate bodies are the Junior League and Epworth Guards. President, Bishop James N. FitzGerald, New-Orleans. Vice-presidents—Spiritual Work, W. W. Cooper, St. Joseph, Mich.; Mercy and Help, Rev. W. I. Haven, 85 Lexington-st., East Boston, Mass.; Literary Work, R. R. Doherty, 150 Fifth-ave., New-York; Social Work, Rev. H. C. Jennings, Red Wing, Minn. Secretary, Rev. Edwin A. Schell, central office, 57 Washington-st., Chicago. Treasurer, Charles E. Piper, 185 Dearborn-st., Chicago.

DAUGHTERS OF THE KING.

The Order of the Daughters of the King is often confounded with that of the Order of the King's Daughters, but the two are separate organizations, the former being an organization of the Protestant Episcopal Church, and the other being limited to no single Christian denomination. The Order of the Daughters of the King is a sister society to the Brotherhood of St. Andrew, with a central council, local assemblies and parochial chapters. The organization had its origin in the Church of the Holy Sepulchre, New-York City, when one of the Bible classes, during Lent, 1885, formed Alpha Chapter. There are now upward of 800 chapters and about 10,000 members. The main object of the society is the extension of Christian work among young women, and the strengthening of parish life; each member pledging herself to observe the two rules of the order—namely, to pray daily for the growth of and blessing upon the work of the parish and all its members, and to make an earnest effort each week to bring at least one young woman into the Church, and to offer at all times such aid to the minister in charge of the parish as he may deem necessary for the furtherance of the work of Christ. The badge of the society is a Greek cross fleury of silver, with these words upon the horizontal arms: "Magnanimeter Crucem Sustine." At the base of the perpendicular are these letters: "I. H. S." —"For His Sake."

ORDER OF THE KING'S DAUGHTERS.

Officers of the Central Council.—Office, 158 West Twenty-third-st., New-York; President, Mrs. Margaret Bottome; vice-president, Miss Kate Bond; general secretary, Mrs. M. L. Dickinson; treasurer, Miss M. P. Barker; corresponding secretary, Mrs. Isabella Charles Davis; recording secretary, Mrs. Robert Sturgis.

This order, founded in January, 1886, has now about 300,000 members. It originated in New-York, and has spread all over the Union and into Europe, Asia and Australia. Its object is to "develop spiritual life and stimulate Christian activity." Its members are bound to "serve the needy and the suffering, to consider the poor and be helpful in good work." The motto of the society is "In His Name." The badge is a purple ribbon on a small silver cross bearing the initials I. H. N. Any woman may form a branch by uniting other women with herself for joint effort in doing good. The yearly membership fee is 10 cents, payable to the treasurer.

The corporate title of the society is: "The International Order of the King's Daughters and Sons." There is no annual meeting of the whole society, but the annual business meeting is held by the Central Council (Executive Board) on the first Monday in May. Annual meetings of the State organizations are held at different times throughout the year.

BAPTIST YOUNG PEOPLE'S UNION.

Headquarters, 122 Wabash-ave., Chicago; organized July, 1891. Officers—President, John H. Chapman, Chicago; secretary, A. M. Brinkle, Philadelphia; treasurer, J. O. Staples, Downer's Grove, Ill. The objects of the Union are: The unification of Baptist young people, their increased spirituality, stimulation in Christian service, instruction in Baptist history and doctrine, and enlistment in missionary activity. The total membership is about 500,000; there are 283 subordinate associations, 38 State and provincial unions, and four—Canada, or Red; Northern States, or Gold; Southern States, or Green; Western States, or Blue—departments. The grand body will meet at Toronto in July.

BROTHERHOOD OF ST. ANDREW.

This is an organization connected with the Protestant Episcopal Church of the United States. Its membership is limited to men only, and it is under the control of the bishops and clergy. It was organized as a parochial guild on November 30, 1883, and a general organization was effected October 23, 1886. There are local assemblies in the following cities and districts: Chicago, New-York, Cleveland, New-England, Philadelphia, St. Louis, Utica, Detroit, Cincinnati, Long Island, Nashville, District of Columbia, Central New-York, Louisville, Norfolk, Pittsburg, Newark, Richmond, Baltimore,

Elizabeth, N. J.; Boston, Providence, Savannah, Indiana, Ohio. In addition to these there are separate Brotherhoods of St. Andrew connected with the Church of England in Canada, Church of England in Australia, and the Scotch Episcopal Church.

The objects of the society are the same as those of the Daughters of the King, and its headquarters is at No. 13 Astor Place, New-York City. Its officers are: James L. Houghteling, president, No. 59 Dearborn-st., Chicago; John P. Faure, treasurer, and John W. Wood, secretary, No. 13 Astor Place. The Brotherhood publishes a monthly paper, "The St. Andrew's Cross."

BROTHERHOOD OF ANDREW AND PHILIP.

Federal Council—President, Rev. Rufus W. Miller; general secretary and treasurer, T. A. Wonder, 1,423 Mosher-st., Baltimore, Md.; Francis G. Gallager, Philadelphia; Rev. E. N. Hardy, South Boston, Mass.; Rev. William S. Kelsey and William Chaffee, Boston; Rev. A. E. Myers, New-York City; Rev. Ford C. Ottman and Mr. Stein, Newark, N. J. The society was organized at Reading, Penn., on May 4, 1888, and its headquarters are at No. 1,423 Mosher-st., Baltimore, Md.

The object of the organization is the spreading of Christ's kingdom among young men. Each member must pledge himself to pray daily for the success of his work among young men, and to bring at least one young man within the hearing of the Gospel each week. The governing body is a Federal Council composed of two members from each denomination embraced in the federation. These members are elected from the Executive Council of each denomination. There are at present only four denominations—the Reformed Church in the United States and the Reformed Church of America embracing 75 chapters; the Congregational Church embracing 35 chapters, and the Presbyterian Church embracing 30 chapters. The total membership is about 8,000.

AMERICAN MEDICAL ASSOCIATION.

Officers—President, Dr. James F. Hibberd, Ind.; vice-presidents, Drs. John A. Wyeth, New-York; Isaac N. Love, Mo.; Thomas E. Murrell, Ark.; U. O. B. Wingate, Wis.; permanent secretary, Dr. William B. Atkinson, Penn.; assistant secretary, Dr. H. Bert Ellis, Cal.; treasurer, Dr. R. J. Dunglison, Penn.; librarian, G. W. Webster, Ill. The office of the permanent secretary is at No. 1,400 Pine-st., Philadelphia. The next annual meeting will be held at San Francisco, May, 1894.

The objects of the society are: The cultivation and advancement of medical knowledge; the elevation of the standard of medical education; the promotion of the usefulness, honor, and interests of the medical profession; the enlightening and directing of public opinion in regard to the duties, responsibilities, and requirements of medical men; to encourage and emulate a concert of action among medical men, and to facilitate and foster a friendly intercourse between those who are engaged in it.

The estimated number of physicians of this school is 90,000; number of colleges, 100; professors and instructors, 1,800; students in attendance, 10,000. The libraries of the schools equal 50,000 volumes. The buildings, lands and scientific apparatus are worth $4,000,000. The membership of the association is over 5,000. There are besides a number of special organizations, such as the American Academy of Medicine, composed only of medical graduates who have received a degree in letters prior to graduation (membership about 600); American Association for the Study and Cure of Inebriates, American Climatological Association, American Gynaecological Association, American Public Health Association, etc.

Forty-one States have State medical societies; twenty-two have State licensing and examining boards. In many States the county medical societies only are represented in the State body, but in others, particularly in the West, the State body is made up independently. The aggregate membership of these State and local medical societies is 40,000. There are 700 county and district medical societies. All these are entitled to send delegates to the annual sessions of the American Medical Association, and are regarded as auxiliary thereto. The number of hospitals is about 730.

OUR YOUNG PEOPLE'S CHRISTIAN UNION.

This is a society of the United Presbyterian Church of North America, organized on May 25, 1889, with headquarters at No. 1,336 Orthodox-st., Frankford, Philadelphia. It has a membership of 29,978, the objects of the society being the training of young people for Christian work in the congregation, and the development of an earnest Christian life among its members. The principal officers are: Chairman of general committee, Rev. S. J. Shaw; general secretary, Rev. M. G. Kyle.

LOYAL WOMEN OF AMERICAN LIBERTY.

The National Association of Loyal Women of American Liberty is an organization of Christian women having for their special work the exercise of their influence, by lectures and otherwise, as opportunity offers, toward urging legislation to a limitation of immigration, the enforcement of the naturalization laws, compulsory education, and retention of the Bible in public schools. The motto of the order is "For God and American Liberty." Any woman who will promise to work for the increase of God's King-

dom and for the furtherance of American liberties may become a member; and persons of either sex, eligible by the conditions noted above, may become honorary members. The National headquarters is in Tremont Temple, Boston, and the officers are as follows: President, Mrs. E. McGregor Burt; vice-presidents, Mrs. General N. P. Banks and Mrs. Mary A. Livermore; secretary, Mrs. Charles M. Hoffman; treasurer, Mrs. Abbie F. Wyman.

NATIONAL LEAGUE FOR PROTECTION OF AMERICAN INSTITUTIONS.

Incorporated, 1889; non-partisan and unsectarian. President, William H. Parsons; vice-president, William Strong; general secretary, Dr. James M. King; treasurer, William Fellowes Morgan; law committee—William Allen Butler, Dorman B. Eaton, Cephas Brainerd, Henry E. Howland. Offices, 140 Nassau-st., New-York. Objects: "To secure constitutional and legislative safeguards for the protection of the common school system and other American institutions; to promote public instruction in harmony with such institutions, and to prevent all sectarian or denominational appropriations of public funds." The League proposes to secure this amendment to the Federal Constitution: "No State shall pass any law respecting an establishment of religion, or prohibiting the free exercise thereof, or use its property or credit, or any money raised by taxation, or authorize either to be used, for the purpose of founding, maintaining or aiding, by appropriation, payment for services, expenses or otherwise, any church, religious denomination or religious society, or any institution, society or undertaking which is wholly or in part under sectarian or ecclesiastical control."

The general secretary makes this report: "In pursuance of its work on the above lines, the League has vigorously opposed, both in the LIst and LIId Congresses, with good measure of success, the making of sectarian appropriations for Indian education, and has sought to extend the common school system among the wards of the Nation. The National councils, conferences, assemblies and conventions of the Baptist, Methodist Episcopal, Presbyterian, Protestant Episcopal and Congregational churches have, in response to the League's memorials, declared against a further continuance of the practice of receiving subsidies from the National Government for the support of denominational work, and have explicitly indorsed the principles of the XVIth Amendment. The principles of the XVIth Amendment have been adopted by two National Conventions, representing the various patriotic American orders, many of which are doing active work, and securing the co-operation of more than 1,500,000 voters. Local secretaries have been appointed in about 200 centres of population, furnishing a medium for extended correspondence and organization. Local Leagues have been formed in several cities, and steps are being taken to organize State Leagues."

ANCIENT ORDER OF HIBERNIANS.

New-York officers—Edward L. Carey, county delegate; John Magniore, recording secretary; Bernard Ford, financial secretary; John Madden, treasurer.

This is a social and benevolent organization, having also for its object the liberation of Ireland. The parent body, which is called "The Board of Erin," has existed in Ireland for over fifty years. Membership is restricted to Irish Catholics and their sons. The American organization consists of 48 divisions and has 5,000 members. Monthly meetings of the County Board are held at Central Hall, 229 East 47th-st. A permanent home for the order is to be built in East 44th-st. An annual convention of delegates from all parts of the United States is held in New-York on May 1 of each year for the election of National officers. About ten years ago a section of the order rebelled and started a rival organization. Judge Bartlett, of the Supreme Court of Kings County, set aside their claim to the title in favor of the older body.

THE NATIONAL WOMAN'S CHRISTIAN TEMPERANCE UNION.

General Officers.—President, Miss Frances E. Willard, Evanston, Ill.; private secretary, Miss Anna A. Gordon, Evanston, Ill.; corresponding secretary, Mrs. Mary A. Woodbridge, Ravenna, Ohio; secretary, Miss Mabel Morrison (office, The Temple, Chicago); recording secretary, Mrs. L. M. N. Stevens, Portland, Me.; assistant recording secretary, Mrs. Clara Hoffman; treasurer, Miss Esther Pugh, Chicago, Ill.

Pledge.—"I hereby solemnly promise, God helping me, to abstain from all distilled, fermented and malt liquors, including wine, beer and cider, and to employ all proper means to discourage the use of and traffic in the same."

Origin and Objects.—This society is the lineal descendant of the great temperance crusade of 1873-74, and is a union of Christian women for educating the young, forming a better public sentiment, reforming the drinking classes, transforming by the power of Divine Grace those enslaved by alcohol, and securing the entire abolition of the liquor traffic. With forty-eight auxiliary State and four Territorial unions, besides those of the District of Columbia and Alaska, it is the largest society ever composed exclusively of women and conducted entirely by them. It has been organized in every State and Territory of the Nation. Great Britain, Canada and Australia, Hawaiian Islands, New-Zealand, India and Japan, Madagascar and South Africa have also organized. The number of local unions in the United States is estimated at 7,000, including Young Women's Christian Temperance Unions, with 150,200 members, and a following of 400,000.

Organizers.—Mrs. M. L. Wells, Chattanooga, Tenn.; Mrs. L. H. Washington, Fort Jervis, N. Y.; Miss Frances E. Griffin, Montgomery, Ala.; Mrs. Helen L. Bullock, Elmira, N. Y.; Mrs. E. A. Blair, Creighton, Neb.; Miss Ida Clothier, Boston, Mass.; Mrs. Maude L. Greene, Man-

itou Springs, Col.; Mrs. Mary B. Reese, Seattle, Wash.; Mrs. Emily P. Stevens, San Francisco, Cal.; Miss Belle Kearney, Flora, Miss.; Mrs. Delle H. Cox, Newburg, Ore.; Mrs. E. Norinne Law, Baraga, Mich.; Mrs. F. E. W. Harper, Philadelphia; Mrs. Henrietta Skelton, San Francisco; Miss Ellen K. Denny, Vincennes, Ind.; Miss Clara Parrish, Paris, Ill.

NON-PARTISAN W. C. T. U.

President, Mrs. E. J. Phinney, Cleveland; vice-president, Mrs. H. C. Campbell, Allegheny, Penn.; general secretary, Mrs. Howard M. Ingham, East Cleveland; recording secretary, Mrs. Florence C. Porter, Winthrop, Me.; treasurer, Mrs. C. Cornelia Alford, Brooklyn. The society's official organ is "The Temperance Tribune," of which Mrs. Joseph D. Weeks, of Pittsburg, Penn., is editor, and Mrs. C. C. Alford, Bernardstown, Mass., publisher.

Organized at Cleveland in January, 1890, as a protest against the attitude of the W. C. T. U. toward political parties. The first annual convention was held at Allegheny City, Penn., in November, 1890; the second in Brooklyn, in November, 1891, when an amendment to the constitution was adopted providing that the right of individual members to take part in political and denominational work should not be abridged. The objects are the promotion of temperance through total abstinence; the instruction of the youth in scientific temperance and industrial training; also the rescuing of inebriates by way of a medical cure. The total membership is about 10,000, including the State organizations in Maine, Vermont, New-York, Ohio, Pennsylvania, Iowa and Illinois.

GOOD TEMPLARS.

The Independent Order of Good Templars was organized in 1851, and to-day has a membership of 600,000. Its pledges are total abstinence; no license in any form to sell liquor as a beverage; prohibition of the manufacture, importation or sale of liquors, and election of men to carry out these principles. The principal officers of the International Supreme Lodge are: Right worthy grand, Dr. D. H. Mann, New-York; grand secretary, B. F. Parker, Wisconsin; grand treasurer, G. B. Katzenstein, California. The board of managers of the Grand Lodge of New-York are: D. W. Hooker, G. C. T., chairman, Syracuse; I. C. Andrews, G. S. secretary, Ithaca; T. G. Ellsworth, New-York; Victor Holmes, Jamestown; E. L. C. White, Nashville, Tenn.; Supreme M. at E., Thomas G. Sample, Allegheny, Penn. Founded February 19, 1864, Washington, by James H. Rathbone. Objects: The practice of "Friendship, Charity and Benevolence."

The total membership is about 450,000. There are several homes and asylums throughout the Supreme Jurisdiction, which embraces the United States, Canada and British Columbia. New-York State has a fund of $40,000 toward a home. The Grand and Supreme headquarters are wherever the Grand and Supreme Chancellor resides. There are Grand Lodge formations in nearly every State in the Union, and the uniformed rank is composed of about 40,000 members, under command of Major-General J. R. Cernahan, Indianapolis, Ind. The strongest States, in membership, are: Pennsylvania, 48,000; Ohio, 45,000; Indiana, 31,000; Illinois, 29,000; Iowa, 19,000; New-York, 19,000; Missouri, 17,000; Kansas, 14,000.

ORDER OF ELKS.

The Benevolent and Protective Order of Elks of the United States of America is an organization whose objects are "Charity and Sociability," and which has a total membership of 21,844, among 245 lodges. It was founded in 1871, and its present headquarters are at Detroit, Mich. The principal officers are: Grand Exalted Ruler, A. Apperly; Grand Treasurer, William F. Beckel; Grand Secretary, Allen O. Myers. The headquarters of the New-York body are at 1158 Broadway, and the officers are: Exalted Ruler, James J. Armstrong; Treasurer, W. Henry Flahr; Secretary, R. S. Martin.

THE ACTORS' FUND OF AMERICA.

Incorporated 1882. Headquarters, 12 West Twenty-eighth-st., New-York City. President, A. M. Palmer; vice-presidents, Louis Aldrich, Edwin Knowles; treasurer, Frank W. Sanger; secretary, Charles W. Thomas; assistant secretary, Lester Gar-

ney; trustees, A. M. Palmer, Louis Aldrich, Edwin Knowles, Frank W. Sanger, Charles W. Thomas, Daniel Frohman, De Wolf Hopper, Milton Nobles, M. W. Hanley, Joseph F. Wheelock, Joseph W. Shannon, Antonio Pastor, Al. Hayman, Augustus Pitou, Theodore Moss, Harley Merry, Carl A. Haswin, Edwin H. Price, H. S. Taylor, F. F. Mackay, H. A. Rockwood.

The fund assists sick and indigent persons connected in any capacity with the dramatic profession of the United States, and provides for their decent burial. The last annual report, June 7, 1892, showed total receipts for the year, $195,510 18; expenditures, $32,040 50, of which $22,955 51 was paid for relief, funeral, physicians' expenses, medicines, etc., in different cities. The total expenditure under this head for ten years is $163,899 93. In the same period 3,071 persons have been relieved, and there have been 572 burials.

KNIGHTS OF LABOR.

Headquarters, Philadelphia. General Master Workman, James R. Sovereign, of Iowa; General Worthy Foreman, Charles Martin; General Secretary-Treasurer, John W. Hayes. Members Executive Board—James R. Sovereign, chairman; J. W. Hayes, H. B. Martin, Minn.; T. B. McGuire, N. Y.; James M. Kenney, Neb.; C. A. French, Mass. Total receipts of order at convention in 1892, $302,000; total value of property, $100,000; membership, 64,000. The falling off in membership is said to be due to local difficulties and hard times in the South. The first local was formed December 23, 1869, and the General Assembly was formed at Reading, Penn., in 1878. It is composed of mixed and trade local assemblies; five or more locals can form a district assembly, and ten or more trade locals can form a National trade assembly. Ten or more mixed locals can form a State assembly in any one State.

ANCIENT ORDER OF UNITED WORKMEN.

Officers Supreme Lodge.—Past Supreme Master Workman, J. Edward Burtt, Malden, Mass.; Supreme Master Workman, D. H. Shields, Hannibal, Mo.; Supreme Foreman, L. L. TAMMANY SOCIETY AND COLUMBIAN ORDER.

OFFICERS—Grand Sachem, Thomas F. Gilroy; Sachems, Hugh J. Grant, Richard Croker, John J. Gorman, Henry D. Purroy, John McQuade, Charles Welde, Bernard F. Martin, William H. Clark, John H. V. Arnold, W. Bourke Cockran, Charles E. Simmons, Thomas L. Feitner, Charles M. Clancy; Secretary, John B. McGoldrick; treasurer, Peter F. Meyer; sagamore, William H. Dobbs; wiskinkie, Daniel M. Donegan.

Tammany was a Delaware chieftain who lived for over 100 years, and in Revolutionary days was popularly styled the patron saint of the Republic. His name was adopted by several secret charitable societies organized in different cities of the Union soon after the Revolution as an offset to the aristocratic Society of the Cincinnati. The New-York society was established on May 12, 1789, and incorporated in 1805, but soon became a political instrument in the hands of the Democratic managers. William Mooney, its principal founder, was the first Grand Sachem. Its date of meeting is the first Monday in each month, and its objects "Benevolence and Patriotism."

AMERICAN BAR ASSOCIATION.

Organized 1878. President, Thomas M. Cooley, Ann Arbor, Mich.; secretary, John Hinkley, 215 N. Charles-st. Baltimore; treasurer, Francis Rawle, 328 Chestnut-st., Philadelphia. Annual meeting, Lake Placid, in the Adirondacks, September, 1894.

UNIVERSITY EXTENSION.

The university extension movement, started in the United States in 1890 by Dr. William Pepper, provost of the University of Pennsylvania, is a system of instruction for adults embracing lecture courses, with classes, weekly exercises, examinations and certificates.

The American Society for the Extension of University Teaching (president, Professor Edmund J. James, Wharton School University of Pennsylvania; secretary, George F. James; treasurer, Frederick B. Miles; headquarters, Fifteenth and Chestnut sts., Philadelphia), was founded in 1890 by Dr. Pepper, has organized "local centres" in neighboring States, and through branch societies and affiliated colleges has stimulated general diffusion of the system.

The "unit of instruction" is a course of six or twelve weekly or fortnightly lectures, followed by a special conference or class. The "unit of organization" is a committee of citizens or the directors of a literary or social club, willing to assume the local management of the course. Lecturers are secured through the central office, either from the faculty of a neighboring college or from the society's regular staff. In 1892-93 there was an attendance of 25,000 students. Connecticut has a State branch of the American Society; Rhode Island, New-York, Ohio, Wisconsin and Kansas are also active in the movement.

The Extension Department of the University of the State of New-York is similar to the one in Pennsylvania, and was organized in 1891. The headquarters are at the Capitol, Albany, and there are centres in very many of the cities and towns of the State. The Department gives needed advice and suggestions to organized centres and those in process of organization, and saves unnecessary duplication of local expenses by effecting co-operation among centres in all parts of the State. Its objects are: The promotion and wider extension of opportunities and facilities for education to those unable to attend the usual teaching institutions. The officers are: Director, Melville Dewey; assistant director, Myrtilla Avery.

NATIONAL LEAGUE FOR GOOD ROADS.

Organized 1892. President, Senator Charles F. Manderson, Nebraska; general vice-president and acting secretary, General Roy Stone, 45 Broadway, New-York; general Western secretary, S. Thornton K. Prime, Dwight, Ill.; treasurer, William H. Rhawn, Philadelphia; counsel, Chauncey B. Ripley, New-Jersey; executive committee, E. H. Thayer, Iowa; Philip D. Armour, Chicago; Clem Studebaker, Indiana; Chauncey B. Ripley, New-Jersey; August Belmont, New-York; Aug. T. Gillender, New-York; W. Seward Webb, New-York; George Peabody Wetmore, Rhode Island; Charles L. Burdett, Connecticut. Objects, "to awaken general interest in the improvement of public roads, determine the best methods of building and maintaining them, secure the legislation, State or National, that may be necessary for their establishment and support, and conduct or foster such publications as may serve these purposes." The League has continued to prosper, having received and expended over $100,000. It successfully maintained a road exhibit at the World's Fair, and Congress appropriated $10,000 for a road inquiry, and that work is in progress.

IRISH NATIONAL FEDERATION OF AMERICA.

President, Dr. Thomas Addis Emmet; secretary, Joseph P. Ryan; treasurer, Eugene Kelly; John Byrnes, chairman Board of Trustees.

Founded in New-York June, 1891, by Dr. Joseph Francis Fox, M. P., as the representative of the Irish Parliamentary party of which Justin McCarthy is the head. The Federation in both Ireland and America takes the place of the Irish National League, which continues in the control of Parnell's last partisans. Its object is "earnestly and actively to sustain the cause of Home Rule for Ireland, with moral and material aid." New-York headquarters, Room 22, Cooper Union. It has remitted to Ireland, since July 2, 1892, $73,359 55; direct to Buffalo, $5,000; to St. Paul, $1,600; to other places, $2,500; total, $82,459 55.

SOCIETY OF THE CINCINNATI.

OFFICERS.—Acting President-general and Vice-President-general, Robert M. McLane, Maryland; secretary-general, Asa Bird Gardiner, LL. D., Rhode Island; treasurer-general, John Schuyler, C. E., New-York; assistant secretary-general, Thomas Pinckney Lowndes, South Carolina; assistant treasurer-general, Henry Thayer Browne, Rhode Island. The office of the secretary-general is at Garden City, L. I.

The society was founded by American and French officers of the American Revolutionary Army in May, 1783. Baron Steuben presided at the meeting for organization. The institution was drafted by General Knox, and declared that the officers of the American Army "associated themselves into one society of friends to endure as long as they shall endure or any of their eldest male posterity; and in failure thereof, the collateral branches who may be judged worthy of becoming its supporters." At the first general meeting of the society in Philadelphia in 1784 an effort was made to modify the constitution, but failed. Washington was elected president-general in 1783. Robert Burnett, of New-York, who died in 1854, was the last survivor of the original members. Seven of the original thirteen State societies still survive, and hold annual meetings on July 4. At the last meeting of the General Society, in June, 1893, the Connecticut State Society was revived. Its principal officers are: President-general Dwight Morris, Bridgeport; treasurer, Nathan G. Pond, Milford; historian, Rev. A. N. Lewis. The general society, which consists of the general officers and five delegates from each State society, will hold its next triennial meeting ———

The secretaries of the State societies are as follows: Massachusetts, David Greene Haskins, jr., No. 83 Devonshire-st., Boston; Rhode Island, Asa Bird Gardiner, Garden City, L. I., N. Y.; Thomas Arnold Peirce, assistant secretary, East Greenwich, R. I.; New-York, John Schuyler, No. 63 William-st., New-York; New-Jersey, William Chetwood Spencer, Elizabeth; Pennsylvania, Francis Marinus Caldwell, No. 4,814 Chester-ave., Philadelphia; Maryland, Wilson Cary McHenry, No. 103 St. Paul-st., Baltimore; South Carolina, Daniel Elliott Huger Smith, Charleston; Connecticut, Augustus W. Merwin, Wilton.

PATENT OFFICE PROCEDURE AND STATISTICS.

Applications for United States patents must be addressed to the Commissioner of Patents, Washington, D. C., and signed and sworn to by the inventor. The invention must not have been in public use or on sale for more than two years prior to the application. The applicant must fully describe his invention and distinctly claim those parts which he believes to be new. The application must be illustrated with drawings when possible. When filed, a first fee of $15 is payable, and a second fee of $20 is exacted, if the application is allowed, before the patent will be issued. The patent runs 17 years from date of issue. Extensions can be obtained only by special act of Congress. A pamphlet of rules and forms is distributed free by the Commissioners of Patents. Suits to enjoin infringement of letters patent are brought by bill in equity in U. S. District or Circuit courts. The profits realized by an infringer can also be recovered.

The total number of United States Patents granted up to November 30, 1893, including 22,943 Design Patents, was 542,754. The average issue is about 25,000 a year. The average number of applications for patents is 40,000 a year. Since 1881, the annual receipts of the Patent Office have exceeded $1,000,000. The figures for the fiscal year ended June 30, 1893, were $1,288,809 07. The expenditures for the same year were $1,111,444 62. The total balance to the credit of the Patent Fund in the United States Treasury on June 30, 1893, was $4,279,805 94. The two main items of expense are salaries, about $688,000, and printing and photo-lithographing, about $400,000 annually. The Patent Office Library contains 65,000 volumes. The model hall has 154,000 models. The office does not require models now, except in special cases.

AGRICULTURAL STATISTICS.

Total improved acreage in the United States, 1891, about 365,800,000 acres; 1880, 284,771,041 acres. Total acreage in farms, 1891, 668,000,000 acres; 1890, 536,081,835 acres. The crops of the principal farm products for 1892 were as follows:

Product.	Acres.	Bushels.	Values.
Corn	70,626,658	1,628,464,000	$642,146,630
Wheat	38,554,430	515,949,000	322,111,881
Oats	27,063,835	661,035,000	200,253,611
Flaxs'd	1,477,361	11,104,440	.....

The corn crop of 1892 has been exceeded in rate of yield in five of the past ten years, and was considerably below the average, that of 1891 being 2,060,154,000 bushels. The wheat crop of 1892 was slightly above an average one in yield per acre, and in volume was exceeded only in 1891, when it was 611,780,000 bushels. The yield per acre was 13.4 bushels, and the value 62.4 cents per bushel. There was a material increase in the acreage of oats as compared with that of 1891, but a falling off in yield of more than 77,000,000 bushels, due to the grain aphis, blights and other causes. The flaxseed shows a falling off in acreage of 450,000 acres. The crop has been practically abandoned as a farm crop East of the Mississippi River, while West of that stream the production has been concentrated in five States.

Number and value of live stock on farms: Horses, 16,206,802, valued at $992,225,185; mules, 2,331,128, $164,763,751; milch cows, 16,424,087, $356,876,353; oxen and other cattle, 35,964,196, $547,882,204; sheep, 47,273,553, $125,909,284; swine, 46,094,807, $295,426,492. These figures show an increase over 1891 of 708,662 horses, 16,429 mules, 7,736 milch cows and 2,335,188 sheep, but a decrease of 1,697,043 cattle and 6,303,212 hogs. The increase in the value of hogs was 39 per cent over the price of 1891, the result of a change from an apparent plethora to absolute scarcity.

OKLAHOMA'S GROWTH.

Governor Renfrow, in his report to the Secretary of the Interior, in November, estimated the population of the Territory proper at 151,304 and that of the Cherokee Strip at 100,000, making a total of 251,304. The value of the taxable property of the Territory is given as $13,951,056, as against $11,485,162 in 1892. There are six National banks, each having a capital stock of $50,000, and twenty-four private banks, with capital stocks ranging from $10,000 to $50,000. The latest financial statement of the Territory shows warrants outstanding amounting to $27,331; as against this indebtedness are amounts due the Territory from various sources aggregating $35,955, leaving a balance of $8,624 in favor of the Territory. The people of the Territory manifest great interest in public schools, and good progress is being made in that direction. In agriculture, the Governor says, the Territory has a never-failing source of support and income, and with the exception of one year the seasons have been excellent. Wheat last year made a fine yield, averaging about twenty bushels to the acre all over the Territory, some pieces yielding sixty-two bushels an acre. There are 6 Episcopal, 165 Methodist, 25 Baptist, 24 Congregational, 25 Catholic and 24 Presbyterian churches, 3 Epworth Leagues and 50 Christian Endeavor Societies.

a On basis of 2,970,000 square miles, which covers "land surface" only and excludes Alaska. b On basis of 65,301,571 population, which covers an estimated annual increase of 1,250,000 for 1891 and 1892, and excludes Alaska. c Decrease.

It is a remarkable fact that the increase of mileage in 1892 is the smallest increase for any year since 1885, only 1.88 per cent over that of 1891. Another noteworthy fact is that this increase was distributed with a fair degree of uniformity throughout the various States, thus indicating that there was no market activity in railway construction in any particular part of the country.

This table contains the "relative sunspot numbers" of Dr. Rudolph Wolf, of Zurich, for many years a standard authority on this subject. The values for 1892 are not final and definite, but approximate. But they clearly show a rapid increase in solar activity in that year, a fact which is also revealed by Tacchini's observations of spots, faculae and prominences. The mean for the first nine months (73.9) is already higher than that of any complete year at the last maximum stage (1883-84). This does not, however, indicate that the new maximum has yet been fully attained, since the maximum of 1883-84 was the lowest in nearly 70 years, apparently coming at the minimum stage of a longer cycle. Dr. Wolf thinks there is such a cycle extending through 66 years. Another reason for believing that 1893 would show a still further increase in spot abundance was that the rise from the minimum to maximum in the 11-year cycle usually takes at least four years. The last cycle was unusually long—nearly 14 years—and a shorter one, of only 8 or 9 years, may be reasonably expected to follow it.

THE TURF.

The notable incidents of the racing season of 1893 were:

The withdrawal of the Board of Control edict against winter racing; passing of the Parker Racing bills in New-Jersey, which legalizes racing in that State from March 1 to December 1; the resumption of racing at Elizabeth, Linden and Clifton; first appearance in America of the colors of Colonel J. T. North; Richard Croker's first season as an owner of racehorses; starting of the Duke of Beaufort's Strathrose in the American Derby at Chicago; death of Henry Clay Ditmas; sale of the Rancocas Stable; sale of the stable of Nathan Straus, and the retirement of its owner from the turf; match between Tammany and Lamplighter at Guttenburg; match between Domino and Dobbins at Sheepshead Bay, the result of which was a dead heat; resignation of the Coney Island Jockey Club from the Board of Control; Domino's unbroken list of victories; conflict between Brighton and Monmouth Park; Tammany's retirement to the stud.

YACHTING.

The chief interest of the yachting season of 1893 centred in the international races for the "America's Cup." The Royal Yacht Squadron challenged for the cup in behalf of Lord Dunraven, the owner of the Valkyrie. Four sloops were built on this side, which contended for the honor of defending the prize won by the America against all England in 1851. They were the fin-keel Pilgrim, the fin-keel centreboard Jubilee, the keel sloop Colonia and the centreboard sloop Vigilant. The racing together of these boats began on the cruise of the New-York Yacht Club, and the superiority of the Vigilant over the others was demonstrated. In September came the trial races, in which the four boats contended, and in which the Vigilant won. She was selected as the defender, and it was decided that the Colonia was the second best boat. The Colonia was therefore held in readiness to take the Vigilant's place in case any accident should happen to that boat between the time of the trial races and the date upon which it had been agreed to announce to Lord Dunraven the name of the boat against which he was to sail. No such accident happened, however, and the Vigilant won three straight races. This was the ninth time the cup had been sailed for, including the race in which it was first won by the America, at Cowes, in 1851. The last race of the series was an extremely close one, the Vigilant winning by only 40 seconds, after deducting the time allowance to the Valkyrie. The Vigilant was built by a syndicate of yachtsmen, at the head of which were C. Oliver Iselin and Commodore E. D. Morgan, of the New-York Yacht Club. The record of the international yacht races will be found in the following summary of regattas and races:

BASEBALL.

The baseball season of 1893 was the most successful in the history of the sport. All the clubs in the National League made money, while the Eastern League went through the season without a break—conditions which never before prevailed. There are no squabbles nor internal dissensions, and the future of the game looks promising. Boston won the League pennant; Erie, the Eastern League trophy; Harvard, the Intercollegiate honors; and the New-Jersey Athletic Club team won the amateur championship. Los Angeles won the California League championship. Augusta and Memphis will play off for the Southern League championship in the spring of 1893.

The visit of the Australian team was one of the features of the season. They played games in Philadelphia, New-York, Boston, Toronto and Chicago, winning in all these cities except New-York, where the game was a draw. The Australians also lost the first of the two matches played in Philadelphia.

FOOTBALL.

The football season of 1893 was one of intense interest. Princeton, Yale and the University of Pennsylvania each cleared a profit of about $40,000 on the season. Enormous crowds witnessed the Yale-Harvard game at Springfield on Nov. 25; also the Princeton-Yale game on Manhattan Field, New-York, on Thanksgiving Day. Harvard did not contest in the intercollegiate championship, although she played Yale and Pennsylvania, being beaten by the former and winning from the latter. Yale and Harvard tried Deland chess tricks and other new manoeuvres, but Princeton stuck to the old style of open play and won the pennant.

The championship scores of the intercollegiate F. B. A. are as follows:

Teams.	Princeton.	Yale.	Univers'y of Penn.	Points scored.
Princeton	.....	Nov. 30. 6—0	Nov. 18. 4—0	10—0
Yale	Nov. 30. 0—6	.....	Nov. 11. 14—6	14—12
University of Pennsylvania	Nov. 18. 0—4	Nov. 11. 6—14	.....	6—18

Wesleyan did not contest for the championship. Scoring by points was introduced in 1883; since then the championship games have resulted as follows:

1883.

Columbia forfeited to Princeton.

NEW-ENGLAND INTERCOLLEGIATE FOOTBALL ASSOCIATION.

The championship of the New-England Football Association for 1893, composed of Amherst, Dartmouth and Williams, was won by Dartmouth. Williams was second. The games were as follows: Nov. 4, at Williamstown, Dartmouth 20, Williams 0; Nov. 11, at Hanover, Dartmouth 34, Amherst 0; Nov. 18, at Amherst, Williams 30, Amherst 12.

The Orange A. C. team won the championship of the American Football Union, defeating the Crescents for the first time.

Princeton's pennant team when she won the championship from Yale was made up as follows: Brown, left end; Wheeler, left guard; Holly, left tackle; Balliet, centre; Taylor, right guard; Lea, right tackle; Trenchard, right end; Ward, left halfback; Morse, right halfback; King, quarterback; Blake, fullback.

Since the present system of scoring was adopted in 1883 Yale has scored over 5,000 points. Her largest total was in 1888, when Corbin's eleven scored 710 points to none for its opponents. The largest score made by Yale in any single game was 136 points against Wesleyan, in 1886. The largest total scored against Yale in any season was in 1889, when 31 points were made against the blue. The largest score in any one game against Yale was made in the Springfield game of 1890, when 12 points were made by Harvard. Previous to 1893 in only one game in her history had Yale failed to make a touchdown, and that was in 1889, when Princeton's famous eleven won by a score of 10 to 0. The University of Pennsylvania has scored three times against Yale; in 1885, when the score was 53 to 5; in 1889, when the score was 22 to 10; and this year, by a score of 14 to 6.

It was a bad year for accidents, and Captain Trenchard, of Princeton, was the only leader of the great teams who was not badly disabled. Captain Mackey, Pennsylvania, was hurt in the Princeton game at Manheim; Captain Waters, Harvard, in the game with Yale at Springfield, and Captain Hinkey, Yale, in the game with Princeton at Manhattan Field. In England 26 men were killed playing football, and in this country the following fatal accidents occurred:

J. L. Peterson, neck broken, at Delavan, Wis., Nov. 5, 1893; Addis Herrold, athletic director of the Richmond (Ind.) Y. M. C. A., killed at Richmond in a game between the Y. M. C. A. and Franklin College on Nov. 11, 1893; Hugh Saussy broke his neck at Elizabeth, N. J., in a game between the College of the City of New-York and the Elizabeth Athletic Club Nov. 11, 1893; Raymond Carew, killed at Adrian, Mich., Nov. 19, in game between the High School of Toledo, Ohio, and Adrian College; Jose Perez, a young Spaniard, collided with a Mr. Nory, of Boston, in a game at Poughkeepsie, N. Y., Oct. 20, and died from concussion of the brain next day.

LAWN TENNIS.

The announced retirement from competition of Champion Oliver S. Campbell, of Brooklyn, gave an additional zest to the lawn tennis season of 1893. Nearly every player who figured prominently in 1892 started in the race for the highest honors to be secured in America. Early in the season Clarence Hobart and F. H. Hovey appeared stronger than any of their rivals; though W. A. Larned, M. G. Chace, S. T. Chase, R. D. Wrenn, W. P. Knapp, C. R. Neel and Richard Stevens also played well. At Newport, in August, when the National Championship was played for, great surprise followed the defeat of the most prominent candidates for the title, and also the victory of R. D. Wrenn, a graduate of Harvard University. In the final round Wrenn played cleverly and defeated F. H. Hovey (score: 6-4, 3-6, 6-4, 6-4. As Campbell declined o defend the title, the championship of America at men's singles, it was won by Wrenn by default.

The National Championship at doubles was played at Chicago, in connection with the World's Fair, and resulted in Clarence Hobart and F. H. Hovey defeating the previous holders, O. S. Campbell and R. P. Huntington, jr., in the challenge round (score: 6-4, 6-4, 4-6, 6-2). The National Women's Championships were contested, as usual, at Philadelphia, in June. Miss Grace Terry, of Princeton, N. J. (the challenger), won the championship at singles by default, from Miss M. E. Cahill, the previous holder. With Miss Butler, of Augusta, Ga., Miss Terry also won the championship at doubles, while Miss E. C. Roosevelt and Clarence Hobart won the mixed-doubles championship.

The English championships were played as usual at Wimbledon, Eng., in July. J. Pim, an Irishman, won the "all-comers" for men's singles by defeating a fellow countryman, H. S. Mahoney, in the final round (score: 9-7, 6-3, 6-0); he then defeated W. Baddeley, of England, the former holder, in the challenge round (score: 3-6, 6-1, 6-3, 6-2). In the men's doubles J. Pim and F. O. Stoker, both Irishmen, won the championship by defeating E. W. Lewis and H. S. Barlow, the previous holders. The championship at women's singles was again won by Miss Lottie Dod, who defeated the challenger, Mrs. G. W. Hillyard, in a close match (score: 6-8, 6-1, 6-4).

At the end of the American season the relative standing of the first ten players for 1893 was as follows: 1, R. D. Wrenn; 2, F. H. Hovey; 3, Clarence Hobart; 4, W. A. Larned; 5, W. P. Knapp; 6, Richard Stevens; 7, E. L. Hall; 8, M. G. Chace; 9, M. R. Wright; 10, S. T. Chase.

A constitutional amendment to authorize the Legislature to provide for the election of an additional Judge of the Supreme Bench of Baltimore City, to authorize the General Assembly to provide by law, or the Supreme Bench by its rules, for requiring causes in any of the courts of Baltimore City to be tried before the court without a jury unless the litigants, or some one of them, shall within reasonable time elect to have their causes tried before a jury, and to authorize the General Assembly to reapportion, change or enlarge the jurisdiction of the several courts in said city, was adopted, on a light poll, at the November election of 1893. The vote stood 16,507 for, and 8,574 against. Baltimore gave it a majority of 8,931, and the counties gave a majority against it of 998.

In 1876 the vote in Mississippi on Presidential electors was 164,778. In 1892 52,809, or about one-third as many, notwithstanding a steady increase in population. In 1890 a new constitution was adopted by a majority of the convention which framed it, and without submission to a vote of the people, providing for a registration of voters, and requiring that every elector shall convince the registering officers that he is "able to read any section of the Constitution of the State, or able to understand the same when read to him, or give a reasonable interpretation thereof." This is the first Presidential election held under a registration so required. The State contains 257,005 males over 21 years of age. The completed registration embraced the names of 76,742 persons, who alone have the right of suffrage in the State. Of these 68,127 are whites and 8,615 colored. The male whites in the State number 112,005; the number deprived of registration is 43,878. The colored males number 145,000; those deprived of registration, 136,385. The total number disfranchised is 180,263. Of these 117,878 are classified as "illiterates." So that over 60,000 male persons, white and colored, not classed by the census as "illiterates" are disfranchised. The vote polled was five-sevenths of the registration, and was one-fifth of the males over twenty-one years of age.

The XIVth Amendment to the Federal Constitution says: "Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male inhabitants of such State being twenty-one years of age and citizens of the United States, or in any way abridged except for participation in rebellion, or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of citizens twenty-one years of age in such State."

In this case the "proportion" is that of 257,005 to 76,742. With the U. S. Constitution applied to this situation, Mississippi's quota of representatives in the House would fall from 7 members to 2.

No State candidates were chosen in 1893. But on the Assembly ticket the Republicans had a plurality of 23,829 over the Democrats and a clear majority of 10,474 over all. Last year the Democratic plurality over the Republicans on the same candidates was 1,495. This year the Republicans carried 17 of the 21 counties, only Atlantic, Hunterdon, Salem and Warren being Democratic on Assembly. In 1892 the Democrats carried 11 counties and the Republicans 10. The Prohibition vote in 1893 on Assembly was 8,518; in 1892, 7,920. In 1893 the Socialist-Labor vote was 2,018; the Independent, 1,329; Ind. Citizens' Association, 833; Citizens' League, 496; People's, 161. In 1893 the only county gained by the Democrats was Atlantic, in which the Republican plurality of 1892 of 379 gave way to a Democratic plurality in 1893 of 627. Essex is the banner Republican county, and Mercer the next with its 3,248 plurality, the largest given since its formation.

The Senators chosen in 1893, serving for three years, will participate in the election of a successor to the Hon. John R. McPherson (Dem.) for the U. S. Senate.

The constitutional amendments, one on taxation, and another to establish single legislative districts, were defeated, not having received the affirmative vote of a majority of all the electors who voted at the November election.

At a special election, November 7, 1893, in the Xth Congressional District of Ohio, Hezekiah S. Bundy (Rep.) was elected to fill the vacancy caused by the death, July 13, of the Hon. William H. Enochs.

(No election in IId; special election ordered.)

The figures given above are not official, as the Grand Committee did not meet and the ballots were not counted. It is generally understood that a recount would have shown a plurality for the Republicans. The prolonged series of by-elections in the towns brought the Legislature of 1893 to the May session composed as indicated above. The Democratic House then unseated one Republican and left a vacancy, and unseated another Republican and seated a Democrat, making the House of Representatives 41 Democrats and 30 Republicans, and the Grand Committee 55 Democrats to 53 Republicans. As the change in the representation was made in both instances in defiance of recent rulings of the Supreme Court, the Senate refused to join the House in Grand Committee to count the votes and elect officers. A deadlock of three days' duration ensued and then the Senate officially informed the Governor that a disagreement existed between the two Houses. In accordance with his Constitutional powers the Governor adjourned both Houses until the last Thursday in January, 1894. The Democrats of the lower House refused to recognize this action and sent certain questions to the Supreme Court as

to their prerogatives, the answers to which were adverse to their contention.

At an election on November 28, 1893, a Constitutional Amendment that in all elections for State, city, town, ward or district officers, the candidates receiving the largest number of votes cast shall be declared elected, was ratified—Ayes, 26,703; noes, 3,331.

POLITICAL MISCELLANY.

ALABAMA—A new election law will have the effect of disfranchising 40,000 or more of the voters of the State. It provides for the Australian ballot, and will go into effect at the general election of 1894. "The News Dispatch" says that this bill makes "everlasting Democratic rule in Alabama."

ARKANSAS—The Senate passed a bill conferring on the women of Arkansas the right of suffrage and making them eligible to membership on school boards. The convict lease system has been abolished.

CALIFORNIA—The Superior Court has decided in favor of Sacramento and against San Jose in the State capital removal case.

COLORADO—The Woman Suffrage amendment was carried by 6,847 majority. Governor Waite, in accordance with the above, issued a proclamation giving women the right to vote at all elections in this State.

CONNECTICUT—Women 21 years of age, who have resided in the State one year and can read the English language, shall have a right to vote at any meeting held for the purpose of choosing any officer of schools or for any educational purpose under the general or special laws of the State. Their ballots are to be placed in separate ballot-boxes, distinctly marked, "For Women's ballots." A Constitutional Convention bill was rejected in the House, having passed the Senate.

DELAWARE.—An act passed as to New-Castle County abolishing night sittings of the receiver of taxes. An act passed as to Kent and Sussex counties re-enacting the Delinquent Tax law, which was repealed two years ago. Under this it is expected that the bulk of the colored vote in Kent and Sussex will be disfranchised, as these voters have not paid poll tax within the past two years. As to the city of Wilmington, an act passed creating a new Police Commission,

under which the Mayor is debarred from being a member and the voters are deprived of direct representation in that body as the power of filling vacancies is lodged with the resident judges of New-Castle County. The city Board of Elections was merged with the State Department of Elections, and the officers appointed by the Mayor are to be superseded by officers appointed by the Governor, but the city is required to pay the expense incident to the elections. The State law in regard to the school fund was so amended as to give Wilmington $30,000, instead of $13,000. The city law in regard to registration of voters was made to conform to the State law adopted in 1891. Now, if a qualified voter registers, but does not vote at the ensuing election, his registration becomes null and void, and he must be again registered in order to vote at the next election. A constitutional amendment was adopted giving courts exclusive jurisdiction of divorces. The Fulton constitutional amendment, proposed by the Legislature of 1891, approved by the Governor and ratified by a three-fourths vote of the Legislature of 1893, amplifies the meaning of the word "ballot," as used in the Constitution, and legalizes the employment of voting machines at county and State elections if deemed advisable. An amendment to the Secret Ballot law repeals the section providing for voters' assistants and permits a voter to stamp his ticket anywhere within the square device. The Pilling constitutional amendment proposes to change the constitution so as to authorize a popular vote on calling a convention to be taken on the day of the general biennial election, in substitution of the provision which requires such vote to be taken at a special election in the month of May.

IDAHO.—The Supreme Court in December, 1892, declared unconstitutional the Apportionment act of the last Legislature. The Mormon Enfranchisement bill has become a law; this act annuls the retroactive law passed in 1891, which disfranchised all persons who since 1888 had been members of the Mormon Church.

ILLINOIS.—The Edward Compulsory Education act was repealed and a new one put in its place. The Supreme Court held that women can vote at school elections. The Senate passed a bill to extend the franchise to women in certain municipal and township elections.

INDIANA.—Women have full right to practice law in Indiana, according to the Supreme Court's recent decision in the test case of Antoinette D. Leach, whose application for admission to the bar had been denied. The Republican State Committee are testing in the court the constitutionality of the Apportionment act on the ground that it does not carry out the requirement of the Constitution, requiring as nearly as possible equal representation based upon voting population.

KANSAS.—A "Maximum Freight Rate" act was passed. Municipal suffrage was conferred on women, who are eligible as municipal officers. An Australian Ballot act was enacted. An act makes it illegal to require a gold contract in notes, mortgages or other obligations, and tender for all debts in Kansas. A constitutional amendment establishing full woman suffrage is to be voted on at the election of 1894.

LOUISIANA.—The District Court of New-Orleans in a Lafayette Parish case held that the law requiring railroads to provide separate cars for whites and negroes makes no exception of deputy sheriffs or officers accompanying prisoners, and that a white officer having a colored prisoner in charge cannot accompany him in the same car. According to the decision no negro prisoner or lunatic can be conveyed by car to jail or asylum by a white officer.

MAINE.—Municipal suffrage for women passed the Senate, 16 to 13, after the House had defeated it by a majority of 9.

MASSACHUSETTS.—A bill to submit to a popular vote the question of conferring upon women the right to vote for municipal officials was defeated, 88 yeas to 97 nays. The State Senate voted for a biennial election constitutional amendment.

MICHIGAN.—The Supreme Court has declared to be unconstitutional and void the Woman Suffrage act passed by the last Legislature. It conferred the right to vote at all elections for all city, township or village elections upon such women as can read and write. The District Electoral act for the choice of Presidential Electors was defeated.

MINNESOTA.—A "Maximum Freight Rate" act was passed. The Senate passed, 31 to 19, a bill extending full suffrage to women. A constitutional amendment will be submitted in 1894 empowering county courts to levy 15 cents on the $100 valuation for road purposes.

MISSOURI.—A "Corrupt Practices" act passed the last Legislature. It requires all political or campaign committees or combinations of persons who shall assist or promote the success or defeat of a political party or principal in a public election, or shall aid or take part in the nomination, election or defeat of a candidate for public office, to have a treasurer, who shall keep a detailed account of all money or equivalent of money received by or promised to the committee, and of all expenditures, disbursements and promises of payments or disbursements made by the committee or any person acting under its authority or in its behalf. The treasurer is required to file within thirty days after election a statement setting forth all the receipts, expenditures, disbursements and liabilities and the name of the person or committee to whom such expenditure or disbursement was made, which statement shall include the date and amount of every existing unfulfilled promise or liability, with the name of the person or committee involved and the purpose clearly stated for which the promise or liability was made or incurred. Each candidate for Congress or for any State or municipal office must conform to a schedule of expenditures to be fixed upon the following basis: For 5,000 votes or less, $100; for each 100 voters over 5,000 and under 25,000, $2; for each 100 voters over 25,000 and under 50,000, $1, and for each 100 voters over 50,000, 50

promise or offer to pay in excess of such sum is declared unlawful. Candidates are further required within thirty days after election to file a statement in writing setting forth in detail all sums of money contributed, disbursed, expended or promised by them. It is mandatory upon the officer or officers authorized to issue certificates of election to withhold them until these certified statements of expenditures have been made. An additional section provides that no candidate shall qualify until all the provisions of this act have been complied with. Penalties are provided for violations of the act and the means for enforcing them are sufficiently drastic to compel observance.

NEBRASKA.—A "Maximum Freight Rate" bill passed, to take effect in August, 1893. Judge Grundy, of the United States District Court, on the 30th of July, suspended this law. The theory on which the court granted the order is that the law reduces rates to such a low figure that it practically confiscates all Nebraska railroad property without compensation. The railroads operating in Nebraska later secured temporary injunctions against the State Board of Transportation enforcing the new law.

NEW-JERSEY.—The Supreme Court has decided the "County Excise Commissioners" act to be unconstitutional. This act applied to Camden, Cumberland, Hunterdon, Warren and a few other counties. The Court also held to be unconstitutional the act dividing counties into Assembly districts, as the Constitution (Sec. 3, Art. IV) provides that "the General Assembly shall be composed of members annually elected by legal voters of the respective counties, who shall be apportioned among the said counties as nearly as may be, according to the number of their present inhabitants." The constitutionality of the "Werts Ballot Reform" act was affirmed by the Court of Errors and Appeals, which also decided that voters may erase from the ballots all printed matter.

NEW-YORK.—A Constitutional Convention is to meet in May, 1894, under an act passed by the last Legislature. Delegates were chosen at the November election of 1893. A "Personal Registration" act, applicable to the whole State, passed the last Assembly, but failed in the Senate in the last hours of the session by reason of the illness of one of the Democratic Senators, without whose vote the necessary seventeen votes could not be had. On October 15 Judges Herrick and Mayham, of the Supreme Court, decided in the Albany election case that a political party has the legal right to name, through its county or city committees, its own election inspectors, its own protectors of its rights at the polls, its own men to count all the ballots cast at an election. A "Woman Suffrage" act at village elections was passed, but its validity will be contested in the courts.

NORTH CAROLINA.—A "State Banking" act has been passed in anticipation of the repeal of the 10 per cent restriction by Congress. It provides that the State shall issue $4,000,000 of 4 per cent bonds as a basis for banking.

OKLAHOMA.—A Statehood Convention held November 28, 1893, passed resolutions asking Congress to provide for the immediate admission of Oklahoma and the Indian Territory as one State, by the passage of a proper enabling act. All tribal governments in the five civilized nations shall be abolished, and a complete division of the common domain made among the citizens of each nation, except Sections 16 and 36, reserved for school purposes—such division to be made equally and the lands made alienable by them except a homestead of 160 acres for each. Lands occupied as town sites shall not be divided or set apart to any Indian, but shall be patented to the occupant thereof under U. S. townsite laws, and the proceeds of sales thereof shall be paid to the Indians of the nation in which such townsite is located. All cattle leases in Indian reservations within the present Territory of Oklahoma shall be abrogated, and all unsettled reservations shall be thrown open to settlement. This action was taken—yeas, 216; nays, 18. The minority oppose Statehood until Indian lands and property are brought by Congress within the taxing powers of the proposed State, and the titles to the lands are made subject to the jurisdiction of State laws.

PENNSYLVANIA.—An amended Ballot law was passed, by which the voter may vote a full party ticket by marking an "X" within the circle at the top of it; or may vote a mixed ticket by marking an "X" in a circle placed opposite the name of each candidate.

RHODE ISLAND.—The present State debt will be entirely extinguished by August 1, 1894. Governor Brown recommended in his January, 1893, message a revision of the Ballot law so that one cross would indicate a vote for all candidates grouped under it, and that the power of veto be given the Governor.

SOUTH CAROLINA.—On July 15, 1893, a new Liquor law took effect. Under the new law there will be no barrooms in the State. Whiskey will be dispensed or sold to consumers only by bonded officers in the different counties in sealed packages, ranging from half a pint to four gallons. No package will be permitted to be opened on the premises. The only requirement for any citizen to obtain whiskey or other stimulants is that he shall sign an order or request stating the amount or kind wanted. Liquor is not to be sold to minors or habitual drunkards. Beer and wine are also included under the provisions of the law. The local officers obtain their liquors from a State Commissioner, who purchases all the liquors sold in the State and puts them into sealed packages for distribution. All of the goods purchased must be analyzed by the State chemist, and their purity guaranteed before sale. In the United States Court in Charleston, S. C., November 24, Judge Simonton signed an order directing the South Carolina Railway to bring in all goods offered as freight and consigned to private consumers. The decision was made on the petition of a number of citizens, who claimed the right to buy beer and whiskey in another State for their own consumption and to have the railroads transport it. The maximum profit allowed under the law is 50 per cent to the State and 50 per cent to the local dispensary, one-half of which goes into the county treasury and the other

into the treasury of the municipality. The local option remains, as it requires a majority of the freehold votes to sign a petition before a local dispensary can be appointed. For forty years a system like this is said to have been in successful operation in Norway. There are six prohibition counties in South Carolina where there will be no dispensaries.

SOUTH CAROLINA.—A bill to provide separate railroad coaches for colored passengers was defeated in the Assembly of South Carolina—38 to 71.

SOUTH DAKOTA.—The House defeated municipal suffrage for women.

TENNESSEE.—The leasing of convicts is abolished. A law was passed authorizing the establishment of State banks of issue within its borders. The law provides for the deposit of Federal, State or county bonds as security for the bank notes, and requires their redemption in gold or silver. Provision is made for rapid bank examinations and for the security of depositors. The amount of the issues is limited to $25,000,000.

TEXAS.—The House has passed a bill requiring the railroads to provide separate coaches for whites and negroes.

UTAH TERRITORY.—President Harrison last winter proclaimed a general amnesty in the case of those members of the Mormon Church who have violated the law against polygamy, provided that they have obeyed the law since November, 1890, and pledge themselves to do so in the future. This action was urged upon the President by the Utah Commission, the Governor of the Territory and many citizens of Utah who are not Mormons. The date of President Harrison's proclamation of amnesty to certain Mormons was January 4, 1893.

Wanting all returns for the latter part of December. In the aggregate of liabilities, failures of banks and financial institutions are not included, the total for the year thus far reported is shown by sections in a separate table on the next page. The aggregate of indebtedness and stocks of railroads which have gone into the hands of receivers is also shown in a separate table.

The failures in Canada thus far reported in 1893 were 1,278 in number, against 1,688 in 1892, and the aggregate of liabilities, $12,456,426, against $13,766,191 for the full year 1892. The liabilities in 1893 were $6,686,191 in manufacturing, $4,525,419 in trading, and $4,246,826 to liabilities of banks, bankers, brokers and transporting concerns.

The following table shows the liabilities of all banks which have failed in the United States during the year 1893 up to December 20. Part of these are included in the preceding aggregate of failures, but about $100,000,000 of liabilities must be added to the previous total for the year in order to include all banking institutions:

This noble pile of white marble, Corinthian architecture, covering eighteen full city lots and accommodating one thousand guests, marks a place n the heart of the great City of New-York, and an era in the history of he Nation's wealth and advancement. It is located in the centre of the ity, upon the charming Madison Square and at the intersection of the two reat streets, Broadway and Fifth Avenue, and convenient to the most important points of interest in the Metropolis.

Its patrons include the names of the most prominent men and women in merica—The Presidents, hundreds of Government Officials, Senators, Conressmen, Judges, Army and Navy Officers, Divines, Physicians, Authors, nd in fact all who have attained prominence and celebrity in public and rivate life, both at home and abroad; and the most distinguished Euroeans of rank and title who have visited this country,

It has been the centre of all the great public occasions which the City as witnessed for thirty years.

Years have come and gone, new hotels have multiplied with innovations nd features introduced to affect and influence patronage, but the Fifth venue is as new and fresh as the most recent hotel construction, with ore liberal accommodations than any of them, and its well-earned repuation as the leading hotel of the world is more and more assured.

The National Farmers' Alliance and Industrial Union,

Through its Executive Committee, has decided to recommend the **MUTUAL LIFE INSURANCE COMPANY** of New-York to its members. The report, signed by every member of the Executive Committee, says:

"We do so because, after careful study and investigation, we are led to believe that the Mutual Life Insurance Company of New-York is the largest and strongest mutual life company, and paying the largest amounts in dividends of any insurance organization in the world. It has been tested in the crucible of finance for more than fifty years, and has always, so far as we can learn, treated its members with the utmost equity and generosity and been prompt in the payment of its every obligation. Being a purely mutual organization, its vast assets, amounting to more than $175,000,000, are strictly the property of the membership. It has in its membership a very large number of the most careful, prudent and far-seeing men in the nation; and being founded on lines somewhat similar to those of the Alliance, for mutual benefit, assistance and protection, we believe that our membership, by insuring therein, would have the best and safest protection for their money and leave a sure benefit to those in whose favor the insurance is made."

The Mutual Life Insurance Company of New-York, Richard A. McCurdy, President, is the largest and strongest Life Insurance Company in the world.

THE BENFIELD PATENT HUMANE NAILLESS HORSESHOE

For generations horseshoes have been of one pattern and of one material, and many valuable animals are injured every year by the use of shoes of the ordinary character and by the barbarous method still employed for fixing them. The **"HUMANE HORSE-SHOE"** is designed upon entirely new principles, and possesses such advantages that experienced men have given it their entire approval. It suits all climates and all horses. Among its most obvious advantages the following may be enumerated:

1st—It is lighter and more durable than any ordinary shoe, being made of the best softened steel instead of ordinary iron. None but the best metal will stand the process of manufacture.

2d—It can be fitted with ease to any peculiarity of foot without heating.

3d—It is fixed without nails on a system which cannot possibly injure the horse or interfere with the natural growth of the hoof, and, though easily removable, is as firm as it could be made by any nails.

4th—It is moderate in price, and from its durability really cheaper than an ordinary shoe.

5th—It may be rubber padded on a system which obviates any "jar" to the leg on the hardest roads, and gives a safe footing on the most slippery surface, whether of asphalt, frost or ice. No sharpening is required.

6th—It can be fixed by a groom if a smith is not at hand.

7th—It is made solid for agricultural work and for use on country roads.

It has been most favorably spoken of by the veterinary profession and the press; the newspapers stating that this invention will "revolutionize the shoeing of horses."

Sets mailed to any address on receipt of postal order for $3.00.

"OUR CHAUNCEY."

A brilliant, rollicking poem, by Isaac H. Bromley, the humorous editorial writer of The Tribune, handsomely and ingeniously illustrated by Dan Beard and C. D. Gibson, two great magazine artists. These forty odd pages contain as much illustrations as poems. Fine paper covers, illustrated.

"Our Chauncey" is Chauncey M. Depew, the most sparkling and delightful of American orators, whom, as a baby in his cradle, Mercury, the messenger of Jupiter, finds at Peekskill, N. Y., and whom Jupiter brings up to put to flight the old fogies who talk stupid commonplace at public banquets.

The story of "Our Chauncey" is delightfully told. The poem was read originally at a gathering of graduates of Yale College. They laughed just once during the reading, but the laugh began with the third line, and never stopped until the close.

Price, 50 cents. Postage paid, with The Weekly, one year, $1 30; with The Semi-Weekly, $2 20. Free, for one new subscriber at $1.

THE NEW-YORK TRIBUNE

For Fifty Years the Leading Defender and Expounder of Republican Doctrine.

Stand by the platform! Victory in 1894 and 1896 is now sure if the Republican party is true to itself and the welfare of the masses.

No interference with the progressive policies of the Republican party, namely, which are: Maintenance of the Common Schools, of the Pulpit; Protection to Farming, Manufactures and Labor; Freedom of Expression of the Will of the People in Elections; Saving the Public Lands for Actual Settlers; Reciprocity with Other American Nations; Use of Silver Money, and Parity of the Gold and Silver Dollar; Payment of the Public Debt; Pensions for Union Veterans; Elevation of the Colored Race; Temperance; the new Navy; Exclusion of the Chinese; Internal Improvements; and every other influence which exalts the prestige of our country and promotes the Wealth, Intelligence and Virtue of our people.

These policies—national, patriotic and sublime—The Tribune supports with all the ability it can command.

Roswell G. Horr's great articles on Finance, the Tariff, Labor and Wages, will be continued during 1894.

No matter whether you agree with the N. Y. Tribune or not in its sentiments, can you afford not to read its Dollar Weekly regularly while a reactionary party is in power and during these times of change?
